Water Distribution System Costs

Service lines - Private & Public

Average length = 60 ft. Private, 30 ft. Public

Street Cut & Restoration	=	$3,500
Copper Line (1in dia)	=	$2,800
Permit	=	$28
Inspection	=	$140
Connection Fee (parts & service)	=	$200

* Private side estimate of $1,600, if only new copper line would need to be run, however no partial service line replacement will be approved by regulatory agencies (i.e. entire line must be replaced)
* Cost is specific to residence. Not all will require a street cut and restoration. Recent average yearly cost increase around 20%.
* A majority of the public section of the service lines are lead.

Residential Water Mains

Approximately 600 miles
Cost per ft. (8 in main) = $145

Transmission Water Mains

Approximately 60 miles
Cost per ft. (24 in main) = $800

SUBJECT: ***CITY OF FLINT – WATER EMERGENCY – DAMAGE ASSESSMENT***

This memo is being drafted to give an overview of the process used to compile data for the City of Flint water emergency. There were conversations with key representatives of the City, as well as county personnel who worked diligently to supply information for this DAMAGE ASSESSMENT report.

The possibility of lead in water service lines to residences is of major concern to the City of Flint. Natasha Henderson and I met and discussed this issue and she stated the homes built up to 1986 were the homes that had the most potential for lead in service lines. Genesee County Equalization Department has the BS&A assessing software databases for all local units as supplied by them. Most often within those databases, a "year built" and / or effective age is given in order to depreciate residences for valuing purposes. I queried the City of Flint 2016 database and found what appears to be reliable "year built" estimates on 39,027 residential properties. Of those, it was narrowed to all properties that were built 1985 and prior where a year built was in the parcel. We then removed the "demo list" parcels (63) from the properties to be estimated as it was deemed those properties would not fairly represent a need to have replacement service lines. Mike Glasgow, Utilities Administrator for the City of Flint supplied documentation for the estimates to replace the private service water lines. It was determined that 60 feet would be a fair average for lineal feet and a one (1) inch service line would also be an average. The city had replaced some lines at a cost of approximately $1,600.

Upon discussion it was decided to use the cost of $25 per lineal foot to replace the service line and this would give a total cost estimate of $1,500 per 60 lineal feet. The grid shows all parcels calculated as such.
35,378 parcels are listed in the excel file:
RESIDENCES BUILT 1985 AND PRIOR with DEMO LISTINGS 01-7-16 -FINAL REPORT.xlsx
This file was mapped by Ken Koleda, Genesee County GIS Director.

A request was made to supply information for business and non-profit properties on the Flint City water line. Data was supplied by Derek Bradshaw, Director, Genesee County Metropolitan Planning Commission. This information identifies the location, business name and type of business. There are many instances on the spreadsheet where the location is repeated and this is due to multi-tenant office buildings, etc. At this point in time I chose to leave all of the information on the spreadsheets. The cost estimates used for this file is the same as was used for the residential properties.
896 Flint City businesses plus 40 Franchise Customer businesses in the excel file:
BUSINESS AND NON PROFIT FLINT AND FRANCHISE LISTINGS 01-7-16 FINAL.xlsx

"Franchise Customers" was another topic that needed to be addressed. These customers reside outside of the City of Flint, however, are water customers of the City of Flint and are impacted by the lead issue as well. There are four local units of government that have Flint City Water customers. This information was supplied by Mike Glasgow, Utilities Administrator for the City of Flint via pdf files from GENESEE COUNTY DRAIN COMMISSIONER**.** The four units are Flint Township, Genesee Township, Mt. Morris Township and City of Burton. The same style grid and cost estimates were used for each of these.
The residential properties are stratified by unit of government are found in the excel file:
FRANCHISE CUSTOMERS-RESIDENCES BUILT 1985 AND PRIOR 01-07-16 FINAL.xlsx

The **PUBLIC** information for water mains and water transmission lines was supplied by Mike Glasgow. The information is shown in the excel file:
PUBLIC - FLINT CITY WATER MAIN ESTIMATES 01-07-16 FINAL.xlsx
I added Mike's name and contact information to the worksheet he supplied as documentation and it is found in the excel file:
FLINT CITY Water Distribution System Cost (EOC) -Mike Glasgow 01-06-16.xlsx

I am hopeful this material will provide you with information that will be helpful to you as you move forward in this emergency.

Sent: Saturday, January 23, 2016 8:34 PM
To: Wiebesick, Chad (MEDC)
Cc: Leix, Ron (MSP); Brown, Melanie (DEQ); Guerrant, Emily (MEDC); Kathleen Achtenberg (MEDC); Provenzano, Frank (MEDC); Eisner, Jennifer (DHHS); Holland, Meegan (GOV)
Subject: Re: Today's TV and radio coverage of Flint Water Emergency

Hi Chad,

This is great; thank you so much! Rather than sending the report to Ron and me directly, I would like it to go to JICManager@michigan.gov so whoever is the JIC manager for the day will have access to it.

That will also free up one more email address so I was thinking you could add Jen Eisner at MDHHS and Meegan Holland.

Thanks again,
Shanon

To: Holland, Meegan (GOV)
Cc: Banner, Shanon (MSP); Zarotney, Greg (MSP); Leix, Ron (MSP); Buhs, Caleb (DTMB)
Subject: Re: EPA response public data

George can provide #9

But someone from Ops would have to speak to #8

Thanks
Mel

Subject: RE: EPA response public data

Yep, I've given a heads up to the web guy. And Mel, I talked to DEQ's Mitch Adelman in the SEOC today and gave him a heads up that the Governor wants these daily numbers:

8. # of Water testing kits distributed (Each day and to date)
9. # of water testing kits returned/sampled (each day and to date)

I need to gather this info every night - I'm hoping George can supply those by, say, 6 p.m.? Mitch said it would probably be useful to have them at the SEOC as well.

- Meegan

Leix, Ron (MSP)

From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Saturday, January 23, 2016 4:06 PM
To: Leix, Ron (MSP)
Subject: Saturday Jan. 23 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | SATURDAY, JANUARY 23, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

WATER RESOURCES
Yesterday, it was announced that over 37,697 home visits have been made in Flint by water resource teams. Today, there are about 55 teams made up of National Guard, state and local volunteers going to door-to-door to continue to ensure residents have bottled water and water filters for ongoing access to clean and safe drinking water.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 121,400 cases of water
- More than 82,600 water filters
- More than 23,400 water testing kits

DEQ SUSPENSIONS
As a result of the pending questions regarding employee actions related to water testing in Flint, action was taken Friday against two Michigan Department of Environmental Quality employees. Both employees have been suspended pending an investigation, in accordance with Civil Service rules.
Click here for the Detroit Free Press article on this announcement.

CITY OF FLINT
On Friday, State Treasurer Nick Khouri approved the Receivership Transition Advisory Board's recommendation that additional executive powers be returned to the mayor of Flint. Governor Snyder stated, "Last week, I agreed with Flint Mayor Karen Weaver's request for the powers and authority vested in the city administrator to be transferred to the mayor, and I support the RTAB's decision today to return additional executive powers to Mayor Weaver during this critically important time. This is a positive step forward for the city of Flint." For more on the transfer, click here for the Detroit News story.

FLINT WATER TASK FORCE
The Flint Water Task Force released their second letter to the governor yesterday. Governor Snyder welcomes the recommendations from the task force and looks forward to their full report. To read more about their most recent letter, click here for the MLive story.

FEDS DENY APPEAL FOR DISASTER DECLARATION
President Obama denied the state's appeal for a disaster declaration to aid Flint, but the state of Michigan will seek more money under the emergency declaration. For more on the appeal and denial click here for the Detroit News story.

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.

Subject: SEOC Update 1/22/16 - Flint Water - Limited Distribution
Attachments: SitRep17.pdf; HHS PPP.PPTX

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.

- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B

and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

  - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams – Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed

- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852

d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:

a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.

- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs

- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- *I will be back on duty Sunday.*
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. *This is from the data we received prior to the SEOC activation plus the PODs and door to door* operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY -- LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. *Distributed:*
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.

- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- *Current timeline:*
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - *Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for* final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- *Working with Comcast so they can put teams in the field for distribution.*
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.

- *5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.*

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)

- Ordered on 1/12/16 to arrive Wednesday
  - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR Vertical faucet mount
    - 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - *6601 unassembled kits arrived at GCCARD today, 1/12/16.*
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- *Second warehouse – Located in Flint*
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:

- 217 Door Hangers
- 152 Vacant Homes
- 117 Water Distributions
- 112 Filters
- 3 Pitchers
- 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- *SitRep 6*

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note
- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***

- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal ***= self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

- 2500 Lead Testing Kits

- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in *place by 10:00 am tomorrow morning.*

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- *The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion* of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- *Today's SitRep which contains more information than below.*
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.

- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**

        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- *Reviewed planned actions, prepared final draft Incident Action Plan*
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area

    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

37,697 Home Visits To Date by Water Resource Teams

FOR IMMEDIATE RELEASE
January 22, 2016

For more information contact:
Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 14

FLINT, Mich. – Over 30 water response teams made up of more than 300 community volunteers and Michigan National Guard Soldiers and Airmen distributed water resources to 5,920 Flint homes today. Many of today's visits are the second time a team contacted the resident to provide bottled water, filters, water replacement cartridges and water testing kits.

"We are very appreciative of the generous outpouring of support for Flint's residents," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Volunteers continue to support this effort with their time, talents, and treasure."

This weekend, door-to-door efforts will continue with the National Guard and more than 200 volunteers coordinated by the Community Volunteer Reception Center. As a reminder, all community volunteers on the water response teams will be wearing either official State of Michigan or Red Cross identification.

As part of the distribution process, members of the National Guard at the water resource sites are asking residents seeking filters and replacement cartridges to share their address in order to more accurately gather

information for long-term recovery efforts. However, no resident will be denied resources if an address is not provided.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 121,400 cases of water
- More than 82,600 water filters
- More than 23,400 water testing kits

This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 130,782 cases of water
- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

Release #: 14

FLINT, Mich. – Over 30 water response teams made up of more than 300 community volunteers and Michigan National Guard Soldiers and Airmen distributed water resources to 5,920 Flint homes today. Many of today's visits are the second time a team contacted the resident to provide bottled water, filters, water replacement cartridges and water testing kits.

"We are very appreciative of the generous outpouring of support for Flint's residents," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Volunteers continue to support this effort with their time, talents, and treasure."

This weekend, door-to-door efforts will continue with the National Guard and more than 200 volunteers coordinated by the Community Volunteer Reception Center. As a reminder, all community volunteers on the water response teams will be wearing either official State of Michigan or Red Cross identification.

As part of the distribution process, members of the National Guard at the water resource sites are asking residents seeking filters and replacement cartridges to share their address in order to more accurately gather

information for long-term recovery efforts. However, no resident will be denied resources if an address is not provided.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 121,400 cases of water
- More than 82,600 water filters
- More than 23,400 water testing kits

This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 130,782 cases of water
- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Release #: 14

FLINT, Mich. – Over 30 water response teams made up of more than 300 community volunteers and Michigan National Guard Soldiers and Airmen distributed water resources to 5,920 Flint homes today. Many of today's visits are the second time a team contacted the resident to provide bottled water, filters, water replacement cartridges and water testing kits.

"We are very appreciative of the generous outpouring of support for Flint's residents," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Volunteers continue to support this effort with their time, talents, and treasure."

This weekend, door-to-door efforts will continue with the National Guard and more than 200 volunteers coordinated by the Community Volunteer Reception Center. As a reminder, all community volunteers on the water response teams will be wearing either official State of Michigan or Red Cross identification.

FOR IMMEDIATE RELEASE
Friday, January 22, 2016

EDITOR'S NOTE: Please find attached two letters sent from FEMA to Gov. Snyder.

Gov. Rick Snyder: Michigan to seek additional federal aid to help Flint residents despite rejected appeal

State will seek resources through two programs under emergency declaration

LANSING, Mich. – Gov. Rick Snyder today issued the following statement after President Obama denied his appeal for a federal disaster declaration to aid Flint.

However, Snyder said that he will request that Obama reconsider awarding funds under two programs allowed under the emergency declaration: The Individuals and Households Program, which provides such things as housing assistance and replacement of personal property; and money for emergency protective measures.

"I want to continue working to obtain additional federal resources for the people of Flint. These programs could help immensely as we work together on continued solutions to problems created by a failure of government at the state, local and federal levels. Just as our state Legislature is working to quickly approve funding for increased clean water resources and improved public health care in Flint, we are hoping for continued support from the federal government and Michigan's

Congressional delegation."

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Delante,

Below is the statement I was given from our Legal Dept. Please let me know if it will suffice.

I have also attached a document we gave to customers that were affected immediately after the recall happened. That being said, Home Depot was not affected as you buy purified drinking water, not spring.

"Niagara bottled water being sold and distributed in Flint, MI and throughout the country is safe to drink. Niagara issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from **June 10-18th, 2015**. As of **September 7, 2015** Niagara found no contamination of any kind in their finished products or in the spring water that was delivered to their bottling facility. For additional information, please visit http://www.niagarawater.com/consumer-notice/ or contact Niagara's Consumer Affairs Department at (888) 943-4894."

Thank you,

Michael Wright l Sales Development Manager l **Niagara Bottling** l 2560 E. Philadelphia St l Ontario, CA 91761 USA l Direct 909-230-6539 | | mwright@niagarawater.com

Subject: Friday Jan. 22 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | FRIDAY, JANUARY 22, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Governor Rick Snyder sat down to discuss the Flint water crisis with Morning Joe. The Governor assured the people of Flint that he will fix this problem, saying, "What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem."

Click here to watch the full interview with Morning Joe.

In USA Today, the Governor repeated his commitment to fixing the problem in Flint. He also listed some of the immediate actions being done to improve the situation. **To read his full op-ed, click here.**

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To volunteer or donate: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

No ID Required For Flint Residents To Receive Free Water Resources

FOR IMMEDIATE RELEASE
January 22, 2016

For more information contact:
Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 13

FLINT, Mich. – Flint residents are encouraged to visit five water resource sites across the city, where they can receive free bottled water, filters, water replacement cartridges and water testing kits.

Identification is not required to receive any of these resources.

The state's goal is to get a water filter in every household, because filters are the best way to provide access to safe drinking water. As part of the distribution process, members of the National Guard at the water resource sites ask residents seeking filters and replacement cartridges to share their address in order to more accurately gather information for long-term recovery efforts. No resident will be denied resources if an address is not provided.

Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8

202 East Atherton Road
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Action taken against DEQ officials involved in Flint water testing

LANSING, Mich. – As a result of the pending questions regarding employee actions related to water testing in Flint, action was taken today against two Michigan Department of Environmental Quality employees, Gov. Rick Snyder said.

"Michiganders need to be able to depend on state government to do what's best for them and in the case of the DEQ that means ensuring their drinking water is safe," Snyder said. "Some DEQ actions lacked common sense and that resulted in this terrible tragedy in Flint. I look forward to the results of the investigation to ensure these mistakes don't happen again."

Both employees have been suspended pending an investigation, in accordance with Civil Service rules.

Meegan,
All Fire Stations are asking for ID or alternate proof of residence for data logging purposes only. If a person does not have either form we have been asking them to report their address...again for data logging. I have 4 out of my 5 PODs giving filters regardless of proof. I did have one station (Firestation 5) report that they have turned away a (approx. 20-30/day) people for not producing proof of residence and we have since clarified the process to them to still distribute regardless. We have also had folks claiming to be landlords asking for several filters without proof of residence and we are not giving them filters, but asking them to have the tenants/residents come in and get their own filter. In the case where a landlord or person is asking on behalf of an elderly person or someone confined to their home, again we want them to provide proof of that person they are representing before we give them one.

If this is not the intent, please clarify guidance to the SEOC so that we can receive a formal tasking guidance as to how to proceed. Let me know if you need any more information. Thanks!

v/r

Ahhh, here's where the rumor is coming from. See this video: On Twitter: Caution-https://twitter.com/nayyirahshariff

I can understand the confusion: At first I think we were asking for IDs, so I don't want to blame this National Guardsman.

Subject: [Non-DoD Source] Question from the JIC / Flint water

Maj. Cannon,

Capt. Brolsma suggested I contact you to find out if people are being asked for ID or Flint water bills at the fire stations. A media outlet has heard that we're turning away immigrants (presumably because they don't have ID). I'm hearing that we don't ask for ID - we are giving out water to those who need it, and only document addresses if the person asks for a water filter so we can ensure every household has a filter.

I also left you a voicemail. Can you call or email me on whether people are being asked for ID or a water bill before getting resources? And if they want a filter, and have no way to show an address, are we denying them a filter?

Thank you.

517-335-6397

FOR IMMEDIATE RELEASE
Friday, January 22, 2016

Gov. Rick Snyder welcomes recommendations from Flint Water Task Force to re-establish safe drinking water

Expert panel also calls for outside assistance to study Legionella outbreak

LANSING, Mich. – Gov. Rick Snyder today said he welcomes the Flint Water Task Force's recommendations on methods to re-establish a reliable, safe water distribution system in Flint and efforts to determine the cause of an outbreak of Legionella in Genesee County.

The task force, an independent, bipartisan panel of experts, is reviewing all state, local and federal government actions in connection to the Flint water crisis and is charged with making long-term recommendations to protect the health and safety of Flint residents.

"I appreciate the task force's thoughtful work on these important issues, and we'll move quickly as possible to determine the best way to achieve the results," Snyder said. "The Flint water crisis is the result of missteps of government at all levels – city, state and federal. We're focused on fixing the problems and making sure nothing like this happens again in Flint or any other Michigan city."

Snyder has declared an emergency in Flint. He also has activated the National Guard to make sure city residents have access to bottled water, water filters, replacement cartridges and testing kits. More than 30,000 homes in the city have been contacted.

Directors of the state Department of Environmental Quality and Health and Human Services are committed to carrying

out the task force's recommendations addressing health concerns and water quality.

The administration has already started on some of the recommendations, including reaching out to the U.S. Environmental Protection Agency to ask for the assistance of three experts versed in the Lead and Copper Rule.

Snyder in October appointed the task force. Members are Ken Sikkema, a senior policy fellow at Public Sector Consultants; **Chris Kolb,** president of the Michigan Environmental Council; Dr. **Matthew Davis**, professor of pediatrics and internal medicine at the University of Michigan Health System; **Eric Rothstein,** a national water issues consultant and principal at the Galardi Rothstein Group; and Dr. **Lawrence Reynolds,** a pediatrician in Flint who serves as president of the Mott Children's Health Center.

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

FOR IMMEDIATE RELEASE
January 22, 2016

Gov. Rick Snyder: This is a positive step forward for the city of Flint

RTAB, state treasurer approves additional powers for Flint's mayor

LANSING, Mich. – Gov. Rick Snyder today offered the following statement of support after State Treasurer Nick Khouri approved the Receivership Transition Advisory Board's recommendation that additional executive powers be returned to the mayor of Flint.

"Last week, I agreed with Flint Mayor Karen Weaver's request for the powers and authority vested in the city administrator to be transferred to the mayor, and I support the RTAB's decision today to return additional executive powers to Mayor Weaver during this critically important time. This is a positive step forward for the city of Flint.

"Mayor Weaver will now have the authority to appoint the city administrator and all department heads. Today's action is the next step in transitioning to full, local control in Flint."

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. Subject: Today's TV and radio coverage of Flint Water Emergency

Shanon – Our staff at MEDC configured an automated daily report from TV Eyes, a broadcast monitoring service that scans **local, state, national and (some) international TV and radio broadcasts** for daily mentions of the Flint water emergency.

As you can see below, there are more than 100 TV and radio news stories from just today across the US, Australia and the UK, including CNN, CBS national news, and more.

We can add **ONE MORE** email recipient to get this automated report that is sent daily at 3 pm. (MEDC only has a license for up to 10 people, and there are already have 9 users).

Whom at the JIC or elsewhere would you like to get this email, if you think it would be of use?

Any Flint resident can get water supplies at fire stations without ID. To get filters, we prefer to have an address for *mapping purposes.*

We will not turn away anyone who needs water. For filter requests, we ask for address but don't require one.

ID not required for water supplies at fire stations. You'll be asked for an address, but you don't have to provide it.

GONGWER Michigan
The Capitol Record Since 1906

Friday, January 22, 2016, 02:01 PM

Task Force Makes Suggestions On Flint Water, Legionnaires' Outbreak

The Flint Water Advisory Task Force has released a letter to Governor Rick Snyder advising him of its recommendations on steps to re-establish a reliable potable water distribution system in Flint and actions necessary to determine the cause of the outbreak of Legionnaires' disease in the city and Genesee County.

The Task Force, which Mr. Snyder created, recommended the state request the federal Centers for Disease Control and Prevention for assistance in assessing the outbreak of legionella, as current evaluations suggest but do not establish, the group said in a statement, a link between the outbreak and the switch in drinking water supply.

"To help address both the technical issues facing Flint, as well as the public trusts issues, we believe it is imperative to have the right people and organizations involved," Co-Chair Chris Kolb said in a statement. "Until the public trust starts to build this crisis will continue."

By and large, the Task Force is recommending bringing in U.S. Environmental Protection Agency staff experts – specifically Miguel del Toral, Darren Lytle and Michael Shock – and other experts generally to guide implementation of a comprehensive Lead Copper Rule sampling program in the city to monitor lead levels.

It also suggested an inter-disciplinary work group with subject matter experts – including Marc Edwards, the Virginia Tech professor who has been detailing and researching the water crisis far longer than it has been in the mainstream media – to oversee the conversion to Karegnondi Water Authority-supplied water.

And a third-party contractor should be hired to determine when it is in fact safe to drink the water in Flint, the Task Force said.

As to the Legionnaires' outbreak, the state Department of Health and Human Services, working with the CDC, should develop a strategy for improving prevention, rapid detection and timely treatment of cases of Legionellosis in 2016 and beyond, the task force said.

Gongwer News Service will have more on this story in Friday's Michigan Report.

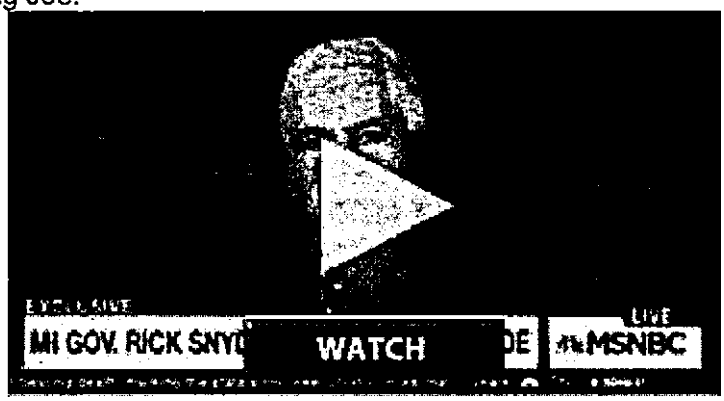
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



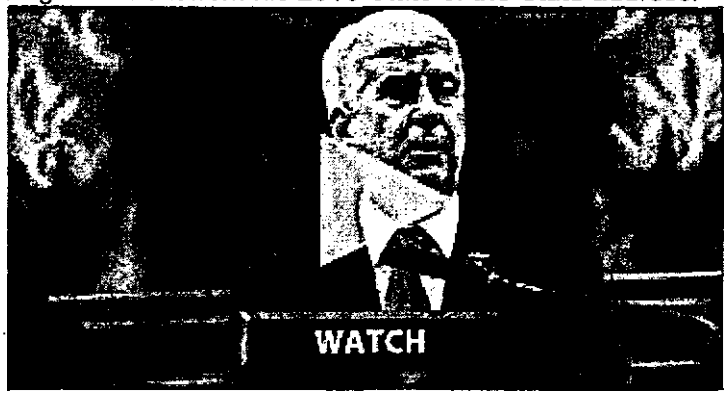
Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**

GOVERNOR'S ACTIVITIES

Flint interview/Op Ed
Governor goes on Morning Joe to discuss Flint (MSNBC)

Gov. Snyder: I will fix this, and I mean it (USA Today)
Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures.

Flint water
Flint water crisis: EPA regional administrator resigns (CNN)
The Environmental Protection Agency's regional administrator for Flint, Michigan, has resigned, the agency said in a statement Thursday.

Top EPA official resigns over Flint's toxic water crisis (Fox News)
The Environmental Protection Agency's top Midwest official is resigning over the Flint water crisis, the agency announced Thursday, amid criticism over the agency's alleged inaction in preventing the city's water from being contaminated with lead.

EPA regional chief resigns in connection with Flint crisis (AP)
A regional director of the U.S. Environmental Protection Agency resigned Thursday in connection with the drinking water crisis in Flint, Michigan, and EPA chief Gina McCarthy issued an emergency order directing state and city officials to take actions to protect public health.

Snyder hasn't been invited to testify before Congress (Detroit News)
Gov. Rick Snyder has not been invited to testify before Congress on Flint's lead-contamination water crisis, his spokesman said Thursday. U.S. Rep. Brenda Lawrence's office suggested Thursday in a published report that Snyder

would be called to testify before the U.S. House Committee on Oversight and Government Reform about the water contamination crisis in Flint that is consuming Snyder's administration.

Congress to invite Gov. Rick Snyder to testify on Flint water crisis (Macomb Daily)
A U.S. House committee is expected to hold a hearing on the Flint water crisis Feb. 3, and will invite Michigan Governor Rick Snyder to testify before Congress. WDIV reports Rep. Brenda Lawrence formally requested the hearing last week. Snyder apologized to Michigan and Flint during his State of the State address Tuesday, telling Flint residents, "I let you down." Promising greater transparency, Snyder released 274 pages of emails pertinent to the Flint water crisis.

Gov. Snyder not yet called to testify before Congress, office says (Mlive)
Congress has not contacted Gov. Rick Snyder to testify about the Flint water crisis, a spokesman for the governor's office said Thursday, Jan. 21. Commenting on a Freep.com report initially indicating Snyder was expected to be called to testify before congress, press secretary Dave Murray said on Jan. 21 the governor's office "received no communication from the Oversight and Government Reform Committee regarding a possible hearing and look forward to hearing from its leaders."

Governor Rick Snyder will be asked to testify before Congress in Flint water crisis (WXYZ)
Governor Rick Snyder will be requested to testify at U.S. Congressional hearings in connection to the Flint water crisis, according to the office for U.S. Representative Brenda Lawrence.

Snyder could be asked to testify before Congress on Flint (Freep)
U.S. Rep. Brenda Lawrence's office said Tuesday that she and her staff have received word a U.S. House committee will hold a hearing Wednesday, Feb. 3, on the Flint water crisis and the state and federal government response to high lead levels there, but committee staff declined to confirm the report, calling it "premature."

Michigan governor invited to congressional hearing on Flint water crisis (Reuters)
Congresswoman Brenda Lawrence has invited Michigan Governor Rick Snyder and other officials to testify about the Flint water crisis before the House Oversight and Government Reform Committee on Feb. 3, her office said on Thursday.

Flint Water Crisis Update: Congress Expected To Call On Snyder To Testify (International Business Times)
A U.S. House committee is expected to hold a hearing Feb. 3 regarding Flint, Michigan's ongoing water crisis and the state and local governments' response to it, U.S. Rep. Brenda Lawrence's office said Thursday, the Detroit Free Press reported. Among those expected to be invited to testify before the House Oversight and Government Reform Committee is Michigan Gov. Rick Snyder.

Snyder lays blame for Flint on DEQ employees (Detroit News)
Gov. Rick Snyder on Friday continued to lay blame at the feet of state Department of Environmental Quality employees for failing to require Flint to add corrosion control chemicals to its river water that could have prevented lead from leaching into the drinking water supply.

Michigan Officials Dismissed Flint Water Concerns As Crisis Deepened (Fortune)
Michigan governor Rick Snyder's administration downplayed concerns about problems with Flint's water in internal e-mails, criticizing advocates for Flint as playing "political football."

Michigan government passed the blame on Flint water crisis for months with little action, emails show (Fox News)
The Environmental Protection Agency's top Midwest official is resigning over the Flint water crisis, the agency announced Thursday, amid criticism over the agency's alleged inaction in preventing the city's water from being contaminated with lead.

E-Mails Show Snyder Knew About Flint Water in September (Michigan Radio)
Governor Rick Snyder has released 274 pages of personal electronic communications going back two years related to the Flint water crisis. The messages detail communications between Governor Snyder and top aides on the Flint water crisis. The governor says he released the e-mails so the public could determine what he knew and when. There were no big surprises.

State Lawmaker Says Governor Snyder Did Not Release All Emails (WILX-TV)
Growing concerns this morning that Governor Rick Snyder did *not* release all of his e-mails regarding the Flint water crisis. A state lawmaker claims he has proof.

Hacker group 'Anonymous' threatens leaders connected to Flint water crisis (WDIV)
In a video posted this week online, the hacker group "Anonymous" is threatening leaders connected to the Flint water crisis. The video runs more than four minutes and promises action for the lead-tainted water situation that has a significant spike in lead poisoning cases and a shortage of fresh water in the city.

Hacktivist group 'Anonymous' goes after Governor Snyder in Flint water crisis video (Fox 17)
A faction of the hacktivist group 'Anonymous' has posted a video on YouTube, urging action on the Flint water crisis.

Hacker group Anonymous starts Flint campaign, posts say (Freep)
The activist hacker group Anonymous has launched a Flint operation and is calling for Gov. Rick Snyder to be charged with "voluntary or involuntary manslaughter," according to postings on the Internet and social media. A video purportedly from Anonymous was posted Wednesday on the website of IntelGroup, which is described as a faction that supports Anonymous.

Bill signing
TC Airport Reacts to Gov Snyder's Signing of Aviation Funding Bill (9&10 News)
Some changes for Michigan airports today as Governor Snyder signed new funding legislation. The aviation funding bill ensures that the aviation fuel tax is used for aviation purposes. The bill has been a long time coming according to Cherry Capital Airport director Kevin Klein.

FLINT

See where water resources are going in Flint (Mlive)
Teams that went door-to-door Wednesday included 95 Michigan National Guard soldiers and airmen. That number is expected to nearly double to 180 National Guard service members today, and they will go door-to-door with city, county and state personnel and American Red Cross volunteers, according to the release.

Survey: Big support for state control of Belle Isle (Detroit News)
The first public survey about Belle Isle since the state took control of the Detroit jewel two years ago found strong support for the state running the show.

Visitors give Belle Isle high scores (Crain's)
Most visitors rate their experiences on Belle Isle as bellissimo, according to a survey by the Michigan Department of Natural Resources.

Senate committee approves amendment on bill to delist wolves in four states (Outdoor Hub)
On Wednesday the US Senate Environment and Public Works Committee approved an amendment on the Bipartisan Sportsmen's Act of 2016 that would remove federal protections from gray wolves in Wyoming, Wisconsin, Michigan, and Minnesota. Wolves in these states were only recently returned to the Endangered Species List—and the protections afforded within—after a decision by a federal court in late 2014. Since then, the protected status of the species has been a controversial issue in the four states.

Senate bill to remove wolves off endangered species list moves through committee (UP Matters)
A bill that would take the gray wolf off the endangered species list was approved by a senate committee Thursday.

Michigan agency offers grants to improve UP deer habitat (AP)
Sporting clubs and other interested groups have until March 1 to apply for state funding to improve deer habitat in the Upper Peninsula.

DTMB
Michigan jobless rate in 2015 down from 2014 (WSJM)
The jobless rate in Michigan for 2015 was 5.4 percent, nearly two percentage points below 2014. State officials say the number of unemployed workers in 2015 declined by 60,000 jobs when compared to 2014.

The state says it's wrapping up a door-to-door canvass of the city of Flint that's part of the response to the city's drinking water crisis.

Northern Michigan slow to offer human trafficking training, lacks variety of resources (Gaylord Herald Times)
Have you noticed someone who shows signs of physical and or sexual abuse, physical restraint, someone who is unpaid, fearful, depressed, submissive, tense, nervous and paranoid?

LEGISLATIVE NEWS

Inside Michigan state representative's attempt to cover-up secret affairs with fake sex scandal (ABC News)
A salacious, accusatory email and a covertly-obtained audio recording on a cell phone resulted in the downfall of two Michigan State Reps. Todd Courser and Cindy Gamrat, elected into the Michigan House of Representatives in November 2014, ultimately lost their seats and subsequent re-election campaigns due to their romantic extramarital affair and attempted cover-up.

Michigan lawmakers play catch-up in Flint water crisis (NPR)
It's been a tough week for lawmakers in Michigan. On Tuesday, Gov. Rick Snyder apologized to Flint residents about the water contamination scandal. Then the next day, the governor's office released hundreds of pages of emails detailing its handling of the growing problem.

Michigan: Lawmakers try to toughen strike laws (NYT)
Angered by teacher sickouts that have closed many Detroit schools, majority Republicans in Michigan's Legislature on Thursday proposed legislation to make it easier to deem such work stoppages illegal strikes. The move came a day after a sickout by teachers protesting dilapidated buildings and understaffing shut down more than 85 of the district's roughly 100 schools. Teacher strikes are illegal in Michigan.

Stronger standards needed as renewable prices decline, advocates say (Midwest Energy news)
Declining renewable energy prices do not mean Michigan lawmakers should abandon proposals to expand standards for how much clean energy should comprise the state's energy mix, advocates say.

Lawmakers hold meeting about state's M-STEP test (FOX 47)
State lawmakers have a lot of questions about Michigan's new standardized test for school kids. Specifically, why its taking so long to get results.

DETROIT

Judge refuses to order Detroit teachers to halt sickouts (CNN)
Detroit public school teachers can keep staging sickouts -- at least for the time being, a judge ruled Thursday.

Lawmakers propose bills after sick-outs shut Detroit schools (ABC News)
Angered by teacher sick-outs that have caused many Detroit school closures, majority Republicans in Michigan's Legislature on Thursday proposed — and promised to quickly pass — legislation to make it easier to deem such work stoppages illegal strikes.

Detroit and Flint, sister cities in misery (MSNBC)
Black children in Flint are being poisoned in their homes by toxic drinking water. Black children in Detroit are being poisoned in their public schools by mold spores in the air and fecal matter on the floors.

Smart, DDOT eye expanded lines between Detroit, suburbs (Detroit News)
A joint venture between SMART and DDOT to offer expanded bus service up the Woodward and Gratiot corridors was presented to regional transit officials Thursday, a major first step toward improving coordination and connecting Detroit and the suburbs.

Detroit prepares for increase in water main breaks (Detroit News)
The Detroit Water & Sewerage Department is preparing for an increase in water main breaks with freezing winter temperatures, officials said Thursday.

In fight against Detroit unemployment, study finds "there is no silver bullet" (Michigan Radio)
A new study finds there are many challenges to Detroit residents accessing job opportunities.

Survey: Big support for state control of Belle Isle (Detroit News)
The first public survey about Belle Isle since the state took control of the Detroit jewel two years ago found strong support for the state running the show.

OPINION

Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman (Washington Post)
It seems like every day, there's more bad news for Michigan Gov. Rick Snyder (R) and the local, state and federal officials in charge as the Flint water crisis worsened.

Editorial: Detroit lawmakers should back DPS (Detroit News)
With widespread teacher sickouts, buildings in poor condition and a district quickly going broke, Detroit Mayor Mike Duggan has started warming to the governor's plan to overhaul the finances and governance of Detroit Public Schools. His backing should help sway Detroit lawmakers, and that could speed the process in Lansing.

Lennox: Gov. Snyder not to blame in Flint crisis (Detroit News)
The real culprit behind the Flint water crisis is Genesee County's drain commissioner.

In Snyder's Lansing, information flows slowly (Detroit Free Press)
Watching your governor squirm in his seat is a singular experience.

Snyder sincere on Flint, but core problems remain (Detroit Free Press)
The governor's apology to Flint during the State of the State address seemed to be sincere. But he has found himself in this fix because of basic conservative Republican values. Values that put more weight on profits rather than people. Values that support people of wealth not having to pay much in the way of taxes.

Did Snyder release all Flint e-mails? Maybe not (Detroit Free Press)

A state legislator and former Flint City Council member charged Thursday that Gov. Rick Snyder has misled the public by not releasing all of the e-mails about the Flint water crisis, including one the representative sent a year ago saying that "the city of Flint stands on the precipice of civil unrest" over not having clean drinking water.

Howes: MI 'comeback' endangered by Flint, DPS crises (Detroit News)
The price of incompetence can be high. Even as President Barack Obama came to town this week to tout the auto revival and its upside push to Detroit's revitalization, the two biggest crises of Gov. Rick Snyder's tenure threaten to reshape the "new Detroit" inside the Michigan "comeback state" narrative.

WXYZ Editorial: Fixing Flint water - Governor Snyder's actions will speak louder than words! (WXYZ)
A lot of promises have been made. Now, let's make sure those promises are kept! In his recent State of the State Address, Michigan Governor Rick Snyder devoted much of his speech to the man-made water crisis in Flint.

Editorial: Cooperate for Flint's future (Detroit News)
The moment has come for everyone to stop shouting and pull together to help the people of Flint. The water crisis demands a concentrated and cooperative effort from all who profess to care about the city and its residents. Angry protests and mass demonstrations served the purpose of putting pressure on the Snyder administration to act with urgency.

Depraved Indifference Toward Flint (New York Times)
The 274 pages of emails released under pressure on Wednesday by Gov. Rick Snyder of Michigan show a cynical and callous indifference to the plight of the mostly black, poverty-stricken residents of Flint, who have gone for more than a year with poisoned tap water that is unsafe to drink or bathe in. There is little doubt that an affluent, predominantly white community — say Grosse Pointe or Bloomfield Hills — would never face such a public health catastrophe, and if it had, the state government would have rushed in to help.

How officials failed Flint: Our view (USA Today)
A year before lead-contaminated water in Flint, Mich., became a national scandal, General Motors provided what should have been an unmistakable warning of a disaster in the making. GM's Flint plant sought permission to switch to a different water supplier after finding rust on newly machined parts.

Water Response Teams Continue Door-to-Door Canvass in Flint

FOR IMMEDIATE RELEASE
January 21, 2016

For more information contact:
Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 12

FLINT, Mich. – By the end of the day today, water response teams had canvassed all areas of the city providing Flint residents with free bottled water, filters, water replacement cartridges and water testing kits.

To date, 30,770 homes in the city of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies. Water response teams are composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen.

"While we have visited every part of the city, we know we have not yet reached every home, so our work is not done," stated Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Water response teams will continue door-to-door visits until we are sure every Flint resident has the safe water resources they need."

As part of the distribution process, members of the water response teams ask a series of questions, such as what type of filter they have and whether the resident needs assistance installing a water filter. The questions help in ensuring the team is distributing an accurate amount of supplies and also allows for the collection of

information necessary for long-term recovery. While answering the questions is beneficial to operational efficiency, the questions are voluntary and residents will still receive water resources if they refuse to answer questions.

As previously announced, all members of water response teams wear official credentialed badges with a State of Michigan seal hologram so they can be easily identified. At no time will they enter a resident's home or request payment for services or supplies.

To date, the following resources have been distributed at the water resource sites and by water response teams:

- More than 105,091 cases of water
- More than 79,571 water filters
- More than 21,625 water testing kits

Since January 5, the State of Michigan has purchased the following resources:

- 124,398 cases of water
- 115,700 water filters
- 61,161 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505
Fire Station #8
202 East Atherton Road
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

FOR PLANNING PURPOSES: Thursday, January 21, 2016

Contact: Ken McClure, The Kroger Co. of Michigan, 248-536-1519
Sheila Burkhardt, Michigan Milk Producers Association, 248-474-6672, ext. 208

NEWS ADVISORY: Michigan Milk Producers, Kroger to deliver 12,000 gallons of milk to help Flint families

FLINT, Mich.— **Tomorrow,** Friday, January 22, the **Michigan Milk Producers Association** and **The Kroger Co. of Michigan,** in cooperation with the **Pediatric Public Health Initiative,** will deliver 12,000 gallons of milk to the **Food Bank of Eastern Michigan** for distribution to families impacted by the Flint water crisis.

Foods rich in calcium, iron, and vitamin C, including calcium-rich dairy products, can help protect children and families from the harmful effects of lead poisoning.

Please note that this media event is the delivery of milk to the Food Bank – the Food Bank will be distributing the milk in the coming days to ensure that it reaches families impacted by the Flint water crisis. The Food Bank will not be issuing milk directly to the public from their warehouse. Milk will be delivered to partner agencies in Flint and available at those locations.

WHAT: **Delivery of Michigan milk to the Food Bank of Eastern Michigan**

WHEN: **Friday, January 22, 2016**
2:00 p.m.

WHO: **Ken Nobis, Michigan Milk Producers Association**
Ken McClure, The Kroger Co. of Michigan
Bill Kerr, President, Food Bank of Eastern Michigan
Jeff Dwyer, Michigan State University Extension
Dr. Mona Hanna-Attisha, MD, MPH, Pediatric Public Health Initiative,

Hurley Children's Hospital and Michigan State University

WHERE: **Food Bank of Eastern Michigan**
2312 Lapeer Rd
Flint, MI 48503

Hi Trevor --

Mel had another edit: removing to references to lead poisoning in the black boxes and changing to high blood-lead levels.

Can you make that change? With that, it can go to the Gov's team for approval.

Thank you,

Jennifer

Nicole,

Forgot to touch bases with you about this again before I left.

The changes from Mel that I mentioned to you earlier were removing to references to lead poisoning in the black boxes and changing to high blood-lead levels.

Once Trevor or someone else makes that change, the fact sheet needs to go to Gov's office for review/approval.

Thanks,
Bob

Subject: RE: FAQ/Fact Sheet

Hi Trevor,

A couple of fixes are still needed:

In the general information section, 2-1-1 needs to be hyphenated in the sub-bullet that says "Call 211 to find out where you can pick up a free water filter."

2-1-1 also needs to be hyphenated in the "Lead in Blood" black box in the third bullet under "Lead in Blood."

Also in the Lead in Blood Black Box, the word "is" needs to be added before the word "safe" in this sentence: "If you are pregnant ... it is safe to breastfeed."

Please let me know if you need clarification. This looks great!

Thanks,
Bob

Importance: High

Nothing yet! I know it needs to be approved through the MSP lead and the Gov's office today in the JIC. I'm looping in Jen Eisner, who is the MDHHS rep in the JIC today. Jen, I started the review process for the FAQ (I've started calling it a Fact Sheet since there are no Q &As in it) yesterday. DEQ and MDHHS approved it. Can you help get MSP and the Gov's office edits and approval today? We will need to ensure that GCHD has a chance to review as well.

We're getting a lot of calls from public health partners about the info in this so we need to get this wrapped up. Trevor is working on the design so he needs any content edits that the JIC may have made. The most recent file is attached here.

Thank you,

Angela

Hi Trevor,

We are working on a document to post to the Flint Water website that will replace a few others currently up there. The draft is attached. It's labeled an FAQ but I think it fits better as a Fact Sheet. Can you please format this like the other Flint Water documents, such as the palm card, so we can get it online hopefully yet today?

The content may shift slightly, but overall, should remain the same.

Thank you,

Michigan State Police Looking To Hire Women
CBS Detroit
1.21.16

DETROIT (WWJ) – Michigan State Police are looking for women to join the department.

An informational recruiting seminar for potential female troopers is scheduled for 10 a.m. on Saturday, March 19 at Schoolcraft College in Livonia.

Why women, specifically?

"Well, I think you need to be a diverse organization to match the entire state of what our population is," MSP First Lt. Mike Shaw. "Roughly, about 10 percent of our department are women now. We'd like to increase that."

State police recruiters will be showing off many of the department's specialty units including K-9, special investigations, computer crimes and the gaming section.

Some of the minimum requirements include being at least 21 years of age and a U.S. citizen, having a high school diploma or G.E.D., "good moral character," and no felony convictions.

The starting salary at the beginning of the 21-week recruit school is $44,000 annually with a $7,800 raise upon the completion of one year.

"I think there is an old myth that women didn't belong in law enforcement, or that they weren't suited for it," Shaw said. "But I think it goes by an individual, not necessarily a gender."

Shaw said more than a dozen female troopers will be on hand at the event to answer any questions women may have about the job.

Those interested in attending should email Tpr. Marjorie Richardson at richardsonm2@michigan.gov. Please arrive by 9:45am. The attire for this event is business casual.

City turns down $1M grant after GRPS declines cops in schools
MLive
Monica Scott
1.21.16

GRAND RAPIDS, MI -- A $1 million grant that would have put eight police officers in public and faith-based schools has been declined by Grand Rapids after the public school system pulled out of the deal.

Once Grand Rapids Public Schools decided it would not participate, the program soon lost its appeal, despite interests from the Kent Intermediate School District and Grand Rapids Christian Schools, officials said.

The district, which has a public safety department, was to receive four officers, the largest allotment among those who were initially interested. School and police administrators said last year the idea was to improve relationships and to fuel future for recruitment in addition to safety concerns.

Related: Grand Rapids police seeking $1M grant to put officers on school campuses

"Parents and other community stakeholders said they weren't comfortable having police officers inside our schools," *said John Helmholdt, the district spokesman.* "The timing wasn't right."

Helmholdt said incidents occurring nationally fueled that sentiment, including a black female student's violent classroom arrest by a school resource officer in South Carolina. That interaction was captured on video, went viral and sparked widespread outrage.

"We will continue to work on building relationships between our students and schools and the police department," he said, noting the contentious elements between minority students and police officers that may not be as prevalent in Grand Rapids.

Capt. Pete McWatters, who worked on the grant, said the resource officer program was always about outreach and collaboration to improve relationships with young people. He said historically, the department has had not officers in schools.

The program would have put as many as eight officers in five school systems, including the KISD and Grand Rapids Christian Schools. That fell to six when National Heritage Academies, the for-profit charter school management company, and NorthPointe Christian Schools weren't interested.

"We remained very interested in participating and we were disappointed to learn that the city was unable to revise the grant," said Kent ISD Superintendent Ron Caniff, who oversees a campus with about 3,000 students at the Kent Career Tech Center and Kent Innovation High School.

"Having an officer definitely enhances safety, and of equal importance, is the element of prevention. Having an officer present was intended to be a proactive approach based on the positive relationships the officer is able to establish with students," Caniff said.

The federal government would have paid for approximately 50 percent of the cost for officers. The city and schools would split the other half equally. Officers would have had to be maintained at least one additional year after the grant funding was completed.

The grant was through the Office of Community Oriented Policing Services (COPS), a component within the U.S. Department of Justice dedicated to community policing.

Steve Guitar, the city's spokesman, said the city didn't feel it could support the matching grant without better school participation.

Tom DeJonge, superintendent of Grand Rapids Christian Schools, said it had already budgeted around $30,0000 and created space for the officer at the high school. He said he never received official word that the city was declining the grant.

"I think it could have been a very positive experience for our students," said DeJonge. "The program had a lot of promise."

Resource officers have been very successful in multiple districts. The Kent County Sheriff's Office has six officers in the following districts: Kent City, Byron Center, Kenowa Hills, Forest Hills, Lowell, and Northview. City departments have officers in Grandville, Kentwood and Wyoming.

Police-clergy relations key to preventing Ferguson-like problems, chief says

MLive
John Tunison
1.21.16

GRAND RAPIDS, MI – When riots and protests engulfed Ferguson, Mo., in 2014, there was a breakdown in communication and trust between authorities and the public.

Grand Rapids Police Chief David Rahinsky thinks a better relationship between police and clergy might have helped stem the tide of discontent.

Rahinsky is now championing a local effort to foster better relations and communication between Grand Rapids police and clergy.

"We recognize there's a level of mistrust with some sectors of the community and our law enforcement," he said.

"It's our opinion there's really no better conduit to reach out to that group than the clergy," he said Thursday, Jan. 21.

Rahinsky and Patrick Miles, U.S. District Attorney for the Western District of Michigan, will gather at 3 p.m. Friday, Jan. 22 at Grand Rapids City Hall to talk about building community relationships.

The discussion, part of a "Coffee with Clergy" event titled Advocates and Leaders for Police and Community Trust, is expected to draw attendance from many clergy.

Those looking to attend should contact city offices at 456-3364.

Rahinsky said clergy can help bridge any communication gaps between police and a disaffected public.

Mother sues Lansing and police for releasing man who then killed her daughter
MLive
Andy Hoag
1.21.16

SAGINAW, MI — The mother of Angelica Olivarez, a Saginaw woman murdered by her child's father Michael Lawrence, has filed a federal lawsuit against the city of Lansing and 15 of its police officers.

Lawrence strangled Olivarez inside her home April 15, 2013, less than two months after Lansing police released Lawrence while he was at-large and wanted for another murder in Saginaw.

Olivarez's mother, Theresa Medel, through her Rochester Hills attorney Shawn Cioffi, filed the complaint on Wednesday, Jan. 20, in U.S. District Court in Detroit. It lists the officers only as John Does.

"The acts of (the defendants) ... deprived Angelica Olivarez of her constitutional and statutory rights and caused her death," the lawsuit states.

The lawsuit alleges wrongful death, gross negligence, and violations of the 14th Amendment of the U.S. Constitution as it relates to life and liberty under due process of law.

"As a result of the defendants' grossly negligent acts, failure to follow the proper procedures and in complete disregard of local, state, and federal law and constitutional protections that should have been afforded to (Olivarez), she died, and thereby her family has been deprived of her love, companionship, and support for the remainder of their natural lives," the lawsuit states.

The lawsuit seeks more than $75,000 in compensatory damages as well as punitive damages.

Lawrence, whom police ultimately arrested in August 2013 in Las Vegas, is serving two sentences of life without parole for Olivarez's murder as well as the drive-by murder of 6-year-old Lay'la Jones on Saginaw's northeast side.

Lawrence, now 26, strangled Olivarez, 23, inside her home while their now 6-year-old son was in another room in the home. The boy was the focal point of Lawrence's trial, as he told multiple people, including his great-grandparents who ultimately adopted him, in the hours after his mother's death that his dad killed her. He was 3 years old at the time.

About seven weeks earlier, on Feb. 24, Lawrence was in the custody of Lansing police, who had detained him during the arrest of a woman with whom he was found, according to Lansing Police Public Information Officer Robert Merritt.

Merritt told MLive in 2013 that Lawrence gave police a false name that had an open warrant associated with it. When police told Lawrence they were arresting him on that warrant, he gave another name, Dominique Saxton, and police arrested him for providing false information to police, a 90-day misdemeanor under a Lansing city ordinance.

Merritt said the arresting officer confirmed the date of birth and physical descriptions of Dominique Saxton with the man he was placing under arrest. Lawrence matched the information on Saxton in the Law Enforcement Information Network, Merritt said. Police did not fingerprint Lawrence because it is not required with 90-day misdemeanors, Merritt said.

Lawrence was jailed at the Lansing Police Department's detention center for about an hour and then released on a bond, Merritt said.

"Had Michael Lawrence been fingerprinted," the lawsuit states, "the fingerprints would have revealed that the person held under the name 'Dominique Saxton' was actually Michael Lawrence, and the Lansing Police Department could have arrested Michael Lawrence in connection with the murder of Lay'la Jones."

Merritt said the release of Lawrence was "tragic."

"He slipped through our fingers," Merritt said. "As a department, we take responsibility and hold ourselves to a high standard. But our policies and procedures, we followed them to a tee."

The lawsuit also seeks a declaratory judgment "to redress (the defendants') ... ongoing deliberate indifference in policies, practices, habits, customs, usages, training, and supervision ... which (the defendants) have no intention of voluntarily correcting, despite obvious need for such correction."

Lawrence, meanwhile, is imprisoned at the Cotton Correctional Facility in Jackson. The Michigan Court of Appeals in September upheld his conviction for the Jones murder and has yet to hear arguments for his appeal of his conviction for the Olivarez murder.

Still work to do to distribute water resources to Flint residents, state says

MLive
Molly Young
1.22.16

FLINT, MI – All areas of the city, but not every home, was visited by a water response team as of Thursday evening, Jan. 21, according to Michigan's Joint Information Center.

According to a news release from the center, 30,770 homes have water resources, gathered either by visiting a water resource center or because it was visited by a response team, a news release from the JIC says. Response teams are comprised of city, county and state personnel, American Red Cross and volunteers, and National Guard soldiers and airmen.

Capt. Chris Kelenske, commander of the Michigan State Police Emergency Management and Homeland Security division, says there's still work to do.

"While we have visited every part of the city, we know we have not yet reached every home, so our work is not done," Kelenske said. "Water response teams will continue door-to-door visits until we are sure every Flint resident has the safe water resources they need.

As of Thursday evening, Jan. 21, the following resources were distributed and how many of that resource was purchased by the state since Jan. 5.

More than 105,091 cases of water of 124,398 cases purchased were distributed.
79,571 water filters of 115,700 purchased.
21,625 water testing kits of 61,161 purchased.

Water response teams may ask residents questions, like what type of filters they are using and if they need help installing a filter. According to the JIC, it helps them collect information for long-term recovery and make sure they are distributing the right amount of supplies.

People on the teams wear their credentials with state of Michigan seal hologram so they can be easily identified, according to the JIC. They will, at no time, enter a resident's home or request payment for services or supplies.

Here is a list of the water resource sites, which remain open daily from 9 a.m. to 9 p.m.:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8

202 East Atherton Road
Flint, MI 48507

==========

EPA Orders State, Flint To Fix Water; Obama Sending $80M; Regional EPA Chief Resigns
Gongwer
1.21.16

The U.S. Environmental Protection Agency is ordering the state and city of Flint to take a series of immediate actions to address the city's drinking water crisis, declaring the state and city "have failed to take adequate measures to protect public health."

Additionally, in a series of rapid developments Thursday evening, President Barack Obama said the federal government would send $80 million to the state to assist with the drinking water crisis in Flint, and the director of the EPA region that covers Michigan, Susan Hedman, tendered her resignation effective February 1.

"Our children should not have to worry about the water they're drinking in American cities," Mr. Obama said in a speech to the nation's mayors in which he announced the $80 million.

No further detail was available on what, specifically, the money would go toward, but Mr. Obama expected it to be transmitted next week. Governor Rick Snyder had requested $96 million in federal disaster assistance. Mr. Obama had denied the governor's request for a major disaster declaration although he has declared a state of emergency.

U.S. Rep. Dan Kildee (D-Flint) said the money, new for the state and not previously planned to be appropriated, would go toward a state revolving fund. Mr. Kildee, in an interview, said the funds are not specifically earmarked for Flint, but that's how the state should use them. He also urged a sizeable portion of the aid to go to Flint in forgivable loans.

"This is an opportunity for the state to put their money where their apologies are and fund this in a more robust way than the $28 million appropriation," he said, referring to the bill moving through the Legislature with emergency aid for the city. Mr. Snyder has said the aid is a first step.

Senate Minority Leader Jim Ananich (D-Flint) praised the news of the federal aid.

"This is the type of leadership and action my community deserves," he said in a statement. "These resources will help with immediate health and safety needs while we continue to push for the long-term support the state must provide."

Ms. Hedman had emerged as one of the central figures in the scandal. Experts and advocates for Flint residents said she could have alerted the public to worries EPA staff had about the DEQ's decision not to require Flint to add corrosion control treatment to the water once the city began drawing water from the Flint River.

The more corrosive river water caused lead service lines to leach into the drinking water. Had the water contained the necessary treatment, the lead lines would have retained a protective layer.

The Detroit News reported this week that Ms. Hedman, rather than airing her concerns publicly or having the EPA take action, waited for a legal opinion on what the EPA could do. An EPA water expert, Miguel Del Toral, had discovered the problem in February and grew so frustrated at the agency's unwillingness to act that he leaked his memo about the problem to some residents and broke agency policy by speaking on the record about his concerns to the American Civil Liberties Union of Michigan's investigative journalist, Curt Guyette.

In a statement, the EPA said Ms. Hedman offered to resign and "EPA Administrator Gina McCarthy has accepted given Susan's strong interest in ensuring that EPA Region 5's focus remains solely on the restoration of Flint's drinking water."

Of the resignation, Mr. Ananich said: "We've said since day one everyone at every level needs to be held accountable for whatever role they had in this crisis. It's unfortunate the Legislature and state aren't moving nearly as swiftly as the federal government now appears to be."

Meanwhile, the EPA order issued to the state outlines sweeping oversight from the federal agency and follows a phone conversation between Governor Rick Snyder and Ms. McCarthy.

"There continues to be inadequate transparency and accountability with regard to provision of test results and actions taken and those are critical for the people of Flint," Ms. McCarthy said in a letter to Mr. Snyder. And "there is an increasing concern about capacity to carry out the recommended actions to safely manage Flint's drinking water system."

The order requires the state to within five days create a public website where it will post all reports, sampling results, plans, weekly status reports on progress toward all requirements and other documents.

The order further mandates the state and city respond in writing within 10 days to all of the EPA Flint Task Force's requests and recommendations made on November 25, 2015, and subsequent dates. The state and city also within 10 days must provide water quality measurements on things like pH, total alkalinity, chloride, temperature and other data), all lead in water testing results for the city since January 2013 and identification of areas in the city with elevated blood lead levels.

The state and city also must provide within 10 days an inventory of homes with lead service lines, addresses of homes that have had water service interruptions or street disturbances in the past year and the addresses of currently unoccupied homes.

The EPA also has ordered the state and city to add corrosion inhibitors at levels sufficient to re-optimize corrosion control.

Within 14 days, the state and city must submit to the Department of Environmental Quality and post to the new website several items, including a sampling plan for daily monitoring of water quality parameters and an operations plan for corrosion control equipment.

The order further bars the city from switching to the new Karegnondi Water Authority, expected to come online this summer, until the state and city submit a plan, subject to public comment, demonstrating the city has the technical, financial and managerial capacity to operate the water system in compliance with relevant laws.

Within seven days, the DEQ, with the city's concurrence, must engaged a panel of independent experts on drinking water treatment and Flint community members to make public recommendations on the steps needed to "mitigate the imminent and substantial endangerment to the health of persons" and the general operation of the city's water system.

To help ensure transparency and accountability, Ms. McCarthy said in her letter to Mr. Snyder that the agency would work with the city in the near-term to oversee and participate in the collection of Lead and Copper Rule drinking water samples by Flint residents and would have those samples analyzed in a "certified laboratory," with results available to the public.

But the EPA's ability to help is limited in scope, she said, and eventually the state will have to step up to continue restoration of safe drinking water in Flint.

"The EPA underscores that the state and city ultimately will need to work with independent recognized experts to undertake a broader effort to fully assess and verify the safety of Flint's drinking water system-wide," the letter said.

Snyder Press Secretary Dave Murray, responding to the EPA's actions, said in a statement: "The state of Michigan stands ready to work with the U.S. Environmental Protection Agency and all agencies to fix the water crisis in Flint. As Governor Snyder said in his State of the State Address earlier this week, government at all levels failed the people of Flint. He accepted accountability for that, and noted that federal, state, and local leaders broke the trust of the people. We should all focus on the needs of Flint - both immediate and long-term. Making the city whole again must be our top priority."

Of the $80 million, Mr. Murray said the state is grateful for the assistance.

U.S. Sen. Gary Peters (D-Bloomfield Township) praised the president's decision on the funding and called Ms. Hedman's resignation appropriate. He also commended the EPA for stepping into the situation.

"For months, the state of Michigan and MDEQ failed to take the necessary steps to ensure Flint residents had clean, safe drinking water," he said in a prepared statement. "I am pleased the EPA has announced it is stepping in and taking immediate action to protect the public health and increase transparency."

Hi Trevor,

I've been asked to review the fact sheets/documents currently on the Flint Water website. I've attached a screenshot of the 'In the Body' and 'In the Home' sections. If it's highlighted in yellow, it can be removed. The one under 'In the Home' highlighted in orange, can be replaced with the new fact sheet you helped us develop. I know that's linked under 'In the Body' as well, but it has information that applies to both so I want to be sure that people can find it in both places.

Thank you so much,

Angela Minicuci

Subject: New Request for Staffing - Flint Joint Information Center
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by Wednesday at noon. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Subject: SEOC Update 1/21/16 - Flint Water - Limited Distribution
Attachments: 20160121_Residents_Sampled_Results.pdf; Past3Days_JIC_Maps.pdf; DRAFT Flint Water Operations Plan Rev 2.docx; SitRep 16.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- *Draft Water Operations Plan for moving to next phases (Discussion document)*
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. *PENDING APPROVAL. NG advised* this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700

c. Filter cartridges 243,200
d. *Test kits 61,161*

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.

- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the

companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. *Distributed:*
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.

- Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system

a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.

- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.

- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256

Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)

        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- *Deploying two DTMB trucks and two drivers for sustained logistical support for the week.*
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters

        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving

them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request *replacement of products as needed.*

  - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.

- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- *A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor* appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
  - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
    - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
  - *Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during* daily operations.
  - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to

these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- ***Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference*** **call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination,**

command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Water Response Teams Continue Door-to-Door Canvass in Flint

FOR IMMEDIATE RELEASE
January 21, 2016

For more information contact:
Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 12

FLINT, Mich. – By the end of the day today, water response teams had canvassed all areas of the city providing Flint residents with free bottled water, filters, water replacement cartridges and water testing kits.

To date, 30,770 homes in the city of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies. Water response teams are composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen.

"While we have visited every part of the city, we know we have not yet reached every home, so our work is not done," stated Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Water response teams will continue door-to-door visits until we are sure every Flint resident has the safe water resources they need."

As part of the distribution process, members of the water response teams ask a series of questions, such as what type of filter they have and whether the resident needs assistance installing a water filter. The questions help in ensuring the team is distributing an accurate amount of supplies and also allows for the collection of information necessary for long-term recovery. While answering the questions is beneficial to operational efficiency, the questions are voluntary and residents will still receive water resources if they refuse to answer questions.

As previously announced, all members of water response teams wear official credentialed badges with a State of Michigan seal hologram so they can be easily identified. At no time will they enter a resident's home or request payment for services or supplies.

To date, the following resources have been distributed at the water resource sites and by water response teams:

- More than 105,091 cases of water
- More than 79,571 water filters

- More than 21,625 water testing kits

Since January 5, the State of Michigan has purchased the following resources:

- 124,398 cases of water
- 115,700 water filters
- 61,161 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Hi Ron, I hope you are surviving over there. Do you know will anyone else need to revise this? This document has gone through no less than 8 rounds of updates. I'm happy to do the updates, but we could be a little more efficient about it. With fewer updates it also makes sure that people are all using the same version. Just let me know and I'll make all the changes. Thanks!

Subject: 2-1-1 Update Flint Water Response for Thursday, January 21, 2016
Attachments: 2016-01-21 MI211 Flint Water Daily Update.docx; EM_3375_211Call_Maps_1_09_thru_1_14_16.pdf

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 21, 2016

GENERAL INFORMATION:

- ☑ **RESOLVED:** ACLU of Michigan has agreed to take referrals from 2-1-1 for callers asking about the Flint class action lawsuits. The number for the ACLU Paralegal is is 313-578-6802. This information has been added to the 2-1-1 database and is searchable under the term "Class Action Litigation".
- ☑ The JIC released an official statement regarding concerns of lead in bottled water based on readings from the TDS (Total Dissolved Solids) meter provided with Zerowater brand filters. The statement clarifies the meter does not test for lead. MDEQ tested each of the 21 brands of water being distributed for lead and copper – results indicated 'Not Detected" for both contaminants. At the request of SEOC 2-1-1 is sharing this information only if there is a direct question from callers about bottled water safety.
- www.flintwaterclassaction.com/ is a web site set up by one of the law firms filing a calls action suit. The site has a notice there will be an informational meeting on the class action lawsuit on February 16, 2016 from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus.
- The SEOC OPS Health and Env MDEQ Desk contacted 2-1-1 about calls coming to the SEOC desk from the general public and asked 2-1-1s help tracking down the source of the calls. 2-1-1 verified SEOC contact information is ***not*** listed in the 2-1-1 database. **IF YOU HEAR OF ANYONE RECEIVING INAPPROPRIATE REFERRALS FROM 2-1-1, PLEASE NOTIFY tpage@uwmich.org WITH DETAILS AND WE WILL WORK TO ADDRESS THE PROBLEM AS SOON AS POSSIBLE.**
- Earlier this week Michigan 2-1-1 provided the FEMA Voluntary Agency Liaison (VAL) based at the SEOC in Lansing with 2-1-1 data for the week of January 10. They have mapped the data to provide a visual presentation of needs. (See attached). Please respond to this email if you think it would be useful for 2-1-1 to share additional data FEMA for mapping.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume was still higher than average today, but much more manageable. Average wait time was down significantly.

- Call volume yesterday (Wednesday January 20) was one of the highest ever for the Michigan 2-1-1 system. Central Michigan staff were at the phones until 8:30 pm to return all calls received. People using the callback feature expressed no upset or dissatisfaction with the wait for a return call.

SPECIAL NEEDS/REQUESTS

- A follow up on yesterday's concern from realtors about closing on properties at-risk for lead contamination, another realtor called 2-1-1 asking for a filter for a house she just sold. 2-1-1 informed her that new residents will be able to pick up filters, or that filters are available for purchase, but the current relief efforts are focused on household residents.
- 2-1-1 has also received several calls from churches, nursing homes and business owners asking about filters for their establishments. They were told filters for businesses and organizations are available for purchase, but the current relief efforts are focused on household residents.
- In response to a question, 2-1-1 verified that Flint residents can get free replacements as their filters are used up. They are available at the same locations as other water resources. Homebound residents can call 2-1-1 to register for home delivery.

☐ 2-1-1 has received a few calls asking what to do with empty water bottles. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

RUMOR CONTROL

- Residents continue to mistrustful about local water quality and do not believe the information that it is safe for washing and other needs. This is leading to increased demand for additional bottled water, including one caller who requested enough to fill her bathtub (2-1-1 tried to reassure her and provided the DHHS hotline for more information).
- Niagara bottled water, one of the brands being distributed at fire stations, experienced a recall in the summer of 2015 due to an E. Coli concern. 2-1-1 has received several calls concerned about the safety of Niagara water. Callers are being reassured and sent to the Niagara recall website for more information at http://www.niagarawater.com/consumer-notice/.

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**

Subject: New "How to Sample your Water" video

Trevor,

Here is a new video I produced explaining how residents should use the kits being passed out to properly sample their own water. I listed the water resource centers at the end so people know where they can take the samples. It also includes the 211 message at the end. Melanie Brown has given this the go ahead. Let me know if you need anything further for this.

These are the ones that I have. Here is what I don't know for certain...There was going to be a minor change in some wording. I don't even recall what it was, just that it was pretty minor. I opened the file, but had some problems with font cohesiveness as I did not make that file originally. I said that DTMB may be able to make the minor change because of the way they set it up for pre-press and their font library should be far more expansive than mine. I don't know whether it was printed and/or fixed and printed.

Outside of that this is what I have. Thanks

Hi Ron, I hope you are surviving over there. Do you know will anyone else need to revise this? This document has gone through no less than 8 rounds of updates. I'm happy to do the updates, but we could be a little more efficient about it. With fewer updates it also makes sure that people are all using the same version. Just let me know and I'll make all the changes. Thanks!

Subject: Spanish-only water flyer?

Hi Jen, Angela,

I was asked to see if MDHHS knows anything about this. This is pretty vague ...

Jenny Pollak from 2-1-1 Central Michigan called the JIC. A Flint resident called her very upset about a flyer regarding Flint water he was given (not sure if this was dropped out at his home, handed to him or what). He said the flyer was in Spanish. He was upset because he thought it should be bilingual. He thought the person who gave it to him might have

been profiling him because he looked like he could be Hispanic. He doesn't know what it said because he can't read Spanish, but it directed people to call 2-1-1 or the governor's office, and provided the number 517-335-7858 for the Governor's Office.

I'm running this by others at the JIC as well.

Any idea if MDHHS has a flyer like this?

I'm guessing this was not a state government flyer.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	18
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/23/2016 08:00:00
SEOC Hours of Operation End:	01/23/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 23):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics:
- Worked with FEMA/DHHS on warehouse tracking status/strategy.
- Coordinated resources requests with state agencies
- Continuing inventory monitoring and hot shots resolution and tracking.
- Ordering and projecting future orders of water resources and commodities.
- Working future resource planning.
- Working on local business commodity supply plan.

- JIC:
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- Working on redesigning the Flint water website.
- Added the Governor's appeal news release to the website.
- Working on adding the palm card and foreign language palm cards to the website.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- JIC is planning on issuing the nightly activity news release.

- Recovery Branch:
- Reviewed and provided feedback on the draft Flint Water Operations Plan
- Updated resource requests in MICIMs
- Updated tracking spreadsheet with end of day information for Friday, January 22nd.
- Attended Local Brief, Operations Plan Meeting and Distribution Process Meeting.

oData is for 1/23/16 as of 5:00 pm:
o Total homes visited.
- 26,266 (round 2 total).
- 13,684 (today).

o Water Cases.
- 13,527(round 2 total).
- 6,960 (today).

o Replacement Cartridges.
- 4,276 (round 2 total).
- 1,715 (today).

o Faucet Filters.
- 6,697 (round 2 total).
- 3,264 (today).

- Planning Section:
o Published Sit Rep # 8.
o Worked with GIS to outline required maps for future planning efforts.
o Participated in daily SEOC briefings and distribution process conference call.
o Worked on the further development of Long-Term Recovery.

- Operations Section:
o Facilitated 8:30 local call
o Facilitated 9:30 state agency briefing
o Phase three meeting
o Email information requests & inquires
o Prep work for Sunday

o Facilitated 4:00 state agency briefing
o Warehouse Numbers as of 1800:
❑ Water (cases).
58,464
❑ Filters (faucet).
21,884
❑ Replacement cartridges.
154,814
❑ Filters (pitcher).
0
❑ Test Kits (prepped).
7,988
❑ Test kits (un-prepped).
16,704
o PODs (1700 1/22 – 1600 1/23)
❑ Water (cases).
20,213
❑ Filters (faucet).
781
❑ Replacement Cartridges.
1127
❑ Filters (pitcher).
0
❑ Test kits.
430

• Finance Section:
• Continue work on report of state agency purchases made since January 6th activation.
• Work with state agency financial contacts to let them know how they should be capturing costs.
• Developed state agency reporting schedule of financial information.
• Creating bulleted list of criteria donations must meet to use as match.

GIS Branch Updates:
o Staff was requested to interview with the Governor's Director of Communication, Meegan Holland.
o Data interpretation upon request of Tony Katarsky.
o Updated JIC Map.
o Developed outreach with POD overlay map for future recovery operations planning.
o Created new Data Entry Form for the data entry people to use with V3 of the questions.
o Worked with DTMB to increase email quota to increase send/receive email.
o Developed Web Map/Form to use in field to identify Vulnerable Populations for Local EOC.
o Created accounts for AGOL and troubleshooting IPad issues.
o Assisted American Red Cross with training on data entry and the IPads.

DTMB:
• Provided an additional 30 tablets for the Water Response Teams (151 tablets to date)
• Provided an additional 500 credentialing badges for Water Response Teams (1165 credentials to date).
• Provided 90 rolls of stretch wrap for the Clio Rd. Warehouse. 21 have been delivered and remaining delivered today (1/23).

DHHS-CH:
• Response received from SAMHSA indicating that the request for TA has been received and will be routed accordingly. The CHECC anticipates this request to be approved and for a SAMHSA representative to be onsite in the CHECC on Monday.
• CDC informed MDHHS that they would be sending a senior officer to Michigan early next week to coordinate CDC activities in Michigan related to Flint Water.
• MDHHS was contacted by the MDEQ representative in the LEOC with an offer for a representative from MDHHS to be included on the EPA water sampling team that started sampling the Flint water for residual chlorine today.

DEQ:
• Worked on posting water test results on line for in an easily understandable and transparent way.
• Coordinated water sample pick up by MDOC and transport to the MDEQ lab in Lansing
• A senior center was identified as not having water so local staff supplied bottled water (week's supply). Arrangements have been made to resupply center as needed. No other facilities have been identified and those that need assistance are asked to call 211.
• Began collaboration and coordination with U.S. EPA who arrived on-scene today.

Local EOC Update:
• Distributing supplies at five water resource sites in the City of Flint.
• Door-to-door distribution of supplies with 55 water response teams (40 ARC volunteer teams, 15 MSP/GCSO/NG teams).
• Facilitating rapid response deliveries to homebound residents and special locations.
• Identifying alternative locations for water resource sites.
• Identifying potential locations for bottle recycling stations.
• Coordinated with arriving EPA staff for chlorine sampling in the City of Flint.
• Coordinating with SEOC Logistics and ARC to identify location of water sampling forms.
• Experienced problems with IPad operations due to software updates and location services issues.

Incident Response/Recovery Priorities/Objectives

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) is operating from the State Emergency Operations Center on Saturday, January 23 and Sunday, January 24.

Tasks accomplished:
• Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.

- Working on redesigning the Flint water website.
- Added the Governor's appeal news release to the website.
- Working on adding the palm card and foreign language palm cards to the website.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- JIC is planning on issuing the nightly activity news release.

Agriculture and Rural Development (MDARD)

Saturday, Jan. 23. Motor Fuels Quality/Weights and Measures staff completed personal notification of all licensed gas stations.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits at ARC headquarters.
We deployed and supported 40 teams for neighborhood canvassing (Water Response). We expect to field 40 teams on Sunday.
There were 90 Red Cross volunteers active on this response today.
We supplied lunches for all of the event-based volunteers.
The Volunteer Reception Center (VRC) was in full operation today, and will be tomorrow as well.
We continue to provide warehouse and inventory management through this weekend.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Provided senior leadership and communications with news release on no-cause (no identification required) access to materials; coordinated through United Way connection between concerned advocate and water/materials deliver; awaiting decision (tomorrow) on numbers of volunteers/teams available who can work directly with LEP populations across area.

Community Health (MDCH)

Response received from SAMHSA indicating that the request for TA has been received and will be routed accordingly. The CHECC anticipates this request to be approved and for a SAMHSA representative to be onsite in the CHECC on Monday.

CDC informed MDHHS that they would be sending a senior officer to Michigan early next week to coordinate CDC activities in Michigan related to Flint Water.

The CHECC contacted GCHD representative in the LEOC to discuss the details of resources requests that were submitted in MICIMS for blood lead sampling kits and ancillary supplies. Discussions are ongoing to determine the urgency and necessity for their request, in order for the SEOC to know the feasibility of procuring these items. The CHECC confirmed that these resources are not available at the State level to support the request. Information from the GCHD who needs the supplies was contradicting to the information communicated by the LEOC EM, listed as the POC for the MICIMS request. The CHECC is working to clarify and provide effective communication to the SEOC so that this resource request can either be cancelled and ordered by the locals or processed and ordered by DTMB.

MDHHS was contacted by the MDEQ representative in the LEOC with an offer for a representative from MDHHS to be included on the EPA water sampling team that started sampling the Flint water for residual chlorine today. DEQ confirmed that the sampling would begin this afternoon and go one for a least a few days. The CHECC contacted the Environmental Health Division Director and confirmed that their physical presence on this team is not necessary at this time; however, they have requested that EPA share the results of the testing with MDHHS.

Provided a listing of all LTCs in the 16 zip codes in the Flint area to LARA, in order to cross-reference with their listing, in an effort to ensure all nursing homes in the affected area have been contacted.

Received communication from GCHD representative in the LEOC that a group had set-up a mobile testing clinic at the Flint Masonic Temple to perform free blood lead testing from 1000hrs to 1300hrs today (1/23/16), expected upwards of 300 tests to be conducted. Testing was provided by Quest Laboratories (a national laboratory group). The CHECC, LEOC, and SEOC Director, MSP representative, Operations Chief, and Logistics Chief were made aware of this in preparation for anticipated requests. No requests were received related to this activity. A communication was provided via email to MDHHS leadership from the CHECC for informational purposes only.

Corrections (MDOC)

We continue to fill resource requests and track/monitor all ground resources throughout the day and report the final assets in evening reports. Executive Team (MDOC) was briefed as follows:

1. The primary duty of our employees is to transport and support the (18) ten member Flint Water Resource Teams on the ground, going door to door providing water, filters and special individual needs. This team is made up primarily of Michigan National Guard troops and Michigan State Police staff.
2. Provide for the pickup and transportation of the water samples from the seven designated collection sites in Flint and deliver to the DEQ Laboratory daily.
3. Assist the Flint Food Bank to deliver/transport emergency food deliveries to ensure available warehouse space is available to receive additional emergency food items.
4. Provide pickup and delivery of water bottle testing kits from the warehouse to the American Red Cross so they can be assembled and transported back to the warehouse where they will be delivered to the citizens by the Water Resource Teams.
5. Provide management and organizational support to the main 80,000 square foot main warehouse located on Clio Road.
6. Provide prisoner work crew support inside the warehouse to load and unload, stack water deliveries and assist in garbage/debris management.
7. The weekend operational period requires an increase in the need for logistical support due to the notable increase in available volunteers. Specifically, the weekend force is expected to increase by over 300 persons. Each of these volunteers will be assigned as a Flint Water Resource Team and require transportation, supplies, law enforcement security oversight and lunch. Our staff are

a primary source of transportation for Water Resource Teams and their participation is critical to the success of the mission.
8. Beginning Monday 1/2/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. This assignment is currently set to expire Monday February 1 at 1930 hours.

All current resources will remain for Sunday 1/24/2016.

Education (MDE)

Michigan School for the Deaf:

1. Landlord's action plan added to MiCIMS.
2. Team of LARA and DEQ staff have mapped school building and LRC dorm building for water testing. They will be back 1/23 for collecting samples in those areas.
3. Testing in Stevens Hall dorm will be delayed until after faucets are changed and 3 new drinking fountains are installed. Drinking fountains are on order and probably will not be installed until next weekend, meaning testing in Stevens Hall is probably at least two weeks away.
4. Plumbers have begun swapping faucets in Stevens Hall and are planning to be finished by Sunday evening.
5. Genesee County Health Department (GCHD) to be at MSD blood testing students whose parents consent; February 8th.
6. MSD is polling staff to see if there is sufficient interest to have GCHD set up a blood testing clinic for all state and contracted staff.
7. Working with DHHS to have a health expert attend the February 9th parent meeting.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Worked on posting water test results on line for in an easily understandable and transparent way.
- Coordinated water sample pick up by MDOC and transport to the MDEQ lab in Lansing.
- A senior center was identified as not having water so local staff supplied bottled water (week's supply). Arrangements have been made to resupply center as needed. No other facilities have been identified and those that need assistance are asked to call 211.
- Began collaboration and coordination with U.S. EPA who arrived on-scene today.
- Continued providing support to the local emergency operations center.

Human Services (MDHS)

Forwarded FYI info on filter distribution efforts which took place before the declaration to SEOC OPPs. Just for situational awareness on how filters were targeted to the vulnerable and multi unit populations previously.

Worked with DTMB to have state email placed on iPhones provided for donation and volunteer management.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team
Assisting with translation of water analysis request forms. Looking into translators available this weekend.
Finalizing Health Care Facility survey information and comparison.
2 buildings at the School for the Deaf have been tested. Replacement of fixtures in the Dormitory is ongoing.
Materials order has been submitted to complete Freeman School.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2313002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: SFC Witgen, Robert Cell: Email: robert.d.witgen.mil@mail.mil

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.
a. Traffic issues have been resolved at stations 3 & 6 via new traffic equipment/set-up via MDOT
b. Security issues have been addressed. The station NCOIC's will contact 1Lt Roland in the EOC for police assistance when needed. Additionally, they have POC's within the Genesee County Sheriff's Department as well as the phone numbers for the Flint PD's sergeants and patrol desk.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 65 Soldiers on ground supporting the mission.
a. 61 Soldiers are assigned and divided to man (5) Pods. 1 Soldier is assigned to be the Supply NCO. 2 Soldiers are assigned to the Genesee County EOC. 1 Soldier is assigned as the Public Affairs NCOIC.

7. OPERATIONS: Operations for the next 24 hours are to continue water/filter distributions throughout the 5 designated fire stations.

8. PERSONNEL: 65 Soldiers are currently assigned to the POD operations. 57 in five teams at Fire Stations 1, 3, 5, 6 and 8.
a. Two (2) Soldiers reverse RSOI on 20160122 (Military Technician issue)

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified. Traffic is a force pro measure.

10. LOGISTICS:
a. Pallet-jack – the station 8 delivery driver said he needs to take back his pallet-jack. He will be taking his pallet-jack back COB on Saturday 23JAN16. Additionally, station 6's pallet-jack is no longer working. Solution – request (2) pallet-jacks; (1) for station 6 and (1) for station 8.

11. COMMUNICATIONS: No communications issues at this time.
P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner
12. NARRATIVE: N/A
13. COMMANDER'S EVALUATION:
•Briefing and sensing session held with all the Soldiers on the POD mission 222130RJAN16 to ensure that the most current SOP's for water & filter distribution was known to everyone as well as to allow any of the POD soldiers to express any questions, concerns, or issues they had in regards to the POD mission. Overall, there are no significant issues remaining; both the assistance and resources provided by the SEOC, Genesee County EOC, and TASK FORCE FLINT command cell have ultimately resolved the issues pushed up through the proper channels. Another main theme for the meeting was keeping up a professional appearance and maintaining military bearing both in front of the citizens of Flint and the media. All of the POD mission soldiers were reminded that the National Guard is the main source of hope for the city of Flint and that keeping up a popular public opinion and media image via professionalism and remaining positive in all aspects of the mission is essential to our continued success. The Soldiers were reminded NOT to speculate when talking with the media; talking points were reviewed.
•I explained about the twitter feed with the series of posts that drove the new policy for product distribution. We discussed all of the issues that the people of Flint have with the POD operation, how the new policies implemented should resolve them, and also how to reassure the citizens of Flint that we are simply here to help them in their time of need.
•The laundry issues have been resolved through local contact.

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

NWS Detroit will begin providing morning SEOC brief and Activity Log posts effecting Tuesday, January 26th. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

MSP and GCSD supported 15 National Guard staffed teams that were out today and there were 40 Red Cross teams. 6652 homes were visited today.

Contact was made with Tpr. John Looney at 6:54 a.m. from the MSP Lansing Post to arrange transport of 30 additional IPAD's, Credentials and IPAD chargers from the SEOC to the Flint EOC. Tpr. Looney picked up the 30 IPAD's, Credentials and IPAD car chargers at 7:30 a.m. from the SEOC for transport to the Flint EOC. These items were delivered at 8:20 a.m. by Tpr. Looney to the local EOC for the WRT's who were deploying at 9:00 a.m.

The 3 cyber trained personnel from MING who were called upon to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters reported to Headquarters on 1/22/16. MING personnel are currently on stand-by and will be called upon when needed.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Three (3) drivers on Saturday, January 23.

Provided an additional 30 tablets for the Water Response Teams (151 tablets to date)
Provided an additional 500 credentialing badges for Water Response Teams (1165 credentials to date).
Provided 90 rolls of stretch wrap for the Clio Rd. Warehouse. 21 have been delivered and remaining delivered today(1/23).

Confirmed all 90 rolls have been delivered.

DTMB Senior Management met and discussed agency preparation strategies for potential cyber activity surrounding the Flint Water Issue. DTMB also reaching out to Flint CTO to offer assistance with cyber mitigation strategies.

No additional activity seen against web site Michigan.gov as of 1600 hours. Site will continued to be closely monitored overnight.

3 - additional vans requested for water delivery supporting citizens unable to get out of their homes.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

Demand Increases at Water Resource Sites

Over 300 volunteers help in visiting over 13,000 homes today

FLINT, Mich. – The city's five water resource sites experienced an increased demand in bottled water today, distributing over 300 pallets of water in seven hours, making it the busiest day of operation yet.

In addition to this activity, water response teams also continued their door-to-door efforts, today visiting 13,684 homes providing free bottled water, filters, water replacement cartridges and water testing kits. The teams are composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen. More than 300 volunteers took part in today's activities.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 148,866 cases of water
- 86,843 water filters
- 25,586 water testing kits

While the state continues to increase the amount of water it is purchasing and providing, this increased demand provides some logistical challenges. In order to ensure supply keeps pace with demand, residents are reminded the general guideline is one case of bottled water per household per day.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

MORE

The State of Michigan has purchased the following resources, in addition to donations, since January 5:

- 133,662 cases of water
- 115,700 water filters
- 61,161 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Flint residents can drop-off water samples to the five water resource sites. Samples are only accepted using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	17
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/22/2016 08:00:00
SEOC Hours of Operation End:	01/22/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 22):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics:
o Worked with FEMA/DHHS on warehouse tracking status/strategy.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide food bank delivery resources.
o Continuing inventory monitoring and hot shots resolution and tracking.
o Ordering and projecting future orders of water resources and commodities.
o Working on local business commodity supply plan.
o Coordinated filter/cartridge donation list.
o Worked with MDTMB for more iPad's, more vests, and more door hangers for weekend volunteer surge.
o Worked with the JIC and GOV to establish a business resource submission tab on www.helpforflint.com.

- JIC:
o News release concerning the water response teams went out this morning.
o Have had a number of media request concerning resources for immigrants and population less proficient in English.
o Have received numerous inquiries from celebrities on how they can assist and donate.

- Recovery Branch:
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
o Data is for 1/22/16 as of 5:00 pm:
o Total homes visited.
❑ 37,679 (round 2 total).
❑ 5,920 (today).
o Water Cases.
❑ 6,439 (round 2 total).
❑ 3,634 (today).
o Replacement Cartridges.
❑ 2,494 (round 2 total).
❑ 1,827 (today).
o Faucet Filters.
❑ 3,373 (round 2 total).
❑ 1,855 (today).

- Planning Section:
o Published Sit Rep # 17.
o Worked with GIS to outline required maps for future planning efforts.
o Participated in daily SEOC briefings and distribution process conference call.
o Worked on the further development of Long-Term Recovery.

- Operations Section:
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop phased canvassing roll out.
o Worked on getting local contact into the JIC.
o Worked with JIC to develop messaging for resources and donations.

o Warehouse Numbers as of 1600:
❑ Water (cases).
- 65,592.
❑ Filters (faucet).
- 24,806.
❑ Replacement cartridges.

- 134,859.
❑ Filters (pitcher).
- 14,922.
❑ Test Kits (prepped).
- 1,398.
❑ Test kits (un-prepped).
- 21,024.

o PODs (1700 1/20 – 1600 1/21)
❑ Water (cases).
- 10,321.
❑ Filters (faucet).
- 954.
❑ Replacement Cartridges.
- 449.
❑ Filters (pitcher).
- 0.
❑ Test kits.
- 699.

- Finance Section:
o Develop report of state agency purchases made since January 6th activation.
o Work with state agency financial contacts to let them know how they should be capturing costs.
o Developed state agency reporting schedule of financial information.
o Work with local EM to obtain incident related costs from City of Flint and Genesee County.
o Reviewed information from FEMA regarding use of donations as state match.

- GIS Branch Updates:
o Refined version 3 of GIS mobile application data.
o Began repairing V2 and V1 of the mobile application data. 85% complete.
o Prepared map of vulnerable population in the affected area.
o Prepared a map of hot spots of vulnerable population for MDARD.
o Created a map of the water mains for MDARD.
o Pulled data from GIS mobile application for the recovery unit.
o Provided total installed filters from V3 to planning section.
o Provided map for local EOC to use for team assignments.
o Provide maps for JIC to utilize for press release.
o Coordinated with FEMA on lead lines mapping (ongoing).
o Coordinated with local GIS and confirmed they do not have unit counts for multi-tenant in databases.
o Working on tying app data to parcels for running total by residence.

DTMB:
- Process additional resource requests for warehouse commodities, supplies for volunteer teams for the weekend.
- Provided FEMA staff with access cards, office space, and parking for Flint office building.
- MI CIMS will be monitored this weekend for performance issues.

DHHS-CH:
- CHECC will remain operational from 0800-1700 over the weekend to field calls.
- EPA nutrition pamphlets arrived today.
o 10,000 English.
o 3,000 Spanish.
- GIS is providing assistance for the US DHHS.
- Liaison officer from the US DHHS will be in the CHECC.

DEQ:
- 853 water samples have been processed and an additional 1200 will be processed today.
- Map requested from GIS on locations that have offered to be a testing site.
- Michigan School for the Deaf will be sampled tomorrow.
- Samples from the food establishment will be prioritized in the lab (5-day turn around).

Local EOC Update:
- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- *Working on plan for church water distribution and POD locations.*
- Looking at possible alternative locations for PODs in difficult traffic areas.
- Working on tracking incidents at warehouse and car accident with local EOC personnel.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 22.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, and Military and Veterans Affairs. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Drafted social media posts about water response operations taking place.
- Observed rumors about identification being required at water resource sites. Drafted a news release to provide clarification.
- Created a media monitoring report and looked for misinformation.
- Media hotline staff answered over 15 emails and phone calls ranging from contractor services to complaints about ID being required at water resource sites.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, LARA and DMVA.
- JIC is planning to issue the nightly activity news release around 6 p.m.
- MSP F/Lt. Dave Kaiser worked with the news media about ongoing water emergency efforts, conducting interviews with Fusion TV and Yahoo News. He will conduct an interview on WNEM-TV 5 tonight about ongoing to water response efforts.
- MDHHS spokesperson conducted an interview with WNEM-TV 5 about bathing in water and whether it's safe to bathe in water.

Agriculture and Rural Development (MDARD)

Friday, Jan. 22 - 1) MDARD is continuing their assessments and water sampling at food establishments. We are talking with businesses about their needs and potential needs before making resource requests. 2) MDARD is coordinating closely with FDA-Detroit District Office and sharing information for possible joint activities. 3) Animal Industry Division has been calling veterinary clinics in Genesee County and talking personally with veterinarians and staff. 4) MDARD is coordinating with MDEQ to get water lead level results to food businesses faster.
MDARD response strategy is to assess all designated as high and medium-risk establishment; 100% assessment and water sampling of high-risk establishments. Total Number of Establishments Planned for Assessments for MDARD Food & Dairy (FDD) and Genesee County Health Department (GCHD): 175 (FDD-84, GCHD-91)
High-Risk- 19 (8-GCHD, 11-FDD), Medium-Risk- 156 (83-GCHD, 73-FDD)

Cumulative totals:

95 assessed to date
67 found in compliance (working with those other businesses on specific needs)
18 water samples have been collected
26 assessment will require follow-up visits within 10 days

58 calls have come in for scheduling water sampling appointments.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits at ARC headquarters.
We deployed and supported 15 teams for neighborhood canvassing (Water Response). We expect to field 40 teams on Saturday.
A total of 124 Red Cross volunteers were active on this operation today.
We supplied lunches for all of the event-based volunteers.
The Volunteer Reception Center (VRC) was in full operation on Thursday. 68 volunteers were processed.
The Volunteer Reception Center (VRC) will remain open on Saturday and Sunday.
We continued to provide warehouse and inventory management.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Requested clarification on data capture and ID validation at PODs for water and filter distribution, mapping, and messaging as to same. Posted SOM lists of available translators/interpreters (rev. Dec 2015). Briefed senior leaders MDCR on current operations and issues. Engaged community group as possible bi-cultural/bi-lingual resource for water resource teams; will follow up with Logistics as possible service donation. Confirmed 2-1-1 has language line capacity for handling non-English speaking calls within 60-90 seconds of learning of language need.

Community Health (MDCH)

Worked with GIS and SEOC Logistics to update the maps provided from GIS to also include the locations for "hot shot" requests filled as of 1/20/16, in addition to separating-out the homecare patients from the other categories of medically-dependent individuals identified. Created a resource request for SEOC Logistics to provide this hot shot location data weekly. Maps provided in Activity Log.

Emailed GCHD EPC regarding concerns reported from the Michigan School of the Deaf in Genesee County in reference to bathing for students who live in the school dormitory (information relayed from LARA EMC). Inquired if GCHD could send a SME, suggested the local Medical Director, to the February Parents meeting to answer their questions and provide additional information. LHD EPC forwarded this request to GCHD leadership and will confirm whether or not they can send someone from the health department.

Forwarded hot shot request received in the CHECC to SEOC Logistics to track and coordinate with the LEOC.

Provided information from MDHHS/CDC Medical Epidemiologist to 2-1-1 regarding an "unresolved" question received by 2-1-1. Abbreviated version below:
Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?

A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

Followed-up with LEOC EMHSD Liaison and SEOC Ops regarding health-related calls being forwarded from 2-1-1 to the CHECC hotline after hours. Confirmed that neither the CHECC hotline, nor the GCHD phone number, is being monitored after hours to receive health-related calls. 2-1-1 should inform callers to call back during normal business hours (0800 - 1700) for health related questions that 2-1-1 is unable to answer. The CHECC is not considering answering calls to the hotline after hours due to their current low call volume.

GCHD EPC confirmed that the 13,000 EPA nutritional pamphlets that were ordered DID arrive this morning to the GCHD (23 boxes).

St. Joseph Mercy Health System offered to provided resources and support for lead screening. This information was forwarded to SEOC logistics. The St. Joseph Health System POC asked to speak to someone today; therefore, contact information was provided to them via the MDHHS PIO for them to contact GCHD.

Requested information from DEQ to confirm whether or not zip codes 48531, 48550-48557 are on the Flint Water Authority system. Medicaid includes these zip codes in their reports related to Flint; however, they were not listed in the 16 zip codes that have been identified for the response. DEQ is still working on this request and will provide information when available.

Provided MDARD EMC with GCHD Environmental Health POC contact information for coordinating efforts to ensure restaurants in Flint receive the water resources they need. Efforts will focus on the restaurants in the most highly impacted areas first.

Inquired with MSP regarding the Water Response Teams visiting zip code 48502. This is a business district; however 138 children are on Medicaid live in that area. Confirmed with GIS and MSP that the WRTs have canvassed the zip code area 48502, when the teams canvassed zip code area 48503 that completely surrounds the 48502 area. Map provided in Activity Log.

Corrections (MDOC)

We continue to fill resource requests and track/monitor all ground resources throughout the day and report the final assets in evening reports. Executive Team (MDOC) was briefed as follows:

1. The primary duty of our employees is to transport and support the (18) ten member Flint Water Resource Teams on the ground, going door to door providing water, filters and special individual needs. This team is made up primarily of Michigan National Guard troops and Michigan State Police staff.
2. Provide for the pickup and transportation of the water samples from the seven designated collection sites in Flint and deliver to the DEQ Laboratory daily.
3. Assist the Flint Food Bank to deliver/transport emergency food deliveries to ensure available warehouse space is available to receive additional emergency food items.
4. Provide pickup and delivery of water bottle testing kits from the warehouse to the American Red Cross so they can be assembled and transported back to the warehouse where they will be delivered to the citizens by the Water Resource Teams.
5. Provide management and organizational support to the main 80,000 square foot main warehouse located on Clio Road.
6. Provide prisoner work crew support inside the warehouse to load and unload, stack water deliveries and assist in garbage/debris management.
7. The weekend operational period requires an increase in the need for logistical support due to the notable increase in available volunteers. Specifically, the weekend force is expected to increase by over 300 persons. Each of these volunteers will be assigned as a Flint Water Resource Team and require transportation, supplies, law enforcement security oversight and lunch. Our staff are a primary source of transportation for Water Resource Teams and their participation is critical to the success of the mission.

We also had a water main break at DWH (Prison Hospital in Jackson). Bottled water is being brought in from the Regional Warehouse (6000 bottles). The situation was handled locally without incident.

All current resources will remain for tomorrow, January 23, 2106.

Education (MDE)

Michigan School for the Deaf:

1. Landlord's action plan added to MiCIMS.
2. Team of LARA and DEQ staff have mapped school building and LRC dorm building for water testing. They will be back 1/23 for collecting samples in those areas.
3. Testing in Stevens Hall dorm will be delayed until after faucets are changed and 3 new drinking fountains are installed. Drinking fountains are on order and probably will not be installed until next weekend, meaning testing in Stevens Hall is probably at least two weeks away.
4. Plumbers have begun swapping faucets in Stevens Hall and are planning to be finished by Sunday evening.
5. Genesee County Health Department (GCHD) to be at MSD blood testing students whose parents consent; February 8th.
6. MSD is polling staff to see if there is sufficient interest to have GCHD set up a blood testing clinic for all state and contracted staff.
7. Working with DHHS to have a health expert attend the February 9th parent meeting.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Requested compiled list of residents who have agreed to participate as a monitoring site from GIS. This list was provided to *George Krisztian and Mike Glasgow, City of Flint, WTP.*
- Flint School of the Deaf testing has been rescheduled. Mapping and inspections were completed on the two school buildings today and sampling will commence tomorrow. The dormitory will be scheduled at a later date due to current construction of faucet replacements.
- Submitted request for lab sample forms to be printed in Spanish and distributed to all distribution points.
- Prioritized sample analysis at DEQ lab for Michigan Department of Agriculture and Rural Development samples relative to

residential samples.
• Requested Department of Corrections resource of sample pickup and transportation to extend through Friday, January 29.

Human Services (MDHS)

Discussing with DTMB, addition of Federal agencies to Flint Union street, and effects it may have on MDHHS day to day operations, including parking for clients.

Children Services Agency working on phased plan to ensure all foster care, CCI, etc. have needed clean water resources and their facilities are being tested.

Providing MDHHS cost information available to finance chief.

Worked with DTMB to provide 300 palm cards for our Chief Deputy Director.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team

Joe Madziar and Andy Neuman were up in Flint assisting DEQ with mapping of the Michigan School for the Deaf (MSD). They were able to complete the two school building. Construction to replace all of the fixtures in the dormitory at the school was in process today. Because of this Joe and Andy were unable to complete the mapping for the dormitory. Water testing will be completed at MSD tomorrow (Jan. 23).

Alesha Gensler, Joe, Andy and the DEQ had a conversation with MSD's principal and administrative manager regarding issues and concerns of the parents of students at the school. There is a lot of concern regarding showering due to the fact that a number of these students have medical issue that could result in water getting underneath the skin and being absorbed into the body (example: feeding tubes).

MSD is having a meeting with parents on Feb. 9 to address these issues. LARA has communicated these concerns with DHHS and MDE. DHHS is working to see if there are medical issues with bathing, given these skin openings. DHHS and MDE is also coordinating to see if there can be a medical person available for the parent meeting on Feb. 9.

Joe completed a materials list required to finish construction at Freeman Elementary School to replace the remaining 22 fixtures. After these materials are recieved, LARA will coordinate with the school to complete construction and then coordinate with DEQ to complete a re-testing of the water.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 221300012016

2. UNIT: TASK FORCE FLINT

3. POC: CPT Shuster, Stephen M. Cell: Email: stephen.m.shuster.civ@mail.mil

4. PRESENT LOCATION: 1101 Beach St., Flint, MI 48502. Room G51.

5. SITUATION OVERVIEW: TF FLINT has Soldiers deployed to the Flint Water Crisis in support of DSCA Operations. In the last 24 hours, TF Flint conducted WRT operations with 18 teams and made 6,300 contacts throughout the City of Flint, MI. The Point of Distribution (POD) continued receiving, tracking, and issuing out water, filters, replacement filters, and water test kits and receiving water test samples from the citizens of Flint, MI.

6. OWN SITUATION DISPOSITION /STATUS: TASK FORCE FLINT currently has : Soldiers deployed in support of the Flint Water Crisis.

a. 19 Soldiers conducting Mission Command operations out of Room G51, Genesee County EOC.

b. 65 Soldiers assigned to POD operations. Breakdown as follows; Soldiers are assigned and divided to man (5) Pods. 1 Soldier is assigned to be the Supply NCO. 2 Soldiers are assigned to the Genesee County EOC. 1 Soldier is assigned as the Public Affairs NCOIC.

c. 180 Soldiers assigned to WRT operations divided into 18 Teams, operation out of the Genesee County EOC.

d. Five (5) Soldiers assigned to warehouse operations at the AMR run Clio Rd. water resource distribution warehouse.

7. OPERATIONS: Next 24 consists of deploying 15 WRTs (180 PAX) with MSP and Genesee County Sheriff Department. PODs continue water/filter distributions throughout the 5 designated fire stations. Five (5) Soldiers conduct warehouse operations at the AMR operated Clio Rd. water resource distribution warehouse. TF FLINT Mission Command conducts battle tracking and completes/issues OPORD 16-002 (OPERATION FLINT WATER RESPONSE).

8. PERSONNEL: 269 Soldiers currently assigned to the Flint Water Crisis. Composition as follows: 19 conducting Command and Control, 65 conducting water distribution from the PODs, 180 conducting water distribution as WRTs, and 5 conducting warehouse operations at the AMR operated Clio Rd. water resource distribution warehouse.

9. INTELLIGENCE / FORCE PROTECTION: The PODs have been experiencing 2-4 daily occurrences of above average aggravation from citizens. No force protection measures have been taken at this time. Genesee County Sheriff's Department and the Michigan State Police have been notified of said incidents and are offering assistance when available. WRTs receiving daily weather reports during their morning brief.

10. LOGISTICS: See below.

a. Accountability of units from the Clio Rd. water resource distribution warehouse is being addressed with the addition of a five (5) Soldier logistics element.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: Not used.

13. COMMANDER'S EVALUATION:
• Talking points from the state JIC CUB slides have been disseminated to all Soldiers ISO POD operations. In conjunction with the media talking points provided by the RSOI, all of the Soldiers are well prepared to handle the increased media coverage and presence at the fire stations.
• Test kits that are returned to the PODs are being picked up no less than every other day by Mark
• FEMA is scheduled to conduct daily inventories of the supplies at the PODs.
• CPT Betz, TF FLINT S4, took receipt of laundry bags from mobile 220730R January 2016. The bags are in the process of being distributed to the soldiers.
• Total of all items at POD as of COB 21 January 2016 currently being calculated.
• TF FLINT WRTs made 6,300 contacts on 20 January 2016. Since doubling the number of PDAs issued to the teams, resource distribution has increased dramatically. As of 1230 today, over 8,000 contacts have been made on 22 January 2016.

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

NWS Detroit will begin providing morning SEOC brief and Activity Log posts effecting Tuesday, January 26th. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

State Police (MSP)

MSP and GCSD supported 15 National Guard staffed teams that were out today and there were 15 Red Cross teams. 6284 homes were visited today.

The MSP/National Guard teams are not currently tooled to conduct on-demand services and are singularly focused on reaching all areas of the City of Flint with our Water Response Team assets for phase 2 operations by Sunday, January 24th.

Further, we are not currently equipped to take in volunteers to work on our teams. All volunteers should be directed to the American Red Cross.

MSP SEOC received approval for MING to provide 3 cyber trained personnel to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters beginning on 1/22/16 for 30 days with possibility of extension, or until mission complete. Mission is to coordinate, advise, and assist with cyber defense efforts related to the Flint water crisis. The MING personnel reported to MC3 today (1-22-16).

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Six (6) drivers on Friday, January 22 and three (3) drivers on Saturday, January 23.

Additional 30 tablets being configured for the Water Response Teams (151 tablets to date)
Provided an additional 500 credentialing badges for Water Response Teams (1165 credentials to date).
Procured 90 rolls of stretch wrap for the Clio Rd. Warehouse. 21 delivered tonight (1/22) and remaining delivered tomorrow (1/23).
Provided additional access cards for FEMA staff for parking and access to the Flint State Office Building.
Providing costs for DTMB resources to Financial Chief.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

Captain Chris A. Kelenske
State Coordinating Officer

Incident Period: April 25, 2014 – Continuing

FEMA

January 21, 2016

Overview

FEMA-3375-EM-MI

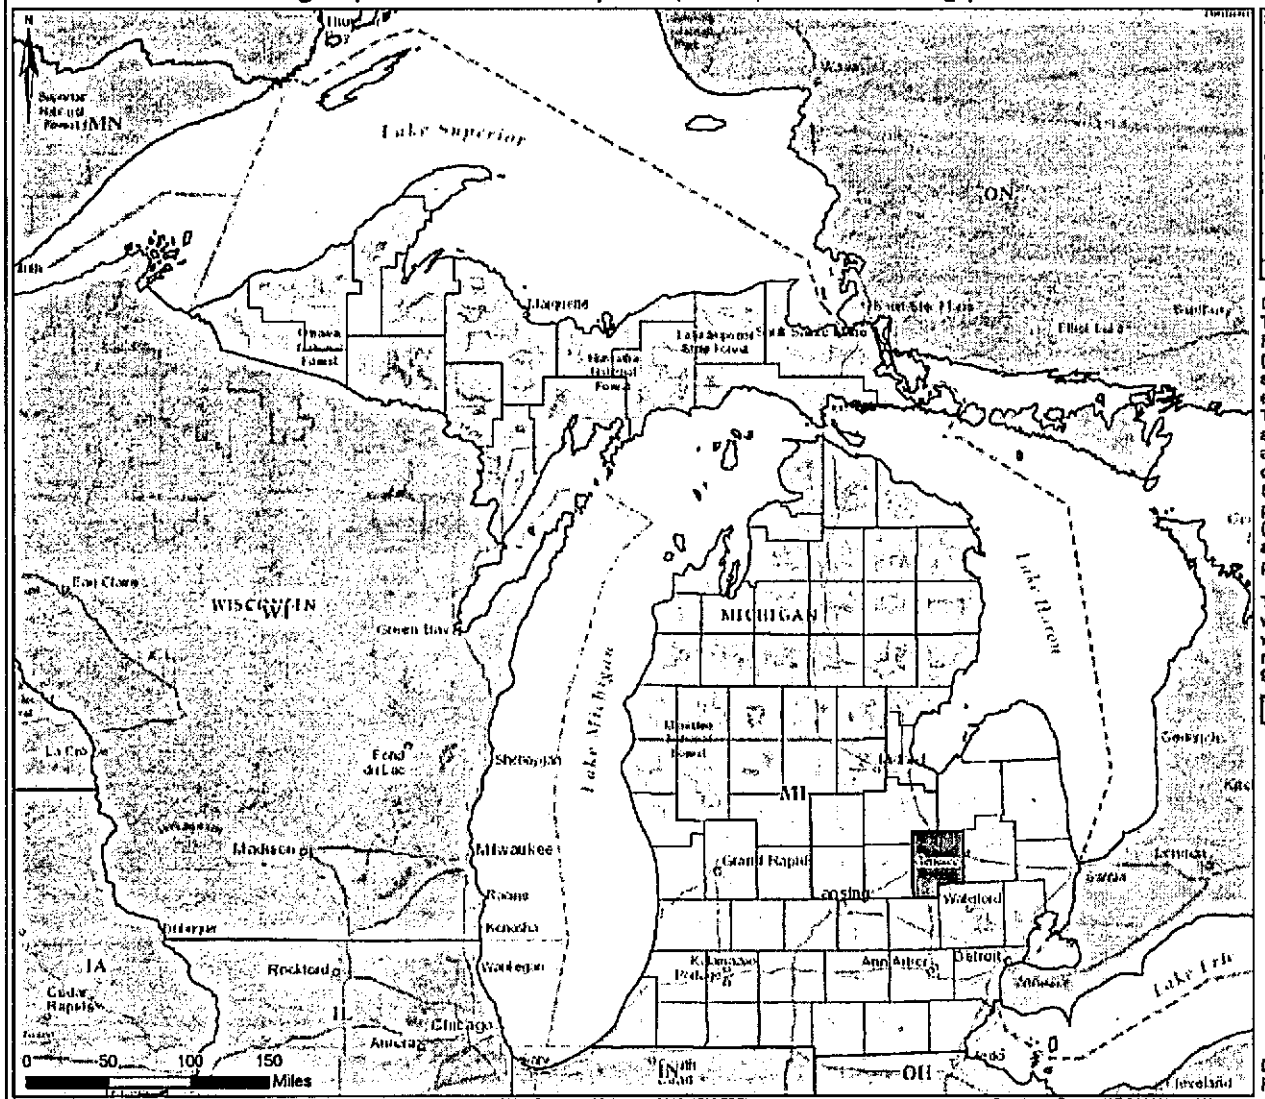
Event	City of Flint – Contaminated Water
Incident Period	April 25, 2014 and ongoing
Governor's Request	January 14, 2016
President's Declaration	January 16, 2016
Programs Authorized	Direct Federal Assistance, appropriate assistance to save lives and to protect property and public health and safety under Category B, emergency protective measures
FEMA-State Agreement and Amendments	In process; currently with the Governor's office

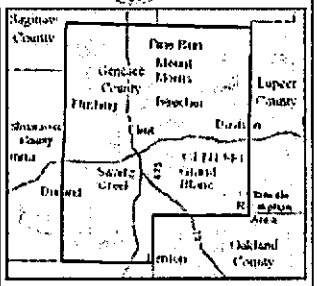
FEMA

Michigan Contaminated Water Emergency Declaration Map

FEMA-3375-EM-Michigan | Incident Period: April 25, 2014, and continuing | Declared: 16 Jan 2016

FEMA





Data Layer/Map Description:
The Department of Homeland Security, Federal Emergency Management Agency (FEMA), is authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, FEMA is authorized to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

This emergency assistance is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County.

Declared County (Genesee)

Data Sources:
FEMA, ESRI, HSIP Gold 2015

FEMA

OFFICE OF CHIEF COUNSEL

- What is the FEMA assistance pursuant to EM-3375-MI?
  - Limited to Direct Federal Assistance (DFA)
  - Limited to 90 days from date of declaration (1/16/16).
  - Cost share: FEMA 75%; State 25%
  - No back reimbursement to State prior to Declaration for any State cost
  - Limited to: water, water filters, water filter cartridges, water test kits, (commodities) and other necessary related items.

OFFICE OF CHIEF COUNSEL

- What is the meaning of the additional language "and other necessary related items?"

- It is not meant to expand the scope of this limited declaration.

- Will have to be decided on a case-by-case basis.

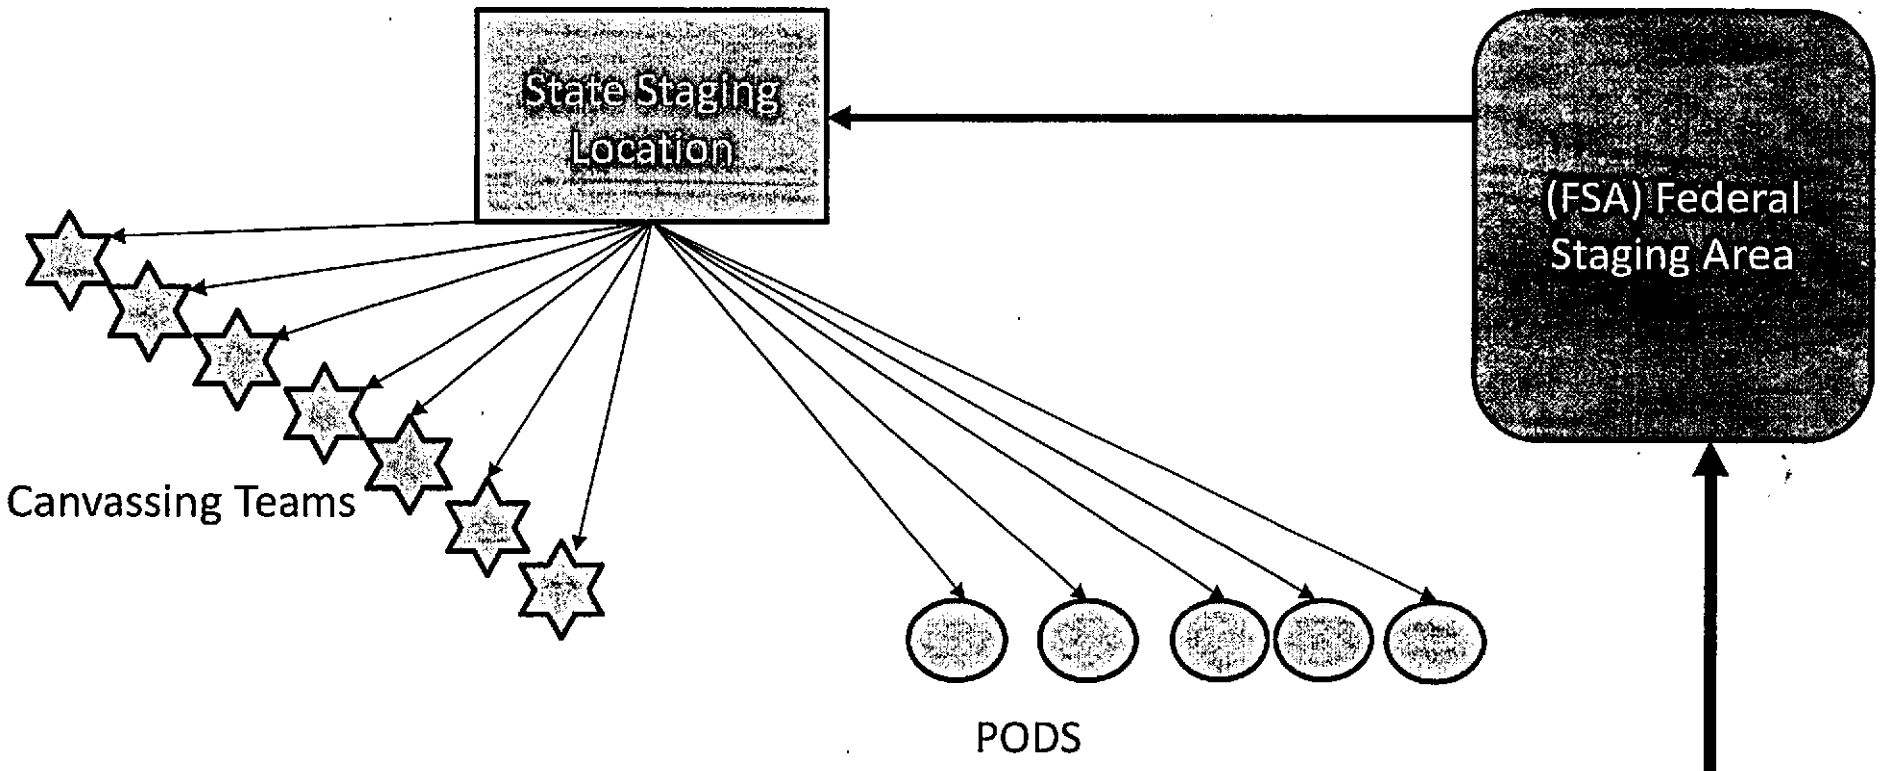
FEMA Activity/Site

STATE Activity/Site



FEMA will provide tracking resources and technical assistance at State Staging, PODs

FEMA Procured Resources

FEMA

Operations/Logistics

- Identify State unmet resource needs:
  - Water (bottled)
  - Water filters (PUR & Brita)
  - Replacement Water Filter Cartridges
  - Water Test Kits
- Execute commodity distribution strategy
  - 8 trailers water delivered daily to the state staging area (115,200 liters).
  - Filters, Replacement Cartridges, Water Test Kits through State initiated resource requests.

FEMA

Operations/Logistics

- Work closely with the State to determine the required supply of filter cartridges to sustain the impacted community for one year.
- Coordinate with the State to assist in the development of a long term replacement cartridge strategy.
- Provide technical assistance for resource tracking and inventory management.

FEMA

FEMA

Incident Summary

- On April 25, 2014, the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source. The harmful effects of untreated water caused leaching of lead damaging the city's water infrastructure and potential negative health impact to the citizens. On October 16, 2015, The City of Flint switched back to the Detroit water system.

- On January 5, 2016, the Governor declared a State of Emergency for the City of Flint within the County of Genesee. On January 12, 2016, the Governor requested Non-Stafford Act support with the request being approved and a Federal Disaster Recovery Coordinator appointed. On January 15, 2016, the Governor requested an Emergency Disaster and a Major Declaration for the City of Flint, Genesee County, Michigan.

- On January 16, 2016 an Emergency Declaration was declared authorizing appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

37,697 Home Visits To Date by Water Resource Teams

FLINT, Mich. – Over 30 water response teams made up of more than 300 community volunteers and Michigan National Guard Soldiers and Airmen distributed water resources to 5,920 Flint homes today. Many of today's visits are the second time a team contacted the resident to provide bottled water, filters, water replacement cartridges and water testing kits.

"We are very appreciative of the generous outpouring of support for Flint's residents," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Volunteers continue to support this effort with their time, talents, and treasure."

This weekend, door-to-door efforts will continue with the National Guard and more than 200 volunteers coordinated by the Community Volunteer Reception Center. As a reminder, all community volunteers on the water response teams will be wearing either official State of Michigan or Red Cross identification.

As part of the distribution process, members of the National Guard at the water resource sites are asking residents seeking filters and replacement cartridges to share their address in order to more accurately gather information for long-term recovery efforts. However, no resident will be denied resources if an address is not provided.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 121,400 cases of water
- More than 82,600 water filters
- More than 23,400 water testing kits

This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

MORE

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 130,782 cases of water
- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

37,679 Homes Visited To Date by Water Resource Teams

FLINT, Mich. – Over 30 water response teams made up of over 300 community volunteers and Michigan National Guard Soldiers and Airmen, distributed water resources to 5,920 Flint homes today. They provided residents with free bottled water, filters, water replacement cartridges and water testing kits.

"We continue to be appreciative for the generous outpouring of support for Flint's residents. Volunteers continue to support this effort with their time, talents, and treasure," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management & Homeland Security Division.

This weekend, door-to-door efforts will be continue with the National Guard and more than 200 volunteers coordinated by the Red Cross' Community Reception Center. As a reminder, all community volunteers on the water response teams will be wearing either official State of Michigan or Red Cross identification. At no time will they enter a resident's home or request payment for services or supplies.

As part of the distribution process, members of the National Guard at the water resource sites are asking residents seeking filters and replacement cartridges to share their address in order to more accurately gather information for long-term recovery efforts. However, no resident will be denied resources if an address is not provided.

To date, XXXXX homes in the City of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 90,300 cases of water
- More than 73,200 water filters
- More than 19,800 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 111,630 cases of water
- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information. Please note the American Red Cross is no longer able to accept material donations at this time.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

No ID required for Flint residents to receive free water resources

Flint residents are encouraged to visit five water resource sites across the city, where they can receive free bottled water, filters, water replacement cartridges and water testing kits.

Identification is not required to receive any of these resources.

The state's goal is to get a water filter in every household, because filters are the best way to provide access to safe drinking water. As part of the distribution process, members of the National Guard at the water resource sites ask residents seeking filters and replacement cartridges to share their address in order to more accurately gather information for long-term recovery efforts. No resident will be denied resources if an address is not provided.

"No one will be denied the resources they need to ensure their drinking water is safe. Our goal is to reach every home and every Flint resident through the efforts of our water resource teams and sites," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management & Homeland Security Division.

Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1

310 East 5th St.

Flint, MI 48502

Fire Station #3

1525 Martin Luther King Ave.

Flint, MI 48503

Fire Station #5

3402 Western Road

Flint, MI 48506

Fire Station #6

716 West Pierson Road

Flint, MI 48505

Fire Station #8

202 East Atherton Road

Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

GOVERNOR'S ACTIVITIES

Flint interview/Op Ed
Governor goes on Morning Joe to discuss Flint (MSNBC)

Gov. Snyder: I will fix this, and I mean it (USA Today)
Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures.

Flint water crisis: EPA regional administrator resigns (CNN)
The Environmental Protection Agency's regional administrator for Flint, Michigan, has resigned, the agency said in a statement Thursday.

Top EPA official resigns over Flint's toxic water crisis (Fox News)
The Environmental Protection Agency's top Midwest official is resigning over the Flint water crisis, the agency announced Thursday, amid criticism over the agency's alleged inaction in preventing the city's water from being contaminated with lead.

EPA regional chief resigns in connection with Flint crisis (AP)
A regional director of the U.S. Environmental Protection Agency resigned Thursday in connection with the drinking water crisis in Flint, Michigan, and EPA chief Gina McCarthy issued an emergency order directing state and city officials to take actions to protect public health.

Snyder hasn't been invited to testify before Congress (Detroit News)
Gov. Rick Snyder has not been invited to testify before Congress on Flint's lead-contamination water crisis, his spokesman said Thursday. U.S. Rep. Brenda Lawrence's office suggested Thursday in a published report that Snyder would be called to testify before the U.S. House Committee on Oversight and Government Reform about the water contamination crisis in Flint that is consuming Snyder's administration.

Congress to invite Gov. Rick Snyder to testify on Flint water crisis (Macomb Daily)
A U.S. House committee is expected to hold a hearing on the Flint water crisis Feb. 3, and will invite Michigan Governor Rick Snyder to testify before Congress. WDIV reports Rep. Brenda Lawrence formally requested the hearing last week. Snyder apologized to Michigan and Flint during his State of the State address Tuesday, telling Flint residents, "I let you down." Promising greater transparency, Snyder released 274 pages of emails pertinent to the Flint water crisis.

Gov. Snyder not yet called to testify before Congress, office says (Mlive)
Congress has not contacted Gov. Rick Snyder to testify about the Flint water crisis, a spokesman for the governor's office said Thursday, Jan. 21. Commenting on a Freep.com report initially indicating Snyder was expected to be called to testify before congress, press secretary Dave Murray said on Jan. 21 the governor's office "received no communication from the Oversight and Government Reform Committee regarding a possible hearing and look forward to hearing from its leaders."

Governor Rick Snyder will be asked to testify before Congress in Flint water crisis (WXYZ)
Governor Rick Snyder will be requested to testify at U.S. Congressional hearings in connection to the Flint water crisis, according to the office for U.S. Representative Brenda Lawrence.

Snyder could be asked to testify before Congress on Flint (Freep)
U.S. Rep. Brenda Lawrence's office said Tuesday that she and her staff have received word a U.S. House committee will hold a hearing Wednesday, Feb. 3, on the Flint water crisis and the state and federal government response to high lead levels there, but committee staff declined to confirm the report, calling it "premature."

Michigan governor invited to congressional hearing on Flint water crisis (Reuters)
Congresswoman Brenda Lawrence has invited Michigan Governor Rick Snyder and other officials to testify about the Flint water crisis before the House Oversight and Government Reform Committee on Feb. 3, her office said on Thursday.

Flint Water Crisis Update: Congress Expected To Call On Snyder To Testify (International Business Times)
A U.S. House committee is expected to hold a hearing Feb. 3 regarding Flint, Michigan's ongoing water crisis and the state and local governments' response to it, U.S. Rep. Brenda Lawrence's office said Thursday, the Detroit Free Press reported. Among those expected to be invited to testify before the House Oversight and Government Reform Committee is Michigan Gov. Rick Snyder.

Snyder lays blame for Flint on DEQ employees (Detroit News)
Gov. Rick Snyder on Friday continued to lay blame at the feet of state Department of Environmental Quality employees for failing to require Flint to add corrosion control chemicals to its river water that could have prevented lead from leaching into the drinking water supply.

Michigan Officials Dismissed Flint Water Concerns As Crisis Deepened (Fortune)
Michigan governor Rick Snyder's administration downplayed concerns about problems with Flint's water in internal e-mails, criticizing advocates for Flint as playing "political football."

Michigan government passed the blame on Flint water crisis for months with little action, emails show (Fox News)
The Environmental Protection Agency's top Midwest official is resigning over the Flint water crisis, the

agency announced Thursday, amid criticism over the agency's alleged inaction in preventing the city's water from being contaminated with lead.

E-Mails Show Snyder Knew About Flint Water in September (Michigan Radio)
Governor Rick Snyder has released 274 pages of personal electronic communications going back two years related to the Flint water crisis. The messages detail communications between Governor Snyder and top aides on the Flint water crisis. The governor says he released the e-mails so the public could determine what he knew and when. There were no big surprises.

State Lawmaker Says Governor Snyder Did Not Release All Emails (WILX-TV)
Growing concerns this morning that Governor Rick Snyder did *not* release all of his e-mails regarding the Flint water crisis. A state lawmaker claims he has proof.

Hacker group 'Anonymous' threatens leaders connected to Flint water crisis (WDIV)
In a video posted this week online, the hacker group "Anonymous" is threatening leaders connected to the Flint water crisis. The video runs more than four minutes and promises action for the lead-tainted water situation that has a significant spike in lead poisoning cases and a shortage of fresh water in the city.

Hacktivist group 'Anonymous' goes after Governor Snyder in Flint water crisis video (Fox 17)
A faction of the hacktivist group 'Anonymous' has posted a video on YouTube, urging action on the Flint water crisis.

Hacker group Anonymous starts Flint campaign, posts say (Freep)
The activist hacker group Anonymous has launched a Flint operation and is calling for Gov. Rick Snyder to be charged with "voluntary or involuntary manslaughter," according to postings on the Internet and social media. A video purportedly from Anonymous was posted Wednesday on the website of IntelGroup, which is described as a faction that supports Anonymous.

Bill signing
TC Airport Reacts to Gov Snyder's Signing of Aviation Funding Bill (9&10 News)
Some changes for Michigan airports today as Governor Snyder signed new funding legislation. The aviation funding bill ensures that the aviation fuel tax is used for aviation purposes. The bill has been a long time coming according to Cherry Capital Airport director Kevin Klein.

LEGISLATIVE NEWS

Inside Michigan state representative's attempt to cover-up secret affairs with fake sex scandal (ABC News)

A salacious, accusatory email and a covertly-obtained audio recording on a cell phone resulted in the downfall of two Michigan State Reps. Todd Courser and Cindy Gamrat, elected into the Michigan House of Representatives in November 2014, ultimately lost their seats and subsequent re-election campaigns due to their romantic extramarital affair and attempted cover-up.

Michigan lawmakers play catch-up in Flint water crisis (NPR)

It's been a tough week for lawmakers in Michigan. On Tuesday, Gov. Rick Snyder apologized to Flint residents about the water contamination scandal. Then the next day, the governor's office released hundreds of pages of emails detailing its handling of the growing problem.

Michigan: Lawmakers try to toughen strike laws (NYT)

Angered by teacher sickouts that have closed many Detroit schools, majority Republicans in Michigan's Legislature on Thursday proposed legislation to make it easier to deem such work stoppages illegal strikes. The move came a day after a sickout by teachers protesting dilapidated buildings and understaffing shut down more than 85 of the district's roughly 100 schools. Teacher strikes are illegal in Michigan.

Stronger standards needed as renewable prices decline, advocates say (Midwest Energy news)

Declining renewable energy prices do not mean Michigan lawmakers should abandon proposals to expand standards for how much clean energy should comprise the state's energy mix, advocates say.

Lawmakers hold meeting about state's M-STEP test (FOX 47)

State lawmakers have a lot of questions about Michigan's new standardized test for school kids. Specifically, why its taking so long to get results.

Survey: Big support for state control of Belle Isle (Detroit News)
The first public survey about Belle Isle since the state took control of the Detroit jewel two years ago found strong support for the state running the show.

OPINION

Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman (Washington Post)
It seems like every day, there's more bad news for Michigan Gov. Rick Snyder (R) and the local, state and federal officials in charge as the Flint water crisis worsened.

Editorial: Detroit lawmakers should back DPS (Detroit News)
With widespread teacher sickouts, buildings in poor condition and a district quickly going broke, Detroit Mayor Mike Duggan has started warming to the governor's plan to overhaul the finances and governance of Detroit Public Schools. His backing should help sway Detroit lawmakers, and that could speed the process in Lansing.

Lennox: Gov. Snyder not to blame in Flint crisis (Detroit News)
The real culprit behind the Flint water crisis is Genesee County's drain commissioner.

In Snyder's Lansing, information flows slowly (Detroit Free Press)
Watching your governor squirm in his seat is a singular experience.

Snyder sincere on Flint, but core problems remain (Detroit Free Press)
The governor's apology to Flint during the State of the State address seemed to be sincere. But he has found himself in this fix because of basic conservative Republican values. Values that put more weight on profits rather than people. Values that support people of wealth not having to pay much in the way of taxes.

Did Snyder release all Flint e-mails? Maybe not (Detroit Free Press)
A state legislator and former Flint City Council member charged Thursday that Gov. Rick Snyder has misled the public by not releasing all of the e-mails about the Flint water crisis, including one the

representative sent a year ago saying that "the city of Flint stands on the precipice of civil unrest" over not having clean drinking water.

Howes: MI 'comeback' endangered by Flint, DPS crises (Detroit News)
The price of incompetence can be high. Even as President Barack Obama came to town this week to tout the auto revival and its upside push to Detroit's revitalization, the two biggest crises of Gov. Rick Snyder's tenure threaten to reshape the "new Detroit" inside the Michigan "comeback state" narrative.

WXYZ Editorial: Fixing Flint water - Governor Snyder's actions will speak louder than words! (WXYZ)
A lot of promises have been made. Now, let's make sure those promises are kept! In his recent State of the State Address, Michigan Governor Rick Snyder devoted much of his speech to the man-made water crisis in Flint.

Editorial: Cooperate for Flint's future (Detroit News)
The moment has come for everyone to stop shouting and pull together to help the people of Flint. The water crisis demands a concentrated and cooperative effort from all who profess to care about the city and its residents. Angry protests and mass demonstrations served the purpose of putting pressure on the Snyder administration to act with urgency.

Depraved Indifference Toward Flint (New York Times)
The 274 pages of emails released under pressure on Wednesday by Gov. Rick Snyder of Michigan show a cynical and callous indifference to the plight of the mostly black, poverty-stricken residents of Flint, who have gone for more than a year with poisoned tap water that is unsafe to drink or bathe in. There is little doubt that an affluent, predominantly white community — say Grosse Pointe or Bloomfield Hills — would never face such a public health catastrophe, and if it had, the state government would have rushed in to help.

How officials failed Flint: Our view (USA Today)
A year before lead-contaminated water in Flint, Mich., became a national scandal, General Motors provided what should have been an unmistakable warning of a disaster in the making. GM's Flint plant sought permission to switch to a different water supplier after finding rust on newly machined parts.

<Date>

<Dear parent(s)/guardian(s):>

Your child's blood lead screening result is attached. Your child's blood lead test shows an exposure to lead.

Blood lead levels of 5 µg/dL or higher can be harmful. Lead can lower IQs and cause behavior, learning and hearing problems.

Your child needs another blood test in one to three months. It is important to make sure that your child's lead level is not going up.

About Lead

Lead is a serious health hazard. Lead poisoning happens by eating, drinking or breathing lead.

Lead is found in many places. It has been found in the City of Flint's water. Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently. Lead paint is another common source of lead poisoning. It is often found in the paint of homes built before 1978. Some soils, dishes, make-up, toys and home remedies also contain lead. Jobs and hobbies like auto repair, making stained glass, jewelry and bullets may also use lead.

Tips to Keep Children Safe from Lead

Water:

- Get your water tested. It's free. Call 810-787-6537 or visit www.michigan.gov/flintwater to find a water resource site.
- Use a water filter. Call 2-1-1 or visit www.michigan.gov/flintwater to find a water resource site.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you absolutely must use unfiltered water, run the water for at least five minutes before you use it.

Healthy Diet:

- Eat foods high in iron, calcium and Vitamin C. Visit www.michigan.gov/flintwater for more nutrition information.
- Contact WIC or SNAP at 810-237-4537 if you need fresh and healthy foods.
- Wash hands with soap and warm water before eating.

Cleaning:

- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- Wash bottles, toys and pacifiers with soapy water.
- Take your shoes off when indoors and use door mats to reduce the amount of dirt in the home.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean window sills and play areas often using paper towel and soapy water.
- It is safe to wash clothes in your washer and dryer.

Follow-Up

Call your child's doctor for a follow-up lead test. Be sure to ask for a venous lead test.

If your child needs a doctor or health insurance, contact the MI Child or Healthy Kids programs at 810-257-3039 or 1-888-988-6300 for information.

Keep this letter and results for your child's records.

Best regards,

Sherry Taylor, RN BSN

Release #: 13

For more information contact:
Joint Information Center
888-EMD-TODAY (888-363-8632)

No ID Required For Flint Residents To Receive Free Water Resources

FLINT, Mich. – Flint residents are encouraged to visit five water resource sites across the city, where they can receive free bottled water, filters, water replacement cartridges and water testing kits.

Identification is not required to receive any of these resources.

The state's goal is to get a water filter in every household, because filters are the best way to provide access to safe drinking water. As part of the distribution process, members of the National Guard at the water resource sites ask residents seeking filters and replacement cartridges to share their address in order to more accurately gather information for long-term recovery efforts. No resident will be denied resources if an address is not provided.

Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

MORE

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

EST.1963
niagara
BOTTLING, LLC

NIAGARA WATER IS SAFE

HERE'S WHY

Last week, we issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from June 10-18th, 2015 because the operator at one of our contracted springs failed to notify us that there was evidence of *E. coli* bacteria at his source.

Because there has been a great deal of misinformation reported and circulated over the last 24 hours, we felt it was necessary to issue this clarifying statement.

Niagara Bottling performs extensive testing on both incoming spring water as well as finished products. We have confirmed there have been no issues or *E. coli* contamination of any kind detected in our finished products or in the spring water that was delivered to our bottling facility.

Even if it had been present in the incoming spring water, we utilize quality systems and disinfection technology that would ensure that our product is free from contamination. Despite this, once we were informed of the potential presence of *E. coli* at the spring source, we immediately shut down our operations, disinfected our bottling lines and initiated a voluntary recall in an abundance of caution and in the interests of consumer safety.

This recall only relates to spring water produced in our Pennsylvania manufacturing facilities from June 10-18th, 2015. It does not relate to any purified water or any spring water produced outside of Pennsylvania or outside the June 10-18th, 2015 timeframe.

To determine whether your product is part of this recall, please visit Niagarawater.com and click on "Consumer Notice" at the top of the home page. This will take you to the notice of the recall and a list of codes of the water produced during these 8 days. If you don't see your product on the list, it was completely unaffected by the recall and is completely safe to drink.

Niagara has been family-owned and family run for over 50 years. Nothing is more important to us than consumer safety, which is why we voluntarily issued this recall.

If you have any additional concerns, please contact our Consumer Affairs Department at (888) 943-4894.

LEAD IN FLINT WATER

GENERAL INFORMATION

- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o *Call 2-1-1 to find out where you can pick up a free water filter.*
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, they should be tested for high blood-lead levels.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. *Call 2-1-1 if you need help getting there.*
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- *Use cold, filtered water for cooking.*
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- Use door mats. Take your shoes off when indoors.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.
- It is safe to wash clothes in your washer and dryer.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

OTHER SOURCES OF LEAD IN YOUR HOME

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 20, 2016, appeal for a major disaster declaration for the State of Michigan as a result of water contamination described in your request as beginning on April 25, 2014, and continuing. You specifically requested Individual Assistance and Public Assistance, including direct federal assistance for Genesee County and Hazard Mitigation statewide.

After a thorough review of all of the information contained in your initial request and appeal, we reaffirm our original finding that a major disaster declaration under the Stafford Act is not appropriate. The request does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. §§ 206.2(17). The incident was not a result of a natural catastrophe, nor was it caused by a fire, flood, or explosion. Therefore, I must inform you that your appeal for a major disaster declaration is denied.

As the President has directed, Federal agencies, including FEMA, will continue to assist the State however possible in addressing the needs of the citizens in Flint. Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response at the US Department of Health and Human Services, the Federal government's senior response official, remains our main point of contact for coordinating these ongoing efforts.

Sincerely,

W. Craig Fugate
Administrator

Flint Water Operations Plan

Phase 1 – Initial distribution

- Canvassing teams initiated by sheriff; fleshed out by MSP, ARC, NG, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing based on geographic areas.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by NG.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Phase 1 "complete" the morning of January 21 based on feedback from local EOC.

Phase 2 – Saturation

- A second round of canvassing teams begins January 21 using NG (MSP/Sheriff Dept over watch) and ARC personnel augmented by volunteers as judged appropriate.
- Goal – Re-touch every residence with water, filters, filter cartridges, and test kits to demonstrate we made every effort to supply all residences with potable water
- Canvassing based on geographic areas.
- Points of Distribution (PODS) staffed by NG continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 addressing all questions and serve as POC for all special needs requests (hot shots).
- Phase 2 "completion" planned for COB January 24; any remainder to be addressed by ARC teams/Hot shots.

Phase 3 – Transition

- Goal – Move from manual distribution mechanism to less labor intensive processes.
- Develop messaging for implementation of this phase and transition to next phase (phase out of distribution of water, filters, cartridges, and test kits noting PODS to cease operation on January 31).
- Identify new water only distribution sites operated by faith-based or other volunteer groups.
- Determine and implement best methodology for long-term distribution of filters and filter cartridges.
- Phase 3 complete with close of PODS COB January 31.

Phase 4 – Long Term Support

- Goal – Establish long-term, workable processes to sustain provision of potable water to residents.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or faith-based/other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, or other measureable program.

Phase 5 – Normal Operations

- Goal – Resume normal operations.
- Develop messaging for implementation of this phase and transition to next phase.
- Analysis complete, solutions implemented and public trust in Flint water reestablished.

Water Response Teams Continue Door-to-Door Canvass in Flint

FLINT, Mich. – By the end of the day today, water response teams had canvassed all areas of the city providing Flint residents with free bottled water, filters, water replacement cartridges and water testing kits.

To date, 30,770 homes in the city of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies. Water response teams are composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen.

"While we have visited every part of the city, we know we have not yet reached every home, so our work is not done," stated Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Water response teams will continue door-to-door visits until we are sure every Flint resident has the safe water resources they need."

As part of the distribution process, members of the water response teams ask a series of questions, such as what type of filter they have and whether the resident needs assistance installing a water filter. The questions help in ensuring the team is distributing an accurate amount of supplies and also allows for the collection of information necessary for long-term recovery. While answering the questions is beneficial to operational efficiency, the questions are voluntary and residents will still receive water resources if they refuse to answer questions.

As previously announced, all members of water response teams wear official credentialed badges with a State of Michigan seal hologram so they can be easily identified. At no time will they enter a resident's home or request payment for services or supplies.

To date, the following resources have been distributed at the water resource sites and by water response teams:

- More than 105,091 cases of water
- More than 79,571 water filters
- More than 21,625 water testing kits

MORE

Since January 5, the State of Michigan has purchased the following resources:

- 124,398 cases of water
- 115,700 water filters
- 61,161 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Water Response Teams Continue Door-to-Door Canvass in Flint

FLINT, Mich. – By the end of the day today, water response teams had canvassed all areas of the city providing Flint residents with free bottled water, filters, water replacement cartridges and water testing kits.

To date, 30,770 homes in the City of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies. Water response teams are composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen.

"While we have visited every part of the city, we know we have not yet reached every home, so our work is not done," stated Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Water response teams will continue door-to-door visits until we are sure every Flint resident has the safe water resources they need."

As part of the distribution process, members of the water response teams ask a series of questions, such as how many members live in the household, whether there are children in the home and whether the resident needs assistance installing a water filter. The questions help in ensuring the team is distributing an accurate amount of supplies and also allows for the collection of information necessary for long-term recovery. While answering the questions is beneficial to operational efficiency, the questions are voluntary and residents will still receive water resources if they refuse to answer questions.

As previously announced, all members of water response teams wear official credentialed badges with a State of Michigan seal hologram so they can be easily identified. At no time will they enter a resident's home or request payment for services or supplies.

To date, the following resources have been distributed at the water resource sites and by water response teams:

- More than 105,091 cases of water
- More than 79,571 water filters
- More than 21,625 water testing kits

MORE

Since January 5, the State of Michigan has purchased the following resources:

- 124,398 cases of water
- 115,700 water filters
- 61,161 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit https://www.youtube.com/watch?v=KMaAZA1c3oA to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit www.helpforflint.com for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations. Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 21, 2016

GENERAL INFORMATION:

- ☑ **RESOLVED:** ACLU of Michigan has agreed to take referrals from 2-1-1 for callers asking about the Flint class action lawsuits. The number for the ACLU Paralegal is is 313-578-6802. This information has been added to the 2-1-1 database and is searchable under the term "Class Action Litigation".
- ☑ The JIC released an official statement regarding concerns of lead in bottled water based on readings from the TDS (Total Dissolved Solids) meter provided with Zerowater brand filters. The statement clarifies the meter does not test for lead. MDEQ tested each of the 21 brands of water being distributed for lead and copper – results indicated 'Not Detected" for both contaminants. At the request of SEOC 2-1-1 is sharing this information only if there is a direct question from callers about bottled water safety.
- www.flintwaterclassaction.com/ is a web site set up by one of the law firms filing a calls action suit. The site has a notice there will be an informational meeting on the class action lawsuit on February 16, 2016 from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus.
- The SEOC OPS Health and Env MDEQ Desk contacted 2-1-1 about calls coming to the SEOC desk from the general public and asked 2-1-1s help tracking down the source of the calls. 2-1-1 verified SEOC contact information is ***not*** listed in the 2-1-1 database. **IF YOU HEAR OF ANYONE RECEIVING INAPPROPRIATE REFERRALS FROM 2-1-1, PLEASE NOTIFY tpage@uwmich.org WITH DETAILS AND WE WILL WORK TO ADDRESS THE PROBLEM AS SOON AS POSSIBLE.**
- Earlier this week Michigan 2-1-1 provided the FEMA Voluntary Agency Liaison (VAL) based at the SEOC in Lansing with 2-1-1 data for the week of January 10. They have mapped the data to provide a visual presentation of needs. (See attached). Please respond to this email if you think it would be useful for 2-1-1 to share additional data FEMA for mapping.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume was still higher than average today, but much more manageable. Average wait time was down significantly.

- Call volume yesterday (Wednesday January 20) was one of the highest ever for the Michigan 2-1-1 system. Central Michigan staff were at the phones until 8:30 pm to return all calls received. People using the callback feature expressed no upset or dissatisfaction with the wait for a return call.

SPECIAL NEEDS/REQUESTS

- A follow up on yesterday's concern from realtors about closing on properties at-risk for lead contamination, another realtor called 2-1-1 asking for a filter for a house she just sold. 2-1-1 informed her the new residents will be able to pick up filters, or that filters are available for purchase, but the current relief efforts are focused on household residents.

- 2-1-1 has also received several calls from churches, nursing homes and business owners asking about filters for their establishments. They were told filters for businesses and organizations are available for purchase, but the current relief efforts are focused on household residents.
- In response to a question, 2-1-1 verified that Flint residents can get free replacements as their filters are used up. They are available at the same locations as other water resources. Homebound residents can call 2-1-1 to register for home delivery.

☐ 2-1-1 has received a few calls asking what to do with empty water bottles. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

RUMOR CONTROL

- Residents continue to mistrustful about local water quality and do not believe the information that it is safe for washing and other needs. This is leading to increased demand for additional bottled water, including one caller who requested enough to fill her bathtub (2-1-1 tried to reassure her and provided the DHHS hotline for more information).
- Niagara bottled water, one of the brands being distributed at fire stations, experienced a recall in the summer of 2015 due to an E. Coli concern. 2-1-1 has received several calls asking about the safety of Niagara water. Callers are being reassured and sent to the Niagara recall website for more information at http://www.niagarawater.com/consumer-notice/.

UNRESOLVED

☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	16
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/21/2016 08:00:00
SEOC Hours of Operation End:	01/21/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 21):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA/DHHS on warehouse tracking status/strategy.
o Coordinated resources and needs with donations management.
o Coordinated additional resources and tasks for new weekend volunteers (500 each day).
o Working with Red Cross to provide food bank delivery resources.
o Ordering and projecting future orders of water resources and commodities.
o Working on local business commodity supply plan.
o Coordinated filter/cartridge donation list.
o Worked with MDTMB for more iPads, more vests, and more door hangers for weekend volunteer surge.
o Worked with the JIC and GOV to establish a business resource submission tab on www.helpforflint.com
o Worked with MDOT to resolve safety issues at PODs

- JIC
o Media requests today concerning where the state is with its mission to provide water filters and resources to citizens.
o JIC messaging will be that we have geographically covered the entire city once and are working to double back and make contact with all missed residents.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday
o Confirmed team typing for Flint Water Resource Teams

o Data is for 1/21/16 as of 5:00 pm:
o Total homes visited.
- 36,179 (total).
- 5,409 (today).
o Water Cases.
- 105,091 (total).
- 10,403 (today).
o Replacement Cartridges.
- 189,428 (total).
- 1,039 (today).
o Faucet Filters.
- 79,571 (total).
- 2,356 (today).

- Planning Section.
o Published Sit Rep # 16.
o Worked with GIS to roll out updated map, created coordinated revised script for field teams.
o Participated in daily SEOC briefings and distribution process conference call.
o Participated in development of phase strategy roll out.

- Operations Section.
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop phased canvassing roll out.
o Request put in for MDOT to address traffic issues at POD Fire Station's #6 and #3.

o Warehouse Numbers as of 1800:
- Water (cases).
- 94,500.
- Filters (faucet).

• 34,284.
□ Replacement cartridges.
• 141,562.
□ Filters (pitcher).
• 0.
□ Test Kits.
• 0.

o PODs (1700 1/20 – 1600 1/21)
□ Water (cases).
• 10,978.
□ Filters (faucet).
• 1,153.
□ Replacement Cartridges.
• 445.
□ Filters (pitcher).
• 0.
□ Test kits.
• 801.

• Finance Section.
o Working with state agencies and local EM to obtain category B costs incurred since April 25, 2014.
o Continuing to compile costs incurred by state agencies for all activities related to event since activation.
o Meet with FEMA Public Assistance staff to discuss current status.
o Work on reference document for state agency financial staff for reporting of related incident costs.

• GIS Branch Updates.
• Updated the Field Team Support maps to develop grid system.
• Provided updated map of vulnerable populations for the MDCH.
• Provided list of vulnerable individuals to local EOC through local EOC situation unit leader.
• Released V3 of the field data collection app with new form data for second round of home visits.
• Updated Flint Water Response Team activity map for distribution by the JIC.
• Provided data for the Recovery Branch on the Field Teams Activity.
• Cross referenced health facilities and adult foster care to identify facilities in the affected area.
• Provided list of franchise customers beyond City of Flint limits to Public Safety Branch.
• MSHDA was provided a map of active water subscribers in the area.
• Provided updated lead data to U of M Flint and coordinated with FEMA GIS to complete lead service line mapping.
• Updated operational dashboard for field team activity (still need to provide updated dashboard for PODS).
• FEMA Logistics recommended inventory management be integrated into the dashboards and GIS web-developers are actively researching a strategy to accomplish this.

DTMB:
• Process additional resource requests for warehouse commodities, supplies for volunteer teams for the weekend, and space for water samples.
• Provided FEMA staff with access cards, office space, and parking for Flint office building.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Dr. Nicole Lurie from HHS was at the CHECC and SEOC today to explain the US DHHS transition.
• Disaster distress helpline is up and running this afternoon, messaging will be going out through JIC.
• Worked with GIS to map the medically dependent persons.
• Conference call held with the CHECC, SAMHSA, and local HD on DBH.

DEQ
• Working to increase staffing levels at the DEQ testing lab to process samples more efficiently.
• Working on increasing resources for testing kits.

Local EOC Update:
• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
• Developed SitRep #10.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Emergency Declarations

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 21.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, Michigan Community Service Commission and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, Military and Veterans Affairs, and Treasury. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Finalized an Official Statement about testing bottled water for lead. Recently, there were concerns raised about the possibility of lead being in the bottled water that is being given to residents of Flint. The statement was provided to ABC12 who contacted the JIC and also to 211 to use when asked.
• Created a media monitoring report and looked for misinformation. Called to request a correction to a Detroit Free Press headline that included WRTs were completing their work; headline was amended to indicate the mission is ongoing. Several media calls on this topic were received and answered today.
• Added the following content to www.michigan.gov/flintwater: link to www.helpforflint.com; water donation drive guidelines; Disaster Distress Helpline; and photos from National Guard door-to-door teams.
• Media hotline staff answered over 30 emails and phone calls.
• Updated internal and general talking points about the ongoing Flint water emergency.
• Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, and MDHHS.
• JIC is planning to issue the nightly activity news release with water activity map around 6 p.m.
• MSP F/Lt. Dave Kaiser is scheduled for in-studio interview with ABC 12 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
• MSP Sgt. Bruce Payne assisted the Detroit Free Press and Fox 2 Detroit in obtaining B-roll of the water response teams. F/Lt. Kaiser did a standup with WXYZ about water response team progress.

Agriculture and Rural Development (MDARD)

Thursday, Jan. 21 - MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and we have scheduled 28 appointments to collect water samples.

Additional activities today: 1) completed Resource Request for MDARD to send two laboratory personnel to help out at the MDEQ Laboratory. 2). working on inquiry that came through OPS regarding messages for what to do if you have pets. Existing documents on the flintwater website contain guidance; we are evaluating need for a stand alone document.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits today at ARC headquarters. More than 10,000 water test kits were assembled over the last 2 days.
We deployed and supported 11 teams for neighborhood canvassing (Water Response). We expect to field 15 teams on Friday.
We supplied lunches for all of the event-based volunteers.
The volunteer reception center (VRC) was in full operation Thursday. 59 volunteers were processed today. The VRC will be in operation on Friday from 9am to 4pm.
We continued to provide warehouse and inventory management.
A total of 93 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events. Have briefed senior leadership and are working to assist JIC with messaging/engagement in underserved communities.

Community Health (MDCH)

The CHECC remains activated at Level 2, and communications have been maintained between the SEOC and CHECC.

RADM Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

Held a conference call this morning with SAMHSA and the local Community Mental Health agency to discuss coordination. Technical assistance from SAMSHA was offered to CMH if requested. The National Disaster Distress Hotline is operational and listed on the Flint Water website.

Addresses for medically dependent individuals was provided to GIS and maps were produced indicating whether or not they have been reached by the Water Response Teams. Additional information from logistics is necessary to determine whether these individuals were contacted by the "hot shot" operations for special requests to receive assets.

Contacted the GCHD regarding the status of reaching-out to restaurants in the affected area. Coordination was discussed with MDARD as to the plan or process for ensuring that restaurants receive the resources that they may potentially need (i.e. filters, filter cartridges, etc.). Additional coordination and planning is necessary. GCHD Emergency Preparedness Coordinator provided a point of contact from their Environmental Health Division for MDARD to reach out to.

Corrections (MDOC)

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

(26) - MDOC employees

(6) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Friday, January 22, 2016:

(25) - MDOC employees

(6) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

You will be receiving updated information as we progress with the operation.

Please feel free to contact Brent Travelbee, Mike Farmer or Todd Bechler with specific questions or concerns regarding SEOC operations.

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

The State Superintendent sent notice to school districts, public school academies, and non-public schools on donation and volunteer opportunities related to the Flint water crises.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

- Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

- Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

- Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

- Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

Human Services (MDHS)

Completed a request that was transferred to us from DTMB to secure a conference room on 2nd floor of Flint State Office building to be used by the JIC on Friday, January 22nd from 13:00-15:00. Point of Contact will be Ms. Mel Brown from the JIC.

Made contact with the MDHHS Points of Distribution sites for status on their inventory of supplies. Confirmed their plan to replenish their supplies.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

LARA has provided 2 MIOSHA employee's to help DEQ with laboratory analysis of incoming water samples.

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS has been completed. Assessment of needs will begin.

LARA Executive Team has been updated.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Drive, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

MSP and GCSD supported 18 National Guard staffed teams that were out today and there were 10 Red Cross teams. 6353 homes were visited today.

The MSP/National Guard teams are not currently tooled to conduct on-demand services and are singularly focused on reaching all areas of the City of Flint with our Water Response Team assets for phase 2 operations by Sunday, January 24th.

The Genesee County Emergency Manager is able to intake all on-demand requests and forward them to the appropriate personnel for response.
Chris DeVriendt
Genesee County Emergency Management
cdevriendt@co.genesee.mi.us
810-627-8893

Further, we are not currently equipped to take in volunteers to work on our teams. All volunteers should be directed to the American Red Cross.

MSP SEOC staff submitted a request to logistics for asking for MING to provide 3 cyber trained personnel to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters beginning on 1/21/16 for 30 days with possibility of extension, or until mission complete. Mission is to coordinate, advise, and assist with cyber defense efforts related to the Flint water crisis.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Six (6) drivers on Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
121 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers.
Four temporary fuel cards were provided to the MSP officers driving rented U-Haul trucks obtained to assist water response teams.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers hand warmers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies on water related material as needed.
Providing server monitoring of MiCIMS servers.
Wireless router and printer was provided for FEMA staff at the SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse as well as an armed security officer.
Provided 2 cell phones to DHHS Michigan Community Service Commission for donation management.

Contacted Penske Truck Rental and acquired 30 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirectTV in the Flint State Office Building for the Joint Information Center.
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.
Provided 13 passenger vans to assist with transporting of Water Response Teams.
Procured 200 safety vests for water response teams.
Provided office space and parking to FEMA staff on the Flint State Office Building 5th Floor.
Provided 10 contractor access cards for FEMA staff.

Transportation (MDOT)

MDOT is providing traffic measures at Pierson Rd. Fire Station 6:
-2 portable changeable message boards on eastbound and westbound Pierson Rd.
-50 grabbers traffic cones (narrow reflective cones)

Flint Water Media Monitoring Report
Thursday, January 21, 2016
Afternoon

Topics:

- Released emails reveal state officials' indifference to Flint water crisis
- Congress to call Snyder to testify on Flint water crisis
- Color of Flint's water is disturbing
- Flint water crisis is a "cascade of government failure"

Social Media:

- Key hashtags: #FlintWater, #FlintWaterCrisis, #Flint, #Michigan, #MiGov, #peopleofflint, #childrenofflint, #water, #healflintkids
- New Twitter account: @flintvictim
- *#FlintWaterCrisis is trending on Twitter among the Top 10 hashtags in Michigan.* It is not (yet) trending nationally.
- Comedian Chris Rock is tweeting to his 3.7 million Twitter followers about crisis (see screenshot at bottom of report)
- The chatter peaked during the State of the State address, with 113,000 Twitter mentions.
- The daily average is 24,000 mentions/day on Twitter. Twitter comprises 93% of all online chatter (among Facebook, blogs, forums, and online mainstream news outlets)
- 88% of the chatter is negative
- The top countries where news is coming from include: US 580k social and online mentions, Canada 30k, UK 10k, Netherlands 4.1k, Australia 3.3k, India 2k, Germany 2k, Brazil 1.8k
- Social media analytics screenshot at bottom of report

Misreports:

Conflicting reports on whether Congress is actually holding a hearing, when it's taking place, or whether Gov. Snyder will be called to testify

Detroit News: Snyder hasn't been invited to testify before Congress
Gov. Rick Snyder has not been invited to testify before Congress on Flint's lead-contamination water crisis, his spokesman said Thursday.

Time: See What Flint's Poisoned Water Looks Like
A shocking image from a new study in Flint, Mich., where significant levels of lead have been found in the water supply, depicts the severity of the crisis, as the water color ranges, chronologically, from yellow to orange to red.

Christian Science Monitor: Flint: Hot water for Michigan governor after emails go public
While Gov. Rick Snyder's stated intention was to show the administration's transparency on the crisis, the emails indicate instead that state officials were largely unconcerned with residents' outcry, and focused attention on casting blame on local government.

Detroit Free Press: Flint water 'cover-up' riles up militia

Outrage over lead contamination in Flint's tap water transcends extreme political differences: On Sunday, a local militia group plans to hold the same kind of rally filmmaker Michael Moore held a week earlier.

Mother Jones.com: Meet the mom who helped expose Flint's toxic water nightmare
On a chilly evening last March in Flint, Michigan, LeeAnne Walters was getting ready for bed when she heard her daughter shriek from the bathroom of the family's two-story clapboard house. She ran upstairs to find 18-year-old Kaylie standing in the shower, staring at a clump of long brown hair that had fallen from her head.

Time: Congress to Hold Hearing on Flint Water Crisis
Michigan Gov. Rick Snyder is expected to be called to testify
A U.S. House committee will hold a hearing about the Flint, Mich., water crisis on Feb. 3 to discuss the lead-poisoned water and the causes behind the problem, according to reportsciting U.S. Rep. Brenda Lawrence.

Detroit Free Press: Congress to call Snyder to testify on Flint water crisis
A U.S. House committee is expected to hold a hearing Wednesday, Feb. 3, on the Flint water crisis and the government's response to high lead levels in drinking water there, U.S. Rep. Brenda Lawrence's office said Thursday.

Michigan Public Radio: State Senate expected to move quickly on $28M for Flint's water crisis
Republican leaders in the state Senate say a $28 million emergency appropriation for Flint should come with some accountability measures to make sure that money is spent wisely.

New York Daily News: Michigan government passed the blame on Flint water crisis for months with little action, emails show
The governor of Michigan and his staff played political hot potato for months over Flint's contaminated water, even as the city's public health crisis spread to tens of thousands of residents, as seen in emails released Wednesday.

Wall Street Journal: Through Hell and Flint Water
Michigan Governor Rick Snyder apologized Tuesday for the contaminated water crisis in Flint, and rightly so. Hillary Clinton and most of the media are peddling this as a parable of Republican neglect of a poor black city. But the real Flint story is a cascade of government failure, including the Environmental Protection Agency.

Time: Photographing Flint's Water Crisis from the Inside
"We're still going to deal with what's going on for the next lifetime," says Flint Journal photographer Jake May.

Washington Post: How much trouble is Michigan Gov. Rick Snyder in over Flint?
Above-average levels of lead in water that had been poisoning people in Flint for months is a public health crisis for the state of Michigan.

Washington Post: The awkward question about Flint that no one wants to answer
Flint does not look much like the rest of the state of Michigan, or even the average American city its size.

Washington Post: Rubio blames Flint water crisis on 'significant government breakdown,' days after declining comment
Three days after he declined to offer a detailed comment on the Flint, Mich., water crisis, Sen. Marco Rubio (R-Fla.) on Thursday called it a "tragic" development due to a "significant government breakdown."

Washington Post: Time to press the presidential candidates on Flint's water crisis
In every presidential campaign, there are issues everyone knows beforehand will be discussed — what should we do about immigration, how can we improve the economy, where should we go on health care — and events that become campaign issues when they burst into the news. So it is with the public health crisis in Flint, Michigan, where a public health catastrophe has played out over the last two years, and more and more politicians are being asked to comment on it.

CNN: 'Our mouths were ajar': Doctor's fight to expose Flint's water crisis
If Dr. Mona Hanna-Attisha hadn't had a friend over to dinner in August, the public might still be in the dark about the lead contamination poisoning the water supply in Flint, Michigan.

CNN: Flint water crisis: Email release do little to ease pressure on Michigan Gov. Snyder
Saying the people of Flint deserve the truth about the city's water, Michigan Gov. Rick Snyder has released more than 250 pages of his emails that relate to the crisis.

Detroit Free Press: Free Press photo helps define Flint tragedy for nation
Detroit Free Press photographer Regina H. Boone didn't recognize the number ringing her cell phone, but she answered the call anyway. The unfamiliar number was Time magazine, letting her know that her photo of a 2-year-old child from Flint had been chosen as the image for this week's cover.

Detroit Free Press: Who wants to drink Flint's water?
In a city where residents have felt under siege for years – from crime, bad press and an emergency manager some feel forced upon them – the newest threat pours from kitchen spigots and showerheads.

Detroit News: Big Sean launches fundraising effort to aid Flint
Detroit rapper Big Sean has joined a growing number of artists lending an assist to Flint's water crisis

Time: Michael Moore: Flint Poisoning Is a 'Racial Crime'
The people of my hometown, Flint, Mich., are being poisoned. Let me not mince words: This is a racial crime.

Wall Street Journal: Flint's Water Woes Make Residents Feel Like 'the Walking Dead'
Like most people who enter the Mission of Hope shelter these days, Christine Brown comes for the water.

People: Michigan Governor Releases Nearly 300 Pages of Emails About Flint Water Crisis
Michigan Governor Rick Snyder has released more than 200 pages of emails regarding the Flint water crisis. The exchanges record mounting complaints by the public, some of which elected officials dismissed.

Lansing State Journal: Lansing churches donating 24K bottles of water to Flint

Clergy in the Lansing area plan to take 24,000 bottles of water to Flint next week, part of a growing effort in the religious community to help residents of the beleaguered city.

Detroit Free Press: McCabe: Flint water crisis worrying high school coaches
Mike Williams lives in Grand Blanc and coaches boys basketball at Flint Beecher, which is Mt. Morris Township, so the Flint water crisis doesn't hit home with him ... until he goes to his day job.

Ecowatch.com: Why Are Flint Residents Being Forced to Pay for Their Toxic Water?
Michigan Governor Rick Snyder apologized Tuesday for the contaminated water crisis in Flint, and rightly so. Hillary Clinton and most of the media are peddling this as a parable of Republican neglect of a poor black city. But the real Flint story is a cascade of government failure, including the Environmental Protection Agency.

Vox.com: Flint's water crisis: newly released emails show Michigan officials' long indifference to residents' concerns
The biggest scandal in the emails Michigan Gov. Rick Snyder released Wednesday about his handling of the Flint water crisis isn't just about lead poisoning.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for *drinking and mixing formula.*
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

Subject: Fwd: Lead in Flint Water Flyer

Ron,

Can you please have Trevor make this change; see below. Once we receive this back, it will be finalized. It can be posted on www.michigan.gov/flintwater, shared with 211, and given back to Jen and Angela at MDHHS.

Hopefully, we can finally get this one closed out tomorrow!

Hi Ron, I hope you are surviving over there. Do you know will anyone else need to revise this? This document has gone through no less than 8 rounds of updates. I'm happy to do the updates, but we could be a little more efficient about it. With fewer updates it also makes sure that people are all using the same version. Just let me know and I'll make all the changes. Thanks!

Hi, Amanda. I hope this note finds you well. Just left you a voicemail, updating you on some of our new SimulationDeck exercise controller features. Looking forward to briefing you on that when you have a moment. In the meantime, here is the latest fodder for your reference:

As you may recall, SimulationDeck is cutting edge technology making your crisis drills more realistic, more engaging, and more effective. And, the latest version of SimulationDeck includes a brand-new MSEL management application called InjectDeck

InjectDeck is a new application that allows exercise controllers to input and manage their MSEL within SimulationDeck. During an exercise, controllers at all exercise venues are able to maintain a common operating picture about what injects are in and out of play as the exercise progresses. The application also has some pretty nifty tools to allow evaluators to take notes throughout the course of exercise play, making after action reporting a breeze!

Subject: URGENT: JIC Staffing - Deadline 3 p.m. Today
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

After the call for staffing on Monday, we only heard from a few department PIOs. We really need your support and help to make this operation happen.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by 3 p.m. today. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Subject: RE: Flint JIC Staffing - Jan. 18-31

Importance: High

Ron,
Are you the one who signs-off on website and content? I'm seeing things about this site that I would really like our office to help with. As I mentioned before I would propose an interactive local map that has location markers for the sections, **Get Clean Drinking Water** (currently ***Water Resource Sites***) and **Get a Water Filter** (currently ***Filter Sites***) I would focus on making the site more smart phone friendly with plain language as that is most likely the target device platform.

Our time resources are tight here but we would like to lend a hand - I would like to suggest optimizing the site structure on the fly, however. Is that something that you would be open to? If I need to come out I'm willing to do so to some extent, but I'm wondering if we can assist from Lansing as well. We have two in our office who could help with the site.

Thanks for your time,

Scott Sarka

Subject: RE: Flint JIC Staffing – Jan. 18-31

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites
http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables *smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.*

Also see below, please.

To: Leix, Ron (MSP)
Subject: Thursday Jan. 21 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | THURSDAY, JANUARY 21, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

During his State of the State address on Tuesday, Governor Snyder promised to release his 2014 and 2015 emails regarding Flint. And he did so yesterday. **Click here to read the 274 pages of the Governor's emails regarding Flint on Governor Snyder's website.**

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To volunteer or donate: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd

Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

GOVERNOR'S ACTIVITIES

Flint water interviews
Michigan gov.: We don't want people to assume Flint water is safe (CBS Evening News)
Michigan Governor Rick Snyder apologized for the Flint water crisis Tuesday night in his State of the State address. Now, he is speaking out again and taking responsibility for the water contamination that has left Flint's 100,000 residents without easy access to clean water.

Governor Snyder on his State of the State Address (WJR)

Governor Snyder talks Flint water crisis with WFNT 1470 (WFNT)
During the conversation, Snyder spoke about whether he was able to convey his message that he was sorry and he would fix the problem, the release of his emails and the investigations into what went wrong and when, the money he is calling for to help Flint, as well as national figures weighing in on the crisis.

Governor Snyder discusses State of the State, Flint, emails and the emotional toll (WDET)
Last night Governor Rick Snyder delivered his most earnest and sober State of the State speech to date. The first third of the speech focused exclusively on the Flint water crisis, apologizing again for the failures of government to protect the people of Flint... then pivoting to issues with Detroit Public Schools, and then finally turning to positive work that has been done in the past year and work left yet to do.

Governor Snyder: "I want to fix the Flint water problem" (FOX 2)
Governor Snyder sat down with Charlie LeDuff for an interview about the Flint water crisis.

Flint water/emails
Snyder emails detail state's missteps in Flint crisis (Detroit News)
Gov. Rick Snyder was advised in late September that the state bore responsibility for Flint's water problems because former state Treasurer Andy Dillon made "the ultimate decision" to let the city leave the Detroit system, according to emails released Wednesday. The city later turned to corrosive Flint River water that caused aging pipes to release lead into the drinking water.

Gov. Snyder wrote just 7 short Flint water emails since 2014, release shows (Mlive)
Gov. Rick Snyder wrote just seven brief emails concerning Flint water during the past two years, according to documents released by the governor's office today, Jan. 20. Snyder spent the majority of his State of State address Tuesday, Jan. 19, addressing Flint's problems with elevated levels of lead in water here, but wrote sparingly about the subject in emails, part of a release of 274 pages of records.

Gov. Snyder releases nearly 300 pages of emails on Flint water crisis (Mlive)
Gov. Rick Snyder has released emails in response to demands that he disclose his communications involving the Flint water crisis. The Wednesday, Jan. 20, release includes 274 pages of documents, including communications on Flint water issues, public safety and lawsuits.

FLINT EMAILS FROM MICHIGAN GOVERNOR REVEAL BLAME GAME (Newsweek)
As the controversy grows over increased lead levels in the water supply of Flint, Michigan, newly released emails from the state's governor reveal that his aides were unsure of whom to blame for the crisis and felt the responsibility of the state in the matter was being overstated.

Newly released emails cast Flint scandal in a new light (MSNBC)
In his State of the State address this week, Michigan Gov. Rick Snyder (R) apologized publicly for the water crisis in Flint, conceded that he let the community down, and vowed to try to put things right. And to that end, the Republican governor released 274 pages of emails yesterday, which Snyder says represents all of the Flint-related correspondence he had in 2014 and 2015.

MDEQ Bears Brunt of Blame in Snyder's Emails (WILX)
Governor Rick Snyder sent and received hundreds of emails about the Flint water crisis and, in a rare move of transparency, volunteered to release them all to the public.

Read Gov. Snyder's Flint water emails (Crain's Detroit Business)
Gov. Rick Snyder released on Wednesday afternoon 274 pages of his emails related to the Flint water crisis. He pledged during his annual State of the State speech Tuesday night to fix the emergency in Flint and to have greater transparency by releasing his own emails on the matter. He's not required to do so under state law.

The 5 Most Important Flint Water Crisis Emails Released by Michigan's Governor (TIME)
Michigan Governor Rick Snyder on Wednesday released 274 of his own emails regarding Flint's drinking water amid mounting criticism over how his administration handled the public-health crisis and calls for his resignation. The second-term Republican on Tuesday had pledged to reveal the emails during his annual state of the state speech. He has defended his handling of the situation, telling TIME that his office "took action" as soon as it learned of elevated lead levels in blood.

Flint Water: Gov releases doc's, Stabenow complains, Snyder appeals disaster declaration and where to donate water locally (WOOD Radio)
As promised, Governor Snyder released 270 pages of emails related to the poisoned water in Flint on Wednesday. One dated September 25th says the problems rested with the County, the City and the local water authority and said the matter was likely to turn into a political football.

15 years and $60M needed to replace Flint's lead water lines, emails show (Mlive)
It could take up to 15 years and more than $60 million to replace lead water service lines in Flint, according to emails released by Gov. Rick Snyder. A Sept. 28, 2015, briefing sent to the governor detailed the cost and timeline associated with replacing the more than 15,000 lead service lines in the city.

Michigan Governor's Emails Show Water Debate (AP)
A day after doctors reported high levels of lead in Flint children, Gov. Rick Snyder's top aide told him the "real responsibility" for the city's water issues rested with local government officials, emails show. Then-chief of staff Dennis

Muchmore later told the governor that residents were "caught in a swirl of misinformation" about lead contamination and that it was up to city and county leaders to confront the issue, according to the emails, which were released Wednesday.

Snyder releases Flint water emails (WLNS)
Now that Governor Snyder has released the emails in question we are able to take a closer look at what communication took place and when it happened. If you take a look at the collection of emails, and compare them to the comprehensive timeline the governor released Tuesday, the series of events that led up to the crisis match up.

Governor Snyder's Emails Regarding Flint Water Crisis Made Public (Michigan Public Radio Network)
Governor Rick Snyder has released a trove of emails both to and from him regarding Flint and the city's water crisis.

As Water Problems Grew, Officials Belittled Complaints From Flint (NY Times)
A top aide to Michigan's governor referred to people raising questions about the quality of Flint's water as an "anti-everything group." Other critics were accused of turning complaints about water into a "political football." And worrisome findings about lead by a concerned pediatrician were dismissed as "data," in quotes.

Flint water crisis: Michigan Gov. Snyder releases emails (CNN)
Saying the people of Flint deserve the truth about the city's water, Michigan Gov. Rick Snyder has released more than 250 pages of his emails that relate to the crisis. But the document dump Wednesday did little to ease the predicament he finds himself in. With each passing day, the chorus for him to step down has grown louder because the water debacle unfolded under his watch.

Reactions pour in after Gov. Snyder releases Flint emails (WMMT)
Reactions are pouring in after Governor Rick Snyder released hundreds of pages of emails concerning the Flint water crisis. Earlier on Wednesday, Governor Snyder was on the CBS Evening News, saying the Michigan Department of Environmental Quality followed the rules too closely.

Snyder's e-mail release a start, but not nearly enough (WBAY ABC 2- Green Bay)
Michigan's Governor Rick Snyder released emails Wednesday regarding a drinking water catastrophe in Flint that has drawn national attention.

Michigan governor under fire over emails about water crisis (CBS This Morning)
Michigan's governor is under fire over newly released emails about the lead water crisis in Flint. Under pressure, Gov. Rick Snyder's office voluntarily made public 273 pages of e-mails and documents Wednesday afternoon. One email reveals his chief of staff believed Flint's poisoned water - containing elevated lead levels and left residents without easy access to clean water - was not the state's responsibility.

View here: Gov. Rick Snyder releases his emails regarding Flint water (WDIV)
Emails that Gov. Rick Snyder sent during 2014 and 2015 regarding Flint's drinking water crisis have been released. They were posted Wednesday morning on his website.

Read Gov. Snyder's emails on Flint water crisis (WZZM)
Michigan Gov. Rick Snyder released emails related to the Flint water crisis, covering a period from 2014-2015. The emails, published online Wednesday, Jan. 20, come after many groups statewide and nationally have called upon Snyder and his administration to be more transparent. Snyder pledged the action during his State of the State address Tuesday.

Snyder releases more than 270 pages of Flint emails (WOOD TV)
Gov. Rick Snyder on Wednesday released his 2014 and 2015 emails in an attempt to demonstrate what he knew about the lead water crisis in Flint and when.

Flint mayor: Governor's plan 'still not enough' (The Hill)
The mayor of Flint, Mich., on Wednesday welcomed Gov. Rick Snyder's (R) latest plans to address the city's drinking water crisis, but said it's far from what residents need. Speaking in Washington, D.C. at a meeting of the Conference of Mayors, Karen Weaver asked that the governor commit more resources to Flint and pledge to hold people accountable for the lead concentrations in the city's water.

Gov. Snyder releases emails on Flint water crisis (Fox 17)
Gov. Rick Snyder on Wednesday released more than 270 pages of emails he sent or received about Flint between Jan. 2014 and Dec. 2015. Snyder said in his State of the State Address Tuesday that he would release the emails to disclose more information about what he knew about the city's water crisis and when. The governor and his office are exempt from public-records requests under Michigan law, but Snyder says he took the unprecedented step so people "know the truth."

9 must-read pages from Rick Snyder's e-mail drop (Detroit Free Press)
Gov. Rick Snyder today released 274 pages of his personal e-mails from 2014 and 2015, as he and his staff seek to combat calls from protesters for him to resign in the wake of the Flint water crisis. Snyder pledged to reveal his Flint e-mails in Tuesday's State of the State address, after the Free Press editorial board and others called for greater transparency from Michigan's executive office.

Gov. Snyder releases emails regarding Flint water crisis (Up North Matters)
"I committed to fixing this for the residents of Flint, and it's great to see lawmakers from across the state join me in working to resolve the crisis. The unanimous vote demonstrates to the nation that all of Michigan is standing together help the people of Flint," Snyder said in a statement Wednesday.

Michigan governor under fire over emails about water crisis (CBS News)
Michigan's governor is under fire over newly released emails about the lead water crisis in Flint. Under pressure, Gov. Rick Snyder's office voluntarily made public 273 pages of e-mails and documents Wednesday afternoon.

Flint water/Disaster appeal
Gov appeals rejection of Flint disaster funds (Detroit News)
Gov. Rick Snyder on Wednesday appealed the Obama administration's rejection of his request for a major disaster declaration in the Flint area and $96 million in additional federal funding to address the city's water contamination crisis.

Governor Snyder Fights Rejection Of Federal Aid For Flint (Michigan Public Radio)
Governor Rick Snyder is asking the Obama Administration to change its mind and declare a major disaster in Flint. Snyder requested the declaration in order to free up $96 million in federal aid for Flint. The Obama Administration said those declarations are used to address natural disasters such as floods or fires. Snyder argues in a press release announcing the appeal that, "the situation in Flint is a disaster and in need of a federal declaration."

Snyder appeals Obama's denial of disaster aid for Flint (AP)
Michigan Gov. Rick Snyder asked President Barack Obama on Wednesday to reconsider his denial of a federal disaster declaration to address the drinking water crisis in Flint, saying its severity poses an "imminent and long-term threat" to residents. Obama declared an emergency — qualifying the city for $5 million — but determined it is not a disaster based on the legal requirement that such additional relief is intended for natural events, fires, floods or explosions.

Gov. Rick Snyder appeals denial of federal major disaster declaration for Flint (UP Matters TV 3)
Gov. Rick Snyder submitted an appeal Wednesday to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

State of the State

Could new 'gag order' law impede Gov. Rick Snyder's infrastructure ideas? (Mlive)
Gov. Rick Snyder touted an effort to look at the state's underground infrastructure at his annual State of the State address Tuesday, but locals worry a bill he signed earlier this month would impede the millages that would support fixes.

Snyder to Issue Executive Order on Michigan Infrastructure (WDET)
Pivoting from the Flint Water Crisis during this year's State of the State Address, Michigan Governor Rick Snyder made a pledge to confront the state's aging infrastructure. Snyder says he will issue an executive order that would require the Michigan Department of Transportation to confer with local governments and utilities during new road projects.

APPOINTMENTS

Gov. Rick Snyder makes appointment to the state's oversight board in Flint (Mlive)
Gov. Rick Snyder appointed a new face to the City of Flint Receivership Transition Advisory Board. Snyder announced Wednesday, Jan. 20 the appointment of Mike Finney to the state oversight board. Finney was appointed to the post by Snyder on Tuesday, Jan. 19, according to a news release from the governor's office.

FLINT

Anti-Snyder site seeks to exploit Flint relief website (Detroit News)
During Gov. Rick Snyder's Flint-focused State of the State address, the governor promoted a state government website for Flint relief efforts called HelpForFlint.com.

Flint water protest leaves graffiti on Michigan Capitol (Mlive)
Flint water protesters outside of the capitol Tuesday night wanted to mark Gov. Rick Snyder's State of the State address, but also left markings on the state building that could cause real damage.

Obama in the D: We'll help Flint (Freep)
President Barack Obama, in Detroit on Wednesday for his first visit to the North American International Auto Show, weighed in on the Flint water crisis at the top of his speech to autoworkers and their families at a UAW education and training center, saying of Mayor Karen Weaver and the residents of Flint, "we're going to have her back and all the people of Flint's back."

MISC.

Inside Michigan Politics cuts ties with Bill Ballenger (Freep)
Inside Michigan Politics has cut ties with Bill Ballenger after the former Republican lawmaker, who founded the newsletter nearly 30 years ago, downplayed the Flint water crisis on WKAR-TV's "Off the Record" Tuesday night. Susan Demas, who purchased the newsletter covering Michigan politics from Ballenger in 2013, announced in a statement this morning that he would no longer be associated with it.

DETROIT

Detroit school system wants judge to end teacher sickouts (CNN)
An attorney for the Detroit Public Schools has asked a judge to issue a restraining order and preliminary injunction to force teachers to stop sickouts and return to work, according to court documents filed Wednesday. The motion names the Detroit Federation of Teachers, interim teachers union president Ivy Bailey and 23 Detroit Public Schools teachers.

Disturbing images of the mold, mushrooms, and bullet holes in Detroit's schools that led to teachers' massive 'sickout' (Business Insider)
Almost every public school in Detroit, Michigan was closed on Wednesday after teachers called out sick to protest what they say are deplorable school conditions, CNN reported. Teachers launched the so-called sickout to call attention to the

unsafe school conditions they say are widespread across the district. The mass closure coincides with President Barack Obama's visit to celebrate the city's auto industry and its resurgence.

Duggan gives Obama aide tour of Detroit neighborhoods (Detroit Free Press)
Mayor Mike Duggan took one of President Barack Obama's top aides on a quick tour of Detroit's neighborhoods this morning to show off the city's efforts to revitalize itself. Duggan and staff members drove White House domestic policy chief Cecilia Munoz, a Detroit native, on a 45-minute tour as part of Obama's visit today to check out the North American International Auto Show and take in the sights of the city's recovery from bankruptcy.

President Obama lunches with Shinola founder, Mayor Duggan at Detroit pizza shop (MLive)
President Barack Obama had lunch at Jolly Pumpkin Pizzeria and Brewery in Detroit's Cass Corridor ahead of his auto show visit Wednesday. According to reporters at the scene, the President met with members of the community to discuss "the resurgence of the city's economy and livelihood, and the current challenges they face." Detroit Mayor Mike Duggan and Shinola Founder Tom Kartsotis joined the President Obama at the popular pizza and beer joint.

Most of Detroit's public schools close amid teacher sick-out (CBS NEWS)
Most of Detroit's public schools were forced to close Wednesday because of a massive sick-out by teachers upset over school conditions, leaving parents scrambling for child care as thousands of students remained home for another day. The sick-out shuttered more than 85 of the financially struggling district's roughly 100 schools and was timed to coincide with a visit to the city by President Obama.

The Detroit Bondholders Did Not Get 'Stiffed' (Wall Street Journal)
In "Fixing Puerto Rico's Debt Mess" (Jan. 6), Prof. David Skeel discusses the Detroit bankruptcy case. He states, "Holders of the city's general-obligation bonds, which had the same priority as pensions, got stiffed, receiving roughly 41% of what they were owed. Pensioners got at least 60%." This is wrong.

DPS seeks injunction against teachers (Detroit Free Press)
Detroit Public Schools is seeking a temporary injunction against teachers after a sickout closed 88 schools in Detroit Wednesday — the largest in a string of teacher protests. The district is seeking relief in the Michigan Court of Claims, naming 28 defendants, including two dozen teachers.

Protests over DPS, Flint; school closings planned Thurs (The Detroit News)
Hundreds of teachers, activists and students gathered Wednesday outside Cobo Center in a combined effort to protest conditions in Flint and at Detroit Public School buildings. The crowd carried signs referencing the citywide sickout Wednesday that saw 91 percent of DPS schools closed, as well as calls for Gov. Rick Snyder's resignation over the Flint water crisis.

DPS seeks restraining order against teachers (The Detroit News)
Detroit Public Schools is asking a judge to issue a restraining order and a preliminary injunction against teachers who engaged in alleged work strikes, ordering them to stop the sickouts and return to work. The emergency motion, filed Wednesday in the Michigan Court of Claims, names 23 DPS teachers, the Detroit Federation of Teachers and its interim president, Ivy Bailey, and organized sickout supporters such as DPS Teachers Fight Back and By Any Means Necessary.

LEGISLATIVE NEWS

House approves Snyder's $28M ask for Flint crisis (The Detroit News)
The Michigan House wasted little time Wednesday acting on Gov. Rick Snyder's call for $28 million in emergency funding to address Flint's water contamination and public health crisis. The House unanimously approved the fast-tracked supplemental spending bill, sending the measure to the Senate one day after the Republican governor urged action in his State of the State address.

Bills would let emergency contact info be encoded in IDs (Detroit Free Press)
Legislation going to Gov. Rick Snyder for his signature will let Michigan residents have their emergency contact information digitally encoded in their driver's license or state ID. The bills are intended to help paramedics or police responding to an accident quickly identify a victim's emergency contact. Supporters say it also will comfort to families of people with dementia or Alzheimer's disease.

Courser/Gamrat scandal getting ABC's '20/20' scrutiny (Detroit Free Press)
The promo for Friday's "20/20" episode looks as juicy as a "Scandal" episode – and it refers directly to the hit ABC political drama. "It was a political cover-up so twisted it just might make Olivia Pope blush, and it was all caught on tape!" intones the narrator as photos of former Michigan legislators Todd Courser and Cindy Gamrat are replaced by clips of of Pope (as played by "Scandal" star Kerry Washington) smooching President Fitzgerald "Fitz" Grant (Tony Goldwyn).

Michigan lawmakers want action on Asian carp (MLive)
Michigan legislators are tired of this carp. On Wednesday, Jan. 20, the Michigan Senate natural resources committee passed a resolution supporting the hydrologic separation of the Great Lakes and Mississippi River watersheds in order to keep invasive Asian carp from reaching Lake Michigan.

DEPARTMENTS

MSP
More federal funds coming to combat drug trafficking (WWMT)
West Michigan is getting a major boost in the battle against drugs. More federal aid is on the way to help law enforcement bust drug operations. Kalamazoo is one of nearly a dozen Michigan counties recognized as high intensity drug trafficking areas. Now a new county is on that list and a task force within the Michigan State Police say it plans to get right to work dealing with a host of drug problems.

MDOT
3 firms selected to bid on Gordie Howe bridge project (The Detroit News)
Plans to build the Gordie Howe International Bridge between Windsor and Detroit advanced this week with the release of the names of the three teams who will bid to work on it. The teams short-listed are Legacy Link Partners, Bridging North America and CanAm Gateway Partners, the Windsor-Detroit Bridge Authority, which is overseeing the project, announced Wednesday.

MPSC
Michigan Public Service Commission to investigate Consumers Energy estimated billing (MLive)
The Michigan Public Service Commission has launched an investigation into Consumers Energy and hopes to learn more about the way in which the company estimates customer bills. The commission announced its investigation Tuesday, Jan. 19, after fielding 277 consumer complaints regarding estimated billing last year, said Judy Palnau, the commission's Media and Public Information Specialist.

Probe launched into Consumers Energy billing practices (FOX 17)
After years of complaints from customers surrounding the estimation of power bills, Consumers Energy will now be required to cooperate with their regulatory entity on a probe looking into the practice. Estimation occurs when Consumers cannot, for a number of reasons, get to a customer's meter box to take a reading.

Attorney General
Michigan Attorney General opens up human trafficking discussion to public (WLNS)
Human trafficking is a growing problem around the country and Michigan is no exception.

The public is invited to a meeting Wednesday to discuss what can be done about it.
The Michigan Human Trafficking Commission is meeting at Attorney General Bill Schuette's office on Ottawa Street today at 11:30 to discuss how to expand legal protections to victims of the crime as well as expand assistance and increase public awareness.

OPINION

Through Hell and Flint Water (The Wall Street Journal)
Michigan Governor Rick Snyder apologized Tuesday for the contaminated water crisis in Flint, and rightly so. Hillary Clinton and most of the media are peddling this as a parable of Republican neglect of a poor black city. But the real Flint story is a cascade of government failure, including the Environmental Protection Agency.

Sander Levin: State 'gag law' hurts schools, communities (Bridge MI)
In the 1960s and '70s, my late wife Vicki and I raised our four children in Berkley. A major reason we moved there was because of the school system. The school district did not have a strong tax base, primarily based on the middle-class residences in Berkley, Huntington Woods and parts of Oak Park. So there was a constant need to win support from owners of these residences for millages for schools.

How the Flint Water Story Was Uncovered (Capitol Confidential)
In something rarely seen in politics, a public official made a plea in a statewide newspaper hoping to exonerate himself from a growing crisis. In October 2015, Darnell Earley, who had been the emergency manager for Flint from September 2013 until January 2015, made his nearly 600-word plea in The Detroit News.

McNeilly: Stand up to Detroit teacher sickouts (The Detroit News)
Callous. Premeditated. Disgraceful. Unacceptable. There are a lot of words that could describe the recent and escalating series of teacher strikes in the city of Detroit, but one word might sum them up best. Criminal. And if the adults in Detroit aren't willing to stand up for kids, the adults in Lansing should.

Snyder's e-mail release a start, but not nearly enough (Detroit Free Press)
Governor Rick Snyder addresses the Flint water crisis during his State of the State speech on Tuesday in Lansing. It was a step in the right direction, Gov. Rick Snyder's announcement during his 2016 State of the State address that he'd release his e-mails about the Flint water crisis from 2014 and 2015, as a gesture toward transparency.

Failures in and out of government hurt Flint (The Detroit News) .
As I was knocking around Flint, a city neglected and ultimately poisoned by every level of government, my thoughts kept drifting to two phrases: "refreshing approach" and "in nothing we trust." The first phrase is my description, in a column last month, of Michigan Gov. Rick Snyder's leadership style. What was I thinking? More on that later.

Anti-manufacturing bias ripples across economy (The Detroit News)
There is an air of celebration as we enter the new year in Detroit. It's well deserved. In the span of a few short years, our industry was able to "roll up our sleeves" and save what has proven to be the quintessential American industry over the last 100 years.

Lennox: Gov. Snyder not to blame in Flint crisis (The Detroit News)
The real culprit behind the Flint water crisis is Genesee County's drain commissioner. Flint's water would have never been contaminated with lead had it not been for Drain Commissioner Jeffrey Wright's pipeline to and from Lake Huron. The facts are simple. In 2009, Wright, a Democrat, sold his pipeline as a way for locals to save money — despite costing more than a quarter billion dollars — by disconnecting from Detroit's water supply.

Editorial: Cooperate for Flint's future (The Detroit News)

The moment has come for everyone to stop shouting and pull together to help the people of Flint. The water crisis demands a concentrated and cooperative effort from all who profess to care about the city and its residents. Angry protests and mass demonstrations served the purpose of putting pressure on the Snyder administration to act with urgency.

Cook: Frontline experts able to advise on schools (The Detroit News)
When determining how to address issues like student testing or teacher evaluation, the Michigan Education Association believes asking the experts on the front lines for their insight is the right approach for policymakers. So, when it comes to tackling the problem of low-performing schools, it stands to reason that asking about the problem would be a logical first step.

Human trafficking is a real problem in Michigan (The Time Herald)
We always think things happen to someone else, but not us. Horrible things happen in other countries but not ours. I was shocked to learn that Michigan is one of the top spots in the United States for human trafficking. What was even more surprising was to learn that Michigan ranks No. 2 in the country for human trafficking in the sex trade.

Rochelle Riley: Lansing, we have a problem (Lansing State Journal)
So what had happened was Gov. Rick Snyder opened his annual State of the State with apologies to Flint, where residents were subjected to lead-tainted water for 18 months. He talked about what he has done over the past 10 days to combat the nearly two-year tragedy that has gained national attention.

Subject: FW: Bottled Water lead statement

Recently there have been some concerns raised about the possibility of lead being in the bottled water that is being given to the residents of Flint. This concern was raised due to measurements that some residents obtained with a TDS meter that was provided with their zero water brand water filters. The term TDS stands for "Total Dissolved Solids" and is a measurement of all of the minerals and other common chemicals that are present in the water. The TDS meter is not sensitive enough to measure the lead in the water and the purpose for including it with the filter is to help the user determine when it is time to replace the filter.

Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water that is being distributed should be tested for lead. Therefore, the DEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. The results show that all 21 brands of bottled water had results of "Not Detected". With respect to lead that means that all 21 brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water that is being distributed is safe and for that, we are thankful for the suggestion.

MSP gas station check nets stolen car, heroin
Detroit News
By: James David Dickson
1.21.16

A Michigan State Police gas station check on Detroit's west side early Thursday morning resulted in the recovery of an allegedly stolen car and an arrest, state police said. The person arrested was also accused of carrying a packet of heroin, police say.

The gas station checks have been a regular MSP practice under the Secure Cities Partnership, said Lt. Mike Shaw. Gas stations are "an area of concern" in Detroit, he said.

Earlier this month, Mayor Mike Duggan rolled out "Project Green Light Detroit," a partnership between the city and eight 24-hour gas stations to spur investment in high-definition video cameras, which are watched in real-time by the police.

"Under the program, participating businesses have invested $5,000 to $6,000 each to equip their stations with high-definition interior and exterior video cameras, enhanced lighting systems, a highly visible green light and signs," previous News coverage of Project Green Light Detroit explained. "The partnership links the live video feed from each of the stores to the Detroit Police Department's Real Time Crime Center."

Thursday's action was not part of that effort, but Shaw said troopers assigned to the Metro Post will sometimes leave the freeways they patrol to check on gas stations in the city.

"Seeing a state police vehicle tends to break up suspicious activity very quickly," Shaw said.

At 2:45 a.m., at the Shell Gas Station on Fort and Schaefer, troopers observed a Pontiac Grand Am "parked running by the front doors" of the station. When troopers approached, the driver hopped out of the vehicle.

"Upon further investigation, it was determined the vehicle had been stolen out of Lincoln Park," MSP said in a press release. "The driver, a 37-year-old male from Detroit, was arrested. A search of his person was conducted," at which point troopers allegedly found a heroin packet in his coat pocket.

"The vehicle was confirmed stolen by its owner and they were given information on how to recover their vehicle," MSP said, and the driver was arrested and booked at the Detroit Detention Center. MSP has completed a warrant request and presented it to the Wayne County Prosecutor's Office, which will decide whether to bring charges.

State set to finish 1st door-to-door visits in Flint
Detroit Free Press

By: Paul Egan
1.21.06

LANSING – State officials, bolstered by volunteers and more soldiers and airmen from the Michigan National Guard, are expected to have completed a door-to-door canvass of the entire city of Flint by the end of the day today, as they continue their response to the Flint drinking water crisis, a Michigan State Police spokeswoman said.

Shanon Banner couldn't say that the state will have made personal contact with every household by the end of the day Thursday, because some residents have not been home when state officials visited. But she said it's expected the entire geographic area of the city will have been covered.

Follow-up visits will be needed to cover any homes that were missed the first time, she said.

The effort has been bolstered by a surge in number of Michigan Guard soldiers and airmen, who, starting Wednesday, were assisting in the door-to-door effort, as well as staffing fire stations where people can pick up supplies, Banner said.

The state Emergency Operations Center said Thursday that officials visited 3,395 Flint homes on Wednesday, bringing the total number of homes that have either been visited, or whose residents have visited a distribution center, to 29,317 since Jan. 5, when Michigan Gov. Rick Snyder declared a state of emergency.

State officials earlier estimated there are about 33,000 households in Flint.

The number of Michigan National Guard soldiers and airmen working on the effort Wednesday is expected to more than double today, from 95 to about 180. They are going door-to-door in Flint, distributing bottled water, water filters, replacement cartridges and testing kits, along with teams comprised of city, county and state personnel, the American Red Cross and volunteers, the release said.

Flint's drinking water became contaminated with lead in April 2014 after the city, while under the control of a state-appointed emergency manager, switched its source to the Flint River as a temporary cost-cutting move and the state Department of Environmental Quality failed to require the addition of needed corrosion control chemicals. As a result, the corrosive water caused lead to leach from pipes, joints and fixtures, causing many citizens to receive water with unsafe lead levels. The state has told residents not to drink the water without filtering and says it is treating all Flint children as having been exposed to unsafe levels of lead.

During the Flint effort, the state has coordinated distribution of more than 90,300 cases of water, 73,200 water filters and 19,800 water testing kits, the release said.

Since Jan. 5, the state has purchased 111,630 cases of water, 115,700 water filters, and 61,161 water testing kits, the release said.

It's not clear what will happen after each household has been contacted once, Banner said. It's possible those who can't pick up needed supplies at Flint fire halls and other distribution centers will be able to call to have items delivered, she said.

"We recognize this is a long-term thing," she said.

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information. The American Red Cross says it is no longer able to accept material donations.

More federal funds coming to combat drug trafficking
WWMT
By: Chris Sipsma
1.20.16

West Michigan is getting a major boost in the battle against drugs.

More federal aid is on the way to help law enforcement bust drug operations.

Kalamazoo is one of nearly a dozen Michigan counties recognized as high intensity drug trafficking areas. Now a new county is on that list and a task force within the Michigan State Police say it plans to get right to work dealing with a host of drug problems.

The White House is ramping up efforts to root out drug trafficking.

Lt. Andrew Fias and West Michigan's Enforcement Team have been battling the area's drug problems for years, and now those efforts will be expanding.

"Muskegon gained that status, unfortunately, because there is a fairly significant heroin problem, cocaine problem, and crack cocaine problem," said Lt. Fias, MSP, WMET.

Muskegon is one of fourteen counties freshly designated across the nation as high intensity drug trafficking areas, opening the door for federal aid in the fight against drug-related crime.

Lt. Fias blams gangs and the amount of heroin passing through the area as the problem.

"We are seeing a pretty significant issue in Muskegon, couple with some pretty significant violence in Muskegon and Muskegon Heights," said Lt. Fias.

Lt. Fias says Allegan County's meth problem continues to be a big player in Michigan's drug economy as well.

"Well look at Allegan County, we had 60 meth labs last year," said Lt. Fias. "That is one a week in Allegan County."

With Muskegon's new designation, police will now have access to more resources, including manpower, technology and equipment, something already available to a handful of other West Michigan counties.

"The agencies that participate, they don't always have a huge overtime budget for the detectives assigned to WMET and the HIDTA is used to offset overtime," said Lt. Fias.

Lt. Fias says they're still far from eliminating the drug problem in Michigan, but that this designation is a step in the right direction.

Lt. Fias says it's still not known how much federal money they will receive, but says the team suspects it will be less than $100,000.

Common Misconceptions about driving in the snow
WLNS
By: Alexis Rosado
1.20.16

The dust-like snow may seem small, but with temperatures this low, you can't predict what may turn into ice and what won't.

According to Michigan State Police, many accidents have occurred in the past 4 days, and Michigan State police blame common misconceptions about driving in the snow.

"Getting somewhere fast, I mean if you never arrive there it's just not worth it" Trooper Marco Jones said.

Michigan State Police say with snow on the ground drivers should lay off the gas.

"People just have to remember keep your distance, slow down and allow extra time to get to your destination" Trooper Marco Jones said.

"If you are doing 70 miles per hour and you feel like your car starts to slide, you have to get your steering input pretty quickly otherwise you are going to steer out of control" Sergeant Robert Schwalm said while driving in a blue trooper car.

According to Michigan State Police driving instructor Sergeant Robert Schwalm, a common mistake drivers make, is staying at the speed limit regardless of the weather.

"Speed limits are created for driving under ideal conditions so when you have inclement weather, whether its snow or rain, you need to slow down in order to safely be able to control your vehicle" Sergeant Schwalm said.

And if you do start to lose control of your car while driving in the snow, Sgt. Schwalm says don't slam on the brakes

"Instinctively a lot of people will go to the brakes and that's the worst thing you can do. So ideally what you would do is take your foot off the gas and off the brake, look in the direction that you want to go and then steer the car in that direction" Schwalm said.

Many times the people who get into winter accidents or skid off the road will get a speeding ticket for driving too fast in bad weather conditions.

So to avoid fines and to protect your life, please remember to drive safe this winter season.

Ron, We launched a new initiative last week on a law that took effect Monday. Because I'm the site admin and the PIO and we seem to be constantly revising what we're putting on the website/going to internal meetings about this, and all the board/Commission meetings we're having next week, I am going to have to pass on next Thursday. I will pitch in the future if at all possible, though and I do apologize.

Subject: URGENT: JIC Staffing - Deadline 3 p.m. Today
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

After the call for staffing on Monday, we only heard from a few department PIOs. We really need your support and help to make this operation happen.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by 3 p.m. today. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Residents of Flint, Mich., complained for months about the city's tap water before state officials conceded that it was contaminated with lead. Ryan Garza/Detroit Free Press, via Associated Press

Your Thursday Briefing

By ADEEL HASSAN

Good morning.

Here's what you need to know:

• A Russian spy's death.

A British report into the 2006 poisoning death of Alexander V. Litvinenko, a former K.G.B. officer who turned against the Kremlin, concluded today that his killing was "probably" approved by President Vladimir V. Putin.

Mr. Litvinenko, 43, died in London 22 days after ingesting green tea laced with polonium 210 — a rare and highly toxic isotope.

His death prompted a chill in relations between Moscow and the West.

• Flint's public health emergency.

Nearly 300 pages of emails show that the administration of Gov. Rick Snyder was initially dismissive of the water crisis in the poverty-stricken, black-majority city of Flint, Mich.

Residents complained for months about the water's foul odor, odd color and strange health effects before state officials conceded that the tap water was contaminated with lead.

• Jittery global markets.

The European Central Bank is expected to leave its stimulus program unchanged today, despite the fall in eurozone stocks and plummeting oil prices. The region has dangerously low inflation.

Wall Street stocks sank on Wednesday, but may be ripe for a turnaround. European indexes are higher, and markets in Asia sank today.

Here are six tips for when the markets are skidding.

• Republican split.

Ted Cruz's attention appears focused on Donald J. Trump, the man he spent much of last year praising, but dampening Mr. Trump's popularity is proving complicated.

Bob Dole, the 1996 Republican presidential nominee, is warning members of his party not to vote for Mr. Cruz. And the Republican establishment is on the sidelines as outsiders thrive.

Our profile of Mr. Cruz's time as a Supreme Court clerk shows that he was an ardent advocate of the death penalty.

• **Diversity in the spotlight.**

The Academy of Motion Picture Arts and Sciences is expected to announce measures aimed at making its Oscar nominations more diverse. One change might be an immediate return to a 10-film field of best picture nominees.

And in sports, the N.F.L. has six minority coaches, a stagnant number that research suggests may stem from a lack of minority assistants.

• **Weather worries.**

New York and New England could be spared the worst of a snowstorm that meteorologists say is likely to reach the mid-Atlantic on Friday.

The Washington area could get one to two feet of snow, but details about where the storm will hit hardest are still unclear.

BUSINESS

• **Amazon, Apple, Facebook, Google and Microsoft** are gaining dominance in their sectors, more power in new sectors and are better protected from competition.

• **Two research scientists** are among five people indicted on charges of stealing trade secrets about drugs to treat cancer and other diseases from GlaxoSmithKline, the British pharmaceuticals giant.

• **The World Economic Forum,** a gathering for the world's most powerful political and business leaders, has plenty of glitz and glamour. But women make up less than 20 percent of attendees.

NOTEWORTHY

• **New reads.**

Among this week's nonfiction releases: Jane Mayer's "Dark Money," about the brothers Charles G. and David H. Koch; Ian Buruma's "Their Promised Land," about his grandparents' marriage and their survival through two world wars; and Jo Merchant's "Cure: A Journey Into the Science of Mind Over Body."

And in fiction: Bill Bryson's "The Road to Little Dribbling;" Garth Greenwell's "What Belongs to You;" and Elizabeth McKenzie's "The Portable Veblen."

• A prehistoric massacre.

A dig in Kenya has uncovered the remains of a slaughter about 10,000 years ago, suggesting that warfare may have existed even before humans became farmers.

• College admission overhauls?

About 80 educators, including top admissions officials at major U.S. universities, have endorsed a proposal to rely less on standardized tests and to focus more on applicants who show a passion for learning and for volunteer projects.

• Sundance joins gun debate.

The annual Sundance Film Festival opens today in Park City, Utah, where at least four gun-themed films will have their world premieres; they all advocate tighter gun control in the U.S.

• Court watch.

A Pennsylvania prosecutor says that a former district attorney's decade-old promise not to prosecute Bill Cosby has no merit.

And Track Palin, the eldest child of Sarah Palin, has been charged in a domestic violence case after his girlfriend said he punched her in the head and threatened to fire a rifle.

• Heroics.

Darius Fleming, a New England Patriots player, rescued a woman trapped in a burning car last week and injured his leg in the process. He tried to keep it quiet, but the news trickled out. Despite his injury, he played in last weekend's playoff victory.

And the actor Jamie Foxx helped pull a man from a burning truck this week.

BACK STORY

A style called the "New Look" arrived in 1947, just two years after the end of World War II, when fabric was considered a luxury that was rationed.

Christian Dior, who was born in France on this day in 1905, was the designer behind those luxurious feminine fashions (cinched waist, long hemline and full skirt).

world's fashion capital anew, and a grateful French government rewarded Dior with the Legion of Honor.

Dior's artistic leanings first became apparent at age 23, when he opened a small art gallery, after having attended Sciences Po in Paris.

After his family lost much of its wealth in the tumult of the 1930s, Dior began sketching designs for fashion houses.

During the war, he dressed the wives of Nazi officers and French collaborators in order to survive.

His younger sister Catherine joined the French Resistance, and was later sent to a concentration camp, from which she was freed in 1945.

In 1947, Dior named his first fragrance Miss Dior as a tribute to her. He died in 1957 at the pinnacle of the fashion world.

Subject: Information on Water Shut Off Notices

Hi Meegan,

I've been getting some inquiries from media regarding what the Governor might say in his State of the State address tonight as it relates to water Shut-Off notices in Flint.
We want it to be clear, that regardless of what's been reported:
1. No shut off notices have been issued since December and the utility billing department has been given no instruction to resume at this time.

2. No disconnection of service for nonpayment on an active account has occurred since August 7th.

3.The City is currently reviewing its policy on shut off notices in light of the declared emergency and amended preliminary injunction order issued on January 11, 2016.

4. The City has a legal obligation to bill for services provided by its utility services department and to maintain operation of both with water and SEWER systems.

I hope this information is helpful. If you, or anyone in your office, have any questions about this matter just let us know.

Thanks,

Kristin Moore

Question 1: We can't transport water to flint/need someone to pick it up
Answer 1: Thank you for your interest in supporting the Flint recovery efforts. We understand you are interested in donating cases of water to Flint. All donors must make their own arrangements to deliver the water to Flint, as the state is unable to pick up donations.

If you are conducting a water donation drive, please refer to the attached water donation guidelines.

You may also consider visiting www.HelpforFlint.com for other ways to help.

Thank you again for your support.

Question 2: How can we ask for monetary donations versus water collections and how the funds will be used
Answer 2: Thank you for your interest in supporting the Flint recovery efforts. Please visit www.HelpforFlint.com to find a variety of ways to support the recovery efforts, including monetary donations to different organizations to help purchase water and filters or to provide long-term support for Flint residents and children.

Thank you again for your support.

Question 3: How can I volunteer?
To volunteer on the ground in Flint, please to go the Volunteer Reception Center at the American Red Cross, located at 1401 S. Grand Traverse, Flint, MI, 48503. Volunteers will receive training and an assignment. Please call 2-1-1 for more information. Thank you for your support.

Situation Report

January 21, 2016

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 21.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, Michigan Community Service Commission and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, Military and Veterans Affairs, and Treasury. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Finalized an Official Statement about testing bottled water for lead. Recently, there were concerns raised about the possibility of lead being in the bottled water that is being given to residents of Flint. The statement was provided to ABC12 who contacted the JIC and also to 211 to use when asked.
- Created a media monitoring report and looked for misinformation. Called to request a correction to a Detroit Free Press headline that included WRTs were completing their work; headline was amended to indicate the mission is ongoing. Several media calls on this topic were received and answered today.
- Added the following content to www.michigan.gov/flintwater: link to www.helpforflint.com; water donation drive guidelines; Disaster Distress Helpline; and photos from National Guard door-to-door teams.
- Media hotline staff answered over 30 emails and phone calls.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, and MDHHS.
- JIC is planning to issue the nightly activity news release with water activity map around 6 p.m.
- MSP F/Lt. Dave Kaiser is scheduled for in-studio interview with ABC 12 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
- MSP Sgt. Bruce Payne assisted the Detroit Free Press and Fox 2 Detroit in obtaining B-roll of the water response teams. F/Lt. Kaiser did a standup with WXYZ about water response team progress.

Flint Water Media Monitoring Report
Thursday, January 21, 2016
Morning

Topics:

- Snyder emails reveal how state handled Flint water crisis
- Timelines/in-depth analyses of the Flint water crisis
- Obama pledges help for Flint
- Flint's water crisis isn't the first and won't be the last

Social Media:

- Key hashtags: #FlintWater, #FlintWaterCrisis, #Flint, #Michigan, #MiGov, #peopleofflint, #childrenofflint, #water
- -#FlintWaterCrisis is trending on Twitter among the Top 10 hashtags in Michigan. It is not (yet) trending nationally.
- The chatter peaked during the State of the State address, with 113,000 Twitter mentions.
- The daily average is 24,000 mentions/day on Twitter. Twitter comprises 93% of all online chatter (among Facebook, blogs, forums, and online mainstream news outlets)
- 88% of the chatter is negative
- The top countries where news is coming from include: US 580k social and online mentions, Canada 30k, UK 10k, Netherlands 4.1k, Australia 3.3k, India 2k, Germany 2k, Brazil 1.8k
- Time magazine cover photo of Flint child being shared on Twitter (photo at end of report)

Misreports:

- Paul Egan reporting "state set to finish door-to-door visits in Flint" (updated to say "1st door-to-door visits)

Headlines:

CNN: Michigan governor's emails shine light on Flint water crisis
Michigan Gov. Rick Snyder's then-chief of staff wrote an email in September that expressed concern the water crisis in Flint was being politicized, and argued the issue was not primarily the state's problem.

When Odie Brown arrived at a Flint hospital in December 2014, she was only supposed to stay a day or two. She'd had some breathing problems that were quickly resolved.

Fortune: How Michigan's bureaucrats created the Flint water crisis
In Michigan Gov. Rick Snyder's State of the State speech Tuesday night, the self-proclaimed nerd laid out the facts of the ongoing crisis that led to the lead poisoning of one of Michigan's largest cities.

NBC News: Flint Water Crisis Isn't The First – and won't Be the Last: Activists
The lead in water crisis in Flint, Michigan comes as no surprise to Marc Edwards or to Yanna Lambrinidou. They saw almost the same thing happen in Washington, D.C. more than a decade ago, and they say many cities and towns across the United States are at the same risk.

Time: Go Behind TIME's Flint Water Crisis Cover
Sincere Smith is 2 years old, but he looks twice his age. That's because of the steroids prescribed to treat his rashes, which appear on his face and entire body. Sincere, one of three children in a family living in Flint, Mich., had been bathing in water that the city began pumping in from the local river in 2014. That water was later found to be contaminated with lead.

CBS News: Michigan governor under fire over emails about water crisis
Michigan's governor is under fire over newly released emails about the lead water crisis in Flint.

New York Times: As Water Problems Grew, Officials Belittled Complaints From Flint
A top aide to Michigan's governor referred to people raising questions about the quality of Flint's water as an "anti-everything group." Other critics were accused of turning complaints about water into a "political football." And worrisome findings about lead by a concerned pediatrician were dismissed as "data," in quotes.

MLive: 15 years and $60M needed to replace Flint's lead water lines, emails show
It could take up to 15 years and more than $60 million to replace lead water service lines in Flint, according to emails released by Gov. Rick Snyder.

MLive: See where water resources are going in Flint
Teams that went door-to-door Wednesday included 95 Michigan National Guard soldiers and airmen. That number is expected to nearly double to 180 National Guard service members today, and they will go door-to-door with city, county and state personnel and American Red Cross volunteers, according to the release.

MLive: Flint water protest leaves graffiti on Michigan Capitol
Flint water protesters outside of the capitol Tuesday night wanted to mark Gov. Rick Snyder's State of the State address, but also left markings on the state building that could cause real damage.

Fox2: LeDuff goes one on one with Snyder on Flint water
Emails released by Gov. Rick Snyder Wednesday give us a better idea of the Flint water crisis timeline. But they didn't really answer the question of what did the governor know and when?

Detroit Free Press: State appeals federal denial of Flint disaster status
The state of Michigan on Wednesday appealed President Barack Obama's refusal to declare Flint a federal disaster area, despite the fact disaster declarations are typically reserved for natural catastrophes, not man-made ones.

Detroit Free Press: Flint mayor wants more from state, feds in water crisis
Flint Mayor Karen Weaver on Wednesday called Michigan Gov. Rick Snyder's response to the crisis over lead-contaminated water in her city – including asking the Legislature for $28.5 million in immediate funding – "good first steps," but not nearly enough to address the situation.

Detroit Free Press: 9 must-read pages from Rick Snyder's e-mail drop
Gov. Rick Snyder today released 274 pages of his personal e-mails from 2014 and 2015, as he and his staff seek to combat calls from protesters for him to resign in the wake of the Flint water crisis.

Detroit Free Press: Obama in the D: We'll help Flint
President Barack Obama, in Detroit on Wednesday for his first visit to the North American International Auto Show, weighed in on the Flint water crisis at the top of his speech to autoworkers and their families at a UAW education and training center, saying of Mayor Karen Weaver and the residents of Flint, "we're going to have her back and the people of Flint's back."

Detroit Free Press: Snyder e-mails: Aides figured Flint was others' problem
Gov. Rick Snyder's staffers worried in September that the issue of lead in Flint's drinking water was being politicized and that the state's responsibility for the crisis was being exaggerated.

Detroit Free Press: Inside Politics cuts ties with Bill Ballenger
Inside Michigan Politics has cut ties with Bill Ballenger after the former Republican lawmaker, who founded the newsletter nearly 30 years ago, downplayed the Flint water crisis on WKAR-TV's "Off the Record" Tuesday night.

Detroit News: Snyder emails detail state's missteps in Flint crisis
Gov. Rick Snyder was advised in late September that the state bore responsibility for Flint's water problems because former state Treasurer Andy Dillon made "the ultimate decision" to let the city leave the Detroit system, according to emails released Wednesday.

Detroit News: House approves Snyder's $28M ask for Flint crisis
The Michigan House wasted little time Wednesday acting on Gov. Rick Snyder's call for $28 million in emergency funding to address Flint's water contamination and public health crisis.

Detroit News: Anti-Snyder site seeks to exploit Flint relief website
During Gov. Rick Snyder's Flint-focused State of the State address, the governor promoted a state government website for Flint relief efforts called HelpForFlint.com. The web address HelpForFlint.com is not to be confused with HelpForFlint.org, which contains a single message blaming the Republican governor for the lead contamination that most certainly did not come from Snyder himself.

Detroit News: Lennox: Gov. Snyder not to blame in Flint crisis
The real culprit behind the Flint water crisis is Genesee County's drain commissioner.

Detroit News: Failures in and out of government hurt Flint
As I was knocking around Flint, a city neglected and ultimately poisoned by every level of government, my thoughts kept drifting to two phrases: "refreshing approach" and "in nothing we trust."

MLIVE: FEMA head says Flint water crisis should have used lessons from Katrina disaster
The man blamed for the disastrous aftermath of Hurricane Katrina was on MSNBC talking about the Flint water crisis, saying the government should have used lessons learned during the natural disaster on the Gulf Coast to handle the man-made one in Flint.

Bridgemi.com (Truth Squad): Claiming credit for Snyder aid plea gets Clinton a warning

Near the end of Sunday's televised debate among candidates for Democratic nominee for president, former Secretary of State Hillary Clinton brought up the Flint water crisis.

The New Yorker: The Crisis in Flint Goes Deeper Than the Water
Last July, after more than a year of public complaints about the drinking water in Flint, Michigan—water so pungent and foamy that a local pastor had stopped using it for baptisms—reporters were calling the state's Department of Environmental Quality. The response from the department was of limited urgency. In an internal e-mail to colleagues, a spokeswoman, Karen Tommasulo, wrote, "Apparently it's going to be a thing now."

National Sun Times: Fallout from Flint's water crisis spreads as emails are released
President Barack Obama pledged to offer support for the drinking water crisis in Flint, Michigan on Wednesday and environmental regulators were set to provide Congress with information about their role.

Testing of Bottled Water for Lead

Recently, there were concerns raised about the possibility of lead being in the bottled water that is being given to the residents of Flint. This concern was raised due to measurements that some residents obtained with a TDS meter that was provided with their ZeroWater brand water filters.

The term TDS stands for "Total Dissolved Solids" and is a measurement of all of the minerals and other common chemicals that are present in the water. The TDS meter is not sensitive enough to measure the lead in the water and the purpose for including it with the filter is to help the user determine when it is time to replace the filter.

Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water that is being distributed should be tested for lead. Therefore, the Michigan Department of Environmental Quality has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. The results show that all 21 brands of bottled water had results of "Not Detected". With respect to lead that means that all 21 brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water being distributed is safe and for that, we are thankful for the suggestion.

FLINT WATER

RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.

Subject: Re: SEOC Update 1/20/16 - Flint Water - Limited Distribution

Great points sir. We have had concerns with Station 6 from the beginning. I know the NG tried to resolve this a little with traffic cones and from what I understand even the parking is not adequate. I will work with MDOT to see how we can do better with that site.

We have been working with DEQ on the lack of kits and recently they are looking to do more targeted testing (such as homes with children under 6). I will follow up on this first thing and get you answers.

Chris

On Jan 20, 2016, at 9:39 PM, Calley, Brian (GOV) <calleyb11@michigan.gov> wrote:

> Captain Kelenske,
>
> I spent the afternoon at Fire Station #6 today, running water cases to cars of disabled and elderly citizens. The logistical operations of filters and water looked smooth and even though traffic was heavy, the supplies were well maintained.
>
> I was a bit concerned with the vehicle traffic congestion in front of the station and wondered if there would be value to connecting with MDOT to establish a better traffic plan. It is a fairly busy street and people were dodging traffic carrying water across the street where they found alternative parking. It's pretty slippery and the pavement conditions are not ideal. Additionally, cars were often stopped in lanes designated for through traffic and blocked the fire truck path at times. It is a challenging location, but clearly it is well used by the citizens. Not sure if improvements are possible but MDOT has good traffic pattern experts.
>
> Several citizens asked for test kits, which that station did not have. I'm not sure if they were out or if that function is not typically handled at the location, but personnel didn't have clear directions on where to send people asking for test bottles except to call 211.
>
> I offer this feedback in the interest of continuous improvement. Overall, I was quite impressed with the ability of this location to handle an extraordinary amount of people. Very good work.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. 29,317 homes visited by the FWRTs to date.

        2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
            a. Number of cases of water 90,337
            b. Filters 73,229
            c. Filter cartridges 185,852
            d. Test kits 19,866

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

        4. Resources purchased:
            a. Cases of water 111,630 (additional 18,502 donated)
            b. Filters 115,700
            c. Filter cartridges 243,200
            d. Test kits 61,161

        5. Teams going out tomorrow:
            a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
            b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.

- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids

(it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

- Information reported to the JIC:
    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel

- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.

- 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.

- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.

- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - <u>As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by

one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from

other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics

- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)

        - 10,000 – PUR replacement filters (3 pack)
        - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
        - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game

plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."

- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters

        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.

- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

<u>Update 1/9/16</u>

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

<u>MSP/EMHSD GIS Section Updates</u>

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

<u>Local Emergency Operations Center</u>

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.

- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local

EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational

period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.
4. Establish SEOC operational period and hours of operations.
5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
6. Develop a comprehensive GIS strategy.
7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
9. Provide technical assistance to the local Damage Assessment process.
10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Subject: Re: SEOC Update 1/20/16 - Flint Water - Limited Distribution

Captain Kelenske,

I spent the afternoon at Fire Station #6 today, running water cases to cars of disabled and elderly citizens. The logistical operations of filters and water looked smooth and even though traffic was heavy, the supplies were well maintained.

I was a bit concerned with the vehicle traffic congestion in front of the station and wondered if there would be value to connecting with MDOT to establish a better traffic plan. It is a fairly busy street and people were dodging traffic carrying water across the street where they found alternative parking. It's pretty slippery and the pavement conditions are not ideal. Additionally, cars were often stopped in lanes designated for through traffic and blocked the fire truck path at times. It is a challenging location, but clearly it is well used by the citizens. Not sure if improvements are possible but MDOT has good traffic pattern experts.

Several citizens asked for test kits, which that station did not have. I'm not sure if they were out or if that function is not typically handled at the location, but personnel didn't have clear directions on where to send people asking for test bottles except to call 211.

I offer this feedback in the interest of continuous improvement. Overall, I was quite impressed with the ability of this location to handle an extraordinary amount of people. Very good work.

Brian

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:
    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. 29,317 homes visited by the FWRTs to date.

        2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
            a. Number of cases of water 90,337
            b. Filters 73,229
            c. Filter cartridges 185,852
            d. Test kits 19,866

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

        4. Resources purchased:

a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. 9 National Guard (6-9 folks) type 3 teams—Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.

- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
    - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel

- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520

c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217

Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)

- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

<u>Attached Documents:</u>

- SitRep 7

- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount

        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***

- Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

<u>Update 1/9/16</u>

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.

- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing

approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs

- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with**

local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations

- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: SEOC Update 1/20/16 - Flint Water - Limited Distribution
Attachments: SitRep15.pdf

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.

- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. 29,317 homes visited by the FWRTs to date.

        2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
            a. Number of cases of water 90,337
            b. Filters 73,229
            c. Filter cartridges 185,852
            d. Test kits 19,866

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

        4. Resources purchased:
            a. Cases of water 111,630 (additional 18,502 donated)
            b. Filters 115,700
            c. Filter cartridges 243,200
            d. Test kits 61,161

        5. Teams going out tomorrow:
            a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
            b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.

- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY -- LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:
    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200

d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
  01/16/16
    - Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
    - IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
    - Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.

- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:
  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

    2. Distributed:
        a. Number of cases of water 20,876
        b. Filters 47,935
        c. Filter cartridges 167,401
        d. Test kits 3,322

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed

- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:
- SitRep 10

Status on Governor's request letter to the President:
- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note
- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.

        - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support

- The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities

to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.

- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>
Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur

early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies

- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.

- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

29,317 Homes Visited To Date by Water Resource Teams

FOR IMMEDIATE RELEASE
January 20, 2016

For more information contact:
Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 11

FLINT, Mich. –Water response teams, bolstered by 95 Michigan National Guard Soldiers and Airmen, distributed water resources to 3,395 Flint homes today. They provided residents with free bottled water, filters, water replacement cartridges and water testing kits.

By tomorrow, additional National Guard Soldiers and Airmen will arrive bringing the total number of National Guard service members to approximately 180 going door-to-door along with water response teams comprised of city, county and state personnel, American Red Cross and volunteers.

To date, 29,317 homes in the City of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 90,300 cases of water
- More than 73,200 water filters
- More than 19,800 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 111,630 cases of water
- 115,700 water filters
- 61,161 water testing kits

Today, Gov. Rick Snyder submitted an appeal to President Barack Obama following the denial of the major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

In the appeal to President Obama, Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation program in order to facilitate recovery.

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information. Please note the American Red Cross is no longer able to accept material donations at this time.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

To enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Subject: 2-1-1 Update Flint Water Response for Wednesday, January 20, 2016
Attachments: 2016-01-20 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, January 20, 2016

GENERAL INFORMATION:

- The governor's state of the state address last night generated a few calls to 2-1-1 – with the significant additional capacity 2-1-1 added there was no wait for callers to reach an agent.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume was extremely high today leading to hold time up to 25 minutes for callers.

Statewide: 4,248 calls were received –over 3x the daily average call volume

Flint Water: 580 callers chose the Flint Water option – 180 more water calls than any other day

- 2-1-1 operated at the outer limit of the partners' capacity today. Every available agent in the state, as well as supervisors and managers, handled calls, and the callback feature was extensively used – this offers callers the option of keeping their place in queue and having 2-1-1 call back when an agent is available.
- Today was the opening of scheduling for free tax prep services – traditionally a very high volume day for 2-1-1. The spike in demand appears to result from a combination of tax assistance, the governor's address, and the prominent mentions of 2-1-1 on michigan.gov/flintwater and helpforflint.com web sites.
- Also contributing to the long wait time were a slow response time for the cloud-based 2-1-1 database. The vendor was contacted and is working to reduce lag-time on the system.

- This morning the JIC forwarded an email from the governor's office reporting two complaints that callers tried to reach 2-1-1 last night and experienced a 30-45 minute wait for an answer. Michigan 2-1-1 reviewed the overnight call demand and found a single caller who was *not* seeking water-related help had 14 minute wait. Of the 56 total overnight calls, 4 had wait-times over two minutes. The average time to answer was 49 seconds. Of the seven (7) Flint Water calls received, the average time to answer was 37 seconds and all Flint Water calls were answered in under two minutes.

SPECIAL NEEDS/REQUESTS

☑ The Genesee County Health Department, DHHS and the Michigan 2-1-1 state office had a conference call to coordinate referrals for people in Flint seeking information from a health professional. GCHD is at their capacity to handle these calls and cannot take additional referrals from 2-1-1. DHHS has agreed to take ALL referrals from 2-1-1 for Flint health information (water safety, lead, and Legionella). **Resolution: Until further notice 2-1-1 will refer all callers with lead and Legionella questions to the DHHS hotline at 888-535-6136.**

☑ Michigan 2-1-1 worked with Flint Water Service Center to discuss their high volume of calls from area residents who are trying to verify whether or not they are on the Flint water system. **Resolution: The Service Center will continue**

monitoring their capacity and contact 2-1-1 if there is a need to change messaging or how 2-1-1 handles these referrals.

RUMOR CONTROL

- ☐ Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

Subject: NEWS UPDATE--House Sends Flint Water Supplemental To Senate

GONGWER Michigan
The Capitol Record Since 1906

Wednesday, January 20, 2016, 04:55 PM

House Sends Flint Water Supplemental To Senate

The House moved swiftly today and approved a supplemental appropriation to help address some of the immediate needs in Flint as the city works through an ongoing drinking water crisis.

HB 5220 cleared the House unanimously. The supplemental is $28.03 million with $22.63 million coming from the General Fund and is designed to cover some of the immediate needs in Flint, including paying for National Guard personnel, additional supplies and funds to keep the city's water utility solvent.

Governor Rick Snyder visited House and Senate Republican caucuses today, with the House Republican caucus lasing more than two hours.

Gongwer News Service will have more on this story in Wednesday's Michigan report.

Subject: Wednesday Jan. 20 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | WEDNESDAY, JANUARY 20, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Yesterday, Governor Snyder delivered the State of the State address, in which he focused on Flint, a proud city in which residents are unable to drink the water that comes into their homes. Governor Snyder acknowledged that this is unacceptable and stated that this is a problem that we will fix, and fix quickly.

The Governor announced a new $28 million state supplemental spending bill that will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The first step will also provide wraparound services, such as diagnostic testing, nurse visits and environmental assessments, as well as access to child and adolescent health centers.

Today, Governor Snyder is meeting with legislators and urging them to take immediate action on his Flint recovery plan.

This will not be the last budget request for Flint. Additional resources will be needed and asked for in the FY 2017 budget presentation.

A new website was also announced where you can sign up to volunteer in Flint: **www.HelpForFlint.com.** This site also has information on how to donate to the organizations working to get clean water resources to residents and who are focused on the long-term impacts on Flint's children.

In addition, Gov. Snyder has submitted an appeal to President Obama after the President denied a major disaster declaration-- a move that could potentially bring additional and much-needed resources to help the people of Flint.

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To volunteer or donate: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

FOR IMMEDIATE RELEASE
Jan. 20, 2016

Gov. Rick Snyder releases all emails sent, received on Flint

LANSING, Mich. - Gov. Rick Snyder today released all emails he sent and received regarding Flint from Jan. 2014 through Dec. 2015.

On Tuesday evening, he said during his State of the State address:

"Tomorrow I will release my 2014 and 2015 emails regarding Flint to you, the citizens, so that you have answers to your questions about what we've done and what we're doing to make this right for the families of Flint. Anyone will be able to read this information for themselves at Michigan.gov/Snyder. Because the most important thing we can do right now is to work hard and work together for the people of Flint."

A timeline of 2014 and 2015 actions on Flint water is available here.

For more information on the governor's speech, visit mi.gov/stateofthestate.

To learn how to help Flint, or for residents who need water resources, visit www.helpforFlint.com.

To download and read the emails, please click here. Note: Due to its size, this document may take extra time to download.

Subject: RE: URGENT: JIC Staffing - Deadline 3 p.m. Today

I was thinking this weekend, since it seems like I can watch that all day, especially if there is no event scheduled. Don't really know all the assignments that come with the event piece, so if it's too much, assign it separately or I could split it with the web content person.

Following weekend, 30-31, I could hotline and share monitoring.

Feel to put me in coach – I'm ready to play ☺

Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

After the call for staffing on Monday, we only heard from a few department PIOs. We really need your support and help to make this operation happen.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by 3 p.m. today. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Subject: URGENT: JIC Staffing - Deadline 3 p.m. Today
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

After the call for staffing on Monday, we only heard from a few department PIOs. We really need your support and help to make this operation happen.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by 3 p.m. today. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Sounds good Ron. Happy to help out. And no, I'm set on a hotel room. I don't live that far away – Okemos/Williamston area.

See you on Monday.

Kari

Hi Kari,

Awesome! We would love to have you here. I'll mark you down for Monday, Jan. 25, and Tuesday, Jan. 26.

Do you need a hotel?

Thanks,

--Ron

Hi Ron

I am the Communication Rep for MDOT covering the University Region. Per the e-mail below, I wondered if it was still possible to sign up for slots next week.

I am available Monday, January 25, and Tuesday, January 26.

Thank you. – kari

Thanks, Kari. They're looking for a two - three day commitment. Please see below. The staffing assignment list with days is attached – it takes some guess work.

I think that you could contact Ron Leix directly to sign up for a slot. Please Cc Jeff and me so that we're aware.

Gov. Rick Snyder appeals denial of federal major disaster declaration for Flint

Asking for special consideration due to the imminent and long-term threat

LANSING, Mich. – Gov. Rick Snyder today submitted an appeal to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

"The situation in Flint is a disaster and in need of a federal declaration," Snyder said. "This situation poses an imminent and long-term threat to the people of Flint. We appreciate the support of the White House through the earlier emergency declaration. But additional federal resources are needed for the work that must be done."

In the appeal to President Obama, Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation program in order to facilitate recovery.

Snyder said this disaster is similar in scope to a flood, given that qualities within the water over a long period of time damaged the city's infrastructure in ways that are not immediately detectable. The problems will contribute to years -- and potentially decades -- of health problems and economic loss as well as require repairs to the infrastructure that neither the city, county nor state

has the capacity to carry out.

President Obama denied the disaster declaration for Flint while approving an emergency declaration on Saturday, Jan. 16.

LTC Humes, I am willing to relieve Sgt. Vega if necessary. I did not respond to Mr. Leix on Monday because I assumed you were scheduling JIC manning for DMVA/MING. Mr. Leix states that additional staffing is needed for this Saturday and Sunday. I am in Lansing Thursday and Friday for a Covey training course but could probably sit in the JIC on Sat/Sun. Angela

Subject: URGENT: JIC Staffing - Deadline 3 p.m. Today
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

After the call for staffing on Monday, we only heard from a few department PIOs. We really need your support and help to make this operation happen.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by 3 p.m. today. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Ron,

Do you want to add me on for event planning this weekend? I can phone train with either Jason Moon or Tiffany this week to get up to speed. The following weekend, I can staff the hotline.

Please get to JIC – Sanjay Goupta will be conducting an interview tomorrow 1/21 with Dr. Monda Hanna-Attisha at the FLint Farmers Market. Not sure of time – Dr. Scott just got a call about it (not sure who told her but it was a 810 number and they found out about it because they called to order water at the LEOC to hand out during the interview).

GOVERNOR'S ACTIVITIES

State of the State – Flint Water

Michigan Governor Rick Snyder devotes speech to Flint water crisis (AP)
Michigan Gov. Rick Snyder has used his annual State of the State address to reaffirm his pledge to fix the water crisis gripping Flint and offer more evidence about what he knew of the lead contamination and when.

Flint water crisis: Gov. Rick Snyder says he has failed residents, pledges to try and fix crisis (AP)
Michigan Gov. Rick Snyder said he had failed Flint residents but pledged to take new steps to fix the city's drinking water crisis, starting with committing millions in state funding and deploying more National Guard members.

Snyder to request $28 million in extra funding for Flint lead water crisis (Crain's)
With criticism mounting, Gov. Rick Snyder apologized again Tuesday for his administration's handling of lead-tainted drinking water in Flint and demanded more accountability from the state departments that report to him.

Flint water crisis: Michigan governor asks for $28 million (CNN)
Michigan Gov. Rick Snyder vowed to do everything in his power to solve the Flint water crisis, asking legislators for $28 million to fund a series of immediate actions.

Flint Water Crisis: Michigan Governor apologizes, takes 'full responsibility' for 'catastrophe' (ABC News)
Michigan Gov. Rick Snyder apologized to the citizens of Flint, saying he would take "full responsibility" for fixing the toxic water "catastrophe" that has stricken the town.

Gov. Rick Snyder of Michigan apologizes in Flint Water Crisis (NYT)
Gov. Rick Snyder of Michigan issued a sweeping apology on Tuesday to the residents of Flint for a contaminated water supply. He pledged to promptly release his emails about the issue, and laid out more specifics than had previously been known about the state's handling of the matter.

Michigan governor apologizes for Flint water crisis (Reuters)

Michigan Governor Rick Snyder, facing protests, lawsuits and calls for his resignation over drinking water contamination in Flint, on Tuesday apologized to the city's residents and called for the state to spend $28 million on fixes.

Governor Snyder offers apologies and pledges during his State of the State (WIN 98.5)
While hundreds of protestors could be heard outside, Michigan Gov. Rick Snyder once again apologized to the people of Flint during his sixth State of the State address, over the water contamination crisis in the city.

Student political groups react to lack of higher education in State of the State address (Central Michigan Life)
Michigan Gov. Rick Snyder lauded the recent boom in Detroit, crediting a solid educational base as the main cause of the Motor City's recent ascension from bankruptcy.

State looking to redevelop former Willow Run plant into testing site for autonomous vehicles (MLive)

State of the State - previews

Michigan Gov. Rick Snyder to address water crisis in State of the State (NBC News)
Michigan's embattled Gov. Rick Snyder is expected to use his state of the state speech later Tuesday to address furious Flint residents about the water crisis in their city.

Skubick: Governor Snyder set to address Flint water crisis (WLNS)
Two lawsuits have been filed less than a week after a group of protesters took to the state Capitol to demand the governor's resignation over the water crisis.

Gov. Snyder expected to devote State of the State speech to water crisis (AP)
Michigan Gov. Rick Snyder is likely to devote much of his annual State of the State speech to a drinking water emergency that has put Flint residents at risk and engulfed his administration with criticism.

What did Governor Snyder know about the Flint Water Crisis and when did he know it? (WXYZ)
What did he know and when did he know it? Governor Snyder has been doing the "slow walk" of providing detailed answers about the Flint Water Crisis. Since the Governor declared his State Emergency, he has repeatedly said he wants to be "open and honest" along with apologizing for this "disaster".

Governor Snyder's other plans (WILX)
In his State of the State speech Tuesday, Michigan Gov. Rick Snyder made announcements not directly related to the Flint water crisis. He: – Continued pushing lawmakers to pass bills to overhaul Detroit's troubled school district by splitting it in two, spending more than $700 million over a decade, warning of a potential bankruptcy.

Pressure's on Snyder for State of the State (WILX)
The pressure is on Governor Snyder with politicians and celebrities calling for him to resign or worse.

Dems want Snyder to promise more transparency in speech (Detroit Free Press)
Gov. Rick Snyder should use his State of the State address tonight to promise Michigan citizens a more transparent government, both in his office and in the state Legislature.

State of the State – protests

Hundreds protest Flint Water problems, demand Governor Snyder resignation (WSGW)
As several hundred protestors gathered outside the state capitol, Tuesday, they were calling for Governor Rick Snyder to resign after the Flint water crisis. The protestors were complaining about how long it took for the state to take action despite repeated complaints from residents and businesses about problems with water drawn from the Flint River.

Democrats, activists hit Snyder ahead of State of State (Detroit News)
Hundreds of protesters jammed the state Capitol steps Tuesday evening, calling for the ouster of Gov. Rick Snyder over the Flint contaminated water crisis before his statewide address.

Protestors take to State Capitol ahead of Governor Snyder's State of the State speech (WXYZ)
A big crowd gathered outside of the capitol building, driven by the Flint water crisis and Detroit schools.

PHOTO/VIDEO OPPORTUNITY TODAY
Additional National Guard Members Join Water Response Teams

January 20, 2016

Joint Information Center
888-EMD-TODAY (888-363-8632) JICNews@Michigan.gov

FLINT, Mich. – Between today and tomorrow, additional National Guard soldiers and airmen are joining water response teams going door-to-door in Flint delivering water supplies including free bottled water, filters, replacement cartridges, and water testing kits to residents.

Resources and efforts continue to expand with more volunteers along with the additional National Guard members. To date, 22,129 homes have been visited by the water response teams, comprised of local and state personnel, American Red Cross, and volunteers.

"The additional National Guard soldiers will allow us to quickly and efficiently ensure each home will be visited," said Capt. Chris Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "As we continue to streamline and improve our distribution, we're able to reach more homes to ensure every resident has the water resources they need."

Who: Michigan National Guard

What: Media Availability

When: Starting at 11:30 a.m.

Where: Intersection of Mott Avenue and Edwards Avenue

Why: Explain the additional mission of the National Guard going door to door. Talk about the increase in Guard support and answer questions.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

For more information or for persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Subject: NEWS UPDATE--House Appropriations OKs Flint Supplemental

GONGWER Michigan
The Capitol Record Since 1906

Wednesday, January 20, 2016, 10:21 AM

House Appropriations OKs Flint Supplemental

The House Appropriations Committee this morning overwhelmingly supported a $28 million supplemental appropriation to fund some of the immediate needs in Flint as it deals with an ongoing drinking water crisis.

The committee approved HB 5220 unanimously. The bill could move on the House floor as soon as this afternoon. It was added to the House's tentative agenda.

The supplemental is $28.03 million with $22.63 million coming from the General Fund. The bill would cover a variety of expenses in the city, including $2 million to support the replacement of plumbing fixtures; $3.9 million ($1.3 million General Fund) for behavioral health care for children with high blood lead levels and $2 million to fund the National Guard personnel that has been deployed to Flint.

Rep. Phil Phelps (D-Flushing), sponsor of the bill, thanked the committee and specifically the Republican majority for quickly taking up the supplemental. He said during the last week or so things have been moving easier for those in Flint. He added he and other Flint lawmakers have been meeting weekly with the governor's staff.

"There (have) been a lot of short-term needs that really (are) immediate needs that can't really wait for another budget cycle to come through. And this starts to look at those," he said of the bill.

The bill passed with an amendment from Rep. Pam Faris (D-Clio) that would address testing of blood lead levels to not just test those with elevated levels currently, as lead dissipates in the system quickly, she said.

The bill also would provide $5.8 million for the Department of Environmental Quality, of that $3 million would go to the city to help cover lost revenues from unpaid water bills; $2 million to the city for water needs, including new infrastructure; $500,000 to pay for an outside agency to study Flint's infrastructure; $250,000 for the department to cover additional lab costs; and $36,500 to cover additional corrosion procedures for one year.

Among other things, the bill would also provide $17.2 million ($11.8 million General Fund) for the Department of Health and Human Services to cover a variety of efforts, including $8 million for bottled water, filters and other similar supplies; $275,000 for assessment of potential linkages to local outbreaks of Legionnaire's disease; $200,000 for food inspections and water safety tests; and $957,000 for supplemental nutrition services through Women, Infant and Children Supplemental Nutrition program.

Subject: EMBARGOED until 7PM: State of the State

Team,

Tonight you will hear a State of the State Address that will be unlike any other heard in Michigan.

In one of our proud cities, residents are unable to drink the water that comes into their homes.

This is unacceptable. It's a problem that we will fix, and fix quickly.

Gov. Snyder is speaking tonight directly to the people of Flint, but also to everyone in our state and people across the country.

This crisis arose from a series of missteps at all levels of government, but we must own the problem and the solution. And, we – with the help of everyone on this team – will set in place a plan that will make Flint a stronger city.

The governor will apologize for state government's role in this crisis. He will share a timeline that shows what happened, when it happened and how he responded. And he will discuss the actions he will take to correct this problem, address immediate needs and those that will be faced by Flint residents long into the future.

This is a solution that will require support from across state government, with help requested from our partners in the Legislature. We also have asked for resources from President Obama and the federal government.

You have heard many voices of people critical of the administration, some of them very loud. Those people are not focused on the solution. They should not distract us from our efforts.

When Gov. Snyder first ran for office, he said he would be a problem-solving governor. We have faced great challenges as we reinvented Michigan, including creating more and better jobs, improving education and restoring Detroit's financial foundation.
Make no mistake, we will fix this problem – together -- with the same relentless positive action approach.

History will show that this crisis happened in Flint. But I want people to remember the way we faced this problem, solved it and moved forward toward a brighter future.

I encourage you to watch the address tonight at http://house.mi.gov/htv.asp#. Just after the speech starts, I recommend you click on www.mi.gov/StateoftheState for background information.

Thank you,
Jarrod

MSP intercepts 1,200 opioid pills in Monroe County
Detroit News
James David Dickson
1.19.16

Michigan State Police officers have intercepted more than 1,200 opioid pills on southbound Interstate 75 since Saturday, according to a media release published Tuesday.

The I-75 corridor is a known drug trafficking hotspot, as drugs head south from the Detroit area, said Lt. Mike Shaw of the Michigan State Police.

Both actions took place in Monroe County and were carried out by hometown security team of MSP's special enforcement section, Shaw said. Information on when the incidents occurred in the daytime were not immediately available.

In the first incident, MSP stopped a vehicle on southbound I-75 on Saturday for improper lane use. During the stop, troopers became suspicious and asked for permission to search the vehicle. After permission was granted, troopers found 444 oxycodone pills "hidden behind the carpeting in the trunk," the release said. Police say a passenger copped to possession of the pills and said he was paid $500, or just over a dollar a pill, to transport the drugs to Ohio. MSP is still investigating the incident.

Earlier Tuesday, troopers stopped a vehicle traveling south on I-75 in Monroe County for following too closely. Troopers became suspicious of the occupants in the vehicle and had a K-9 officer, Otto, perform a sniff. When Otto indicated there were drugs in the vehicle, police conducted a search, finding 778 OxyContin pills hidden in the dash. Police are still investigating.

Arrests were made in both cases, but Shaw declined to provide specifics because no one has been arraigned as yet.

State employees volunteer to help Flint residents
Up North Live
By: Sarah Roebuck
1.18.16

About 130 State of Michigan employees volunteered on Martin Luther King, Jr. Day to help residents in Flint.

Volunteers went door-to-door to homes in Flint to give free bottled water, filters, replacement cartridges and water testing kits.

Volunteers came from several State of Michigan departments including the Michigan State Police, Michigan Department of Environmental Quality, Michigan Department of Health and Human Services, Department of Technology, Management and Budget, Michigan Department of Natural Resources, Michigan Licensing and Regulatory Affairs (LARA), Michigan Economic Development Corporation, Michigan Secretary of State's Office, Michigan Department of Corrections, Michigan State Housing Development Authority,Treasury, Michigan Department of Agriculture, Michigan Department of Transportation and Civil Service Commission.

The MSP says the state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

MSP reminds vehicle owners to "Lock It or Lose it"
WLNS
1.20.16

In the United States a vehicle is stolen every 44 seconds.

That's a dramatic number and it's even more surprising because, according to the Michigan State Police, in nearly half of the thefts the keys were left in the ignition or the doors were left unlocked.

As part of the effort to crack down on vehicle thefts the Michigan State Police remind drivers to lock up and take the keys when leaving a vehicle.

It sounds so easy but, as statistics show, many drivers either forget or just don't take the most basic steps to safeguard their vehicle.

There are some other ways to deter thieves from stealing your ride:

Closing windows when your vehicle is parked
Avoiding leaving valuables in your vehicle, especially where they can be seen
Not leaving your vehicle running unattended
Parking in well-lit areas
Keeping your vehicle in your garage, if possible
Keeping exterior house lights on at night
Installing a car alarm or using a steering wheel lock or gear shift column lock
Right now wheel and tire thefts are being seen. If you see someone who seems to be checking out a vehicle in a suspicious manner you should report what you've seen to police officers.

Vehicle sale scams and fraudulent vehicle titles are also showing up. The MSP recommend that if you are buying or selling a vehicle to do it at a Secretary of State office or your local police department. If a vehicle title looks suspicious either ask to have a Secretary of State employee look at it or postpone the sale.

In the past year teams funded by Michigan's Automobile Theft Prevention Authority recovered 5,350 stolen vehicles and parts worth approximately $41 million.

The ATPA awards grants to law enforcement agencies, prosecutor's offices and non-profit groups to investigate and reduce vehicle thefts in Michigan.

In the past ten years groups that have received grants from the ATPA have helped cut vehicle thefts by 57 percent in Michigan.

Michigan State Police open investigation into I-94 pile-up
WWMT
By: Kyle Sparks
1.20.19

Michigan State Police have opened an investigation into Sunday's I-94 pile-up, and they're warning that drivers involved who weren't following the law will be cited.

Newschannel 3 spoke with police on Tuesday, to find out more.

Michgian State Police say they have launched an investigation into the crash patterns from this weekend's wrecks.

Lieutenant Dale Hinz told Newschannel 3 that he is confident the investigation will reaveal what happened.

Michigan State Police have the painstaking task to investigate the massive pile-up along I-94.

"We would anticipate this investigation to last about a month," Hinz said.

Police are working to determine what, if any, enforcement action will be taken.

"Currently, I have a team of troopers working on specifics. We're combing through the evidence, the photograph measurements and video tape that was taken out at the scene," said Hinz.

The chain-reaction crash killed a Northville woman and injured several more. Investigators blamed high speeds in whiteout conditions, and driver behavior for the collisions.

"The evidence that presents itself will show whether that person was stopped, or were driving into the vehicle in front of them, and it is those people that were unable to stop, those are the people that are then cited," Hinz said.

Kelly Love was one driver among the nearly 70 involved who says a semi crashed into her car at full speed.

"In this case, it didn't seem like that semi-truck had that intention, he was literally zooming down the highway as if whether conditions were sufficient," she said.

Police say the bottom line is that most of the drivers weren't taking precautions.

"Michigan law requires drivers to be in control of their vehicles at all times and adjusts their speed accordingly, and in this case we can see there are gaps in the damaged vehicles," Hinz said.

A recent I-94 safety audit determined the stretch where this pile-up happened is one of the most dangerous in southwest Michigan.

"The Michigan State Police would remind motorists to please slow down and please increase your following distance in inclement weather; watch the weather forecast; make sure you are giving yourself extra time driving," Hinz said. "I know it sounds redundant; it sounds like we reply like this every time to the public, but we are asking everyone to please slow down."

Lieutenant Hinz says their findings will be presented to the Van Buren County Prosecutor for review.

The team has already interviewed more than 60 drivers.

First Responders Work Together To Clean Up, Several Accidents Shut Down I-75
9&10 News
By: Blayke Roznowski
1.19.16

What a difference 24 hours makes.

Roads and freeways, including I-75, are much clearer Tuesday for drivers.

First responders today say working together made all the difference in cleaning up Monday's mess.

At least nine cars were involved in a pileup between Vanderbilt and Gaylord on I-75.

In Crawford County, a logging truck crashed and as many as nine cars were involved on I-75 near M-93.

Another crash on I-75 near Waters shut down that part of the freeway.

9 & 10's Blayke Roznowski and photojournalist Erin Malone have our continuing coverage on how officers handled these big accidents.

"Chaos, absolute chaos," Otsego County firefighter Mark Matthews said. "When I had jumped inside the bus, all I could hear was cars crashing and smashing. It's just a feeling you don't want."

I-75 closed three times yesterday because of pile ups and crashes.

A volunteer firefighter saw the beginning of the pileup between Vanderbilt and Gaylord and turned around to help.

"Visibility was terrible, so I stopped and got out to make sure everyone was okay on the bus and that's where I was rear-ended," Matthews said.

Responders from State Police, the Sheriff's Department and several other agencies all came together to clean up the 20 car mess.

"We went to each vehicle that was involved in the crash and we kind of split them up to work together," Otsego County Deputy James Fox said. "That way not one agency was overwhelmed with nine accidents on the freeway."

"Especially with the limited resources we have in Northern Michigan, a lot of the agencies don't have enough officers and we have to help each other out as much as possible," Michigan State Police Gaylord Post Commander Lt. Derrick Carroll.

Agencies say they're trained to respond and work together in these situations.

"We're always prepared and ready to work together and that's the ultimate goal is to make sure everyone is safe and get through the accident scene effectively and safely," Deputy Fox said.

Police remind drivers out in poor conditions to take it slow and keep their headlights on so other drivers can see them.

2,715 More Homes Visited on Tuesday by Water Response Teams

FOR IMMEDIATE RELEASE

January 20, 2016

For more information contact:

Joint Information Center 888-EMD-TODAY (888-363-8632)

Release #: 10

FLINT, MI - As noted in Governor Snyder's State of the State address last night, significant progress has been made in distributing water resources to residents in Flint.

As of this morning, 22,129 homes in the City of Flint were either visited by a water response team, comprised of city, county and state personnel, American Red Cross and volunteers, or the resident has visited a water resource site to pick up these resources.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 77,700 cases of water
- More than 69,700 water filters
- More than 16,600 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 95,760 cases of water

- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

To enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Mel,

Once you guys learn where to take the product, please have someone put this on the JIC (news release) header and ask that they route it through JICManager email to SEOCPIO for approval by State Director this morning.

When we get sign off, please share with Tom Page at 211 and ask him to give us an update by 4 pm on whether this appears to be a continuing issue based on call volume. If it is, we will add to our nightly news release.

Please also ensure the hotline operators in the JIC are aware of the statement.

Copying Ron so he can help route, etc.

Thanks for leading this!!!

Subject: RE: please review -

Thanks Jen. This reads better, but it still does not tell people what to do if they have concerns about their water. Should they be taking it somewhere; can we replace it? Also, I'm wondering if we should be providing 211 with the label names or product numbers so they can determine what water is the water being tested/in question.

Subject: RE: please review -

It's my understanding the local health department determines what is considered an approved source. They, along with DEQ, test at the source. MDARD inspects the facilities bottling in Michigan, but does not routinely test the final bottled product. If we do take a sample, we don't test for lead. We're looking for bacteria and pathogens. I don't know about those companies bottling water outside the state of Michigan.

Also, I am not clear on the issue with a specific product/manufacturer.

The statement reads a little bureaucratic to me. Suggestions below.

As a few residents have raised concerns about lead possibly being in bottled or canned water, we are expeditiously testing the bottled and canned water to ensure it is lead free. Additionally, we have taken the extra steps to hold back product bearing similar product codes until the test results come back. We will also, out an abundance of caution, we will be testing batches of all new bottled water coming in to the distribution sites and working in partnership with the manufacturer to assure product integrity.

Jen, and all,

I can confirm that the DEQ stated that they would be testing the bottled water identified out of an abundance of caution.

From conversations here it appears that the testing device that is used by the public does not detect lead directly but looks for total dissolved solids (TDS). TDS is acceptable in Drinking water as it gives water taste versus the flat taste of distilled water.

MDARD does sample bottled water during our inspection of the bottlers during our normal operations. Let me know if you have any additional questions and I will try to answer the questions as best I can.

Your Wednesday Briefing

By ADEEL HASSAN

Good morning.

Here's what you need to know:

• Fatal campus attack in Pakistan.

A group of militants stormed Bacha Khan University in northwestern Pakistan today, leaving at least 19 dead and several wounded.

It's the latest civilian target chosen by extremists determined to spread terror around the world. We have live updates.

• Trump and Sanders get lifts.

Sarah Palin, the 2008 vice-presidential nominee, has endorsed Donald J. Trump in the Republican primary, providing him with a potential boost among Tea Party loyalists two weeks before the Iowa caucuses.

Scandals from the '90s are threatening to erode Hillary Clinton's support among women as she trails Bernie Sanders by double digits in New Hampshire.

Latinos are becoming more distant from the U.S. political process, according to a new report. And Chris Christie opens up about marital troubles in a new book.

• Combating "dark money."

President Obama is seriously considering an executive order that would require companies doing business with the federal government to disclose their political contributions.

It's an attempt to stem the tide of corporate donations that began with the Supreme Court's Citizens United ruling in 2010, which allowed companies and labor unions to give unlimited sums.

• More than "top secret."

Intelligence officials say they have found emails on former Secretary of State Hillary Clinton's private computer server that they consider to be of a higher level of classification than "top secret."

It's not clear whether she sent or received the dozens of emails.

• **President Obama visits Detroit.**

Mr. Obama will be at the at the North American International Auto Show, showcasing the recovery of the auto industry since his bailout of General Motors and Chrysler during his first year in office.

On Tuesday, he met the mayor of Flint, Mich., to discuss the crisis that has erupted over the city's contaminated drinking water.

• **Star-powered gathering.**

The annual World Economic Forum, attended by thousands of political and financial luminaries, begins today in Davos, Switzerland.

At least one person — North Korea's foreign minister — accepted an invitation that was later revoked.

• **A Navy SEAL's suicide.**

A Times special report details how a final deployment to Afghanistan led to the suicide of a high-achieving SEAL officer in 2012.

It's a cautionary tale of how men on the team were ground down by years of fighting and of losing comrades.

• **U.S. storm tracking.**

The National Weather Service is monitoring a potential weekend storm that could bring as much as one to two feet of snow from Washington to Boston.

BUSINESS

• **Treasury Secretary Jacob J. Lew** is in Puerto Rico today to discuss the Obama administration's proposal for addressing the island's huge debt.

• **Netflix's fourth-quarter results** show a company achieving record global growth, but one that also faces a slowdown in the U.S.

• **Stocks in Japan** closed in bear-market territory. Here are snapshots of the U.S. and world markets.

• **Falling oil prices** are posing one of the first big tests to the U.S. banking system since the financial crisis.

NOTEWORTHY

• **Planetary parade.**

Five planets — Mercury, Venus, Mars, Saturn and Jupiter — will arrange on an arc across the sky early today, in a rare spectacle that will repeat every morning until late next month.

It's the first time in more than a decade that the five will be simultaneously visible to the naked eye, and stargazers in the Northern Hemisphere should plan to get up about 45 minutes before sunrise to catch the show.

• **Health warning.**

Pregnant women who feel sick and have visited countries in Latin America in which the Zika virus is spreading should quickly see a doctor, the Centers for Disease Control and Prevention says.

• **New guidelines on medical records.**

The Obama administration says doctors and hospitals cannot require patients to state a reason for requesting their records, and cannot deny access to those records merely because they are concerned patients might be upset by the information.

• **In case you missed it ...**

Our most popular articles included a look at Canada's sudden hipness; a dissection of Mr. Trump's 1988 purchase of the Plaza Hotel; how biologists are playing matchmaker to save salmon; and our restaurant critic's downgrading of Per Se.

• **At the Australian Open.**

The No. 1 seed Serena Williams and the No. 5 seed Maria Sharapova were among those who reached the third round.

• **A $1 billion donation.**

Microsoft hopes to give away its cloud services to 70,000 nonprofits.

BACK STORY

No one invented the scream, but one American received a patent on this day in 1885 for his creation of the ultimate scream machine, the roller coaster.

LaMarcus Thompson's Switchback Gravity Pleasure Railway at Coney Island wasn't exactly the hair-raiser we're familiar with today.

hill. The ride was 600 feet long.

Thompson's idea was based on a converted coal train in Pennsylvania that carried people down a hill as a tourist attraction.

But many historians believe the origin of the roller coaster dates further back. In the 1600s, Russian sled riders hurtled down artificial mountains of ice and snow that were supported by wood frames. Catherine the Great was said to enjoy the rides.

The French may have adapted the idea for a warmer climate by adding wheels to the sled-like car and locking it into a track. In the 1800s, France had a couple of roller coasters, including the first with a loop.

Today, ride designers use high-tech parts that create a much more terrifying rush of twists and turns. The fastest coaster goes 150 m.p.h.

Hi Andrea,

I would like you to start drafting the below media advisory and news release. Please combine into one document due to timing. Media avail will be around 10 or 10:30 - 10:30 seems more practical to me because we need to get the advisory out. Vega is working on arranging time and location - please coordinate with him.

Let's shoot for 9:30 am for issuing the advisory, which is very aggressive with all the approvals we need, as it has to go to NG, DHHS, DEQ, GOV Office, and SEOC Director for approval before issue. Do not hold it up if Jen or Mel are not in the JIC when it is being approved, but I would like NG and Gov [Jess Brown] to see before it goes to SEOC Director. Make sure all know it is urgent.

F/Lt. Dave Kaiser, MSP on-scence PIO needs a heads up when time and location is determined so he can be available too.

Below are rough thoughts to get you going. What is your cell? I will try to call after the 8:30 briefing with more info and to check in.

I've also copied Tanya so she can assist you in locating/tracking down some of the language mentioned below from previous releases.

There is a sensitivity here - We need to make sure it doesn't sound like they are taking over this operation.

Additional National Guard Members Join Water Response Teams
Photo / Video Opportunity

This morning, XXX additional National Guard soldiers and airmen (confirm with Vega) are joining water response teams going door-to-door in Flint delivering water supplies including LIST ITEMS to residents.

Paragraph from previous releases about who is on a water response team.

Paragraph about the mission...possible quote from Kelenske...this will allow us to quicker and efficiently ensure each home has been visited...we expect this to be completed _____ - I'm trying to get this info on 8:30 call.

Paragraph about Guard's continuing assistance at water resource sites at fire stations - see previous releases.

Boilerplate paragraphs about the entire operation; where to go for help, questions and resources - make sure to use this morning's news release language with new web site.

At the end add a note about the Media Advisory - where, when, etc. I think it will be somethng like Reporters wanting photo, video or interviews with NG should meet at INTERSECTION at TIME.

Thanks!!!

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	15
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/20/2016 08:00:00
SEOC Hours of Operation End:	01/20/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 20):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA/DHHS on filter tracking status/strategy.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide food bank delivery resources.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.
o Worked with MDARD for approval to move their food establishment water testing/staging/sampling to Flint water plant from DHHS facility.
o Worked with JIC and Governors office to establish a business resource submission tab on www.helpforflint.com

- JIC
o News release sent from Governor's office about the appeal to the President of the disaster declaration.
o SEOC media advisory sent about additional National Guard presence.
o Congressional call was held today at 1430.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Thursday and Friday.
o Confirmed team typing for Flint Water Resource Teams.
o Data is for 1/20/16 as of 5:00 pm:
o Total homes visited.
- 29,317 (total).
- 3,395 (today).
o Door Hangers.
- 11,333 (total).
- 1,482 (today).
o Water Cases.
- 7,162 (total).
- 1,059 (today).
o Replacement Cartridges.
- 4,084 (total).
- 289 (today).
o Faucet Filters.
- 8,467 (total).
- 1,073 (today).

- Planning Section.
o Published Sit Rep #15.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Worked with the Red Cross to get them online version of data reporting.
o Participated in daily SEOC briefings and distribution process conference call.

- Operations Section
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop and finalize Phase 2 canvassing roll out.
o Held logistics meeting in reference to National Guard deployment.

o Warehouse Numbers as of 1800 (new inventory system in place at 0800):
- Water (cases).
- 49,716.
- Filters (faucet).
- 35,505.

❑ Replacement cartridges.
• 141,562.
❑ Filters (pitcher).
• 0.
❑ Test Kits.
• 744.

o PODs (1700 1/19 – 1600 1/20)
❑ Water (cases)
• 9598.
❑ Filters (faucet)
• 1566.
❑ Replacement Cartridges
• 555.
❑ Filters (pitcher)
• 14.
❑ Test kits
• 857.

• Finance Section.
o Provided information requested from Donations Management regarding the treatment of donations made to the donor – tax receipts.
o Conference call with DEQ and DTMB to discuss items procured for the City of Flint.
o Request financial information from MDOC and MDHHS.
o Continued to work on and revise the spend plan for the incident.
• GIS Branch Updates.
• Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
• Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
• Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
• Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
• Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
• Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
• Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
• Received task for updating app for Phase II of team deployments.
• Fixed accounts for iPad's that were failing in the field and brought them back online.
• Coordination continued with U of M Flint.

DTMB:
• Process additional resource requests for warehouse commodities, workspace for FEMA in Flint, space for water samples.
• Working on securing space in the flint office building for FEMA staff.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Dr. Nicole Lurie from HHS ASPR was in Flint this afternoon and will be at the CHECC and SEOC tomorrow.
• Volunteer Reception Center was highlighted on the MI Volunteer Registry page.
• Conference call held with the CHECC, SAMHSA, and local HD on DBH hotline.

DEQ
• Bottles for test kits delivered today and transferred to ARC for assembly.
• Issue with TDS meter being resolved and bottled water has been tested to confirm there is no lead in water.

MDOE
• The State of Michigan operated School of the Blind water tested 28 ppb for lead.
o The DOE has installed filters and has distributed bottled water.
o The DOE is working to replace fixtures in the facility.

Local EOC Update:
• Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
• Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
• Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
• Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
• Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Developed SitRep #10.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. *Enhance situational awareness and common operating picture of all activities.*
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 20.

State agencies at the JIC included the Governor's Office, Michigan State Police, and Departments of Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Military and Veterans Affairs, and Michigan Community Service Commission. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Issued a news release with updated water resource activity at 8:30 a.m.
- Issued media advisory and news release at 11 a.m. about the Michigan National Guard's increase in support and change in mission.
- Held a media availability as National Guard members began going door-to-door. NBC 25, ABC 12, and WOOD 8 attended.
- Drafted talking points for Captain Kelenske for the 2:30 p.m. Congressional/Legislative briefing conference call.
- Created media monitoring report and looked for misinformation, especially about donations as we had heard there was incorrect information being reported. No misinformation was found.
- Media hotline staff answered over 20 emails and phone calls. Received three calls from individuals offering products or services.
- Drafted guidelines for water donation drives.
- Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, LARA, and MDHHS.
- Asked MDCR PIO to determine if messaging is needed regarding concerns from undocumented citizens; this was an issue raised by MDCR in morning SEOC briefing. They are reviewing it internally and will contact the JIC if messaging is needed.
- Governor's Communications Office issued a news release at 2:30 p.m. regarding the federal disaster appeal letter.
- JIC is planning to issue the nightly activity news release around 6 p.m., and will include the activity map if previous issues are sorted out.
- MSP F/Lt. Dave Kaiser will do an in-studio interview with NBC 25 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
- For situational awareness only – The JIC was made aware that Sanjay Goupta of CNN will be conducting an interview tomorrow with Dr. Mona Hanna-Attisha at the Flint Farmers Market. We are not coordinating this interview and we are unsure of the time.

Agriculture and Rural Development (MDARD)

Wednesday, Jan. 20, provided Recovery Branch Director (Brianna Briggs at EMHSD) background on possible state and federal programs related to supporting the food and agriculture system and nutrition to assist with long term recovery.

MDARD staff has been working with GIS to develop a map overlay of the restaurants in the Flint area with a list received from Genesee County.

Per MDARD Ops Chief we have asked to move water sample staging location because current location does not offer security for supplies. Requesting same location as the sample drop off location (Flint Water Plant, 4500 N Dort Hwy, 48505 (810) 787-6538)

The FDA Detroit District Office Emergency Management Coordinator Lisa Joseph has contacted MDARD asking for whatever materials, flyers, etc. that have been sent out to day care providers/schools regarding preparing food safely and mixing formula for infants. Spoke with DHHS, Education, and LARA reps. and provided the referral websites included on a draft flyer being prepared for distribution.

MDARD Veterinarian Dr. Schalow is updating the veterinary spreadsheet to include all (as many as we can find) veterinary clinics in Genesee County. She will call additional clinics to update them on AID activities and provide basic information about the Flint water situation and resources for filters and water testing. So far, we have determined only one veterinary clinic on Flint water (Eascor Animal Hospital). Dr. Schalow also contacted Genesee County Animal Control Officer Paul Wallace for an update. Per Dr. Schalow, "Director Wallace states that, to the best of his knowledge there are no doggy daycares, dog parks, pet shops, kennel licensees, animal shelters, or animal rescues in the City of Flint (that would be on Flint water) so he is not conducting any activities at this time."

Livestock – to date we have found no livestock in Flint.

Discussion with LARA SEOC rep regarding locations for MDARD Sample Collection and questions being asked to establishments

Talked with MDEQ SEOC rep regarding disposal of any bottled water that would require disposal if it tests positive for lead.

Spoke with Michelle Kuzera working from the Genesee County EOC asking if MDARD was going to provide something to the restaurants to display after they have been assessed by MDARD. Spoke to Sandra Walker MDARD Food & Dairy Division. She indicated they have been in discussions with Genesee County Health Department to develop a list or something like that to be posted on the Flint water website to indicate those restaurants that have been assessed and found in licensing compliance. Still working on the issue of providing them something that declares them "safe." Shared that back with Michelle at Genesee County EOC.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Wednesday. 69 volunteers were processed today. The VRC will be in operation on Thursday.
We continued to support the warehouse efforts.
A total of 75 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

The CHECC remains activated at level 2, and communications have been maintained between the SEOC and CHECC.

Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived in MI and is meeting with the Governor this afternoon. Dr. Lurie will be meeting with the MDHHS Director, Nick Lyon; MDHHS Chief Medical Executive, Dr. Eden Wells, and other MDHHS leaders tomorrow morning. She will then meet with the CHECC and will follow with a briefing at the SEOC by Captain Kelenske. Following the SEOC briefing, she will be escorted to Flint. It is anticipated that she will provide some local one on one media interviews as she tours various sites in Flint.

Additional Federal partners have also arrived in MI, including Anthony Voirin, the Region V ASPR representative for MI; CDC representatives from the Agency for Toxic Substances and Disease Registry (ATSDR) and National Center for Environmental Health (NCEH).

The National Disaster Distress Helpline has been activated to support the Disaster Behavioral Health response. A phone conference was conducted today to connect Genesee County Community Mental Health with the helpline.

The CHECC continues to operate a phone bank to answer questions related to lead or legionella referred from 2-1-1. This is in response to a request from Genesee County Health Department.

Addresses for individuals who are dependent on medical equipment in the home, were provided to the SEOC GIS section to ensure that all of the at-risk individuals in this population have received the resources that are being provided by the Flint Water Response Teams in the door to door campaign.

Corrections (MDOC)

Good Evening All,

The efforts continue to ramp up, we are carrying all of our current resources forward through Sunday, January 24, 2016 at 1700 hours.

If you have been extended through Tuesday, January 26, 2016 please continue to provide requested resources through that date. Additionally, we have added an SAI prisoner work crew to the efforts. I will contact all of the stakeholders tomorrow and confirm resources for the upcoming weekend.

The National Guard have multiplied the force in this effort and will increase our ability to carry the mission forward.

Please do not share this information outside of our department. Thank you again for all of your help and efforts, you are making a difference!

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

(23) - MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

(24) - MDOC employees

(7) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

If you have any questions regarding this evenings report, please contact Mike Farmer at 517-614-6902.

Mike Farmer on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All Requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Wednesday, January 20, 2016 as requested.

We are building up additional resources for Thursday, January, 21, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

(23) - MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

2 – 6 passenger vans

1- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

(24) - MDOC employees

(7) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Stevens Hall, a residential dormitory for the Michigan School for the Deaf, showed a level of 28 parts per billion in a water analysis. Limit is 15 parts per billion. The dormitory is a leased facility. Water testing results were reported to the administration on 1/19/16. . Test result is in MiCIMS.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

• Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

• Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

• Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

• Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

Human Services (MDHS)

Had conference call with local MDHHS Director for Genesee Co. Genesee Co MDHHS is taking a targeted approach for their foster care and adult foster care homes. They are calling every single one, inquiring if they have water and filter, then following up with an actual home visit to verify. All this gets documented in the case file.

Arranged for inventory to be taken between GCCARD and warehouse.
Provided donated goods resource contact info to several requesters.
Confirmed single point of contact back to 211 with information requests from them.
Updated resource request for pitchers.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS is ongoing. Assessment of needs will begin.

Executive Team participated in various meetings regarding funding and has been updated.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

MSP and GCSD supported 10 National Guard staffed teams that were out today and there were 10 Red Cross teams. 3,372 homes were visited today.

A request has been submitted to logistics for 200 newspaper delivery bags to assist the water response teams in carrying packages.

Lt. Dehner has requested to get the target maps for the next day before 6:00 pm each day. This will give the field team leadership time to get the maps printed and coordinated and make assignments. This request has been submitted to GIS for action.

Water Resource Teams hours of operations will change to 1000-1800 beginning on 1/21/16.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers.
Four temporary fuel cards were provided to the MSP officers driving rented U-Haul trucks obtained to assist water response teams.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers hand warmers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies on water related material as needed.
Providing server monitoring of MiCIMS servers.
Wireless router and printer was provided for FEMA staff at the SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse as well as an armed security officer.
Provided 2 cell phones to DHHS Michigan Community Service Commission for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirectTV in the Flint State Office Building for the Joint Information Center.
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.
Provided 13 passenger vans to assist with transporting of Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Flint Water Activity Map

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, January 20, 2016

GENERAL INFORMATION:

- The governor's state of the state address last night generated a few calls to 2-1-1 – with the *significant additional capacity* 2-1-1 added there was no wait for callers to reach an agent.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume was extremely high today leading to hold time up to 25 minutes for callers.

Statewide: 4,248 calls were received –over 3x the daily average call volume

Flint Water: 580 callers chose the Flint Water option – 180 more water calls than any other day

- 2-1-1 operated at the outer limit of the partners' capacity today. Every available agent in the state, as well as supervisors and managers, handled calls, and the callback feature was extensively used – this offers callers the option of keeping their place in queue and having 2-1-1 call back when an agent is available.
- Today was the opening of scheduling for free tax prep services – traditionally a very high volume day for 2-1-1. The spike in demand appears to result from a combination of tax *assistance, the governor's address, and the prominent mentions of* 2-1-1 *on* michigan.gov/flintwater and helpforflint.com web sites.
- Also contributing to the long wait time were a slow response time for the cloud-based 2-1-1 database. The vendor was contacted and is working to reduce lag-time on the system.

- This morning the JIC forwarded an email from the governor's office reporting two complaints that callers tried to reach 2-1-1 last night and experienced a 30-45 minute wait for an answer. Michigan 2-1-1 reviewed the overnight call demand and found a single caller who was *not* seeking water-related help had 14 minute wait. Of the 56 total overnight calls, 4 had wait-times over two minutes. The average time to answer was 49 seconds. Of the seven (7) Flint Water calls received, the average time to answer was 37 seconds and all Flint Water calls were answered in under two minutes.

SPECIAL NEEDS/REQUESTS

☑ The Genesee County Health Department, DHHS and the Michigan 2-1-1 state office had a conference call to coordinate referrals for people in Flint seeking information from a health professional. GCHD is at their capacity to handle these calls and cannot take additional referrals from 2-1-1. DHHS has agreed to take ALL referrals from 2-1-1 for Flint health information (water safety, lead, and Legionella). **Resolution: Until further notice 2-1-1 will refer all callers with lead and Legionella questions to the DHHS hotline at 888-535-6136.**

☑ Michigan 2-1-1 worked with Flint Water Service Center to discuss their high volume of calls from area residents who are trying to verify whether or not they are on the Flint water system. **Resolution: The Service Center will continue monitoring their capacity and contact 2-1-1 if there is a need to change messaging or how 2-1-1 handles these referrals.**

RUMOR CONTROL

- ☐ Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
January 20, 2016
Release #: 11

For more information contact:
Joint Information Center
888-EMD-TODAY (888-363-8632)

29,317 Homes Visited To Date by Water Resource Teams

FLINT, Mich. –Water response teams, bolstered by 95 Michigan National Guard Soldiers and Airmen, distributed water resources to 3,395 Flint homes today. They provided residents with free bottled water, filters, water replacement cartridges and water testing kits.

By tomorrow, additional National Guard Soldiers and Airmen will arrive bringing the total number of National Guard service members to approximately 180 going door-to-door along with water response teams comprised of city, county and state personnel, American Red Cross and volunteers.

To date, 29,317 homes in the City of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 90,300 cases of water
- More than 73,200 water filters
- More than 19,800 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 111,630 cases of water
- 115,700 water filters
- 61,161 water testing kits

MORE

Today, Gov. Rick Snyder submitted an appeal to President Barack Obama following the denial of the major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

In the appeal to President Obama, Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation program in order to facilitate recovery.

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information. Please note the American Red Cross is no longer able to accept material donations at this time.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

To enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

Situation Report

January 20, 2016

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 20.

State agencies at the JIC included the Governor's Office, Michigan State Police, and Departments of Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Military and Veterans Affairs, and Michigan Community Service Commission. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Issued a news release with updated water resource activity at 8:30 a.m.
- Issued media advisory and news release at 11 a.m. about the Michigan National Guard's increase in support and change in mission.
- Held a media availability as National Guard members began going door-to-door. NBC 25, ABC 12, and WOOD 8 attended.
- Drafted talking points for Captain Kelenske for the 2:30 p.m. Congressional/Legislative briefing conference call.
- Created media monitoring report and looked for misinformation, especially about donations as we had heard there was incorrect information being reported. No misinformation was found.
- Media hotline staff answered over 20 emails and phone calls. Received three calls from individuals offering products or services.
- Drafted guidelines for water donation drives.
- Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, LARA, and MDHHS.
- Asked MDCR PIO to determine if messaging is needed regarding concerns from undocumented citizens; this was an issue raised by MDCR in morning SEOC briefing. They are reviewing it internally and will contact the JIC if messaging is needed.
- Governor's Communications Office issued a news release at 2:30 p.m. regarding the federal disaster appeal letter.
- JIC is planning to issue the nightly activity news release around 6 p.m., and will include the activity map if previous issues are sorted out.
- MSP F/Lt. Dave Kaiser will do an in-studio interview with NBC 25 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
- For situational awareness only – The JIC was made aware that Sanjay Goupta of CNN will be conducting an interview tomorrow with Dr. Mona Hanna-Attisha at the Flint Farmers Market. We are not coordinating this interview and we are unsure of the time.

Local veterans should find it easier to find help when filing for federal benefits and to to learn about

state and local resources.

OPINION

Finally, the start of a remedy for Flint (Detroit Free Press)
Voice cracking in apparent contrition, Gov. Rick Snyder spent the bulk of his annual State of the State address focused not on past achievements or a policy wish-list for the year ahead, but on apologizing for his administration's failures in Flint.

Finley: Snyder's speech is good first step (Detroit News)
Gov. Rick Snyder found the urgency and empathy Tuesday night that has been so absent from his response to the Flint water crisis.

Editorial: state of State depends on fixing Flint, DPS (Detroit News)
Michigan cannot declare its state sound and strong until the crisis in Flint is under control and a long-term plan is in place to mitigate the damage done by contaminated water. Gov. Rick Snyder at last seemed to recognize that Tuesday night, making Flint the overwhelming subject of his sixth State of the State address.

Snyder's six-point plan to aid in Flint (Detroit News)
Gov. Rick Snyder will detail Tuesday night a more than $20 million supplemental spending plan to address the Flint water crisis, including health treatment for affected children and replacing faucets and other fixtures in all of the city's schools and day care centers.

Flint Water Discussion Points
Updated Jan. 18, 2016 – Governor's Office

- The health and welfare of Flint residents is the top priority. Gov. Snyder's focus is on getting residents the help they need and the response they deserve. He wants to ensure Flint residents have access to clean, safe drinking water.
- When Gov. Snyder became aware that the city of Flint's water showed elevated lead levels, he responded quickly and aggressively.
    - He set in place a 10-point action plan that included free filters for residents, increased blood testing and water testing in all Flint schools.
    - The Governor also created a bipartisan, independent task force to review all state, city and federal actions concerning Flint water and making recommendations for the future.
- We're focused at solving the immediate problems, and also addressing long-term needs.
    - The Flint Water Interagency Coordinating Committee will bring together a wide range of experts to work on long-term solutions to the Flint water situation and ongoing public health concerns affecting residents.
- Gov. Snyder declared a state of emergency, requested federal assistance, and activated the Michigan National Guard.
- President Obama granted an emergency declaration, providing $5 million for water, water filters, filter replacements and water test kits.
    - Congress can approve additional funding.
    - The Governor had also requested from Obama a major disaster declaration, which was denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.
    - The state is now appealing the disaster declaration denial.

<u>The top priority: Water resources for all Flint residents</u>

- The top priority of response efforts is to ensure residents have access to safe, clean drinking water. Residents should install filters to their taps to ensure they have immediate, ongoing access to safe water. It is important to follow installation and maintenance instructions for filters and replacement cartridges.
    - There are five water resource centers, open seven days a week from 9 a.m. to 9 p.m. at Flint fire stations.
    - There are water resource teams going door-to-door to ensure every resident has a water filter and additional water resources
    - Residents who need immediate help should call 211 or the governor's office at 517-335-7858
    - If you want to donate or volunteer to help the people of Flint, visit: helpforflint.com.
- Since emergency declaration we have distributed 37,000 cases of bottled water, nearly 54,000 filters, and about 170,000 filter replacement cartridges.
    - 21,393 homes have been visited by the Flint Water Resource Teams to date.
- When installed and maintained properly, water filters remove 99 percent of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- Nearly 400 homes, businesses and schools in Flint have been tested from Oct 2 to Nov. 9.
- About 2,500 residents tested for blood lead levels from Oct 2 to Jan. 5.

When did Gov. Snyder become aware of the elevated lead levels?

- The Governor knew about water odor, taste and color complaints after the switch to the Flint River.
- DEQ continued to reassure the governor and his team that the water was safe.
- Sept. 28, 2015: DEQ and DHHS directors briefed the governor on the potential scope and magnitude of the lead issue. They begin discussion on what actions should be taken should be if the concerns raised by outside researchers was verified.
- Oct. 1. 2015: DHHS director informed the governor that his epidemiologists reviewed the data and confirmed Dr. Mona Hanna-Attisha's conclusions that blood lead levels in children were elevated – due to an association with lead contaminated water in certain ZIP codes.
- Oct. 2, 2015: Governor released a 10-point plan to address water system, $1 million for water filters, and anticorrosion treatment. The plan, among other things, included immediate testing in schools, expanding individual testing, creating a technical advisory committee to work with the EPA and expediting completion of KWA.

What has happened since?

- Oct. 6, 2015: DHHS announces water filter pick up locations in the city of Flint.
- Oct. 8, 2015: Gov. Snyder announces plan to reconnect Flint to Detroit water.
- Oct. 16, 2015: Flint reconnects to Detroit water.
- Oct. 19, 2015: Director Wyant announces his staff made a mistake and did not apply the appropriate corrosion control.
- Oct. 21, 2015: Governor announces an independent Flint Water Task force to review state, local and federal actions and offer recommendations.
- Dec. 14, 2015: Flint declares emergency
- Jan. 4, 2016: Genesee County declares local state of emergency
- Jan. 5, 2016: State of Michigan declares state of emergency
- Jan. 16, 2016: President Obama declares a federal emergency in Flint.

What happens next?

- The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents.
- A supplemental budget request will provide funds to the city to help alleviate the need for utility shutoffs.
- This immediate assistance takes into account what we are hearing from the local community is needed there, and builds upon the good work being done by our emergency operations teams to continue door-to-door efforts to distribute resources.
- Michigan Medicaid and WIC programs already required testing for children at ages one and two. To promote and increase testing in the community, MDHHS issued a Health Alert Network notification for local Flint providers recommending blood lead testing for all children younger than 6 years of age who have not previously been tested.

WE ARE ONE MICHIGAN

GOVERNOR RICK SNYDER'S 2016 STATE OF THE STATE ADDRESS

Ending the Flint Water crisis

IMMEDIATE ACTIONS

The governor has pledged the full commitment of the state to help heal Flint. Any resource available will be drawn on. To date, more than 21,000 homes in Flint have been visited to provide clean water resources. A new $22 million dollar state supplemental spending bill will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The funding will also provide wraparound services, such as diagnostic testing, nurse visits and environmental assessments, as well as access to child and adolescent health centers. Funding also will help the city alleviate the need for water shutoffs, and old fixtures will be replaced in schools, daycares and hospitals.

LONG-TERM ACTIONS

The Governor's annual budget proposal, slated this year for Feb. 10, will contain specific recommendations on long-term funding and action items that will support the residents of Flint as they recover from this crisis. Ongoing needs to be addressed include special education, long-term monitoring and health care for children with high lead levels, and studies to identify water infrastructure and service lines in need of replacement.

State funding will be a large part of the solution to Flint's water crisis. Further support and recommendations will come from the Flint Water Interagency Coordinating Committee. This panel will consist of water experts, public health professionals and infrastructure experts, and Flint community members. It will analyze any long-term effects and make recommendations as to what resources are needed.

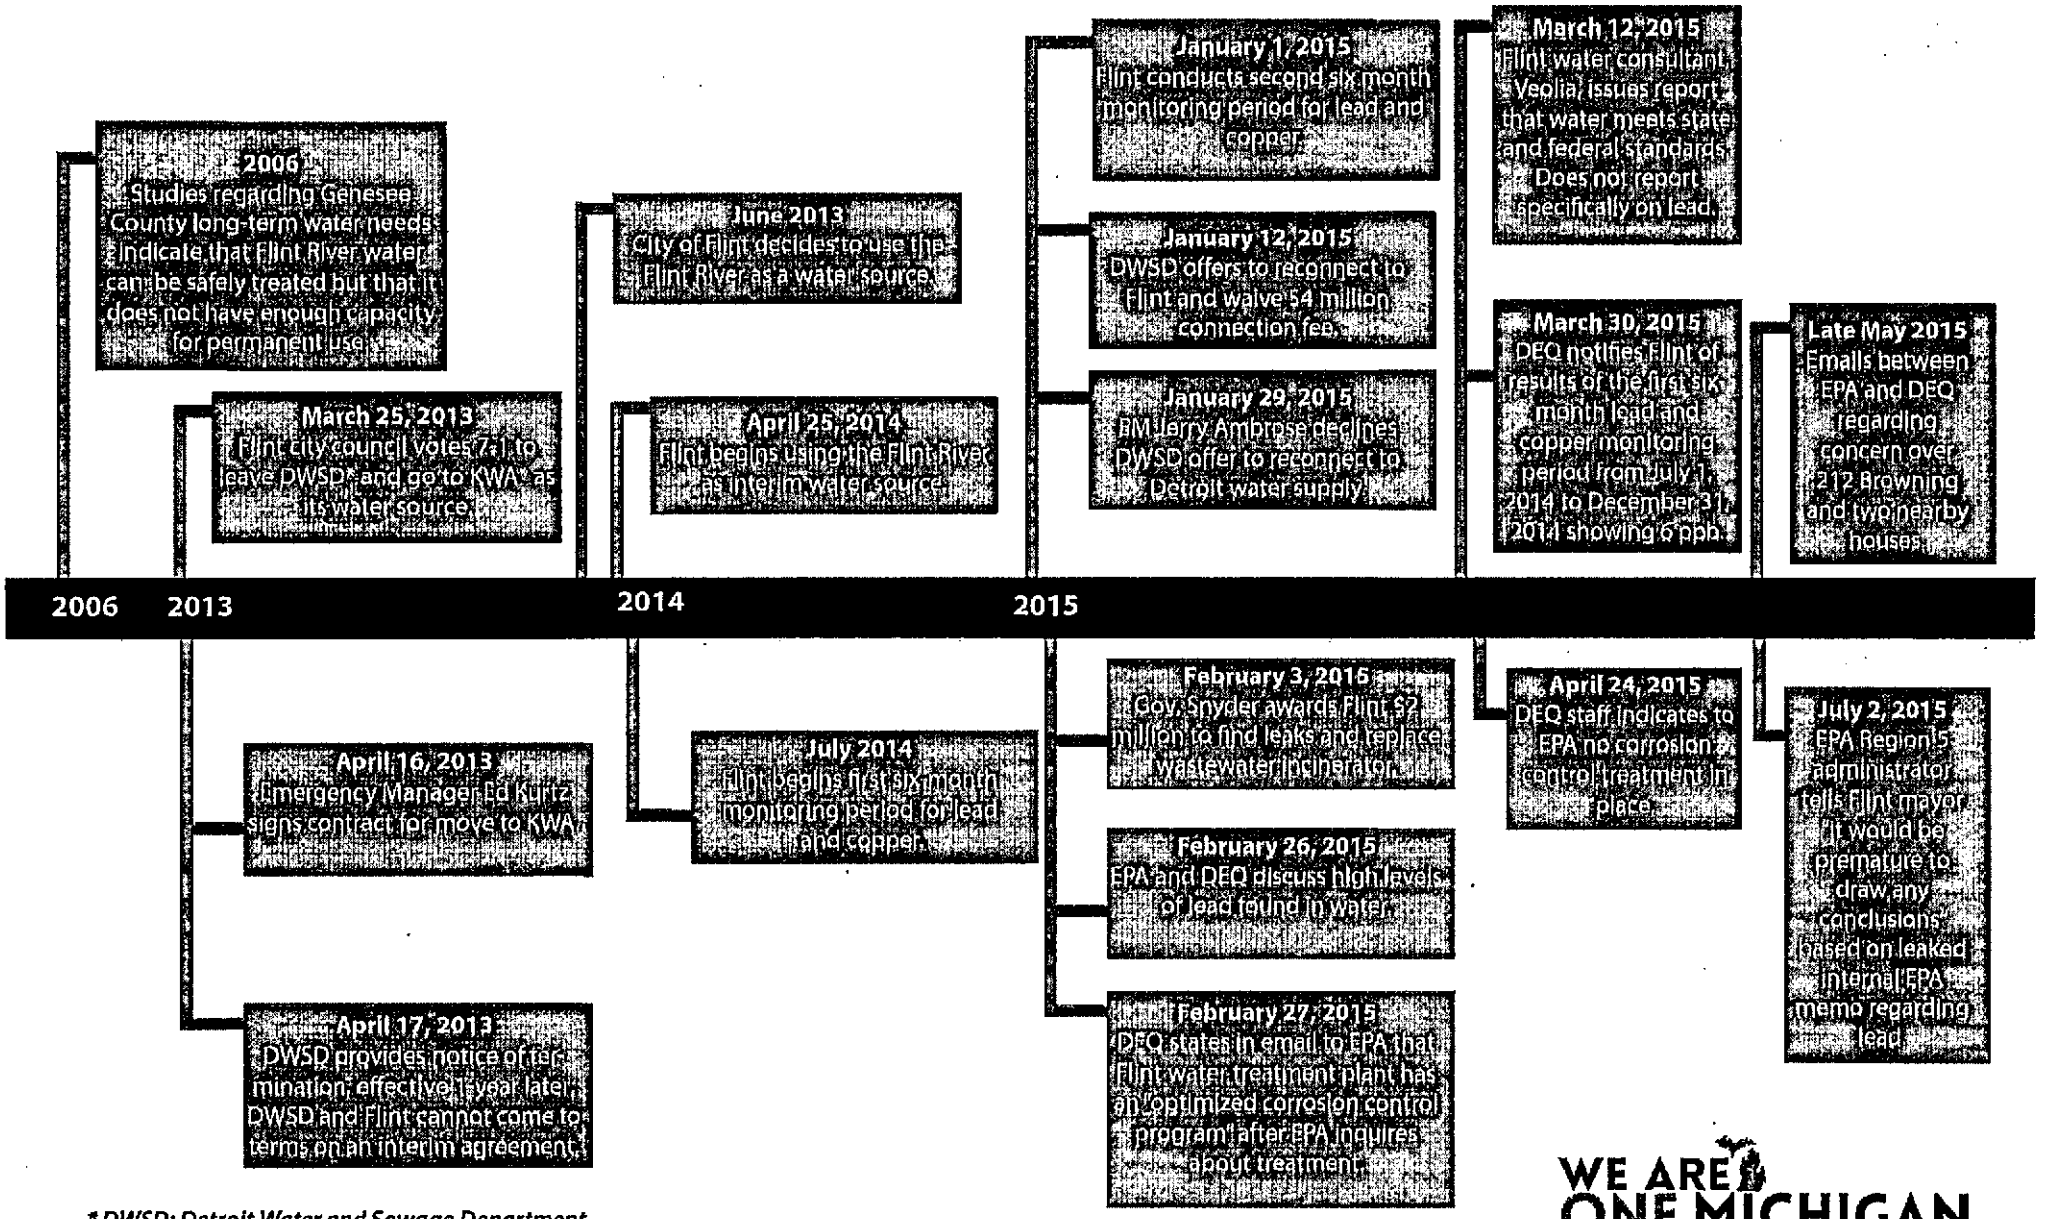
ENSURING THIS NEVER HAPPENS AGAIN

The legislature is being asked to immediately pass legislation to fund projects related to improving and upgrading water infrastructure, not just in Flint but any city with aging infrastructure. From replacing lead pipes to purchasing cutting-edge filtration systems, there can be no excuse for government failing at such a basic function. When Michiganders turn on the tap, they deserve clean, clear, safe water. It is that simple.

Gov. Snyder is also convening a commission on 21st century infrastructure, composed of the best independent experts, community leaders, and local and state officials to study Michigan's infrastructure needs, threats, opportunities and costs. The task force will be charged with recommending action items and investments to protect our health and well-being. Top priorities will include: water and sewer infrastructure, energy and electrical grids, broadband modernization, and upgrading the aging Soo Locks, where even a 30-day outage would result in economic losses of $160 million dollars. The task force will provide a comprehensive update to the governor and the public, laying the groundwork for state and municipal actions to take place.

FLINT WATER TIMELINE

- KEY DATES -



** DWSD: Detroit Water and Sewage Department*
** KWA: Karengodi Water Authority*

WE ARE ONE MICHIGAN

FLINT WATER TIMELINE

- TIMELINE CONTINUED -

July 21, 2015
EPA and DEQ discuss the requirement for corrosion control optimization of drinking water from Flint River.

July 22, 2015
Governor Snyder's Chief of Staff, Dennis Muchmore, emails DHHS director, Nick Lyon, stating, "community concerns about lead in the water." Muchmore asks about Flint water test results, blood testing and State's response.

August 17, 2015
Based on July results showing lead levels at 11 ppb from the second six-month testing period from January 1, 2015 to June 30, 2015, DEQ instructs Flint to optimize corrosion control.

August 23, 2015
Virginia Tech researcher Prof. Marc Edwards raises concerns about corrosion and lead. Notifies DEQ that he will be studying Flint's water quality. Flint issues "do not drink" advisory.

August 28, 2015
Concerned Pastors announce water filter giveaway in Flint.

September 2, 2015
Professor Edwards communicates that the corrosiveness of Flint water is causing lead to leach into residents' water through pipes.

Early September 2015
DEQ disputes Professor Edwards' test results and conclusions about corrosion and lead leaching.

September 28, 2015
DEQ and DHHS Directors provide briefing to Gov. Snyder on potential scope and magnitude of the issue. DHHS continues to review blood lead level data.

October 1, 2015
DHHS confirms lead problem, City of Flint urges residents to not drink tap water.

October 2, 2015
Governor releases 10-point plan to address water system, $1 million for water filters and anti-corrosion treatment.

October 8, 2015
Governor announces plan to reconnect to Detroit water and Flint develops the plan.

October 15, 2015
Gov. Snyder signs supplemental appropriation with $9.35 million to assist Flint in reconnecting to DWSD. Mott Foundation contributed $4 million and Flint $2 million.

October 16, 2015
City of Flint reconnects with DWSD.

October 19, 2015
DEQ Director Dan Wyant states: *"staff made a mistake while working with the City of Flint. Simply stated, staff employed a federal (corrosion control) protocol they believed was appropriate and it was not."*

November 3, 2015
The EPA indicates differing possible interpretations of the Lead and Copper Rule with respect to how the LCR's optimal corrosion control treatment procedures apply to the situation (new water source/new water treatment).

December 9, 2015
Flint begins to add additional corrosion controls.

December 14, 2015
City of Flint declares emergency.

December 29, 2015
Gov. Snyder takes action on initial findings from Flint Water Task Force. DEQ Director Wyant and Communications Director Brad Wurfel resign.

December 30, 2015
Gov. Snyder taps DNR Director Keith Creagh to guide DEQ through leadership transition.

January 4, 2016
Genesee County Commission votes to declare emergency.

January 5, 2016
Gov. Snyder declares emergency for Genesee County, activating the State Emergency Operations Center.

January 9, 2016
MSP Emergency Management Division announces water resource sites established in Flint with bottled water, filters and testing kits.

January 8, 2016
Gov. Snyder and Flint Mayor Weaver meet to discuss collaboration.

January 11, 2016
Gov. Snyder signs Executive Order to create the Flint Water Interagency Coordinating Committee to work on long-term solutions to the Flint water situation.

January 12, 2016
Governor requests FEMA's assistance and activates Michigan National Guard to help with water resources distribution.

January 14, 2016
Governor requests Presidential declaration of major disaster and emergency and requests federal aid.

January 16, 2016
The President approves declaration of emergency and request for federal aid. The President denies request for a declaration of major disaster.

Joint Information Center
888-EMD-TODAY (888-363-8632)

2,715 More Homes Visited on Tuesday by Water Response Teams

FLINT, Mich. - As noted in Governor Snyder's State of the State address last night, significant progress has been made in distributing water resources to residents in Flint.

As of this morning, 22,129 homes in the City of Flint were either visited by a water response team, comprised of city, county and state personnel, American Red Cross and volunteers, or the resident has visited a water resource site to pick up these resources.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 77,700 cases of water
- More than 69,700 water filters
- More than 16,600 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 95,760 cases of water
- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit www.helpforflint.com for more information.

MORE

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

To enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Subject:	SEOC Update 1/19/16 - Flint Water - Limited Distribution
Attachments:	SitRep14 Flint Water.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.

- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. 22,129 homes visited by the FWRTs to date.

        2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
            a. Number of cases of water 77,794
            b. Filters 69,730
            c. Filter cartridges 184,457
            d. Test kits 16,671

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

        4. Resources purchased:
            a. Cases of water 95,760 (additional 16,056 donated)
            b. Filters 115,700
            c. Filter cartridges 243,200
            d. Test kits 61,161

        5. Teams going out tomorrow:
            a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
            b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system

a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.

- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613

Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:

- Mission – A filter in every home ASAP.
- 4 Distribution Methods
  - PODs (5)
  - Water Response Teams (20 effective tomorrow and this will increase)
  - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
  - Local EOC support for other local requests (Faith based for distribution, etc.)
- Three warehouse locations at this time
- How to better leverage ARC resources

- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
  - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
  - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
  - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:
- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:
- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be

dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.

- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

- State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
- The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.

10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and

they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.

- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver

these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to

Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.

10. *Establish a Joint Information Center (JIC) and develop a public information strategy.*
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: RE: Weather Channel Crawl and Comcast update

Hi Chris,

Thanks for reaching out. Here is our message: Flint residents can get free bottled water, free water filters and more at five fire stations, 9 am-9pm daily. A water filter is the best choice for ongoing access to safe drinking water. Call 211 or go to mi.gov/flintwater for locations to get supplies and more information.

Thank you for the update. At some point in the next two weeks we will be doing a press release with information on what the business community has done to help in Flint. We will be in touch to coordinate that when the time is appropriate.

Please let me know if there's anything else we can be doing to assist you.

Sincerely,

Tori Sachs
External Affairs Advisor
Office of Gov. Rick Snyder

Subject: Weather Channel Crawl and Comcast update

We have the ability to run a message (crawl) on the bottom of the Weather Channel. I just got approval to run a message for the Flint water issue. What message would you like to run? It is limited to 282 characters including punctuation and spaces.

Here is a quick update on the Comcast efforts.

1. The PSA is up and running as a cross channel spot 24/7 (every cable channel that you can insert ads, all day) on the Flint system. We have stopped running Comcast promotional ads in Flint to free up advertising space. We

are also running the PSA on all unused spots, so it will be a very heavy run. It is scheduled for 3 weeks, but we may be able to extend if needed.

2. Our techs are picked up their first 1,000 filters and kits this morning. They will be stocked in their trucks for home visits. They will also be distributed at the front counter of our Flint Comcast office.
3. We created a new section in On Demand called Flint Water. People can click on tabs for the PSA and an instructional video on how to install the filter. We can add other videos and PSAs to this section. This is active for digital customers right now. It should be active for X1 customers tomorrow.
4. We are organizing Comcast employees to volunteer on the weekends. We have one person dedicated to this task. We are also sending out an employee communication to all 5,000 Comcast regional employees asking them to volunteer and providing links to make contributions to the charities involved with these efforts.

FOR IMMEDIATE RELEASE
Tuesday, January 19, 2016

EDITOR'S NOTE: Please find attached a copy of Gov. Snyder's remarks on Flint. Additional resources are linked at the bottom of the press release.

State of the State 2016: Immediate action for the challenges of today, opportunities for tomorrow

Snyder to Flint: 'I will fix it'

LANSING, Mich. – Gov. Rick Snyder devoted his sixth State of the State address to the immediate challenges facing Michigan today and actions being taken to solve them – foremost among them, the crisis in Flint, the condition of Detroit Public Schools, and Michigan's economic future.

"To the people of Flint, I will fix this. You did not create this crisis and you do not deserve this," Snyder said. "I want to tell you that you are not alone. The State of Michigan stands with you. I will spare no resource to effectively and permanently solve this crisis and ensure you have the quality of life you deserve."

The governor explained the immediate actions being taken to help Flint residents, including daily door-to-door distribution of bottled water, water filters, filter replacements and water testing kits. More than 21,000 homes have been visited this month by volunteers and emergency responders. In addition, he detailed budget recommendations to keep Flint on Detroit's water system through the end of 2016, to replace water supply pipes and fixtures in Flint schools, and to fund specialized staff locally in Flint for follow-up care for affected residents.

An official request to the Legislature to address immediate, short-term funding to ensure everyone in Flint has clean water will cover costs such as:

- Replacement of fixtures in schools, daycares and hospitals;
- Treatment of children with high lead levels, including diagnostic testing, nurse visits and environmental assessments;
- Child and adolescent health centers and additional support for children's health care access;
- An infrastructure integrity study for pipes and connections, using outside experts;
- Providing aid to the city for utilities.

Long-term health monitoring for children exposed to the water and potential replacement of water infrastructure and service lines will be addressed through the governor's traditional budget recommendation, which will be shared on Feb. 10.

The governor also talked openly about fixing the problems in state government that led to this crisis.

"Apologies are not enough. My immediate concern is with healing Flint and ensuring all residents there have clean water. But I will also work to address the breakdown in state government that led to this crisis so that it never happens again. You have my word that we will fix this, and everyone who works for state government must know - any situation like this must come to my attention immediately. No delays, no excuses. We are accountable."

The Flint water crisis is an extreme example of how infrastructure replacement is desperately needed. But Flint is not the only municipality that will need to have water transmission pipes and other components of underground systems upgraded.

"Our state faces very real challenges at this point. We have deteriorating infrastructure – infrastructure we don't see every day like we do with roads. Many cities have aging water systems and pipes that need to be upgraded. Flint has been the catalyst for this, but it isn't just Flint and it isn't just Michigan. This is a national problem, and we are going to have Michigan solutions."

Gov. Snyder is calling for local and state officials as well as independent experts to work together on long-term solutions to infrastructure challenges. Top priorities include: water infrastructure, energy and electrical grids, broadband support, and upgrading the Soo Locks. A task force will be appointed to examine these issues and make recommendations for action.

The crisis in Flint is a tragic reminder that Michigan cannot truly be strong when Michiganders are suffering. This is a statewide challenge, and it isn't the only one. In 2016 the most pressing education issue is restructuring the Detroit Public School system.

Detroit schools are failing at the most basic fundamentals of education: teaching children. Gov. Snyder will continue working with the Legislature to reform the entire structure of DPS, so that not only can current students achieve more and have a better chance for future success, but measures will be put in place to ensure a complete failure to educate schoolchildren never again happens in a Michigan district. The district's debt must be restructured so that the $1,100 per-student spent on debt service can be spent on classroom resources.

Contrite Snyder Says He Will Release Emails On Flint

Governor Rick Snyder said tonight at the opening of his State of the State speech that he will release his emails from 2014 and 2015 on Flint water.

Whether that will include just Mr. Snyder's emails or those of all those in the Executive Office was not immediately clear. Under the Freedom of Information Act, the governor and his Executive Office are exempt.

A clearly chastened Mr. Snyder is using the bulk of his sixth State of the State speech, as expected, to address the water crisis in Flint, outlining an immediate emergency spending plan, apologizing for errors his administration committed, offering a timeline of what he knew and when and making clear he will not resign.

He apologized profusely to the people of Flint.

"You deserve to know that the buck stops here with me," he said.

Many Democrats, from activists up through presidential candidate U.S. Sen. Bernie Sanders, have called for Mr. Snyder to resign because of his administration's role in the decisions that led to lead levels rising beyond levels requiring action in Flint's water and children seeing elevated levels of lead in their blood. A Legionnaire's outbreak in Genesee County also possibly resulted from using the Flint River as an interim source of water while the city awaited completion of a new pipeline to Lake Huron.

But Mr. Snyder was expected to say in the speech that he believes he owes it to Flint to fix the problem, not walk away. Resigning would amount to giving up on the city, he was expected to say.

As was first reported by Gongwer News Service, Mr. Snyder is also using his speech to call on the Legislature to pass a $28.03 million supplemental to aid Flint ($22.63 million General Fund). The bill will be taken up Wednesday morning in the House Appropriations Committee.

He will announce the state will ramp up the number of National Guard members in the city from approximately 70 to 200, enabling completion of door-to-door visits at every household in the city by the end of the week at the latest.

Mr. Snyder also will say the state is appealing President Barack Obama's denial of the state's request for a major disaster declaration. The federal government has said it has no authority to declare a disaster stemming from man-made causes.

The only other major topic in the speech tonight is the crisis engulfing the Detroit Public Schools. Mr. Snyder is expected to address the topic on a broad level and urge quick action because the district could run out of money in April or May.

Mr. Snyder, for the first time as governor, is speaking from a prepared text, departing from his traditional use of an outline. So important is the discussion on Flint that he wanted to take no chances on the wording.

Subject: 2-1-1 Flint Water Response for Tuesday, January 19, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, January 18, 2016

GENERAL INFORMATION:

☑ **Positive tests from bottled water:** Thanks to SEOC and DEQ for following up with water testing company, Zerowater, to clarify why people could get a positive response when they test their bottled water. 2-1-1 will use this language and let the JIC know if callers have additional concerns or questions:

"The TDS meter (Total Dissolved Solids) is NOT intended to measure Lead levels in your water. The meter is not sensitive enough to determine maximum safe lead levels, but only TOTAL dissolved solids, which will largely effect taste. The Zerowater filter WILL reduce lead to a safe level as long as it is not used past maximum capacity. Please test your water regularly with the meter and change your filter when the meter reads 006 or higher."

- Zerowater is adding a message to the filter and TDS meter packaging to provide this information. Their customer service team also has this information. Zerowater Customer Service is 1-800-503-2939, open M-F 9am–9pm Eastern.
- MDEQ also contacted the three callers reporting positive tests, provided them a resupply of water and picked up the bottles that tested positive for a lead and copper analysis in the DEQ laboratory.

- 2-1-1 partners have coordinated to increase staffing to handle any call surge based on the governor's state of the state address.
  - The 2-1-1 database went down around 6:00 pm. The vendor was contacted and indicated this outage will likely last several hours. This will delay reporting on today's calls and callers needs as this data will have to be compiled by hand.

CORRECTIONS AND CLARIFICATIONS

- **CORRECTION:** Yesterday's item re: the minister calling for assistance for assistance was actually offering his church as a water distribution site – I misunderstood he was waiting on a water delivery. but no water had been delivered. 2-1-1 has received several calls offering to provide additional distribution sites. These offers are being forwarded to Jamie-Lee Venable at United Way of Genesee County.

- **CLARIFICATION:** It is Genesee County employees who are periodically furloughed, not City of Flint.
  Upcoming Genesee County closure dates are:
  February 12-15: Presidents Day
  March 25 – Good Friday
  May 27-30 – Memorial Day

CALL VOLUME:

☐ Call volume was substantially higher than average today (Tuesday). The high volume had some impact on the time it took to answer calls, but there were no reports of caller dissatisfaction.

☐ The Genesee County Health Department has asked 2-1-1 to refer callers with lead and Legionella questions to the DHHS hotline that was available over the weekend. 2-1-1 is awaiting confirmation that the state hotline will be regularly staffed before implementing this change.

SPECIAL NEEDS/REQUESTS

☑ Business owners asking for water filters. Per Jamie-Lee Venable at UWGC, 2-1-1 is directing business owners to the Chamber of Commerce.

RUMOR CONTROL

- One caller reported hearing rumors of contaminated bottled water. *See first item under General Information for guidance on handling of these calls going forward.*

UNRESOLVED

☐ **From 1/13/16:** No solution reported yet for a paralyzed man who needs a water testing kit delivered. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.

☑ **From 1/14/16:** 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized housing) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods. **Is the sheriff's office handling these deliveries now?** ***RESOLUTION:*** *Per agreement with the Sheriff's Department, each time residents call, 2-1-1 will forward their information to the Department for follow up.*

☑ **From 1/15/16:** 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police. 2-1-1 attempted to provide reassurance, but the caller was adamant being removed. **Is there a water delivery option for residents who are concerned about contact with law enforcement?** ***RESOLUTION:*** *The teams have at least one law enforcement representative with each group that goes to residents homes. 2-1-1 Staff will try to reassure callers that canvass teams are only at the residence to provide water resources.*

☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ **From 1/18/16:** One of the top questions is when will canvassers be specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

Importance: High

Thanks for your help coordinating for the governor's address this evening.

- 2-1-1 has additional agents from partner 2-1-1s around the state standing by to take calls if needed.
- The link to the governor's web site with the (currently inactive) link to Flint Water Crisis has been sent to agents as a reference.

I realize the text of the governor's speech is probably embargoed until he begins talking, but is it possible to get bullet points or a summary so we can be prepared for any particular questions the speech generates?

Likewise, would it be possible to get the language/information that will be posted at the governor's Flint Water link so we can be prepared for any questions related to the state's response?

Thanks for your help.

Subject: EMBARGOED until 7PM: State of the State

Team,

Tonight you will hear a State of the State Address that will be unlike any other heard in Michigan.

In one of our proud cities, residents are unable to drink the water that comes into their homes.

This is unacceptable. It's a problem that we will fix, and fix quickly.

Gov. Snyder is speaking tonight directly to the people of Flint, but also to everyone in our state and people across the country.

This crisis arose from a series of missteps at all levels of government, but we must own the problem and the solution. And, we – with the help of everyone on this team – will set in place a plan that will make Flint a stronger city.

The governor will apologize for state government's role in this crisis. He will share a timeline that shows what happened, when it happened and how he responded. And he will discuss the actions he will take to correct this problem, address immediate needs and those that will be faced by Flint residents long into the future.

This is a solution that will require support from across state government, with help requested from our partners in the Legislature. We also have asked for resources from President Obama and the federal government.

You have heard many voices of people critical of the administration, some of them very loud. Those people are not focused on the solution. They should not distract us from our efforts.

When Gov. Snyder first ran for office, he said he would be a problem-solving governor. We have faced great challenges as we reinvented Michigan, including creating more and better jobs, improving education and restoring Detroit's financial foundation.
Make no mistake, we will fix this problem – together – with the same relentless positive action approach.

History will show that this crisis happened in Flint. But I want people to remember the way we faced this problem, solved it and moved forward toward a brighter future.

I encourage you to watch the address tonight at http://house.mi.gov/htv.asp#. Just after the speech starts, I recommend you click on www.mi.gov/StateoftheState for background information.

Thank you,
Jarrod

To: Holton, Jennifer (MDARD); Banner, Shanon (MSP)
Cc: Eisner, Jennifer (DHHS); Brown, Melanie (DEQ)
Subject: RE: please review -

It sounds like DEQ is doing the testing on these particular bottles and cans of water, not at the manufacturing sites, out of an abundance of caution. I don't know the answer as to where consumers can take bottled water they are worried has lead. That question would have to be addressed by the SEOC. Perhaps they can drop it back off at the water resource sites or exchange it for water with a different product code?

I think the statement Mel/Jen provided is good. I added the second graf here with our best guess as to where these concerns originate. I'm not sure if you'd like to include that information or not, but I included it so you had the option.

A few residents have raised concerns about lead being present in the bottled and canned water that is being distributed through the water distribution sites.

We believe these concerns might originate from individuals using a total dissolved solids test strip in an attempt to test for lead. This test strip does not measure lead, and therefore would not give an accurate result.

However, we take every concern seriously, and therefore we are expeditiously testing the bottled and canned water being distributed in Flint to ensure it is lead free. In the meantime, we have taken the extra steps to hold back product bearing similar product codes until the test results come back. To assure incoming product is lead free, we will begin testing batches of new product and are working with the manufacturer to assure product integrity moving forward.

> >
> > It's my understanding the local health department determines what is considered an approved source. They, along with DEQ, test at the source. MDARD inspects the facilities bottling in Michigan, but does not routinely test the final bottled product. If we do take a sample, we don't test for lead. We're looking for bacteria and pathogens. I don't know about those companies bottling water outside the state of Michigan.

Jen, and all,

I can confirm that the DEQ stated that they would be testing the bottled water identified out of an abundance of caution.

From conversations here it appears that the testing device that is used by the public does not detect lead directly but looks for total dissolved solids (TDS). TDS is acceptable in Drinking water as it gives water taste versus the flat taste of distilled water.

MDARD does sample bottled water during our inspection of the bottlers during our normal operations. Let me know if you have any additional questions and I will try to answer the questions as best I can.

MSA Warns Residents to Avoid Thawing Lakes and Rivers

With Temperatures Fluctuating Wildly, Ice That Was Safe Yesterday May Be Dangerous Today.

MSA wants to make sure the citizens of Michigan stay safe on our lakes and rivers. Ice must be five inches thick to hold the weight of a person and eight inches thick for snowmobiles and off-road vehicles. With temperatures fluctuating wildly, ice that was safe yesterday may be dangerous today.

If you find yourself on thin ice, remembering the following tips could save your life.

- If you hear the ice crack, have your group spread out. Everyone should immediately lie down to distribute the weight on the ice more evenly, then crawl on your belly to safer ice.

RENEW YOUR MEMBERSHIP

Click on the card above to renew or sign up online.

Director's Update

- If someone falls through the ice, do not run to the hole. Call 911 and then use a pole, branch, rope, or other long object to try and reach the victim.
- If you fall through the ice, stay calm. Call out for help and kick your feet while getting hands and arms up onto safer ice. Ice picks or screwdrivers can help you get a grip on the ice. Continue to swim up onto the ice until you can crawl or roll out onto the ice to safety.
- Pets that go out on ice are a major cause for many near-drownings and deaths. If your pet has wandered onto dangerous ice, do not follow them. Stay where you are and coax them back to safety.

The biggest danger is hypothermia. If you fall through the ice and manage to climb out, you need to seek medical assistance quickly, Wet clothing should be replaced immediately with warm, dry blankets, towels or clothes.

Warning: Beware of These Three Facebook Scams

Watch out for the "Secret Sister" Gift Scam, Facebook Lottery Scam, & Airline Ticket Scam

Social media scams are nothing new, but right now there are three specific Facebook scams that are spreading like wildfire!

For cyber criminals, what's the easiest way to reach the most people with one scam? Facebook. With more than a billion users, Facebook has become an easy way for scammers to rip off as many people as possible at once -- and in a variety of different ways.

Here's how to spot some big scams that are making the rounds and how to protect yourself.

1. "Secret Sister"gift scam
Many Facebook and Instagram users have seen posts inviting them to spend just $10 -- with the promise that they'll receive up to 36 gifts in return. But officials say this "exchange" is actually just a pyramid scheme, meaning most people who participate aren't going to get what they expect when they sign up.
"We're just seeing this on Facebook this time instead of the old way of using letters," University of South Florida mass communications instructor Kelli Burns told WFLA, adding, "Facebook allows it to spread a lot faster."

It's also illegal.

Sheriff Rosema's Ottawa County Deputy Pays for Gas of Stranded Family

Deputy Scott Dyke Gives Aid to Family in Need

Ottawa County Deputy Scott Dyke went out of his way to help a family in trouble, and that family went out of their way to make sure he got credit for the good deed.

"Thanks officer for going out of your way and helping me and my wife when you didn't have to," Westley White said in a video he took on his cellphone.

Saturday was a rough day for White and his wife. Still grappling with the death of one of their children, they found themselves low on money and low on gas. The couple was driving to a pawn shop to sell some of their things so they could fill up when the tank hit empty."We were stranded and we couldn't call anyone," White told 24 Hour News 8.

So they called the police, hoping for some help to get their car out of the way. Ottawa County Sheriff's Deputy Scott Dyke responded. "The cop said, 'Well, usually we can't really help as far as taking you guys places. My job is it make sure you're safe,'" White said. But then, "He seen the stuff in the car that we were going to pawn, he had a change of heart, I guess."Dyke took the family to the gas station and paid with his own money for them to fill up.

"We filled up our gas tank and it was a blessing," White said. "We were able to get home."

- A National Sheriff's Association Executive Meeting

[redacted]

homeowners who need them.

While thousands of water filters have been handed out, many people in Flint are still not using them to filter lead from their drinking water.
Sheriff Robert Pickell says the homes in this neighborhood are some of the oldest in town, with some dating back to 1900. Pickell says these homes are the ones "most likely have the lead lines."Those old pipes are likely leeching lead into the drinking water, due to the city's disastrous switch to the Flint River in 2014 without corrosion controls.

The city switched back to Detroit water last fall, but health experts say Flint's water is still not safe to drink.In December, Flint's newly elected mayor declared a 'state of emergency' because of the lead problem. This month, the county and the state followed suit. Officials hope a federal disaster declaration will lead to millions of dollars in aid to the city.

But Sheriff Pickell is concerned the "bureaucracy" created by the recent State of Emergency declaration will actually make it harder to help people. In the meantime, the sheriff says they will try to reach as many people as possible by going door to door handing out bottled water and filters.

Subject: New Request for Staffing - Flint Joint Information Center
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by Wednesday at noon. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Subject: NEWS UPDATE--$28M Flint Supplemental Expected In House Approps Wednesday

GONGWER Michigan
The Capitol Record Since 1906

Tuesday, January 19, 2016, 03:17 PM

$28M Flint Supplemental Expected In House Approps Wednesday

A $28 million supplemental to fund various Flint needs as it continues to work through its ongoing water crisis is expected to be taken up in the House Appropriations Committee on Wednesday.

Budget Director John Roberts formally submitted today the requested supplemental to the chairs of the House and Senate Appropriations committees.

The supplemental would provide funding for various initiatives, according to information obtained by Gongwer News Service. In total, the supplemental is $28.03 million with $22.63 million from the General Fund.

It would provide:

- $935,000 in General Fund dollars for hiring nine additional school nurses and two Early On service coordinators, a psychologist and a health professional to coordinate the provision of wrap around services. The funds would also provide fresh fruit and vegetables to the Genesee Intermediate School District;
- $5.79 million from the General Fund for an infrastructure integrity study to assess the status of the Flint water system and additional lab and testing costs in the Department of Environmental Quality. The funds would also assist the city in paying for corrosion control procedures for one year and potentially help with utility issues and water system needs;
- $17.2 million ($2.85 million in federal, $2.55 million in state restricted revenues and $11.8 million in General Fund revenues) to help with purchasing of bottled water, water filters and replacement cartridges; Department of Health and Human Services field operations costs; epidemiological analysts and case management of those with elevated lead blood levels; nutrition support; support for child and adolescent health centers; assessment of potential links to other diseases; food inspections and crisis counseling;
- $2 million in General Fund for emergency efforts related to the water system, specifically purchasing and replacing plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers in the city;

- $2 million in General Fund dollars to address immediate needs, including paying for the National Guard's role in providing support for three months; and
- $100,000 in General Fund dollars for the Flint Water Interagency Coordinating Committee.

It was also indicated this would be the first of multiple supplemental appropriations to address the ongoing crisis in Flint.

Subject: NEWS UPDATE--Two Additional Class Action Lawsuits Filed On Flint Water Crisis

GONGWER Michigan
The Capitol Record Since 1906

Tuesday, January 19, 2016, 01:53 PM

Two Additional Class Action Lawsuits Filed On Flint Water Crisis

Governor Rick Snyder and his administration are facing two more class-action lawsuits – one filed with the Court of Claims and the other in Genesee Circuit Court – Royal Oak attorney Michael Pitt has announced.

Both lawsuits are related to the personal injury and physical damages caused by lead-tainted public water in Flint, according to a release from the attorney's office.

"Our people need financial aid. We need it now. So we're making a call for action to the people responsible for this mess," Mr. Pitt said at a press conference in Flint. "When I went to kindergarten, my teacher said, 'If you make a mess, you clean it up.' I'm reminding all our public officials what my kindergarten teacher told me. We want the state of Michigan to immediately start taking care of the financial needs of our people"

Mr. Pitt suggested a fund be created and "a responsible person" be appointed to administer the fund. He also said the state should be paying Flint residents' water bills.

The two lawsuits come in addition to a lawsuit that was filed in federal court in November. An answer to that lawsuit is expected by February 1, Mr. Pitt said.

A representative with Mr. Pitt's office said their office has had just over 500 people contact them so far as potential class members and encouraged others interested in becoming part of it if they so choose.

During the press conference, FEMA spokesperson Rafael Lemaitre also tweeted that the White House – which had declared a federal state of emergency for the city of Flint this weekend – tapped the U.S. Department of Health and Human Services to lead federal support for the Flint water situation.

Gongwer News Service will have more on this story in Tuesday's Michigan Report.

Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 09

Flint, Mich. – Volunteers, material donations and financial donations are being requested to help provide safe water resources for Flint residents.

Please refer to the below details for information on how a person can donate or volunteer.

MATERIAL DONATIONS

Material and in-kind donations of cases of water bottles, gallon jugs and larger containers of water can be dropped off at the below locations.

- Donations of 100 cases or less:
    - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
      Monday – Friday, 9 a.m. - 4 p.m.
    - Red Cross, 1401 Grand Traverse, Flint
      Saturday – Sunday, 9 a.m. - 4 p.m.
- Donations of 100 cases or more, pallets of water or donations in one semi-truck:
    - Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint
      Monday - Friday 8 a.m. - 4:30 p.m.
- For extra-large donations, such as multiple semi-trucks, delivery arrangements can be made by emailing Janet Hunter at hunterj8@michigan.gov.

In-kind donations include labor to install filters and trucks to deliver materials. All in-kind donors should contact Janet Hunter at hunterj8@michigan.gov.

FINANCIAL DONATIONS

The United Way of Genesee County, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have created a fund that will address both the short-term and long-term needs of Flint residents.

The Community Foundation is managing all financial donations and no administrative fee is assessed. Visit www.flintkids.org or call the United Way at 810-232-8121 or Community Foundation of Greater Flint at 810-767-8279 for more information.

VOLUNTEERS

Volunteers are still needed to participate in water response teams going door-to-door handing out bottled water, filters, water testing kits and replacement cartridges. Volunteers join teams of city, county and state personnel and members of the American Red Cross.

Volunteers should report to the Red Cross at 1401 S. Grand Traverse, Flint. Hours of operation this week are:

- Tuesday – Friday, 9 a.m. to 7 p.m.
- Saturday, 9 a.m. to 2 p.m.
- Sunday, 12 p.m. to 5 p.m.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

Ron,
Mr. Jake May just re-contacted me and requested the photo shoot and tour of the distribution warehouse be rescheduled for tomorrow. I advised him to contact JIC tomorrow and we would try to accommodate his request. I have re-contact Mrs. Scott-Fitzgerald and informed her the event would not be taking place today.

Thanks,
Bruce

Subject: RE: Gov press release

Tori,

Here's where we're at with our support of the Flint water crisis:

- PSAs will start airing in the Flint area on Jan. 18.
- Our techs will be taking on their trucks and providing to every home they visit pamphlets, water filters and lead testing kits.
- Additionally, the front counter staff at our Flint service center will ask every visitor if he/she needs a water filter, lead testing kit and informational pamphlet. We will make these available to anyone who visits the service center, not just our customers.
- We have created a new On Demand section "Flint Water" which will have a video on how to install the filter, the PSA, Newsmakers tapings and other instructional information.
- We are making volunteer opportunities available to our employees in which they can go door to door handing out the filters, lead testing kits and pamphlets.
- Finally, we are making our employees aware of where to make a cash donation if they so choose to the Flint Child Health & Development Fund through the Community Foundation of Greater Flint.

As soon as our techs have all the materials, we will be reaching out to Flint and Detroit area media to let them how we're assisting as they look for new, local angles to cover this ongoing story. I welcome the opportunity to collaborate with your office on this initiative.

Yes, Please let us know when it is scheduled to start airing and we will announce on social. Our press release announcing the PSA will go out

Let's follow up a little later this week on the additional efforts.

Thank you for your team's support and we look forward to continuing to work with you.

Thanks
Tori

For clarification, do you need me to get the airing schedule or is someone else from Comcast already working on that for you?

We'll support your social media efforts. I saw that you already have the PSA posted on YouTube, so I won't duplicate your efforts there.

I know we have some internal calls taking place this week to walk through the details of how we're helping. As we finalize details on our end, I'm happy to be your point person on the most effective and appropriate way to promote. Here's my contact info for your files.

HI Michelle,

I think we are going to release the PSA via press release and send to you asap if we haven't already. Once you know when you can air it, we will tweet out that you are airing in Flint? Does that work for you? If not, we can do a release about all the things you are helping with as we move forward in the next few days.

Thanks
Tori

Hi Rich,

Thanks for your speedy response! So I should be receiving it soon? It is really helpful information and it is good for the students to see the example. My Weather Club kids are so much fun! In fact, we visited the White Lake location last June for a field trip!

I appreciate your help. If you ever need photos of weather kids just let me know! Or come to visit us at Dodson Elementary School in Plymouth-Canton. Happy Friday!

GOVERNOR'S ACTIVITIES

State of the State/Flint Water

Snyder Concedes Flint is His "Katrina," a Failure of Leadership (National Journal)
Michigan Gov. Rick Snyder conceded Monday that his administration's handling of the Flint water crisis is a stain on his legacy, reflects poorly on his leadership, and is aptly compared to President Bush's mishandling of Hurricane Katrina.

Snyder's State of the State address likely to focus on Flint (WDIV)
Gov. Rick Snyder will take the podium Tuesday night for his State of the State address and sources are telling Local 4 the majority of the speech will deal with the ongoing water crisis in Flint. The remainder will deal with another fiasco—the state of Detroit Public Schools.

Governor Snyder prepares for State of the State address tonight (WXYZ)
Michigan Governor Rick Snyder will address the people of Michigan tonight during his State of the State address. And it's expected that the Flint water crisis will take center stage. We're told Snyder will ask lawmakers to help him in navigating the problem. A problem many believe he created in an attempt to save millions.

Michigan governor Rick Snyder expected to devote speech to water crisis (AP)
Michigan Gov. Rick Snyder is likely to devote much of his annual State of the State speech to a drinking water emergency that has put Flint residents at risk and engulfed his administration with criticism.

Governor Snyder set to give State of the State Address with a heavy focus on the Flint Water Crisis (WLNS)
On Tuesday evening, Governor Rick Snyder will deliver his State of the State Address. Many people will be watching just to hear what he has to say, about the water crisis in Flint. Snyder's detractors have called for everything from his resignation to criminal charges.

Snyder doesn't have to release Flint emails under FOIA (WOOD-TV)
Gov. Rick Snyder will give his annual State of the State address on Tuesday, and some are hoping that he announces the release of documents regarding the state's involvement in the Flint water crisis. But he doesn't have to give up those

documents. Michigan's governor is protected from the Freedom of Information Act. It's one of only two states with such protections.

Gov. Snyder set to give State of the State speech amid protests (WWMT)
Governor Rick Snyder is preparing for his sixth State of the State Address. It will happen amid planned protests as outrage continues to grow over Flint's lead-tainted tap water. Snyder's Chief of Staff says the governor is not happy about his administration's handling of the public health crisis in Flint.

Michigan governor: Hillary Clinton politicizing Flint's water crisis (AP)
Michigan Gov. Rick Snyder said Monday Democratic presidential candidate Hillary Clinton shouldn't be making Flint's water emergency a political issue. During Sunday's debate, Clinton said "every single American should be outraged" by the lead-in-the-water crisis, adding that "if the kids in a rich suburb of Detroit had been drinking contaminated water and being bathed in it, there would have been action."

Flint residents want answers from Governor Rick Snyder during Tuesday's State of the State (WXYZ)
Flint residents will watch Governor Rick Snyder's State of the State very closely. Picking up a case of water at Fire Station #5 has become a part of the daily routine for lifelong Flint resident, Sherman Johnson Jr.

Flint water crisis, Detroit Public Schools likely to dominate Snyder's State of the State speech (Michigan Radio)
Michigan Governor Rick Snyder's State of the State address is tonight. He's expected to discuss his long-term plans to resolve the water crisis in Flint. Governor Snyder has taken a lot of heat over the state's role in creating the water problems in Flint and for the response to the crisis.

Michigan governor on Flint: 'It's a disaster' (CNN)
Michigan Gov. Rick Snyder acknowledged Monday the water crisis in Flint is a disaster, but said he would not be stepping down. In an interview with the National Journal, the Republican governor said critics calling the crisis his "Katrina," referring to then-President George W. Bush's handling of Hurricane Katrina, is not unfair. "It's a disaster," he reportedly said.

Protesters hold rally in Ann Arbor calling for Snyder's arrest (Michigan Daily)
A group of Michigan residents from across the state gathered in Ann Arbor on Monday to call for the arrest of Gov. Rick Snyder, one of wave of Monday protests held in past weeks over the Flint water crisis.

Flint water crisis casts shadow over Michigan Gov. Rick Snyder (Mlive)
A year ago Gov. Rick Snyder was starting his second term with a feather in his cap, having just helped end the largest municipal bankruptcy in U.S. history. He would flirt with the idea of running for president and, as recently as three months ago, his name was bandied about as a potential vice presidential candidate.

Analysis: Snyder's second term marred by Flint water fiasco (AP)
Gov. Rick Snyder launched his second term touting Detroit's recent emergence from bankruptcy and a new way of structuring state government so Michigan's downtrodden residents could join a "river of opportunity." A year later, a real river — the Flint River — and the fallout from a water crisis in another impoverished city have marred the Republican's image as a practical problem-solver.

Snyder to give speech of his career (Michigan Radio)
Every year the governor of Michigan gives an annual State of the State address, modeled after the State of the Union given by the President of the United States. Usually these are much ballyhooed, televised, and instantly forgotten. Do you remember what either President Obama or Governor Snyder said last year?

Flint Crisis Expected to Dominate State of the State Address (MPRN)
Governor Rick Snyder will deliver his sixth State of the State address Tuesday night. He will outline his priorities for 2016. But, it's expected plans to address the Flint water crisis will dominate the speech.

Snyder to address Flint water shut-offs tonight (Detroit Free Press)
Gov. Rick Snyder will use his State of the State address tonight to address one of the most infuriating aspects of the Flint drinking water crisis — the fact city residents are facing shut-offs for failing to pay for water contaminated with lead, according to people familiar with the address.

Under fire over Flint water, Rick Snyder prepares for State of the State address (WOOD News)
Governor Rick Snyder will deliver his state of the state address at 7pm tonight in the state capital building. Live coverage begins at 7pm on WOOD RADIO NEWS. The governor is expected to devote a significant portion of his speech to the continuing crisis in the Flint Water System.

Michigan Gov. Snyder's annual speech likely to focus on water crisis (Chicago Tribune)
Michigan Gov. Rick Snyder is likely to devote much of his annual State of the State speech to a drinking water emergency that has put Flint residents at risk and engulfed his administration with criticism. The Republican is expected to further detail plans to address the contamination of Flint's water with lead during his address to the GOP-led Legislature on Tuesday night.

Flint water crisis, Detroit Public Schools likely to dominate Snyder's State of the State speech (Michigan Radio)
Michigan Governor Rick Snyder's State of the State address is tonight. He's expected to discuss his long-term plans to resolve the water crisis in Flint.
Governor Snyder has taken a lot of heat over the state's role in creating the water problems in Flint and for the response to the crisis.

Governor Snyder prepares for State of the State address, expected to focus on Flint and DPS (ABC 7 WXYZ)
Michigan Governor Rick Snyder will address the people of Michigan tonight during his State of the State address. It is expected that the Flint water crisis will take center stage. We're told Snyder will ask lawmakers to help him in navigating the problem. A problem many believe he created in an attempt to save millions.

Local politicians anticipate Gov. Snyder's State of the State address (UP Matters)
Governor Rick Snyder will deliver his sixth State of the State address to a joint session of the Michigan legislature Tuesday night. 108th District State Representative Ed McBroom says the Snyder will likely spend a lot of time talking about one big issue. The Flint water crisis. The issue has drawn national criticism, but McBroom says suggesting that Snyder didn't care about the health of Flint residents is wrong.

Flint crisis clouds Snyder's State of the State address (Detroit Free Press)
Last year at this time, Gov. Rick Snyder was boasting about the state's financial accomplishments, toying with a presidential run, and delivering a State of the State address that said his administration would ensure all Michigan residents could be pulled along by Michigan's "river of opportunity."

Protesters march at Governor Snyder's home, call for him to resign (Michigan Radio)
Protesters demanding Governor Rick Snyder step down over the Flint water crisis rallied in downtown Ann Arbor Monday night, outside the governor's home. Despite the cold, University of Michigan student Noor Ahmad marched with about 80 others.

Snyder blasts Dem critics on Twitter (Detroit Free Press)
Gov. Rick Snyder took a verbal beating from Democratic presidential candidates Hillary Clinton and Bernie Sanders during a debate Sunday night and fought back on social media. After the comments from Clinton, who said Snyder didn't care about the kids in Flint, and Sanders saying Snyder should resign, the governor's twitter account said: "Political statements and finger pointing from political candidates only distract from solving the Flint water crisis."

Snyder reviews whether to release Flint water emails (The Detroit News)

Gov. Rick Snyder said Monday he is reviewing requests that his administration release internal emails about the Flint water crisis even though his office is shielded from public record requests under the state's Freedom of Information Act.

Michigan Gov. Rick Snyder says Democratic presidential hopeful Hillary Clinton is bringing politics into Flint's water crisis when the search should be on for solutions (AP)
Michigan Gov. Rick Snyder responded Monday to criticism from presidential candidate Hillary Clinton during the Democratic debates for his handling of Flint's water emergency, saying Clinton is making it a political issue. During Sunday's debate, Clinton said "every single American should be outraged" by the water crisis, adding that "if the kids in a rich suburb of Detroit had been drinking contaminated water and being bathed in it, there would have been action."

'Arrest Gov. Snyder' protesters chant outside his Ann Arbor condo (Mlive)
More than 100 people stood Monday outside Gov. Rick Snyder's downtown Ann Arbor condo calling for his arrest for his handling of the Flint water crisis. "Arrest Governor Snyder! Make him drink the water!" they chanted as snow swirled and the windchill fell below zero.

FLINT

More National Guards Arrive in Flint as Water Crisis Widens (NBC News)
The National Guard sent dozens of additional members into Flint, Michigan, on Monday to help address the impoverished city's water crisis, as Gov. Rick Snyder came under widening criticism — from residents and presidential candidates — for his handling of a massive exposure to lead, NBC News reported.

Class action lawsuits being filed in the Flint Water Crisis (WLNS)
A news conference Tuesday will announce two lawsuits being filed against local and state-level departments and officials, including Governor Rick Snyder for their roles in the Flint Water Crisis. The class action suits have been filed by Flint residents in the Michigan Court of Claims and Genessee County Circuit Court.

State employees volunteer to help Flint residents (UP Matters)
About 130 State of Michigan employees volunteered on Martin Luther King, Jr. Day to help residents in Flint. Volunteers went door-to-door to homes in Flint to give free bottled water, filters, replacement cartridges and water testing kits.

LT. GOV's ACTIVITIES

Calley speech at MLK luncheon draws criticism (Freep)
Criticism of Gov. Rick Snyder's administration's response to the Flint drinking water crisis continued Monday when Lt. Gov. Brian Calley spoke at a Martin Luther King Jr. Day luncheon in Lansing and made no mention of the public health catastrophe affecting the largely black Michigan city.

Calley Criticized For Speech At MLK Event (WILX)
Lieutenant Governor Brian Calley is under fire for comments he made during Monday's Martin Luther King Luncheon in Lansing. While speaking at the luncheon, Calley made no mention of the crisis in Flint, instead he offended some when he said that the next step in the civil rights movement is to end discrimination against people with brain disorders.

Acts of service mark Martin Luther King Jr. Day in Michigan (AP)
About 30 people walked Monday through a part of downtown Pontiac to remember the Rev. Martin Luther King Jr. while honoring his accomplishments in civil rights. Odessa McClellon has been part of the annual march for the past two decades.

In Lansing, former MLK aide calls for unity (Lansing State Journal)
Andrew Young sees the belief that one person can be superior to another as a sickness. His father taught him that when he was growing up in New Orleans in the 1930s, when he lived on the same block as Nazi supporters.

DEPARTMENTS

DEQ

EPA chief defends agency's handling of Flint crisis (The Detroit News)

The nation's top environmental official on Monday defended her agency's handling of Flint's water situation over the past year and more — a stretch during which the city was declared in a state of emergency at the local, state and federal levels. Michigan Gov. Rick Snyder and particularly his state Department of Environmental Quality have been accused of failing to protect Flint residents.

DNR

No, Michigan's first wolverine in 200 years was not just spotted (MLive)

Did Jim Harbaugh's return to Michigan encourage one of mother nature's fiercest animals to follow suit? Not quite. Sunday morning users on social media sites including U-M-athletics fan site MGoBlog, reddit, and Facebook began sharing an Associated Press story from 2004 about a wild wolverine spotted in Michigan's thumb region.

MDOT

Michigan seeks 'Road Watchers' in western portion of state (AP)

The Michigan Department of Transportation is seeking "Road Watchers" to report on winter highway conditions in western Michigan. The agency is seeking people in a 13-county region to participate in periodic surveys measuring winter highway conditions during the 6 a.m. to 9 a.m. commuting period.

MSP

Forensic scientists blast State Police crime lab THC policy as man fights to get son back (Michigan Radio)

They lost custody of him after Lorincz was charged with a felony for possessing synthetic THC. He's a card-carrying medical marijuana patient. But that hasn't helped in his fight to get his son back. So for now, the family gets unsupervised visits for a few hours every week.

State employees volunteer to help Flint residents (UpNorthLive)

About 130 State of Michigan employees volunteered on Martin Luther King, Jr. Day to help residents in Flint. Volunteers went door-to-door to homes in Flint to give free bottled water, filters, replacement cartridges and water testing kits.

LEGISLATIVE

DPS, Flint, energy, criminal justice reform on agenda (Detroit Free Press)

Lansing's legislative agenda got swallowed up last week by two of the state's most pressing issues: the ongoing crisis in Flint because of the state's role in the city's water becoming contaminated with lead and a long-awaited fix for Detroit's Public Schools. Leaders on both sides of the aisle acknowledged that the issues should be at the forefront of their roster for the upcoming months.

Bill establishing group to examine civil rights deficiencies for African-American in Michigan clears Senate (WHTC)

The Michigan Senate has approved legislation that would establish a commission to examine civil rights deficiencies for African-Americans in the state. It would be part of a state department that currently has sections for Latinos, Asians and Middle Easterners. Sen. Rick Jones, R-Grand Ledge, calls the omission of African-Americans a glaring oversight.

DETROIT

Detroit Problems Are 'Closer to Home Than You May Realize,' Battle Creek Paper Says (Deadline Detroit)

This cross-state unity is worth appreciating: "Detroit Public Schools fight our fight, too," says the headline on a Battle Creek Enquirer editroial Sunday. "Detroiters' agonies are far from self-inflicted," the paper comments, "and it is . . .

willful self-deception to interpret the events there as irrelevant to our lives in Calhoun County. . . . Consider the long-term prognosis for Battle Creek Public Schools."

Metro Detroit teens optimistic about race (Detroit Free Press)
Devorne Davis had to prove he lived in the neighborhood where he was walking when stopped by police in Alabama. Alessandra Alvarez-Paines is sometimes labeled the "white girl" in school because of her light skin tone. Fatima Yahya feels the pain when she hears of other Muslims being treated poorly because of their religion.

Layoffs of bilingual DPS aides draw parent protests (The Detroit News)
Parents and community leaders say they will file a federal civil rights complaint against the state and Detroit Public Schools over the layoff of several bilingual clerical workers at schools in southwest Detroit. Supporters plan to gather Wednesday at Clippert Academy, one of the affected schools, to protest the dismissals, which occurred last month.

Detroit Teachers Use Social Media to Broadcast Poor School Conditions (Education World)
After facing criticism from Detroit Public School officials for staging "sick-outs" that have kept thousands of students home last week, teachers took to Twitter over the weekend to showcase the deplorable conditions in their schools. Via the Twitter account @Detroitteach, public school teachers submitted shocking photos of stalled renovations and moldy conditions to raise awareness and receive support from the public.

Detroit teachers weigh possibility of more sick-outs (Detroit Free Press)
Detroit Public Schools teachers are cautiously weighing whether to have more sick-outs this week after their mass absences last week — which caused dozens of schools to close — were successful in prompting officials to take action about dilapidated buildings. John Roach, spokesman for Mayor Mike Duggan, said city workers have begun inspecting about a half-dozen schools.

Duggan, Pistons coy about possible move to downtown (Detroit Free Press)
The Pistons keep taking baby steps back into the city of Detroit. Little moments carrying a bigger message. Funding the continued renovation of a once-dilapidated recreation center serves as a nice gesture of civic responsibility. "We're committed to increasing our footprint in the city," Pistons owner Tom Gores said Monday.

Students help board up abandoned houses near school on Martin Luther King, Jr. Day (WXYZ)
Martin Luther King, Jr. said, "Life's most persistent and urgent question is, 'What are you doing for others?'" On Monday, many volunteers answered that question with action. They turned Martin Luther King Jr. Day into a day of service. "He made our world a better place for us," said Evan Franklin.

OPINION

Legislature should repeal emergency manager law (Freep)
While all eyes and ears will be on the governor's State of the State address this week, it is as much a seminal moment for the Legislature. For without them, nothing of any significance will happen.

Mark Schauer: 7 steps governor should take for Flint (Freep)
Michigan is no stranger to public health emergencies. Almost six years ago, a pipeline owned by Enbridge Energy ruptured and spilled a million gallons of oil in the Kalamazoo River.

Susan J. Demas: The whole world is watching Flint (MLive)
When national and international attention becomes fixated on Michigan, it's rarely a good thing.

Pavlov's priority should be helping Detroit kids (Times Herald)
Detroit teachers are sacrificing their sick days in a sick-out to draw attention to their crumbling schools.

Even knowing that the missed school days will be tacked on to the end of the school year to be made up, they continue to demand attention in the only avenue left to them.

Editor's Note: Get laws right first time around (Detroit News)
Here's something Michigan lawmakers need to consider before hastily passing legislation: Get it right the first time.

Wozniak: Water woes in Flint and beyond (Detroit News)
When Gov. Rick Snyder approached the Legislature to make his 2015 budget recommendations, he proclaimed that it would be the "Year of Water" — a year in which his administration would focus on ensuring clean water for all Michiganders. Former Department of Environmental Quality Director Dan Wyant declared, "Michigan wants to be recognized as leaders."

Subject: New Request for Staffing - Flint Joint Information Center
Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by Wednesday at noon. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

Attachments: Genesee County Cal.pdf

Team:

I know Chris, County EOC Director is providing direct feedback on several of this points. I wanted to clarify one:

1. Furlough Days and County Closure Days – These or for the County and not for the City of Flint. I provided the only two days in March (around Presidents day). There are more days April and May. I am scanning and attaching the annual calendar with everything. Again this is the County and not the City. Thanks.

Subject: 2-1-1 Flint Water Response for Monday, January 18, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 18, 2016

GENERAL INFORMATION:

****** 2-1-1 NEEDS SPECIFIC GUIDANCE ASAP ON WHAT TO TELL CALLERS WITH QUESTIONS ABOUT BOTTLED WATER TESTING POSITIVE FOR LEAD.******

Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. The attached .wav file has information from a staff member at a group home in Flint. The home tested bottled water received from a fire station and it came back positive for unsafe lead levels. The group home attempted to return the water to the fire station, but the station would not accept it and told them to call 2-1-1. 2-1-1 has contact information for the three callers making reports.

- At 2:30 pm today this request went to Katie Dunkle at DHHS- Office of Public Health Emergency Preparedness (the team that handled health questions while Genesee Health Department was closed this weekend). At 4:23 pm the SEOCOPS Health and Env MDEQ desk is following up with the callers reporting lead in bottled water, but as of 5:14 pm there is no formal guidance on how 2-1-1 should respond to these calls.

- Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ One of the top questions is when will canvassers be specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ A local minister called 2-1-1 twice over the weekend for assistance because his church was listed as a water distribution site, but no water had been delivered. **Is there a master list of additional community distribution sites, e.g. senior centers, churches? Is there any schedule available showing when water will be delivered to different sites?**

☑ Can 2-1-1 get a calendar of any future furlough closures for Genesee County government so we can properly refer callers? **Jamie Gaskin at United Way of Genesee County verified the only upcoming furlough dates for City of Flint employees are Presidents Day Weekend, Friday Feb. 12 through Monday, Feb. 15.**

CALL VOLUME:

- Weekend call volume was manageable with 2-1-1 partners in SE Michigan and Grand Rapids providing extra capacity to the regular overnight service provided by Gryphon Place in Kalamazoo. There was a spike on Saturday morning and another on Sunday that led to a short periods where answer times hit 10 minutes before additional capacity could be brought online to reduce wait times under two minutes.
    - **326 calls on Saturday 1/16**
    - **244 calls on Sunday 1/17**

- Today (Monday) Gryphon Place brought in 3x normal staffing to handle the holiday volume for Central Michigan, including Flint, along with GP's regular territory in SW Michigan. As of 2:30 pm "Staff have been taking calls non-stop, but wait times are still within two minute goal".

- The health information hotline staffed by DHHS over the holiday weekend received approximately 25 calls over the weekend, including Monday.
    - Is the JIC is monitoring demand on the Genesee Health Department hotline to ensure they have adequate capacity to handle demand? Could DHHS provide additional staffing if needed?

SPECIAL NEEDS/REQUESTS

- Demand from seniors and homebound residents for water delivery remains high. 2-1-1 continues to maintaining this information and is providing daily updates to the Sheriff's Department.

    ☑ 2-1-1 is documenting the tracking homebound residents needing bottled water for medical devices as an unmet water need – the Sheriff's Department is including these with other homebound deliveries as their capacity allows.

☐ Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

☐ Business owners are asking for water filters. As one said, "What about us?" Over the weekend 2-1-1 received calls from a golf course and a large factory owner. The factory needs "100s of water filters – we got 3". How would the JIC like 2-1-1 to handle inquiries from businesses for assistance?

RUMOR CONTROL

- See first item in today's report on concerns about lead in bottled water.

☐ An unofficial 'Flint Police Operations' Facebook page posted an item telling people to call 2-1-1 if they had large parking lots to host 18 semi-trucks bringing in water to distribute. 2-1-1 was able to coordinate with the EOC to have the post removed within a few hours.

UNRESOLVED

☐ **From 1/13/16:** No solution reported yet for a paralyzed man who needs a water testing kit delivered. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.

- ☐ **From 1/14/16:** 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized housing) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods. ***Is the sheriff's office handling these deliveries now?***
- ☐ **From 1/15/16:** 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police. 2-1-1 attempted to provide reassurance, but the caller was adamant being removed. **Is there a water delivery option for residents who are concerned about contact with law enforcement?**
- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

Campaigning continues today across Iowa, in preparation for the Feb. 1 caucuses there. Sam Hodgson for The New York Times

Your Tuesday Briefing

By ADEEL HASSAN

Good morning.

Here's what you need to know:

• Two weeks to Iowa.

Many of the presidential candidates are fanning across the state's 99 counties today, in preparation for the Feb. 1 caucuses there. But national issues have displaced the local matters that once shaped early primary contests.

Hillary Clinton positioned herself during Sunday's debate as the candidate most capable of advancing President Obama's policies, while Bernie Sanders took on Mrs. Clinton more forcefully. The Clinton campaign is preparing for a nomination fight that could stretch into late April or early May.

On the Republican side, Heidi Nelson Cruz took a leave of absence from Goldman Sachs to court wealthy donors for her husband, Ted Cruz. While the British Parliament debated whether to bar Donald J. Trump, he was trying to sway evangelicals.

• U.S.-Iran relations.

The landmark nuclear agreement between Iran and global powers is now in effect. Longstanding sanctions have been lifted and the regional landscape is being reshaped, but President Obama imposed modest new sanctions for banned missile tests.

And with three Americans long held in Iran returning to the U.S., Mr. Obama urged young Iranians to "pursue a new path" with the West. Seven Iranians are part of the prisoner swap between the estranged nations.

• Focus on refugees.

The U.S. Senate is to consider this week new screening procedures for Syrian and Iraqi refugees.

• Economic stimulus for France.

President François Hollande has announced a $2.2 billion package to combat what he called "an economic and social emergency."

• **El Chapo's anniversary.**

The Mexican drug kingpin Joaquín Guzmán Loera escaped from prison for the first time on this day in 2001.

He was arrested for a third time this month when the movie star Sean Penn, and a big order of tacos, gave the authorities the break they needed to recapture him.

BUSINESS

• **China's economy** grew at its slowest pace since 2009 in the fourth quarter. That's no comfort to investors worrying about the health of the world's second-largest economy.

• **U.S. stock indexes** open today for the first time since Friday, when they tumbled more than 2 percent. Here are snapshots of the U.S. and world markets.

• **Oil prices** have also been plummeting. The global oversupply will most likely only grow as Iran increases production.

• **Walmart will close** 269 stores around the world. The closings could eliminate 16,000 jobs, including 10,000 in the U.S.

OVER THE WEEKEND

• **The University of Cincinnati** agreed to pay $4.85 million to the family of an unarmed black man who was killed by one of its police officers in July.

• **In West Africa**, a terrorist attack in Burkina Faso's capital left 29 people dead and dozens wounded.

• **Drug overdoses** are driving up the death rate of young white adults in the U.S. to its highest level in decades, a New York Times analysis found.

• **President Obama** declared a state of emergency in Flint, Mich., where residents have been exposed to toxic levels of lead in water.

• **The Times** looks at how the Rev. Dr. Martin Luther King Jr. and other prominent black Americans were regarded when they died.

• **Taiwan elected its first** female president. Tsai Ing-wen faces a weak economy and China's growing might.

• **The mosquito-borne** Zika virus is spreading in Latin America; and Mr. Obama's Malaria Initiative faces serious challenges.

• **In the N.F.L. playoffs**, the Patriots, Broncos, Panthers and Cardinals advanced to this weekend's conference championship games.

• **Glenn Frey**, a founder of the band the Eagles, died at 67.

• **"Ride Along 2,"** starring Ice Cube and Kevin Hart, ended the monthlong run of "Star Wars: The Force Awakens" as the No.1 film in North America.

• **Catching up on TV:** Episode recaps for "Downton Abbey," and the series premiere of "Billions."

NOTEWORTHY

• **Income inequality rising fast.**

Just 62 people own as much wealth as the 3.5 billion people in the bottom half of the world's income scale, the charity Oxfam has reported.

Five years ago, it took 388 billionaires to reach that mark.

• **At the Australian Open.**

Rafael Nadal and Venus Williams lost in their first-round matches today in Melbourne.

And tennis officials deny that the sport has a match-fixing problem. Here's what to look forward to in the 2016 season.

• **What to watch.**

"Supplements and Safety" is a new "Frontline" documentary, in collaboration with The Times, investigating the hidden dangers of vitamins and supplements (10 p.m. Eastern, PBS, but check local listings).

BACK STORY

The death in 1849 of Edgar Allan Poe, the writer and poet recognized for inventing the detective story, gave way to a mystery many decades later.

Poe was born on this day in Boston, but he's buried in Baltimore, where he lived, married and died. Each year on the night of his birthday, a person (or persons) known as the Poe Toaster would dress in black, raise a glass and leave a half-full bottle of cognac and three red roses at the poet's grave.

The roses were believed to honor three people buried there: Poe, his wife and his

where grows / not even one lonely rose." The significance of the cognac is unknown.

Although small crowds would gather outside the cemetery to see the toaster, the person was never identified. Perhaps no one wanted to interfere with the dark homage.

The Poe Toaster has failed to appear since 2009, the bicentennial of the poet's birth, ending a tradition that began at least 60 years earlier.

Poe once wrote: "There are some secrets which do not permit themselves to be told."

Situation Report

January 19, 2016

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:

- Pushed the 1/18 water activity map on social media.
- Issued news release #09 regarding donations.
- Posted social media content regarding donations.
- Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.
- Updated daily internal talking points and general talking points.
- Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
- Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
    - Topics being covered included:
        - Democratic debate mention by Hillary Clinton
        - Flint as Governor Snyder's Hurricane Katrina
        - Class-action lawsuits filed today against the state
        - State of the State speculation – Flint water plan
        - President Obama possibly meeting with Flint Mayor in D.C. today
- Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

WE ARE ONE MICHIGAN

GOVERNOR RICK SNYDER'S 2016 STATE OF THE STATE ADDRESS

EDUCATION: Embarking on transformational change

CHALLENGES

Addressing the Detroit Public Schools financial situation and meeting the needs of students and their families is an urgent priority of the governor. The district is deeply in debt, and failing at the central task of educating kids. The governor wants to redirect the $1,100 per student being spent to service debt to give educators the resources they need in the classroom. We must also minimize impacts to the overall state budget, so other school districts don't see their classroom funding impacted.

As a state, we also have to improve the transition from high school to jobs. Students should be matched with career exploration and early college options rather than waiting until nearly the end of their K-12 education. The governor would like to see an educational system in which parents, students, educators and counselors all look to a more proactive approach.

OPPORTUNITIES

Gov. Snyder will continue working with the Legislature to reform the entire structure of Detroit Public Schools so current students achieve a much better education. The state needs to ensure that a complete failure to educate schoolchildren never again happens to this extent in one of Michigan's districts.

The governor also will appoint a commission on 21st century education to identify how to improve education governance, funding systems and career and college readiness in Michigan schools. The ultimate goal is to give students the tools they need to succeed and continue the efforts to make Michigan a top ten education state in the next ten years.

CALL TO ACTION

It is imperative the Legislature act definitively to resolve this decades-long crisis to minimize the impact on both Detroit and the rest of the state. The governor's plan addresses the financial problems and fixes the academic problems. If we are forced into a bankruptcy situation, the focus will be entirely on the financial side and academics will continue to suffer in Detroit.

Great schools are critically important to ensuring a strong economic future in Detroit and the entire state.

WE ARE ONE MICHIGAN

GOVERNOR RICK SNYDER'S 2016 STATE OF THE STATE ADDRESS

Ending the Flint Water crisis

IMMEDIATE ACTIONS

The governor has pledged the full commitment of the state to help heal Flint. Any resource available will be drawn on. To date, more than 21,000 homes in Flint have been visited to provide clean water resources. A new $22 million dollar state supplemental spending bill will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The funding will also provide wraparound services, such as diagnostic testing, nurse visits and environmental assessments, as well as access to child and adolescent health centers. Funding also will help the city alleviate the need for water shutoffs, and old fixtures will be replaced in schools, daycares and hospitals.

LONG-TERM ACTIONS

The Governor's annual budget proposal, slated this year for Feb. 10, will contain specific recommendations on long-term funding and action items that will support the residents of Flint as they recover from this crisis. Ongoing needs to be addressed include special education, long-term monitoring and health care for children with high lead levels, and studies to identify water infrastructure and service lines in need of replacement.

State funding will be a large part of the solution to Flint's water crisis. Further support and recommendations will come from the Flint Water Interagency Coordinating Committee. This panel will consist of water experts, public health professionals and infrastructure experts, and Flint community members. It will analyze any long-term effects and make recommendations as to what resources are needed.

ENSURING THIS NEVER HAPPENS AGAIN

The legislature is being asked to immediately pass legislation to fund projects related to improving and upgrading water infrastructure, not just in Flint but any city with aging infrastructure. From replacing lead pipes to purchasing cutting-edge filtration systems, there can be no excuse for government failing at such a basic function. When Michiganders turn on the tap, they deserve clean, clear, safe water. It is that simple.

Gov. Snyder is also convening a commission on 21st century infrastructure, composed of the best independent experts, community leaders, and local and state officials to study Michigan's infrastructure needs, threats, opportunities and costs. The task force will be charged with recommending action items and investments to protect our health and well-being. Top priorities will include: water and sewer infrastructure, energy and electrical grids, broadband modernization, and upgrading the aging Soo Locks, where even a 30-day outage would result in economic losses of $160 million dollars. The task force will provide a comprehensive update to the governor and the public, laying the groundwork for state and municipal actions to take place.

Information for Persons Wishing to Donate or Volunteer for Flint Water Response

Flint, Mich. – Volunteers, material donations and financial donations are being requested to help provide safe water resources for Flint residents.

Please refer to the below details for information on how a person can donate or volunteer.

MATERIAL DONATIONS

Material and in-kind donations of cases of water bottles, gallon jugs and larger containers of water can be dropped off at the below locations.

- Donations of 100 cases or less:
    - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
      Monday – Friday, 9 a.m. - 4 p.m.
    - Red Cross, 1401 Grand Traverse, Flint
      Saturday – Sunday, 9 a.m. - 4 p.m.
- Donations of 100 cases or more, pallets of water or donations in one semi-truck:
    - Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint
      Monday - Friday 8 a.m. - 4:30 p.m.
- For extra-large donations, such as multiple semi-trucks, delivery arrangements can be made by emailing Janet Hunter at hunterj8@michigan.gov.

In-kind donations include labor to install filters and trucks to deliver materials. All in-kind donors should contact Janet Hunter at hunterj8@michigan.gov.

MORE

FINANCIAL DONATIONS

The United Way of Genesee County, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have created a fund that will address both the short-term and long-term needs of Flint residents.

The Community Foundation is managing all financial donations and no administrative fee is assessed. Visit www.flintkids.org or call the United Way at 810-232-8121 or Community Foundation of Greater Flint at 810-767-8279 for more information.

VOLUNTEERS

Volunteers are still needed to participate in water response teams going door-to-door handing out bottled water, filters, water testing kits and replacement cartridges. Volunteers join teams of city, county and state personnel and members of the American Red Cross.

Volunteers should report to the Red Cross at 1401 S. Grand Traverse, Flint. Hours of operation this week are:

- Tuesday – Friday, 9 a.m. to 7 p.m.
- Saturday, 9 a.m. to 2 p.m.
- Sunday, 12 p.m. to 5 p.m.

GOVERNOR'S ACTIVITIES

State of the State/Flint Water

Snyder Concedes Flint is His "Katrina," a Failure of Leadership (National Journal)
Michigan Gov. Rick Snyder conceded Monday that his administration's handling of the Flint water crisis is a stain on his legacy, reflects poorly on his leadership, and is aptly compared to President Bush's mishandling of Hurricane Katrina.

Snyder's State of the State address likely to focus on Flint (WDIV)
Gov. Rick Snyder will take the podium Tuesday night for his State of the State address and sources are telling Local 4 the majority of the speech will deal with the ongoing water crisis in Flint. The remainder will deal with another fiasco—the state of Detroit Public Schools.

Governor Snyder prepares for State of the State address tonight (WXYZ)
Michigan Governor Rick Snyder will address the people of Michigan tonight during his State of the State address. And it's expected that the Flint water crisis will take center stage. We're told Snyder will ask lawmakers to help him in navigating the problem. A problem many believe he created in an attempt to save millions.

Michigan governor Rick Snyder expected to devote speech to water crisis (AP)
Michigan Gov. Rick Snyder is likely to devote much of his annual State of the State speech to a drinking water emergency that has put Flint residents at risk and engulfed his administration with criticism.

Governor Snyder set to give State of the State Address with a heavy focus on the Flint Water Crisis (WLNS)
On Tuesday evening, Governor Rick Snyder will deliver his State of the State Address. Many people will be watching just to hear what he has to say, about the water crisis in Flint. Snyder's detractors have called for everything from his resignation to criminal charges.

Snyder doesn't have to release Flint emails under FOIA (WOOD-TV)
Gov. Rick Snyder will give his annual State of the State address on Tuesday, and some are hoping that he announces the release of documents regarding the state's involvement in the Flint water crisis. But he doesn't have to give up those documents. Michigan's governor is protected from the Freedom of Information Act. It's one of only two states with such protections.

Gov. Snyder set to give State of the State speech amid protests (WWMT)
Governor Rick Snyder is preparing for his sixth State of the State Address. It will happen amid planned

protests as outrage continues to grow over Flint's lead-tainted tap water. Snyder's Chief of Staff says the governor is not happy about his administration's handling of the public health crisis in Flint.

Michigan governor: Hillary Clinton politicizing Flint's water crisis (AP)
Michigan Gov. Rick Snyder said Monday Democratic presidential candidate Hillary Clinton shouldn't be making Flint's water emergency a political issue. During Sunday's debate, Clinton said "every single American should be outraged" by the lead-in-the-water crisis, adding that "if the kids in a rich suburb of Detroit had been drinking contaminated water and being bathed in it, there would have been action."

Flint residents want answers from Governor Rick Snyder during Tuesday's State of the State (WXYZ)
Flint residents will watch Governor Rick Snyder's State of the State very closely. Picking up a case of water at Fire Station #5 has become a part of the daily routine for lifelong Flint resident, Sherman Johnson Jr.

Flint water crisis, Detroit Public Schools likely to dominate Snyder's State of the State speech (Michigan Radio)
Michigan Governor Rick Snyder's State of the State address is tonight. He's expected to discuss his long-term plans to resolve the water crisis in Flint. Governor Snyder has taken a lot of heat over the state's role in creating the water problems in Flint and for the response to the crisis.

Michigan governor on Flint: 'It's a disaster' (CNN)
Michigan Gov. Rick Snyder acknowledged Monday the water crisis in Flint is a disaster, but said he would not be stepping down. In an interview with the National Journal, the Republican governor said critics calling the crisis his "Katrina," referring to then-President George W. Bush's handling of Hurricane Katrina, is not unfair. "It's a disaster," he reportedly said.

Protesters hold rally in Ann Arbor calling for Snyder's arrest (Michigan Daily)
A group of Michigan residents from across the state gathered in Ann Arbor on Monday to call for the arrest of Gov. Rick Snyder, one of wave of Monday protests held in past weeks over the Flint water crisis.

Flint water crisis casts shadow over Michigan Gov. Rick Snyder (Mlive)
A year ago Gov. Rick Snyder was starting his second term with a feather in his cap, having just helped end the largest municipal bankruptcy in U.S. history. He would flirt with the idea of running for president and, as recently as three months ago, his name was bandied about as a potential vice presidential candidate.

Analysis: Snyder's second term marred by Flint water fiasco (AP)
Gov. Rick Snyder launched his second term touting Detroit's recent emergence from bankruptcy and a new way of structuring state government so Michigan's downtrodden residents could join a "river of opportunity." A year later, a real river — the Flint River — and the fallout from a water crisis in another impoverished city have marred the Republican's image as a practical problem-solver.

Snyder to give speech of his career (Michigan Radio)
Every year the governor of Michigan gives an annual State of the State address, modeled after the State of the Union given by the President of the United States. Usually these are much ballyhooed, televised, and instantly forgotten. Do you remember what either President Obama or Governor Snyder said last year?

Flint Crisis Expected to Dominate State of the State Address (MPRN)
Governor Rick Snyder will deliver his sixth State of the State address Tuesday night. He will outline his priorities for 2016. But, it's expected plans to address the Flint water crisis will dominate the speech.

Snyder to address Flint water shut-offs tonight (Detroit Free Press)
Gov. Rick Snyder will use his State of the State address tonight to address one of the most infuriating aspects of the Flint drinking water crisis — the fact city residents are facing shut-offs for failing to pay for water contaminated with lead, according to people familiar with the address.

Under fire over Flint water, Rick Snyder prepares for State of the State address (WOOD News)
Governor Rick Snyder will deliver his state of the state address at 7pm tonight in the state capital building. Live coverage begins at 7pm on WOOD RADIO NEWS. The governor is expected to devote a significant portion of his speech to the continuing crisis in the Flint Water System.

Michigan Gov. Snyder's annual speech likely to focus on water crisis (Chicago Tribune)
Michigan Gov. Rick Snyder is likely to devote much of his annual State of the State speech to a drinking water emergency that has put Flint residents at risk and engulfed his administration with criticism. The Republican is expected to further detail plans to address the contamination of Flint's water with lead during his address to the GOP-led Legislature on Tuesday night.

Flint water crisis, Detroit Public Schools likely to dominate Snyder's State of the State speech (Michigan Radio)
Michigan Governor Rick Snyder's State of the State address is tonight. He's expected to discuss his long-term plans to resolve the water crisis in Flint.
Governor Snyder has taken a lot of heat over the state's role in creating the water problems in Flint and for the response to the crisis.

Governor Snyder prepares for State of the State address, expected to focus on Flint and DPS (ABC 7 WXYZ)
Michigan Governor Rick Snyder will address the people of Michigan tonight during his State of the State address. It is expected that the Flint water crisis will take center stage. We're told Snyder will ask lawmakers to help him in navigating the problem. A problem many believe he created in an attempt to save millions.

Local politicians anticipate Gov. Snyder's State of the State address (UP Matters)
Governor Rick Snyder will deliver his sixth State of the State address to a joint session of the Michigan legislature Tuesday night. 108th District State Representative Ed McBroom says the Snyder will likely spend a lot of time talking about one big issue. The Flint water crisis. The issue has drawn national criticism, but McBroom says suggesting that Snyder didn't care about the health of Flint residents is wrong.

Flint crisis clouds Snyder's State of the State address (Detroit Free Press)
Last year at this time, Gov. Rick Snyder was boasting about the state's financial accomplishments, toying with a presidential run, and delivering a State of the State address that said his administration would ensure all Michigan residents could be pulled along by Michigan's "river of opportunity."

Protesters march at Governor Snyder's home, call for him to resign (Michigan Radio)

Protesters demanding Governor Rick Snyder step down over the Flint water crisis rallied in downtown Ann Arbor Monday night, outside the governor's home. Despite the cold, University of Michigan student Noor Ahmad marched with about 80 others.

Snyder blasts Dem critics on Twitter (Detroit Free Press)
Gov. Rick Snyder took a verbal beating from Democratic presidential candidates Hillary Clinton and Bernie Sanders during a debate Sunday night and fought back on social media. After the comments from Clinton, who said Snyder didn't care about the kids in Flint, and Sanders saying Snyder should resign, the governor's twitter account said: "Political statements and finger pointing from political candidates only distract from solving the Flint water crisis."

Snyder reviews whether to release Flint water emails (The Detroit News)
Gov. Rick Snyder said Monday he is reviewing requests that his administration release internal emails about the Flint water crisis even though his office is shielded from public record requests under the state's Freedom of Information Act.

Michigan Gov. Rick Snyder says Democratic presidential hopeful Hillary Clinton is bringing politics into Flint's water crisis when the search should be on for solutions (AP)
Michigan Gov. Rick Snyder responded Monday to criticism from presidential candidate Hillary Clinton during the Democratic debates for his handling of Flint's water emergency, saying Clinton is making it a political issue. During Sunday's debate, Clinton said "every single American should be outraged" by the water crisis, adding that "if the kids in a rich suburb of Detroit had been drinking contaminated water and being bathed in it, there would have been action."

'Arrest Gov. Snyder' protesters chant outside his Ann Arbor condo (Mlive)
More than 100 people stood Monday outside Gov. Rick Snyder's downtown Ann Arbor condo calling for his arrest for his handling of the Flint water crisis. "Arrest Governor Snyder! Make him drink the water!" they chanted as snow swirled and the windchill fell below zero.

FLINT

More National Guards Arrive in Flint as Water Crisis Widens (NBC News)
The National Guard sent dozens of additional members into Flint, Michigan, on Monday to help address the impoverished city's water crisis, as Gov. Rick Snyder came under widening criticism — from residents and presidential candidates — for his handling of a massive exposure to lead, NBC News reported.

Class action lawsuits being filed in the Flint Water Crisis (WLNS)
A news conference Tuesday will announce two lawsuits being filed against local and state-level departments and officials, including Governor Rick Snyder for their roles in the Flint Water Crisis. The class action suits have been filed by Flint residents in the Michigan Court of Claims and Genessee County Circuit Court.

State employees volunteer to help Flint residents (UP Matters)
About 130 State of Michigan employees volunteered on Martin Luther King, Jr. Day to help residents in Flint. Volunteers went door-to-door to homes in Flint to give free bottled water, filters, replacement cartridges and water testing kits.

LT. GOV's ACTIVITIES

Calley speech at MLK luncheon draws criticism (Freep)
Criticism of Gov. Rick Snyder's administration's response to the Flint drinking water crisis continued Monday when Lt. Gov. Brian Calley spoke at a Martin Luther King Jr. Day luncheon in Lansing and made no mention of the public health catastrophe affecting the largely black Michigan city.

Calley Criticized For Speech At MLK Event (WILX)
Lieutenant Governor Brian Calley is under fire for comments he made during Monday's Martin Luther King Luncheon in Lansing. While speaking at the luncheon, Calley made no mention of the crisis in Flint, instead he offended some when he said that the next step in the civil rights movement is to end discrimination against people with brain disorders.

Acts of service mark Martin Luther King Jr. Day in Michigan (AP)
About 30 people walked Monday through a part of downtown Pontiac to remember the Rev. Martin Luther King Jr. while honoring his accomplishments in civil rights. Odessa McClellon has been part of the annual march for the past two decades.

In Lansing, former MLK aide calls for unity (Lansing State Journal)
Andrew Young sees the belief that one person can be superior to another as a sickness. His father taught him that when he was growing up in New Orleans in the 1930s, when he lived on the same block as Nazi supporters.

DEPARTMENTS

DEQ
EPA chief defends agency's handling of Flint crisis (The Detroit News)
The nation's top environmental official on Monday defended her agency's handling of Flint's water situation over the past year and more — a stretch during which the city was declared in a state of emergency at the local, state and federal levels. Michigan Gov. Rick Snyder and particularly his state Department of Environmental Quality have been accused of failing to protect Flint residents.

DNR
No, Michigan's first wolverine in 200 years was not just spotted (MLive)
Did Jim Harbaugh's return to Michigan encourage one of mother nature's fiercest animals to follow suit? Not quite. Sunday morning users on social media sites including U-M-athletics fan site MGoBlog, reddit, and Facebook began sharing an Associated Press story from 2004 about a wild wolverine spotted in Michigan's thumb region.

MDOT
Michigan seeks 'Road Watchers' in western portion of state (AP)
The Michigan Department of Transportation is seeking "Road Watchers" to report on winter highway conditions in western Michigan. The agency is seeking people in a 13-county region to participate in periodic surveys measuring winter highway conditions during the 6 a.m. to 9 a.m. commuting period.

MSP
Forensic scientists blast State Police crime lab THC policy as man fights to get son back (Michigan Radio)

They lost custody of him after Lorincz was charged with a felony for possessing synthetic THC. He's a card-carrying medical marijuana patient. But that hasn't helped in his fight to get his son back. So for now, the family gets unsupervised visits for a few hours every week.

State employees volunteer to help Flint residents (UpNorthLive)
About 130 State of Michigan employees volunteered on Martin Luther King, Jr. Day to help residents in Flint. Volunteers went door-to-door to homes in Flint to give free bottled water, filters, replacement cartridges and water testing kits.

LEGISLATIVE

DPS, Flint, energy, criminal justice reform on agenda (Detroit Free Press)
Lansing's legislative agenda got swallowed up last week by two of the state's most pressing issues: the ongoing crisis in Flint because of the state's role in the city's water becoming contaminated with lead and a long-awaited fix for Detroit's Public Schools. Leaders on both sides of the aisle acknowledged that the issues should be at the forefront of their roster for the upcoming months.

Bill establishing group to examine civil rights deficiencies for African-American in Michigan clears Senate (WHTC)
The Michigan Senate has approved legislation that would establish a commission to examine civil rights deficiencies for African-Americans in the state. It would be part of a state department that currently has sections for Latinos, Asians and Middle Easterners. Sen. Rick Jones, R-Grand Ledge, calls the omission of African-Americans a glaring oversight.

DETROIT

Detroit Problems Are 'Closer to Home Than You May Realize,' Battle Creek Paper Says (Deadline Detroit)
This cross-state unity is worth appreciating: "Detroit Public Schools fight our fight, too," says the headline on a Battle Creek Enquirer editroial Sunday. "Detroiters' agonies are far from self-inflicted," the paper comments, "and it is . . . willful self-deception to interpret the events there as irrelevant to our lives in Calhoun County. . . . Consider the long-term prognosis for Battle Creek Public Schools."

Metro Detroit teens optimistic about race (Detroit Free Press)
Devorne Davis had to prove he lived in the neighborhood where he was walking when stopped by police in Alabama. Alessandra Alvarez-Paines is sometimes labeled the "white girl" in school because of her light skin tone. Fatima Yahya feels the pain when she hears of other Muslims being treated poorly because of their religion.

Layoffs of bilingual DPS aides draw parent protests (The Detroit News)
Parents and community leaders say they will file a federal civil rights complaint against the state and Detroit Public Schools over the layoff of several bilingual clerical workers at schools in southwest Detroit. Supporters plan to gather Wednesday at Clippert Academy, one of the affected schools, to protest the dismissals, which occurred last month.

Detroit Teachers Use Social Media to Broadcast Poor School Conditions (Education World)

After facing criticism from Detroit Public School officials for staging "sick-outs" that have kept thousands of students home last week, teachers took to Twitter over the weekend to showcase the deplorable conditions in their schools. Via the Twitter account @Detroitteach, public school teachers submitted shocking photos of stalled renovations and moldy conditions to raise awareness and receive support from the public.

Detroit teachers weigh possibility of more sick-outs (Detroit Free Press)
Detroit Public Schools teachers are cautiously weighing whether to have more sick-outs this week after their mass absences last week — which caused dozens of schools to close — were successful in prompting officials to take action about dilapidated buildings. John Roach, spokesman for Mayor Mike Duggan, said city workers have begun inspecting about a half-dozen schools.

Duggan, Pistons coy about possible move to downtown (Detroit Free Press)
The Pistons keep taking baby steps back into the city of Detroit. Little moments carrying a bigger message. Funding the continued renovation of a once-dilapidated recreation center serves as a nice gesture of civic responsibility. "We're committed to increasing our footprint in the city," Pistons owner Tom Gores said Monday.

Students help board up abandoned houses near school on Martin Luther King, Jr. Day (WXYZ)
Martin Luther King, Jr. said, "Life's most persistent and urgent question is, 'What are you doing for others?'" On Monday, many volunteers answered that question with action. They turned Martin Luther King Jr. Day into a day of service. "He made our world a better place for us," said Evan Franklin.

OPINION

Legislature should repeal emergency manager law (Freep)
While all eyes and ears will be on the governor's State of the State address this week, it is as much a seminal moment for the Legislature. For without them, nothing of any significance will happen.

Mark Schauer: 7 steps governor should take for Flint (Freep)
Michigan is no stranger to public health emergencies. Almost six years ago, a pipeline owned by Enbridge Energy ruptured and spilled a million gallons of oil in the Kalamazoo River.

Susan J. Demas: The whole world is watching Flint (MLive)
When national and international attention becomes fixated on Michigan, it's rarely a good thing.

Pavlov's priority should be helping Detroit kids (Times Herald)
Detroit teachers are sacrificing their sick days in a sick-out to draw attention to their crumbling schools. Even knowing that the missed school days will be tacked on to the end of the school year to be made up, they continue to demand attention in the only avenue left to them.

Editor's Note: Get laws right first time around (Detroit News)
Here's something Michigan lawmakers need to consider before hastily passing legislation: Get it right the first time.

Wozniak: Water woes in Flint and beyond (Detroit News)

When Gov. Rick Snyder approached the Legislature to make his 2015 budget recommendations, he proclaimed that it would be the "Year of Water" — a year in which his administration would focus on ensuring clean water for all Michiganders. Former Department of Environmental Quality Director Dan Wyant declared, "Michigan wants to be recognized as leaders."

State of the State 2016: Immediate action for the challenges of today, opportunities for tomorrow

Snyder to Flint: 'I will fix it'

LANSING, Mich. – Gov. Rick Snyder devoted his sixth State of the State address to the immediate challenges facing Michigan today and actions being taken to solve them – foremost among them, the crisis in Flint, the condition of Detroit Public Schools, and Michigan's economic future.

"To the people of Flint, I will fix this. You did not create this crisis and you do not deserve this," Snyder said. "I want to tell you that you are not alone. The State of Michigan stands with you. I will spare no resource to effectively and permanently solve this crisis and ensure you have the quality of life you deserve."

The governor explained the immediate actions being taken to help Flint residents, including daily door-to-door distribution of bottled water, water filters, filter replacements and water testing kits. More than 21,000 homes have been visited this month by volunteers and emergency responders. In addition, he detailed budget recommendations to keep Flint on Detroit's water system through the end of 2016, to replace water supply pipes and fixtures in Flint schools, and to fund specialized staff locally in Flint for follow-up care for affected residents.

An official request to the Legislature to address immediate, short-term funding to ensure everyone in Flint has clean water will cover costs such as:

- Replacement of fixtures in schools, daycares and hospitals;
- Treatment of children with high lead levels, including diagnostic testing, nurse visits and environmental assessments;
- Child and adolescent health centers and additional support for children's health care access;
- An infrastructure integrity study for pipes and connections, using outside experts;
- Providing aid to the city for utilities.

Long-term health monitoring for children exposed to the water and potential replacement of water infrastructure and service lines will be addressed through the governor's traditional budget recommendation, which will be shared on Feb. 10.

The governor also talked openly about fixing the problems in state government that led to this crisis.

"Apologies are not enough. My immediate concern is with healing Flint and ensuring all residents there have clean water. But I will also work to address the breakdown in state government that led to this crisis so that it never happens again. You have my word that we will fix this, and everyone who works for state government must know - any situation like this must come to my attention immediately. No delays, no excuses. We are accountable."

The Flint water crisis is an extreme example of how infrastructure replacement is desperately needed. But Flint is not the only municipality that will need to have water transmission pipes and other components of underground systems upgraded.

"Our state faces very real challenges at this point. We have deteriorating infrastructure – infrastructure we don't see every day like we do with roads. Many cities have aging water systems and pipes that need to be upgraded. Flint has been the catalyst for this, but it isn't just Flint and it isn't just Michigan. This is a national problem, and we are going to have Michigan solutions."

Gov. Snyder is calling for local and state officials as well as independent experts to work together on long-term solutions to infrastructure challenges. Top priorities include: water infrastructure, energy and electrical grids, broadband support, and upgrading the Soo Locks. A task force will be appointed to examine these issues and make recommendations for action.

The crisis in Flint is a tragic reminder that Michigan cannot truly be strong when Michiganders are suffering. This is a statewide challenge, and it isn't the only one. In 2016 the most pressing education issue is restructuring the Detroit Public School system.

Detroit schools are failing at the most basic fundamentals of education: teaching children. Gov. Snyder will continue working with the Legislature to reform the entire structure of DPS, so that not only can current students achieve more and have a better chance for future success, but measures will be put in place to ensure a complete failure to educate schoolchildren never again happens in a Michigan district. The district's debt must be restructured so that the $1,100 per-student spent on debt service can be spent on classroom resources.

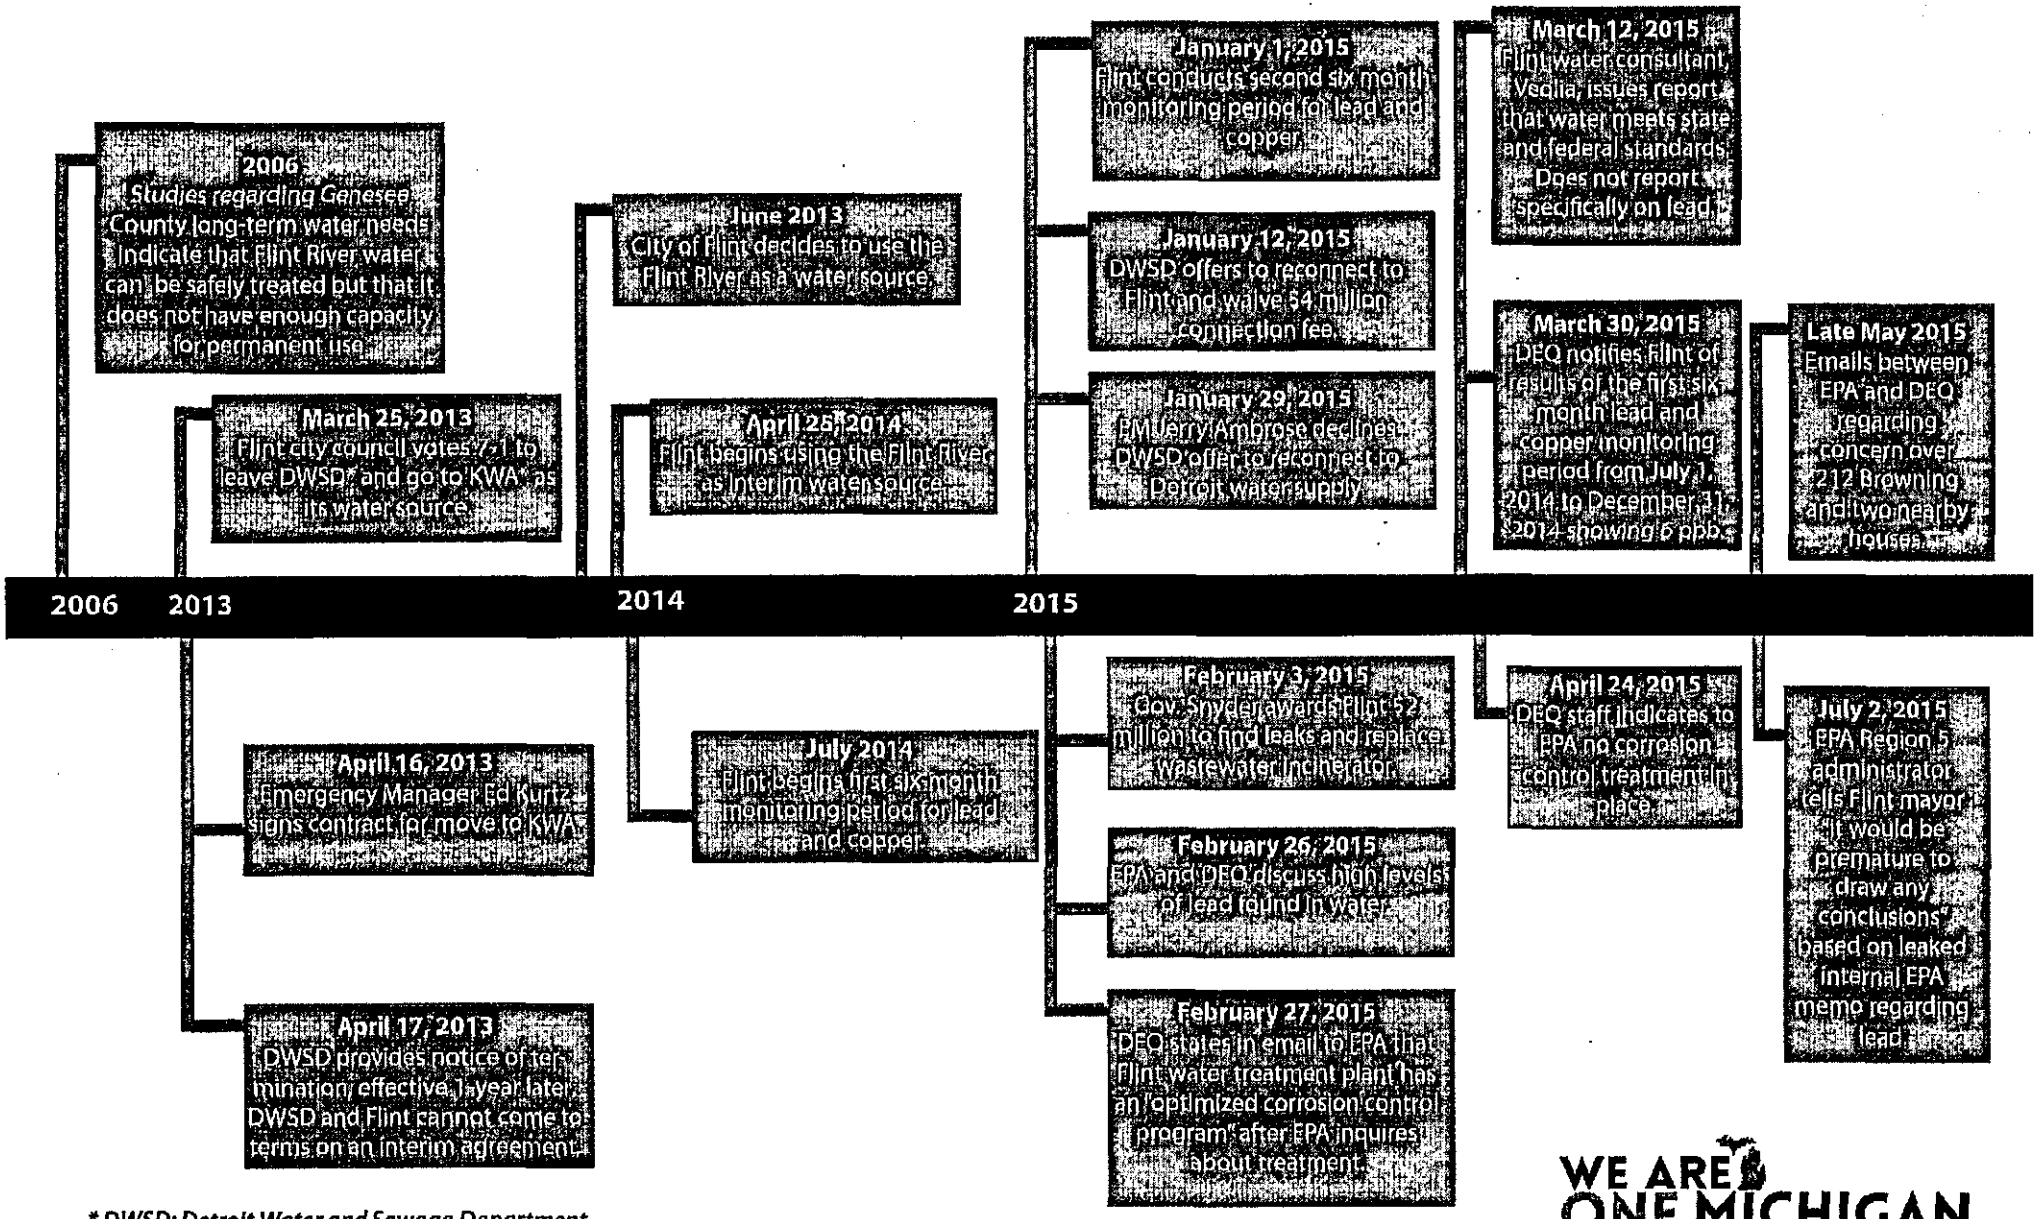
FLINT WATER TIMELINE

- KEY DATES -



* DWSD: Detroit Water and Sewage Department
* KWA: Karengodi Water Authority

WE ARE ONE MICHIGAN

FLINT WATER TIMELINE

- TIMELINE CONTINUED -

July 21, 2015
EPA and DEQ discuss the requirement for corrosion control optimization of drinking water from Flint River.

July 22, 2015
Governor Snyder's Chief of Staff, Dennis Muchmore, emails DHHS director, Nick Lyon, stating community concerns about lead in the water. Muchmore asks about Flint water test results, blood testing and State's response.

September 2, 2015
Professor Edwards communicates that the corrosiveness of Flint water is causing lead to leach into residents' water through pipes.

Early September 2015
DEQ disputes Professor Edwards' test results and conclusions about corrosion and lead leaching.

September 28, 2015
DEQ and DHHS Directors provide briefing to Gov. Snyder on potential scope and magnitude of the issue. DHHS continues to review blood lead level data.

October 19, 2015
DEQ Director Dan Wyant states: *"Staff made a mistake while working with the City of Flint. Simply stated, staff employed a federal [corrosion control] protocol they believed was appropriate and it was not."*

November 3, 2015
The EPA indicates differing possible interpretations of the Lead and Copper Rule with respect to how the LCR's optimal corrosion control treatment procedures apply to this situation (new water source/ new water treatment).

January 4, 2016
Genesee County Commission votes to declare emergency.

January 5, 2016
Gov. Snyder declares emergency for Genesee County, activating the State Emergency Operations Center.

January 9, 2016
MSP Emergency Management Division announces water resource sites established in Flint with bottled water, filters and testing kits.

January 8, 2016
Gov. Snyder and Flint Mayor Weaver meet to discuss collaboration.

2015 **2016**

August 17, 2015
Based on July results showing lead levels at 11 ppb from the second six-month testing period (from January 1, 2015 to June 30, 2015), DEQ instructs Flint to optimize corrosion control.

August 23, 2015
Virginia Tech researcher Prof. Marc Edwards raises concerns about corrosion and lead. Notifies DEQ that he will be studying Flint's water quality issues.

August 28, 2015
Concerned Pastors announce water filter giveaway in Flint.

October 1, 2015
DHHS confirms lead problem. City of Flint urges residents to not drink water.

October 2, 2015
Governor releases 4-point plan to address water system, $1 million for water filters, and anti-corrosion treatment.

October 8, 2015
Governor announces plan to reconnect to Detroit water and Flint develops the plan.

October 15, 2015
Gov. Snyder signs supplemental appropriation with $9.35 million to assist Flint in reconnecting to DWSD. Mott Foundation: $1 contributed $4 million and Flint $2 million.

October 16, 2015
City of Flint reconnects with DWSD.

December 9, 2015
Flint begins to add additional corrosion controls.

December 14, 2015
City of Flint declares emergency.

December 29, 2015
Gov. Snyder takes action on initial findings from Flint Water Task Force. DEQ Director Wyant and Communications Director Brad Wurfel resign.

December 30, 2015
Gov. Snyder taps DNR Director Keith Creagh to guide DEQ through leadership transition.

January 11, 2016
Gov. Snyder signs Executive Order to create the Flint Water Interagency Coordinating Committee to work on long-term solutions to the Flint water situation.

January 12, 2016
Governor requests FEMA's assistance and activates Michigan National Guard to help with water resources distribution.

January 14, 2016
Governor requests Presidential declaration of major disaster and emergency and requests federal aid.

January 16, 2016
The President approves declaration of emergency and request for federal aid. The President denies request for a declaration of major disaster.

GENESEE COUNTY BOARD OF COMMISSIONERS
AMENDED BOARD/COMMITTEE MEETING SCHEDULE
JANUARY 2016

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	14
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/19/2016 08:00:00
SEOC Hours of Operation End:	01/19/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 19):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

- JIC
o Shared water activity map with Media last night and this evening.
o Issued news release concerning donations.
o Worked with FEMA external affairs to schedule Legislative and Congressional call for tomorrow.
o Comcast has put filter installation video on the On Demand section.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Wednesday and Thursday.
o Confirmed team typing for Flint Water Resource Teams.
o Sent out 5 type 3 and 10 types 5 teams to canvass today.

o Data is for 1/19/16 as of 5:00 pm:
o Total homes visited.
- 22,129 (total).
- 2,715 (today).
o Door Hangers.
- 9,851 (total).
- 1,163 (today).
o Water Cases.
- 6,103 (total).
- 789 (today).
o Replacement Cartridges.
- 3,795 (total).
- 322 (today).
o Faucet Filters.
- 7,394 (total).
- 730 (today).

- Planning Section.
o Published Sit Rep #14.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Updated staff assignments for the Planning group.
o Identified staff to assist with data entry of daily Red Cross field team worksheets.
o Worked with FEMA to clarify data reporting method and schedule.
o Participated in daily SEOC briefings and distribution process conference calls.

- Operations Section
o Facilitated daily SEOC briefing calls.
o Held logistics meeting with FEMA in reference to resources available and need for ordering.
o Held logistics meeting in reference to National Guard deployment.
o 71 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
- Whole warehouse being inventoried, numbers will be available at 0800 tomorrow morning.
o Point of Distribution (as of 6 pm)
- Contacts.
- 1,822.
- Water (cases)
- 9,559.
- Filters (faucet)
- 1,409.
- Replacement Cartridges
- 534.
- Filters (pitcher)
- 89.
- Test kits
- 1,127.

- Finance Section.
o Continue to revamp spending plan and cost tracking.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

- GIS Branch Updates.
- Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
- Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
- Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
- Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
- Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
- Received tasker for updating app for Phase II of team deployments.
- Fixed accounts for iPad's that were failing in the field and brought them back online.
- Coordination continued with U of M Flint.

DTMB:
- Drivers have been extended through Saturday to support the canvassing efforts.
- Working on securing space in the flint office building for FEMA staff.
- Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
- Discussed with SAMSA to talk about grants available and the DBH hotline.
- Ordered EPA pamphlets concerning nutrition plan for distribution.

DEQ
- 7,200 sample bottles delivered today and 7,200 more coming in tomorrow.
- 14,000 sample bottles will be delivered tomorrow.

Local EOC Update:
- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Developed SitRep #9.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Pushed the 1/18 water activity map on social media.
- Issued news release #09 regarding donations.
- Posted social media content regarding donations.
- Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.

• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
□ Democratic debate mention by Hillary Clinton
□ Flint as Governor Snyder's Hurricane Katrina
□ Class-action lawsuits filed today against the state
□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
• Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the

local Emergency Operations Center and provide for water test kits for their use.
• Facilitated logistics for bottle delivery and water test kit assembly.
• Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
• Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
• Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher-- Model #ZD-018
Zero 8 cup pitcher-- Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of 67 Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 16 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had 5 police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

100 National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have 10 patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.
Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

Flint Water Discussion Points
Updated Jan. 18, 2016 – Governor's Office

- The health and welfare of Flint residents is the top priority. Gov. Snyder's focus is on getting residents the help they need and the response they deserve. He wants to ensure Flint residents have access to clean, safe drinking water.
- When Gov. Snyder became aware that the city of Flint's water showed elevated lead levels, he responded quickly and aggressively.
    - He set in place a 10-point action plan that included free filters for residents, increased blood testing and water testing in all Flint schools.
    - The Governor also created a bipartisan, independent task force to review all state, city and federal actions concerning Flint water and making recommendations for the future.
- We're focused at solving the immediate problems, and also addressing long-term needs.
    - The Flint Water Interagency Coordinating Committee will bring together a wide range of experts to work on long-term solutions to the Flint water situation and ongoing public health concerns affecting residents.
- Gov. Snyder declared a state of emergency, requested federal assistance, and activated the Michigan National Guard.
- President Obama granted an emergency declaration, providing $5 million for water, water filters, filter replacements and water test kits.
    - Congress can approve additional funding.
    - The Governor had also requested from Obama a major disaster declaration, which was denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.
    - The state is now appealing the disaster declaration denial.

<u>The top priority: Water resources for all Flint residents</u>

- The top priority of response efforts is to ensure residents have access to safe, clean drinking water. Residents should install filters to their taps to ensure they have immediate, ongoing access to safe water. It is important to follow installation and maintenance instructions for filters and replacement cartridges.
    - There are five water resource centers, open seven days a week from 9 a.m. to 9 p.m. at Flint fire stations.
    - There are water resource teams going door-to-door to ensure every resident has a water filter and additional water resources
    - Residents who need immediate help should call 211 or the governor's office at 517-335-7858
    - If you want to donate or volunteer to help the people of Flint, visit: helpforflint.com.
- Since emergency declaration we have distributed 37,000 cases of bottled water, nearly 54,000 filters, and about 170,000 filter replacement cartridges.
    - 21,393 homes have been visited by the Flint Water Resource Teams to date.
- When installed and maintained properly, water filters remove 99 percent of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- Nearly 400 homes, businesses and schools in Flint have been tested from Oct 2 to Nov. 9.
- About 2,500 residents tested for blood lead levels from Oct 2 to Jan. 5.

When did Gov. Snyder become aware of the elevated lead levels?

- The Governor knew about water odor, taste and color complaints after the switch to the Flint River.
- DEQ continued to reassure the governor and his team that the water was safe.
- Sept. 28, 2015: DEQ and DHHS directors briefed the governor on the potential scope and magnitude of the lead issue. They begin discussion on what actions should be taken should be if the concerns raised by outside researchers was verified.
- Oct. 1. 2015: DHHS director informed the governor that his epidemiologists reviewed the data and confirmed Dr. Mona Hanna-Attisha's conclusions that blood lead levels in children were elevated – due to an association with lead contaminated water in certain ZIP codes.
- Oct. 2, 2015: Governor released a 10-point plan to address water system, $1 million for water filters, and anticorrosion treatment. The plan, among other things, included immediate testing in schools, expanding individual testing, creating a technical advisory committee to work with the EPA and expediting completion of KWA.

What has happened since?

- Oct. 6, 2015: DHHS announces water filter pick up locations in the city of Flint.
- Oct. 8, 2015: Gov. Snyder announces plan to reconnect Flint to Detroit water.
- Oct. 16, 2015: Flint reconnects to Detroit water.
- Oct. 19, 2015: Director Wyant announces his staff made a mistake and did not apply the appropriate corrosion control.
- Oct. 21, 2015: Governor announces an independent Flint Water Task force to review state, local and federal actions and offer recommendations.
- Dec. 14, 2015: Flint declares emergency
- Jan. 4, 2016: Genesee County declares local state of emergency
- Jan. 5, 2016: State of Michigan declares state of emergency
- Jan. 16, 2016: President Obama declares a federal emergency in Flint.

What happens next?

- The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents.
- A supplemental budget request will provide funds to the city to help alleviate the need for utility shutoffs.
- This immediate assistance takes into account what we are hearing from the local community is needed there, and builds upon the good work being done by our emergency operations teams to continue door-to-door efforts to distribute resources.
- Michigan Medicaid and WIC programs already required testing for children at ages one and two. To promote and increase testing in the community, MDHHS issued a Health Alert Network notification for local Flint providers recommending blood lead testing for all children younger than 6 years of age who have not previously been tested.

WE ARE ONE MICHIGAN

GOVERNOR RICK SNYDER'S 2016 STATE OF THE STATE ADDRESS

Ending the Flint Water crisis

IMMEDIATE ACTIONS

The governor has pledged the full commitment of the state to help heal Flint. Any resource available will be drawn on. To date, more than 21,000 homes in Flint have been visited to provide clean water resources. A new $22 million dollar state supplemental spending bill will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The funding will also provide wraparound services, such as diagnostic testing, nurse visits and environmental assessments, as well as access to child and adolescent health centers. Funding also will help the city alleviate the need for water shutoffs, and old fixtures will be replaced in schools, daycares and hospitals.

LONG-TERM ACTIONS

The Governor's annual budget proposal, slated this year for Feb. 10, will contain specific recommendations on long-term funding and action items that will support the residents of Flint as they recover from this crisis. Ongoing needs to be addressed include special education, long-term monitoring and health care for children with high lead levels, and studies to identify water infrastructure and service lines in need of replacement.

State funding will be a large part of the solution to Flint's water crisis. Further support and recommendations will come from the Flint Water Interagency Coordinating Committee. This panel will consist of water experts, public health professionals and infrastructure experts, and Flint community members. It will analyze any long-term effects and make recommendations as to what resources are needed.

ENSURING THIS NEVER HAPPENS AGAIN

The legislature is being asked to immediately pass legislation to fund projects related to improving and upgrading water infrastructure, not just in Flint but any city with aging infrastructure. From replacing lead pipes to purchasing cutting-edge filtration systems, there can be no excuse for government failing at such a basic function. When Michiganders turn on the tap, they deserve clean, clear, safe water. It is that simple.

Gov. Snyder is also convening a commission on 21st century infrastructure, composed of the best independent experts, community leaders, and local and state officials to study Michigan's infrastructure needs, threats, opportunities and costs. The task force will be charged with recommending action items and investments to protect our health and well-being. Top priorities will include: water and sewer infrastructure, energy and electrical grids, broadband modernization, and upgrading the aging Soo Locks, where even a 30-day outage would result in economic losses of $160 million dollars. The task force will provide a comprehensive update to the governor and the public, laying the groundwork for state and municipal actions to take place.

Subject: Re: 2-1-1 Flint Water Response for Monday, January 18, 2016

Tom,

I am forwarding on your questions to Michelle Kuzera in the EOC and she will ask for answers and then send on to the SEOC the questions that need to be answered there.

Tonight on a call there was a discussion about this topic. It was stated that some residents had tested the bottle water and said it showed positive for lead. The plan of action is to have someone test the water to determine if there is any risk. Also, the fire stations will now direct donations of water to other locations and so water distributed from there will only be from specific sources.

I will ask for someone from the SEOC to put the response in writing and so you can share it with your staff.

I aslo was at a community meeting this past week and a representative was there from U of M Flint. He said they had the ability to get large filters for a reduced cost. I will check with the SEOC to see if a plan is in place or can be put in place to assist business owners.

Thank you Tom for all of your work - your staff has been doing a great job.

Ginna

Subject: 2-1-1 Flint Water Response for Monday, January 18, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 18, 2016

GENERAL INFORMATION:

****** 2-1-1 NEEDS SPECIFIC GUIDANCE ASAP ON WHAT TO TELL CALLERS WITH QUESTIONS ABOUT BOTTLED WATER TESTING POSITIVE FOR LEAD.******

Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. The attached .wav file has information from a staff member at a group home in Flint. The home tested bottled water received from a fire station and it came back positive for unsafe lead levels. The group home attempted to return the water to the fire station, but the station would not accept it and told them to call 2-1-1. 2-1-1 has contact information for the three callers making reports.

- At 2:30 pm today this request went to Katie Dunkle at DHHS- Office of Public Health Emergency Preparedness (the team that handled health questions while Genesee Health Department was closed this weekend). At 4:23 pm the SEOCOPS Health and Env MDEQ desk is following up with the callers reporting lead in bottled water, but as of 5:14 pm there is no formal guidance on how 2-1-1 should respond to these calls.

- Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ One of the top questions is when will canvassers be specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ A local minister called 2-1-1 twice over the weekend for assistance because his church was listed as a water distribution site, but no water had been delivered. **Is there a master list of additional community distribution sites, e.g. senior centers, churches? Is there any schedule available showing when water will be delivered to different sites?**

☑ Can 2-1-1 get a calendar of any future furlough closures for Genesee County government so we can properly refer callers? **Jamie Gaskin at United Way of Genesee County verified the only upcoming furlough dates for City of Flint employees are Presidents Day Weekend, Friday Feb. 12 through Monday, Feb. 15.**

CALL VOLUME:

- Weekend call volume was manageable with 2-1-1 partners in SE Michigan and Grand Rapids providing extra capacity to the regular overnight service provided by Gryphon Place in Kalamazoo. There was a spike on Saturday morning and another on Sunday that led to a short periods where answer times hit 10 minutes before additional capacity could be brought online to reduce wait times under two minutes.
  - **326 calls on Saturday 1/16**
  - **244 calls on Sunday 1/17**

- Today (Monday) Gryphon Place brought in 3x normal staffing to handle the holiday volume for Central Michigan, including Flint, along with GP's regular territory in SW Michigan. As of 2:30 pm "Staff have been taking calls non-stop, but wait times are still within two minute goal".
- The health information hotline staffed by DHHS over the holiday weekend received approximately 25 calls over the weekend, including Monday.
  - Is the JIC is monitoring demand on the Genesee Health Department hotline to ensure they have adequate capacity to handle demand? Could DHHS provide additional staffing if needed?

SPECIAL NEEDS/REQUESTS

- Demand from seniors and homebound residents for water delivery remains high. 2-1-1 continues to maintaining this information and is providing daily updates to the Sheriff's Department.

- ☑ 2-1-1 is documenting the tracking homebound residents needing bottled water for medical devices as an unmet water need – the Sheriff's Department is including these with other homebound deliveries as their capacity allows.
- ☐ Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ Business owners are asking for water filters. As one said, "What about us?" Over the weekend 2-1-1 received calls from a golf course and a large factory owner. The factory needs "100s of water filters – we got 3". How would the JIC like 2-1-1 to handle inquiries from businesses for assistance?

RUMOR CONTROL

- See first item in today's report on concerns about lead in bottled water.
- ☐ An unofficial 'Flint Police Operations' Facebook page posted an item telling people to call 2-1-1 if they had large parking lots to host 18 semi-trucks bringing in water to distribute. 2-1-1 was able to coordinate with the EOC to have the post removed within a few hours.

UNRESOLVED

- ☐ **From 1/13/16:** No solution reported yet for a paralyzed man who needs a water testing kit delivered. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.
- ☐ **From 1/14/16:** 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized housing) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods. ***Is the sheriff's office handling these deliveries now?***
- ☐ **From 1/15/16:** 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police. 2-1-1 attempted to provide reassurance, but the caller was adamant being removed. **Is there a water delivery option for residents who are concerned about contact with law enforcement?**
- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.

- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

        1. 21,393 homes visited by the FWRTs to date.

        2. Distributed:
            a. Number of cases of water 37,313
            b. Filters 53,713
            c. Filter cartridges 169,520
            d. Test kits 7,379

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

        4. Resources purchased:
            a. Cases of water 82,992 (additional 16,056 donated)
            b. Filters 115,700
            c. Filter cartridges 243,200
            d. Test kits 61,161

        5. Teams going out tomorrow:
            a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
            b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

<u>Attached Documents:</u>

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432

c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided

since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.

- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.

- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.

- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:

- First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
- State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
- Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
- Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version

of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount

        - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
        - 10,000 – PUR replacement filters (3 pack)
        - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
        - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions

- 112 Filters
- 3 Pitchers
- 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.

- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***

- Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.

- Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
- We have ordered an additional (expedited delivery with ETAs tomorrow)
  - 40,000 Brita Filters
  - 40,000 Brita Replacement Filters
  - 1000 Zero 8-Cup Pitchers
  - 1000 Zero 8-Cup Pitchers
  - 2000 PUR Replacement Filters
  - 93 Pallets of water (about 6700 cases)

- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.

- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver

the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.

- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**

- Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.

- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups

- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

5,000 More Homes Visited Today by Water Response Teams

FOR IMMEDIATE RELEASE
January 18, 2016

For more information contact:
Joint Information Center 888-EMD-TODAY (888-363-8632)
Release #: 08

FLINT, Mich. Today, the water response teams distributed resources to 5,040 Flint homes providing residents with free bottled water, filters, water replacement cartridges and water testing kits.

To date, more than 21,300 homes in the City of Flint were either visited by a water response team, comprised of city, county and state personnel, American Red Cross and volunteers, or the resident has visited a water resource site to pick up these resources.

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

Since January 9, the following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

•More than 37,300 cases of water
•More than 53,700 water filters
•More than 7,300 water testing kits

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

•Nearly 83,000 cases of water
•More than 115,700 water filters
•More than 69,100 water testing kits

Resources and efforts continue to expand with more volunteers and additional National Guard members. Today, additional National Guard members arrived in Flint, bringing the total number of soldiers to approximately 70 to hand out water resources at water resource sites.

To help enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3

1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

The United Way of Genesee County, the Michigan Community Service Commission and the American Red Cross of East Central Bay-Michigan have established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits to Flint residents. Individuals interested in volunteering should call 2-1-1.

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater or by calling 211.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

Subject: Monday Jan. 18 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | MONDAY, JANUARY 18, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

This morning, Governor Rick Snyder visited the University of Michigan-Flint to talk with approximately 100 volunteers as they prepared to participate in the MLK Day of Service. The Governor also addressed the Flint water emergency and recognized UM-Flint for helping to distribute thousands of water filters.

To date, more than 20,000 cases of bottled water, 47,000 water filters, and 167,000 water filter replacement cartridges have been distributed.

Tune in: Tomorrow, Governor Snyder will deliver his sixth State of the State address at 7 PM at the Capitol. He plans to address the Flint water emergency, and you can watch live at www.mi.gov/StateOfTheState. Join the conversation online using the hashtag **#MISOTS16**.

REMINDERS

- For Flint water assistance, donation, or volunteer information: Dial 211 or visit www.mi.gov/FlintWater
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave

Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Ron,

I've received the daily 211 daily summary and provided some comments on the areas that I am familiar with. I really feel that the 'lead in the bottled water' calls need to be addressed ASAP so they do not spread any further. This is appears to be a case where the person did not read the manual and is using the testing device in an inappropriate manner. I have attached the WAV file of the call for your listening pleasure.

If you could look it over in your 'free time' and either e-mail it back to 211 or return it to myself so that I can it would be very much appreciated.

Sent: Monday, January 18, 2016 6:49 PM
To: Leix, Ron (MSP)
Subject: Media and Social Media Monitoring Procedures

Ron,

Below are procedures for the media and social media monitoring position.

Social Media:
I have been mainly using TweetDeck to monitor Twitter. I specifically have been monitoring #FlintWater, #FlintWaterCrisis, and a key word search for "Flint Water" and "Flint Water Bathing." An account that we have been following closely is the @flintwaterstudy Twitter account.

For Facebook, I have been using the hashtags #FlintWater and #FlintWaterCrisis as key hashtags to search.

Misinformation, protests or new high profile individual activists should be should be sent to the JIC Manager email account for awareness and shared with the SEOC.

Mainstream Media:
I have set up google alerts for "Flint water" but I have found that I am getting quicker results by manually searching "Flint water" through Google News. This has been receiving national and local coverage so we have been documenting both on a national and local level.

MiCIMS Procedures:
To upload a media monitoring report (attached is an example from last week) follow the below procedures.
1. Log into MiCIMS using your username and password.
2. Select Incident: 2015-10-01-City of Flint-Water Contamination / Shortage.
3. A main menu box should appear, select JIC/PIO Media Monitoring.
4. The JIC/PIO Media Monitoring screen will appear. To submit a new report, select New Record in the upper right hand corner.
5. Fill out the required fields and additional fields as needed.
6. Upload the word document as an attachment.
7. Select Save.

My goal has been to provide a media monitoring report twice a day, in the morning and afternoon. Articles, tweets or posts that I feel need immediate attention, I submit individually through MiCIMS and emailed to JICManager@michigan.gov. Reports should be submitted through MiCIMS and emailed to JICManager@michigan.gov.

If you have any questions, please feel free to reach out to me. My office number is 517-241-0977 and my cell number is 517-599-0258.

Thank you!!

-Sierra

Subject: 2-1-1 Flint Water Response for Monday, January 18, 2016
Attachments: 2016-01-18 MI211 Flint Water Daily Update.docx; VoiceMessage.wav

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 18, 2016

GENERAL INFORMATION:

****** 2-1-1 NEEDS SPECIFIC GUIDANCE ASAP ON WHAT TO TELL CALLERS WITH QUESTIONS ABOUT BOTTLED WATER TESTING POSITIVE FOR LEAD.******

Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. The attached .wav file has information from a staff member at a group home in Flint. The home tested bottled water received from a fire station and it came back positive for unsafe lead levels. The group home attempted to return the water to the fire station, but the station would not accept it and told them to call 2-1-1. 2-1-1 has contact information for the three callers making reports.

- At 2:30 pm today this request went to Katie Dunkle at DHHS- Office of Public Health Emergency Preparedness (the team that handled health questions while Genesee Health Department was closed this weekend). At 4:23 pm the SEOCOPS Health and Env MDEQ desk is following up with the callers reporting lead in bottled water, but as of 5:14 pm there is no formal guidance on how 2-1-1 should respond to these calls.

- Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ One of the top questions is when will canvassers be specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ A local minister called 2-1-1 twice over the weekend for assistance because his church was listed as a water distribution site, but no water had been delivered. **Is there a master list of additional community distribution sites, e.g. senior centers, churches? Is there any schedule available showing when water will be delivered to different sites?**

☑ Can 2-1-1 get a calendar of any future furlough closures for Genesee County government so we can properly refer callers? **Jamie Gaskin at United Way of Genesee County verified the only upcoming furlough dates for City of Flint employees are Presidents Day Weekend, Friday Feb. 12 through Monday, Feb. 15.**

CALL VOLUME:

- Weekend call volume was manageable with 2-1-1 partners in SE Michigan and Grand Rapids providing extra capacity to the regular overnight service provided by Gryphon Place in Kalamazoo. There was a spike on Saturday morning and another on Sunday that led to a short periods where answer times hit 10 minutes before additional capacity could be brought online to reduce wait times under two minutes.
  - **326 calls on Saturday 1/16**
  - **244 calls on Sunday 1/17**

- Today (Monday) Gryphon Place brought in 3x normal staffing to handle the holiday volume for Central Michigan, including Flint, along with GP's regular territory in SW Michigan. As of 2:30 pm "Staff have been taking calls non-stop, but wait times are still within two minute goal".
- The health information hotline staffed by DHHS over the holiday weekend received approximately 25 calls over the weekend, including Monday.
    - Is the JIC is monitoring demand on the Genesee Health Department hotline to ensure they have adequate capacity to handle demand? Could DHHS provide additional staffing if needed?

SPECIAL NEEDS/REQUESTS

- Demand from seniors and homebound residents for water delivery remains high. 2-1-1 continues to maintaining this information and is providing daily updates to the Sheriff's Department.

☑ 2-1-1 is documenting the tracking homebound residents needing bottled water for medical devices as an unmet water need – the Sheriff's Department is including these with other homebound deliveries as their capacity allows.

☐ Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

☐ Business owners are asking for water filters. As one said, "What about us?" Over the weekend 2-1-1 received calls from a golf course and a large factory owner. The factory needs "100s of water filters – we got 3". How would the JIC like 2-1-1 to handle inquiries from businesses for assistance?

RUMOR CONTROL

- See first item in today's report on concerns about lead in bottled water.

☐ An unofficial 'Flint Police Operations' Facebook page posted an item telling people to call 2-1-1 if they had large parking lots to host 18 semi-trucks bringing in water to distribute. 2-1-1 was able to coordinate with the EOC to have the post removed within a few hours.

UNRESOLVED

☐ **From 1/13/16:** No solution reported yet for a paralyzed man who needs a water testing kit delivered. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.

☐ **From 1/14/16:** 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized housing) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods. ***Is the sheriff's office handling these deliveries now?***

☐ **From 1/15/16:** 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police. 2-1-1 attempted to provide reassurance, but the caller was adamant being removed. **Is there a water delivery option for residents who are concerned about contact with law enforcement?**

☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

Subject: New Request for Staffing - Flint Joint Information Center
Attachments: Staffing - 2016.01.18.docx

Importance: High

Fellow PIOs:

The Joint Information Center (JIC) continues to play a critical role in centralizing communications and streamlining public education efforts as the state continues working to improve the water situation in Flint. Thank you to all the departments who have and are providing staff. At this time, we are seeking staff for Jan. 23-Jan. 31.

To maximize efficiency, preference is for PIOs to staff the JIC for a two- or three-day time period (at least initially) to limit re-training and transition between incoming/outgoing staff.

I ask that you please review the attached staffing schedule and respond with your availability by Wednesday at noon. Most immediately, we are in need of some additional staff for this Saturday and Sunday.

The JIC is operating from a state office building in Flint at 125 E. Union Street, 48502. At a minimum, JIC working hours are from 8 a.m. to 6 p.m., although several PIOs are routinely working until 9 p.m. to complete all necessary tasks (more staff will help alleviate some of this). Lunch is provided, and overnight accommodations can also be arranged at no-cost to the PIO.

Please let me know if you or one of your staff can help us out.

Thank you much,

Ron

To: Leix, Ron (MSP)
Subject: FW: sit report bullet points

From: Medrano, Sierra (MSP)
Sent: Monday, January 18, 2016 2:29 PM
To: Banner, Shanon (MSP) (BannerS@michigan.gov)
Subject: sit report bullet points

Hi Shanon,

Here are the drafted bullet points that are due at 3:30.

- Updated internal talking points to include updated information and activity.
- Arranged a media availability event at the Volunteer Reception Center located at the American Red Cross office on Grand Traverse St. Event. The event was staffed by the United Way of Genesee County, the Michigan Community Service Commission and the American Red Cross of East Central Bay-Michigan.
- Sent out a news release for the American Red Cross about volunteer efforts.
- Arranged to have a section for a photo gallery on the Flint water website.
- Updated the ICS204 form.
- Sent an email to the State PIOs for staffing the JIC for this weekend through next week.
- Planning to send out nightly news release with updated information about today's activity. The release will also include the flint water response team activity map.

RED CROSS AND COMMUNITY PARTNERS ORGANIZE VOLUNTEER EFFORTS FOR WATER EMERGENCY
FOR IMMEDIATE RELEASE
January 18, 2016

Joint Information Center
888-EMD-TODAY (888-363-8632) JICNews@Michigan.gov

DATE:
Monday, Jan. 18, 2016

TIME:
3 p.m.

WHERE:
Volunteer Reception Center
American Red Cross Office
1401 S. Grand Traverse St.
Flint, MI 48503

WHO:
The United Way of Genesee County, the Michigan Community Service Commission and the American Red Cross of East Central Bay-Michigan

WHAT:
A volunteer reception center has been established for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits to Flint residents.

Due to an outpouring of support, the volunteer reception center is expanding its hours this week (updated since this morning's press release). Hours will be:

•Today—Friday, Jan. 22 from 9 a.m. to 7 p.m.
•Saturday, Jan. 23 from 9 a.m. to 2 p.m.
•Sunday, Jan. 24 from 12 p.m. to 5 p.m.

People coming to the volunteer reception center will receive a brief training and orientation. Volunteers should plan on being available for a minimum three-hour assignment. While many assignments will be made on the same day the person comes to register at the Volunteer Reception Center, some assignments for tasks such as data entry, warehousing, operations support, and water testing kit assembly (kid and family friendly) may begin on other days. New requests come in daily so job type and opportunities vary.

Public information and updates can be found at www.michigan.gov/flintwater.

###

ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632) or JICNews@michigan.gov.

To: Leix, Ron (MSP)
Subject: Completed tasks

- Established contact with FEMA External Affairs.
- Correct inaccuracies in the media regarding the emergency declaration.
- Helped arrange a legislative and congressional conference call to give updates on State and FEMA efforts. Provided talking points for Captain Kelenske for the legislative and congressional phone call.
- Provided talking points for attendees on congressional/legislative call so they can share updates with their constituents.
- Arranged a media availability at the Clio Road warehouse for media to have the opportunity to tour the warehouse to get photos and video of where water resources for Flint residents are being housed and distributed. Event attended by F/Lt. Dave Kaiser, ARC warehouse manager, and Capt. Tafoya of GCSD.
- Provided printed instructions to 211 for installing a water filter.
- Created a section called Federal Declaration Requests on the Flint Water Website to house the emergency declaration and associated letters.
- Updated the Lead in the Body FAQ/fact sheet on the website to focus more on lead in the water.
- Established nightly activity numbers press release template. Issued first two nightly releases.
- At the request of 211, arranged for a PIO from the Community Service Commission to be in the JIC this week.

Dear Ron,

I fully support the educational outreach that the Sloan Museum can offer us. We could release two of each model filter for their use in education to attendees at their events. It just so happens that the water exhibit starts soon and is also a traveling exhibit.

There is quite a bit of confusion over filters, that any chance we have to spread the message should be used. I have given Mr. Slisher the JIC's phone number and am forwarding you the e-mail chain. Feel free to call me at 810.627.8893 if you have any questions.

Chris,

No problem, I thought it was worth asking. We can definitely help with education and outreach efforts. We are already doing a set of public and school age programs around this issue (see the link below), but would welcome ideas where help is needed for more.

Dear Todd,

Thank you for your offer but at this time we are unable to support further distribution/collection sites. Having said this though, your organization could play a vital role in our educational efforts on such subjects such as filter installation, filter change, water sampling/testing, interpreting test results, and general education. Many of the educational outreach efforts fit nicely within your events and programs and I would welcome any help you could give us on that front.

If you should decide that education and outreach are areas that you can undertake, please feel free to contact me. At this time, e-mail is about the only reliable way to get in touch with me due to the hectic pace of the emergency.

Todd:

I can forward your request to the Emergency Operations Center. I am doubtful at this time we will be able to assist with this at the Museum as we have to stay focused on the mass distribution system and although this might be a feel good opportunity it really can't be a priority at this time.

I can however get you samples of all of the filter units if your team wished to have them for some type of demonstration. Please let me know and I will get you samples if you need them.

Jamie,

Thanks for all your tireless efforts on behalf of all Flint residents around the Water Crisis. Something I didn't get a chance to ask, but occurred to me. As you know we have a number of public forums and education sessions around the water exhibit. Would the United Way (or other partner organizations – Food Bank – Genesee Community Health System etc) be interested in having the Sloan Museum as a venue to distribute water/filters/do testing? It may be that you have enough locations and resources for this – but I thought I'd ask.

The full listing of events and dates that we have wrapped around the water exhibit can be found at the link below:

http://www.sloanmuseum.org/sloan-museum/events-and-programs/water-programs

If this is of interest – give me a call or an e-mail and we can talk further.

FOR IMMEDIATE RELEASE
January 18, 2016

RED CROSS AND COMMUNITY PARTNERS ORGANIZE VOLUNTEER EFFORTS FOR WATER EMERGENCY
"Anybody can serve." - Rev. Dr. Martin Luther King, Jr.

Media availability this afternoon

FLINT, MI, JANUARY 18, 2016 – It is appropriate on Martin Luther King, Jr. Day to remember the Rev. King's words on volunteer service. "Everybody can be great. Because anybody can serve."

Those wishing to serve the people of Flint with ongoing work to distribute water, water filters, replacement cartridges, and test kits, can join the efforts by visiting the Volunteer Reception Center at the Red Cross office, 1401 S. Grand Traverse St. in Flint. The United Way of Genesee County, the Michigan Community Service Commission and the American Red Cross of East Central Bay-Michigan have come together to operate the center.

"This collaboration is a great example of the community coming together to meet the needs of our citizens," said Jamie Gaskin, CEO of United Way of Genesee County.

The Volunteer Reception Center is open today, Martin Luther King Day, from 9 a.m. to 7 p.m.

On Tuesday, January 19, hours return to:
- Monday – Friday, 11 a.m. to 6:30 p.m.
- Saturday, 9 a.m. to 2 p.m.
- Sunday, 12 p.m. to 5 p.m.

"It is expected that this distribution effort will continue for some time and it will take a lot of volunteers to help," says Tony Lasher, Executive Director of the East Central Bay- Michigan office. "The Red Cross has a long history and experience in mobilizing and training volunteers to respond to emergencies and we'll use that experience to bring together those who want to be a part of the current community response in Flint."

People coming to the Volunteer Reception Center will receive a brief training and orientation. Volunteers should plan on being available for a minimum three-hour assignment. While many assignments will be made on the same day the person comes to register at the Volunteer Reception Center, some assignments for tasks such as data entry, warehousing, operations support, and water testing kit assembly (kid and family friendly!) may begin on other days. New requests come in daily so job type and opportunities vary.

"We are grateful to any and all Michigan residents who are willing to give their time and resources to help during this time of need," said Ginna Holmes, executive director of the Michigan Community Service Commission. "As the state's lead agency for volunteerism, we are working side-by-side with our partners in Flint to mobilize volunteers to help with outreach efforts."

The United Way of Genesee County and United Way 2-1-1 will be supporting the Volunteer Reception Center. Anyone wanting more information about volunteering can call 2-1-1.

###

About United Way of Genesee County: *Founded in 1922, United Way of Genesee County currently supports more than 43 programs with direct grants, helping more than 57,000 people in Genesee County. The agency's investment model is based on Education, Health, Financial Stability and Basic Needs. In 2014, the total economic impact through direct and leveraged funds exceeded $11.6 million.*

About the Michigan Community Service Commission: *The Michigan Community Service Commission utilizes service as a strategy to address the state's most pressing issues and empowers volunteers to strengthen communities. The MCSC is housed in the Michigan Department of Health and Human Services. For more information visit www.michigan.gov/volunteer or call 517-335-4295.*

About the American Red Cross: *The American Red Cross shelters, feeds and provides emotional support to victims of disasters; supplies about 40 percent of the nation's blood; teaches skills that save lives; provides international humanitarian aid; and supports military members and their families. The Red Cross is a not-for-profit organization that depends on volunteers and the generosity of the American public to perform its mission. For more information, please visit redcross.org or visit us on Twitter at @RedCross.*

Media Advisory: A media availability is being planned for 3 p.m. at the Volunteer Reception Center, 1401 S. Grand Traverse St., Flint.

Flint Water Emergency Response
Talking Points for Capt. Chris Kelenske
Meeting with Republican Caucus

NOT INTENDED TO BE DISSEMINATED
TO THE MEDIA OR PUBLIC IN THIS FORMAT

Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations
- January 12, 2016: Water resource teams began going door-to-door
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster

FEMA

- President Obama's approval of a federal emergency in Flint provides emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

- In addition, the state is working with the Federal Emergency Management Agency (FEMA) to coordinate an interagency recovery plan with other federal agencies to provide resources to Flint.
    - Coordination will include identifying federal agencies that have programs, authorities and/or technical expertise that could be utilized in the ongoing response and recovery efforts in Flint to be made available. Such federal agencies may include the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development, and Army Corps of Engineers.

Current Status/Update

- We are continuing to bring all state resources to bear to protect public health and safety.

- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.

- From Jan. 12 to Jan. 18, over 21,000 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.

    - Water response teams are a collaborative effort comprised of city, county, state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - There are approximately 70 National Guard members handing out water resources at the fire stations in the city.

- From Jan. 12 to Jan. 18, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - More than 37,300 cases of water
    - More than 53,700 water filters
    - More than 7,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only

be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

  Fire Station #1
  310 East 5th St.
  Flint, MI 48502

  Fire Station #3
  1525 Martin Luther King Ave.
  Flint, MI 48503

  Fire Station #5
  3402 Western Road
  Flint, MI 48506

  Fire Station #6
  716 West Pierson Road
  Flint, MI 48505

  Fire Station #8
  202 East Atherton Road
  Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.

- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. An instruction sheet also has been provided to 2-1-1 to share with those individuals without internet access.

Resources for homebound individuals

- 2-1-1 is collecting a list of limited mobility or homebound individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is also being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- The American Red Cross has established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits.
    - The Volunteer Reception Center is located at the Red Cross office at 1401 S. Grand Traverse St. in Flint.
    - This week, the Volunteer Reception Center hours are:
        - Monday - Friday, 9 a.m. to 7 p.m.
        - Saturday, 9 a.m. to 2 p.m.
        - Sunday, 12 p.m. to 5 p.m.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate the Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - The first group of National Guard personnel arrived in Flint on January 13 to conduct assessment and get acclimated.
    - 30 more personnel arrived on January 15 and additional soldiers were added on January 18, bringing the current commitment to approximately 70 soldiers.
    - This is the second time the Governor has activated the National Guard.

        - Last time was for the Duck Lake Fire in Luce County in May 2012.
    - Per the Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
    - Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- Water payment inquiries should be referred to the City of Flint.

January 19, 2016

Flint Water Emergency Response
Republican Caucus
Remarks for Capt. Chris Kelenske

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Chronology

- Public Health Emergency Declaration issued October 1, 2015
- A Declaration of a State of Emergency issued for the city of Flint on December 14, 2015 by City of Flint Mayor.
- The Board of Commissioners Chairperson of Genesee County declared a local emergency on Jan. 4.
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency
- Governor declared State of Emergency in Flint on Jan. 5
    - State Emergency Operations Center activated in Lansing to coordinate state response.
    - The Joint Information Center (JIC) was activated on January 6.
- Water resource sites were established on Jan. 9.
- Water resource teams began going door-to-door on Jan. 12.
- Governor Snyder issued an Executive Order on Jan. 12 to activate Michigan National Guard.
- Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County on Jan. 14.
- Attorney General Bill Schuette announces investigation into Flint water crisis on Jan. 15.
- On Saturday, Jan. 16, President Obama approved the Governor's request for a federal emergency in Flint.
- On Jan. 18 the American Red Cross and United Way established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits to Flint residents.

Background

- On Saturday, Jan. 16, President Obama approved the Governor's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

    - Under the Stafford Act, resources totaling $5 million can be used for federal emergencies, with a required state match of 25 percent. It's important to note that we shouldn't view this as a $5 million cap on federal assistance, because if the $5 million is exhausted, Congress has the option to approve additional funding.

    - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is reviewing the process for appealing the disaster declaration denial.

Current Status/Update

- We are continuing to bring all state resources to bear to protect public health and safety.

- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.

- From Jan. 12 to Jan. 18, over 21,000 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.

    - Water response teams are a collaborative effort comprised of local and state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - There are approximately 70 National Guard members handing out resources at the fire stations in the city.

- From Jan. 12 to Jan. 18, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - More than 37,300 cases of water

- More than 53,700 water filters
- More than 7,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.

- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters do have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. An instruction sheet for 2-1-1has been provided to walk through with those individuals without internet access.

- Small business owners seeking water filters at the water resource sites should not be turned away.

Resources for homebound individuals

- 2-1-1 is collecting a list of individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- Volunteers and donations are being coordinated through 2-1-1, in cooperation with the American Red Cross.
    - A volunteer reception center has been established for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits to Flint residents.
    - The Volunteer Reception Center is located at the Red Cross office, 1401 S. Grand Traverse St. in Flint.
    - This week, the Volunteer Reception Center hours are:
        - Monday - Friday, 9 a.m. to 7:00 p.m.
        - Saturday, 9 a.m. to 2 p.m.
        - Sunday, 12 p.m. to 5 p.m.

- Persons/organizations wishing to donate 100 cases of water or less can be taken to the American Red Cross located at 1401 S. Grand Traverse in Flint.

- Volunteers can also report to the American Red Cross for processing.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits
    - National Guard personnel will not be going door to door with the water resource teams, at this time.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - First group of National Guard personnel arrived in Flint on Wednesday, January 13 to conduct assessment and get acclimated.
    - 30 more personnel arrived Friday, Jan. 15 with an expansion to approximately 70 personnel on Monday, Jan. 15.
    - This is the second time the Governor has activated the National Guard.
        - Last time was for the Duck Lake Fire in Luce County in May 2012.
    - Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
    - Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- Water payment inquiries should be referred to the City of Flint.

Attorney General Investigation

- The Michigan Attorney General announced Friday on Jan. 15 he is investigating whether any Michigan laws were violated in the process that led to this emergency.

Other/Misc.

- Water is being distributed primarily in bottles rather than jugs. The reason for this is that the donations received are largely comprised of bottled water. Requests for water in jugs have been made when donors have inquired about our needs.

- The state recognizes that offering recycling options for empty water bottles is a priority. Measures are being put in place soon.

- Legionnaires disease- related inquiries should be directed to MDHHS and Genesee County Health Department.

- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

State Emergency Operations Center

- The State Emergency Operations Center has been activated since January 5 and continues to be staffed seven days a week by members of state agencies and other partners.

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 18, 2016

GENERAL INFORMATION:

****** 2-1-1 NEEDS SPECIFIC GUIDANCE ASAP ON WHAT TO TELL CALLERS WITH QUESTIONS ABOUT BOTTLED WATER TESTING POSITIVE FOR LEAD.******

Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. The attached .wav file has information from a staff member at a group home in Flint. The home tested bottled water received from a fire station and it came back positive for unsafe lead levels. The group home attempted to return the water to the fire station, but the station would not accept it and told them to call 2-1-1. 2-1-1 has contact information for the three callers making reports.

- At 2:30 pm today I sent this request and voicemail to Katie Dunkle at DHHS- Office of Public Health Emergency Preparedness (the team that handled health questions while Genesee Health Department was closed this weekend). At 4:23 pm the SEOCOPS Health and Env MDEQ desk is following up with the callers reporting lead in bottled water, but as of 5:14 pm there is no formal guidance on how 2-1-1 should respond to these calls.

- Is there are timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ One of the top questions is when will canvassers be specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ A local minister called 2-1-1 twice over the weekend for assistance because his church was listed as a water distribution site, but no water had been delivered. **Is there a master list of additional community distribution sites, e.g. senior centers, churches? Is there any schedule available showing when water will be delivered to different sites?**

☑ Can 2-1-1 get a calendar of any future furlough closures for Genesee County government so we can properly refer callers? **Jamie Gaskin at United Way of Genesee County verified the only upcoming furlough dates for City of Flint employees are Presidents Day Weekend, Friday Feb. 12 through Monday, Feb. 15.**

CALL VOLUME:

- Weekend call volume was manageable with 2-1-1 partners in SE Michigan and Grand Rapids providing extra capacity to the regular overnight service provided by Gryphon Place in Kalamazoo. There was a spike on Saturday morning and another on Sunday that led to a short periods where answer times hit 10 minutes before additional capacity could be brought online to reduce wait times under two minutes.
  - **326 calls on Saturday 1/16**
  - **244 calls on Sunday 1/17**

- Today (Monday) Gryphon Place brought in 3x normal staffing to handle the holiday volume for Central Michigan, including Flint, along with GP's regular territory in SW Michigan. As of 2:30 pm "Staff have been taking calls non-stop, but wait times are still within two minute goal".

Comment [GC1]: The "Test Strips" provided in pitchers does not test for specific items. Instead it tests for particles in the water. Total Dissolved Solids (TDS) is nondiscriminatory about the particles it counts. Please verify HOW the callers are testing their water, if the test was not sent a certified lab...the results are not trustworthy.

Comment [GC2]: Bottled water will be available until there is no more need. This highlights the necessity for citizens to utilize the water testing available so that the City can be accurately assessed.

Comment [GC3]: Since this information is dependent upon multiple factors (i.e. weather, staffing, crimes), providing this information as factual would be a disservice. If residents are not home, a 'door hanger' is left with information on how to obtain the supplies.

Comment [GC4]: We need to know what church was calling. Numerous churches have been contacted already but not all churches are currently eligible nor have all churches returned the calls.

- The health information hotline staffed by DHHS over the holiday weekend received approximately 25 calls over the weekend, including Monday.
    - Is the JIC is monitoring demand on the Genesee Health Department hotline to ensure they have adequate capacity to handle demand? Could DHHS provide additional staffing if needed?

Comment [GC5]: The JIC is a now a function of a Presidential declaration that does not include health related options. The declaration limits the relief to consumables such as water, filters, and test kits and the associated staff times to distribute such supplies.

SPECIAL NEEDS/REQUESTS

- Demand from seniors and homebound residents for water delivery remains high. 2-1-1 continues to maintaining this information and is providing daily updates to the Sheriff's Department.
    - ☑ 2-1-1 is documenting the tracking homebound residents needing bottled water for medical devices as an unmet water need – the Sheriff's Department is including these with other homebound deliveries as their capacity allows.

Comment [GC6]: Require more information as to the type of medical devices and the need for increased water availability.

- ☑ Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☑ Business owners are asking for water filters. As one said, "What about us?" Over the weekend 2-1-1 received calls from a golf course and a large factory owner. The factory needs "100s of water filters – we got 3". How would the JIC like 2-1-1 to handle inquiries from businesses for assistance?

RUMOR CONTROL

- See first item in today's report on concerns about lead in bottled water.
- ☑ An unofficial 'Flint Police Operations' Facebook page posted an item telling people to call 2-1-1 if they had large parking lots to host 18 semi-trucks bringing in water to distribute. 2-1-1 was able to coordinate with the EOC to have the post removed within a few hours.

UNRESOLVED

- ☐ **From 1/13/16:** No solution reported yet for a paralyzed man who needs a water testing kit delivered. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.

Comment [GC7]: If this information has been included in the reports sent to the IC, the caller will receive supplies. The number of requests far exceeds the capability for 'immediate' delivery of items and the requester is placed into a queue for delivery.

- ☐ **From 1/14/16:** 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized housing) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods. ***Is the sheriff's office handling these deliveries now?***
- ☐ **From 1/15/16:** 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. **One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police.** 2-1-1 attempted to provide reassurance, but the caller was adamant being removed.

Comment [GC8]: There is no 'delivery list'. All houses will be canvassed. The residents are under no obligation to open the door, nor are they under any obligation to receive relief/supplies from the canvassers.

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

January 19, 2016

Flint Water Emergency Response
Republican Caucus
Remarks for Capt. Chris Kelenske

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Chronology

- Public Health Emergency Declaration issued October 1, 2015
- A Declaration of a State of Emergency issued for the city of Flint on December 14, 2015 by City of Flint Mayor.
- The Board of Commissioners Chairperson of Genesee County declared a local emergency on Jan. 4.
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency
- Governor declared State of Emergency in Flint on Jan. 5
    - State Emergency Operations Center activated in Lansing to coordinate state response.
    - The Joint Information Center (JIC) was activated on January 6.
- Water resource sites were established on Jan. 9.
- Water resource teams began going door-to-door on Jan. 12.
- Governor Snyder issued an Executive Order on Jan. 12 to activate Michigan National Guard.
- Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County on Jan. 14.
- Attorney General Bill Schuette announces investigation into Flint water crisis on Jan. 15.
- On Saturday, Jan. 16, President Obama approved the Governor's request for a federal emergency in Flint.
- On Jan. 18 the American Red Cross and United Way established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits to Flint residents.

Background

- On Saturday, Jan. 16, President Obama approved the Governor's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

    - Under the Stafford Act, resources totaling $5 million can be used for federal emergencies, with a required state match of 25 percent. It's important to note that we shouldn't view this as a $5 million cap on federal assistance, because if the $5 million is exhausted, Congress has the option to approve additional funding.

    - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is reviewing the process for appealing the disaster declaration denial.

    - Mr. David Samaniego, our Federal Coordinating Officer (FCO) from FEMA is on the call and will give an update next.

Current Status/Update

- We are continuing to bring all state resources to bear to protect public health and safety.

- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.

- From Jan. 12 to Jan. 18, over 21,000 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.

    - Water response teams are a collaborative effort comprised of local and state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - There are approximately 70 National Guard members handing out resources at the fire stations in the city.

- From Jan. 12 to Jan. 18, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

- More than 37,300 cases of water
- More than 53,700 water filters
- More than 7,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

  Fire Station #1
  310 East 5th St.
  Flint, MI 48502

  Fire Station #3
  1525 Martin Luther King Ave.
  Flint, MI 48503

  Fire Station #5
  3402 Western Road
  Flint, MI 48506

  Fire Station #6
  716 West Pierson Road
  Flint, MI 48505

  Fire Station #8
  202 East Atherton Road
  Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.

- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters do have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. We are also working to develop an instruction sheet for 211 to walk through with those individuals without internet access.

- Small business owners seeking water filters at the water resource sites should not be turned away.

Resources for homebound individuals

- 2-1-1 is collecting a list of individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- Volunteers and donations are being coordinated through 2-1-1, in cooperation with the American Red Cross.
    - A volunteer reception center has been established for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits to Flint residents.
    - The Volunteer Reception Center is located at the Red Cross office, 1401 S. Grand Traverse St. in Flint.
    - This week, the Volunteer Reception Center hours are:
        - Monday - Friday, 9 a.m. to 7:00 p.m.
        - Saturday, 9 a.m. to 2 p.m.
        - Sunday, 12 p.m. to 5 p.m.

- Persons/organizations wishing to donate 100 cases of water or less can be taken to the American Red Cross located at 1401 S. Grand Traverse in Flint.

- Volunteers can also report to the American Red Cross for processing.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits
    - National Guard personnel will not be going door to door with the water resource teams, at this time.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - First group of National Guard personnel arrived in Flint on Wednesday, January 13 to conduct assessment and get acclimated.
    - 30 more personnel arrived Friday; expansion to approximately 70 personnel by Monday.
    - This is the second time the Governor has activated the National Guard.
        - Last time was for the Duck Lake Fire in Luce County in May 2012.
    - Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
